I am filing a complaint against LGE's proposed rate increase. I am a single working female and my utility bill for a one person home, was \$254.00 last month. Every since they came and put some apparatus on ou meters my bill has been outragous. I work, and am not home during the day so there are no utilities utilized during those hours. An increase at this time is nothing but a slap in the face to the people. Have them cut their upper management, we are living in a depression era as it is.
