To whom it may concern,

I ask that you not authorize the rate increase requested by LG&E in case number 2009-00549.

First of all the service is terrible. I have lived in my house in Louisville for three years now and been without power more than six times. On several occasions it was the same transformer, within eye sight of my home, that blew. The knuckle-heads couldn't get it right!! This alone has caused me hundreds of dollars of losses in spoiled food and dead aquariums.

Secondly, because of my employment situation, I was 21 days late on my regular monthly payment, \$124 for this bill, and they shut off my power. This was on November 30, 2009. Pretty damn cold that time of year. No phone call, nothing!

I believe you are charged with protecting the public. Please do so.

Sincerely,

Bryan Egner
