Subject: your comments in case 2009-00549 - Louisville Gas & Electric Co. rates

Dear Ms. Gonder :

Thank you for your comments regarding the rate increase proposed by Louisville Gas & Electric Co. Your comments will be placed into the case file for the Commission's review as it considers this matter. As you noted, the case number in this matter is 2009-00549. Please cite it in any future correspondence regarding this case so that your comments may be readily directed to the case file.

To answer your questions:

The LG&E commercial rate increase is roughly the same as for residential customers. The application is available online here:

[http://psc.ky.gov/Home/Library?type=Cases&folder=2009 cases/2009-00549](http://psc.ky.gov/Home/Library?type=Cases&folder=2009%20cases/2009-00549)

Trimble County #2 will serve both LG&E and Kentucky Utilities. The costs are apportioned across the two utilities based on the allocation of generating capacity.

Thank you again for your interest.

Subject: Question re LG&E rates
Auto forwarded by a Rule

Every article I've read about the proposed rate increases lists only the residential rate increases. What are the proposed increases for LG&E commercial customers?

3/8/2010

Also, although the article in today's Courier-Journal (3/5) does not specify, I assume that the Trimble County generating plant would serve the entire system. Is that correct?

Thank you.
