To whom it may concern:

I am forwarding this letter I submitted to the Courier-Journal on 3-3-10, as I am outraged at your recent proposal to increase usage rates when we should all be more concerned about conservation of gas and electricity. I am a retiree on fixed income, and I have placed great value on energy conservation. Your proposal would not only be unfair, but it would negate any effort to limit the consumption of our precious resources. As I indicated in my letter to the Courier-Journal, I see your proposal as GREED versus CONSERVATION. I would greatly appreciate hearing from you in response to my concern. Thank you.

Sincerely,
Ann Adamek
