UNBUNDLED PORT/LOOP COMBINATIONS - COST BASED RATES												
Cost Based Rates are applied where BellSouth is required by FCC and/or State Commission rule to provide Unbundled Local Switching or Switch Ports.												
Features shall apply to the Unbundled Port/Loop Combination - Cost Based Rate section in the same manner as they are applied to the Stand-Alone Unbundled Port section of this Rate Exhibit.												
End Office and Tandem Switching Usage and Common Transport Usage rates in the Port section of this rate exhibit shall apply to all combinations of loop/port network elements except for UNE Coin Port/Loop Combinations.												
The first and additional Port nonrecurring charges apply to Not Currently Combined Combos. For Currently Combined Combos the nonrecurring charges shall be those identified in the Nonrecurring - Currently Combined sections.

2. Features shall apply to the Unbundled Port/Loop Combination - Cost Based Rate section in the same manner as they are applied to the Stand-Alone Unbundled Port section of this Rate Exhibit.															
3. End Office and Tandem Switching Usage and Common Transport Usage rates in the Port section of this rate exhibit shall apply to all combinations of loop/port network elements except for UNE Coin Port/Loop Combinations.															
4. The first and additional Port nonrecurring charges apply to Not Currently Combined Combos. For Currently Combined Combos, the nonrecurring charges shall be those identified in the Nonrecurring - Currently Combined sections. Additional NRCs may apply also and are categorized accordingly.															
5. Market Rates for Unbundled Centrex Port/Loop Combination will be negotiated on an Individual Case Basis, until further notice.

The "Zone" shown in the sections for stand-alone loops or loops as part of a combination refers to Geographically Deaveraged UNE Zones. To view Geographically Deaveraged UNE Zone Designations by Central Office, refer to internet Website: http://www.interconnection.bellsouth.com/become_a_clec/html/interconnection.htm																					
OPERATIONAL SUPPORT SYSTEMS (OSS) - "REGIONAL RATES"																					
NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states.																					
NOTE: (2) Any element that can be ordered electronically will be billed according to the SOME C rate listed in this category. Please refer to BellSouth's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOME C rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth.																					
	OSS - Electronic Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOME C		3.50	0.00	3.50	0.00											
	OSS - Manual Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOMAN		11.90	0.00	1.83	0.00											
UNE SERVICE DATE ADVANCEMENT CHARGE																					
NOTE: The Expedite charge will be maintained commensurate with BellSouth's FCC No.1 Tariff, Section 5 as applicable.

LINE SHARING AND LINE SPLITTING															
NOTE 1: The Line Sharing monthly recurring rates for all installations completed from October 02, 2003 through midnight October 01, 2004 shall be billed as follows:															
NOTE 1: 10/02/2003 - 10/01/2004: 25% of the rate for an unbundled copper loop non-designed ("UCLND")															
NOTE 1: 10/02/2004 - 10/01/2005: 50% of the rate for UCLND															
NOTE 1: 10/02/2005 - 10/01/2006: 75% of the rate for UCLND															
NOTE 1: Above will apply to USOCs: ULSDT and ULSCT															
**NOTE 2: The Line Sharing monthly recurring rates with USOCs ULSDC and ULSCC applies only to circuits installed and inservice on or before October 1, 2003

<p>The "Zone" shown in the sections for stand-alone loops or loops as part of a combination refers to Geographically Deaveraged UNE Zones. To view Geographically Deaveraged UNE Zone Designations by Central Office, refer to internet Website: http://www.interconnection.bellsouth.com/become_a_clec/html/interconnection.htm</p>													
<p>OPERATIONAL SUPPORT SYSTEMS (OSS) - "REGIONAL RATES"</p>													
<p>NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states.</p>													
<p>NOTE: (2) Any element that can be ordered electronically will be billed according to the SOME C rate listed in this category. Please refer to BellSouth's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOME C rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth.</p>													
	OSS - Electronic Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOME C	3.50	0.00	3.50	0.00				
	OSS - Manual Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOMAN	11.73	0.00	6.13	0.00				
<p>UNE SERVICE DATE ADVANCEMENT CHARGE</p>													
<p>NOTE: The Expedite charge will be maintained commensurate with BellSouth's FCC No.1 Tariff, Section 5 as applicable.</p>

