RECEIVED
NOV 23 2010
PUBLIC SERVICE
COMMISSION

Subject: Hillridge Facilities Inc.

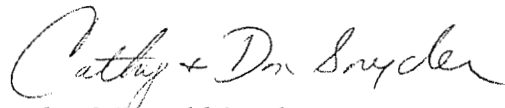

Mr. Derouen,

Please find attached a petition signed by residents served by the Hillridge Waste Treatment plant.

The purpose of this petition is to protest the proposed excessive increase and special assessment applied for by Hillridge Facilities, Inc., and, prior to any increase being approved, that a hearing be held to voice our objections and justifications to this increase.

Please include this with the petitions already received.

Respectfully

Cathy & Donald Snyder
8908 Collingwood Rd.
Louisville, KY 40299

cc; Josh Nacey, Ky Division of Water

We, the undersigned residents of Hillridge Subdivision, want to voice our opinion that the proposed increase submitted by Hillridge Facilities, Inc, is excessive. Between the monthly increase of \$8.37 and the requested surcharge of \$11.19, they are requesting an increase of approximately 81%. We are all aware the price of goods and supplies has increased, but this request is ludicrous. LG&E requested and was granted an increase in January 2010 of 12.1%. LWC's proposed increase in their 2010 budget meeting was 4.5 to 5.5%. MSD had a rate increase this year of 6.5%.

As recently as 2008/09 MSD has tried to purchase the facility. The following is an excerpt from Wave 3 internet post dated November 12, 2008. <http://www.wave3.com/story/9340895/neighborhood-continues-fight-to-have-msd-take-over-sewage-treatment-plant?redirected=true>

WAVE 3 asked Brian Bingham, Regulatory Services Director with MSD, just what the hold up is. "It has always been a priority but there haven't been any active negotiations in recent times," Bingham said. Bingham added that there have been ongoing negotiations to buy out the plant, but they have always broken down over its price tag. "They are a for-profit company and I would assume they do make a profit on it," says Bingham.

A reasonable rate increase may be necessary. This request is beyond the realm of reason. If the owners of this for profit company cannot efficiently run the company at the current rates or a reasonable increase, they should finally sell it to MSD.
