Vote No...Deny it....Case Number 2009-00549

This rate increase will cost state government sales tax revenue because we'll all be buying a little less in order to pay LG&E a lot more. Businesses will pass along the increases to consumers who are already strapped for cash.

Instead of raising our rates again...in a recession, tell LG&E to stop spending millions of dollars advertising in print by mail, and on television and radio. Why are they advertising in the first place...it is a monopoly???

The more they charge us, the less money we have for education, food, gasoline, clothing, retirement and housing. The more they raise the rates, the less disposable income we have to put into our economy. LG&E will keep getting fatter while we keep losing our jobs.

Do the right thing.