LINE SHARING AND LINE SPLITTING															
NOTE 1: The Line Sharing monthly recurring rates for all installations completed from October 02, 2003 through midnight October 01, 2004 shall be billed as follows:															
NOTE 1: 10/02/2003 - 10/01/2004: 25% of the rate for an unbundled copper loop non-designed ("UCLND")															
NOTE 1: 10/02/2004 - 10/01/2005: 50% of the rate for UCLND															
NOTE 1: 10/02/2005 - 10/01/2006: 75% of the rate for UCLND															
NOTE 1: Above will apply to USOCs: ULSDT and ULSCT															
**NOTE 2: The Line Sharing monthly recurring rates with USOCs ULSDC and ULSCC applies only to circuits installed and inservice on or before October 1, 2003

1. Cost Based Rates are applied where BellSouth is required by FCC and/or State Commission rule to provide Unbundled Local Switching or Switch Ports.															
2. Features shall apply to the Unbundled Port/Loop Combination - Cost Based Rate section in the same manner as they are applied to the Stand-Alone Unbundled Port section of this Rate Exhibit.															
3. End Office and Tandem Switching Usage and Common Transport Usage rates in the Port section of this rate exhibit shall apply to all combinations of loop/port network elements except for UNE Coin Port/Loop Combinations.															
4. The first and additional Port nonrecurring charges apply to Not Currently Combined Combos. For Currently Combined Combos, the nonrecurring charges shall be those identified in the Nonrecurring - Currently Combined sections. Additional NRCs may apply also and are categorized accordingly.															
5. Market Rates for Unbundled Centrex Port/Loop Combination will be negotiated on an Individual Case Basis, until further notice.

The "Zone" shown in the sections for stand-alone loops or loops as part of a combination refers to Geographically Deaveraged UNE Zones. To view Geographically Deaveraged UNE Zone Designations by Central Office, refer to internet Website: http://www.interconnection.bellsouth.com/become_a_clec/html/interconnection.htm															
OPERATIONAL SUPPORT SYSTEMS (OSS) - "REGIONAL RATES"															
NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states.															
NOTE: (2) Any element that can be ordered electronically will be billed according to the SOME C rate listed in this category. Please refer to BellSouth's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOME C rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth.															
	OSS - Electronic Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOME C		3.50	0.00	3.50	0.00					
	OSS - Manual Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOMAN		7.86	0.00	0.99	0.00					
UNE SERVICE DATE ADVANCEMENT CHARGE															
NOTE: The Expedite charge will be maintained commensurate with BellSouth's FCC No.1 Tariff, Section 5 as applicable.

LINE SHARING AND LINE SPLITTING																				
NOTE 1: The Line Sharing monthly recurring rates for all installations completed from October 02, 2003 through midnight October 01, 2004 shall be billed as follows:																				
NOTE 1: 10/02/2003 - 10/01/2004: 25% of the rate for an unbundled copper loop non-designed ("UCLND")																				
NOTE 1: 10/02/2004 - 10/01/2005: 50% of the rate for UCLND																				
NOTE 1: 10/02/2005 - 10/01/2006: 75% of the rate for UCLND																				
NOTE 1: Above will apply to USOCs: ULSDT and ULSCT																				
**NOTE 2: The Line Sharing monthly recurring rates with USOCs ULSDC and ULSCC applies only to circuits installed and inservice on or before October 1, 2003

The "Zone" shown in the sections for stand-alone loops or loops as part of a combination refers to Geographically Deaveraged UNE Zones. To view Geographically Deaveraged UNE Zone Designations by Central Office, refer to internet Website: http://www.interconnection.bellsouth.com/become_a_clec/html/interconnection.htm															
OPERATIONAL SUPPORT SYSTEMS (OSS) - "REGIONAL RATES"															
NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states.															
NOTE: (2) Any element that can be ordered electronically will be billed according to the SOME C rate listed in this category. Please refer to BellSouth's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOME C rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth.															
	OSS - Electronic Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOME C		3.50	0.00	3.50	0.00					
	OSS - Manual Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOMAN		15.20	0.00	15.20	0.00					
UNE SERVICE DATE ADVANCEMENT CHARGE															
NOTE: The Expedite charge will be maintained commensurate with BellSouth's FCC No.1 Tariff, Section 5 as applicable.

