It is my understand that LG & E are going to have another rate increase. I want to let you know that we do not feel that this is justified. You keep raising our rates, but our wages do not increase, nor have then been. The

economy is in a pretty bad situation and as far as I am concerned, we believe that raising our rates will only cause more distress to us and to all in our community.

Please reconsider this rate increase. I believe if you look hard enough you will find ways to trim down the cost from your end instead of raising rates upon our end.

Thank you,
Scott and Celia Broughton
