I am an owner of a small business, I have had to "tighten the belt" if you will, beyond compare. I have a huge problem with LG&E spending so much of our money in any economic conditions so recklessly. What is the need to sponsor sporting events, firework shows or the need to tell me how to turn down my thermostat during prime time TV, all the while knowing these numbers will just be added to the increase they are asking for. I'm sure the networks appreciate this revenue and I am also sure this is why none of them will air these concerns. The only hope is the PSC will finally stand up and do what is the right thing to do. Make them show they can run a company efficiently without running to the well and blaming it on a windstorm. Thank You For Your Time
