To whom it may concern,

For the record, I want to protest the current request of Louisville Gas & Electric to change the way they calculate utility rates and the rate increase for electric service. Ref: case # 2009-00549.

These changes would affect citizens like myself who are on a fixed income. We currently turn down our thermostat, burn wood, wear warm clothing and conserve energy. Should this go through, what would be the incentive to conserve if there is a flat charge. For us two seniors, the flat rate would be unfair.

Thank you,
Gary & Charlotte Vance
