Dear Sir or Madam:

Re: Cumberland Cellular Partnership
Case No. 2010-00018
Proposed Communications Tower
on Tucker Warren Road, Knifley, Adair County, Kentucky

My husband and I recently became aware of a proposed communications tower installation in our rural residential community less than one mile away on what was residential property. The purpose of my letter is to request that the business Cumberland Cellular Partnership **not** receive approval to locate a communications tower situated among numerous residences in our rural community.

My husband and I own land in this area on which our home is located. We are concerned that having a communications tower so close to numerous residences as well as our own will have an adverse effect on the value and safety of property and families located in this community.

Please provide a copy of P.S.C.'s requirements and/or specifications to which Cumberland Cellular Partnership has to comply when requesting approval to install a communications tower in a rural residential community.

Your consideration of this request will be greatly appreciated.

Sincerely,

John and Emily Halsey