LINE SHARING AND LINE SPLITTING																
NOTE 1: The Line Sharing monthly recurring rates for all installations completed from October 02, 2003 through midnight October 01, 2004 shall be billed as follows:																
NOTE 1: 10/02/2003 - 10/01/2004: 25% of the rate for an unbundled copper loop non-designed ("UCLND")																
NOTE 1: 10/02/2004 - 10/01/2005: 50% of the rate for UCLND																
NOTE 1: 10/02/2005 - 10/01/2006: 75% of the rate for UCLND																
NOTE 1: Above will apply to USOCs: ULSDT and ULSCT																
**NOTE 2: The Line Sharing monthly recurring rates with USOCs ULSDC and ULSCC applies only to circuits installed and inservice on or before October 1, 2003

UNBUNDLED CENTREX PORT/LOOP COMBINATIONS - COST BASED RATES															
1. Cost Based Rates are applied where BellSouth is required by FCC and/or State Commission rule to provide Unbundled Local Switching or Switch Ports.															
2. Features shall apply to the Unbundled Port/Loop Combination - Cost Based Rate section in the same manner as they are applied to the Stand-Alone Unbundled Port section of this Rate Exhibit.															
3. End Office and Tandem Switching Usage and Common Transport Usage rates in the Port section of this rate exhibit shall apply to all combinations of loop/port network elements except for UNE Coin Port/Loop Combinations.															
4. The first and additional Port nonrecurring charges apply to Not Currently Combined Combos. For Currently Combined Combos, the nonrecurring charges shall be those identified in the Nonrecurring - Currently Combined sections. Additional NRCs may apply also and are categorized accordingly.															
5. Market Rates for Unbundled Centrex Port/Loop Combination will be negotiated on an Individual Case Basis, until further notice.

<p>The "Zone" shown in the sections for stand-alone loops or loops as part of a combination refers to Geographically Deaveraged UNE Zones. To view Geographically Deaveraged UNE Zone Designations by Central Office, refer to internet Website: http://www.interconnection.bellsouth.com/become_a_clec/html/interconnection.htm</p>															
OPERATIONAL SUPPORT SYSTEMS (OSS) - "REGIONAL RATES"															
<p>NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states.</p>															
<p>NOTE: (2) Any element that can be ordered electronically will be billed according to the SOME C rate listed in this category. Please refer to BellSouth's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOME C rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth.</p>															
	OSS - Electronic Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOME C		3.50	0.00	3.50	0.00					
	OSS - Manual Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOMAN		15.75	0.00	1.97	0.00					
UNE SERVICE DATE ADVANCEMENT CHARGE															
NOTE: The Expedite charge will be maintained commensurate with BellSouth's FCC No.1 Tariff, Section 5 as applicable.

LINE SHARING AND LINE SPLITTING															
NOTE 1: The Line Sharing monthly recurring rates for all installations completed from October 02, 2003 through midnight October 01, 2004 shall be billed as follows:															
NOTE 1: 10/02/2003 - 10/01/2004: 25% of the rate for an unbundled copper loop non-designed ("UCLND")															
NOTE 1: 10/02/2004 - 10/01/2005: 50% of the rate for UCLND															
NOTE 1: 10/02/2005 - 10/01/2006: 75% of the rate for UCLND															
NOTE 1: Above will apply to USOCs: ULSDT and ULSCT															
**NOTE 2: The Line Sharing monthly recurring rates with USOCs ULSDC and ULSCC applies only to circuits installed and inservice on or before October 1, 2003

UNBUNDLED CENTREX PORT/LOOP COMBINATIONS - COST BASED RATES															
1. Cost Based Rates are applied where BellSouth is required by FCC and/or State Commission rule to provide Unbundled Local Switching or Switch Ports.															
2. Features shall apply to the Unbundled Port/Loop Combination - Cost Based Rate section in the same manner as they are applied to the Stand-Alone Unbundled Port section of this Rate Exhibit.															
3. End Office and Tandem Switching Usage and Common Transport Usage rates in the Port section of this rate exhibit shall apply to all combinations of loop/port network elements except for UNE Coin Port/Loop Combinations.															
4. The first and additional Port nonrecurring charges apply to Not Currently Combined Combos. For Currently Combined Combos, the nonrecurring charges shall be those identified in the Nonrecurring - Currently Combined sections. Additional NRCs may apply also and are categorized accordingly.															
5. Market Rates for Unbundled Centrex Port/Loop Combination will be negotiated on an Individual Case Basis, until further notice.

The "Zone" shown in the sections for stand-alone loops or loops as part of a combination refers to Geographically Deaveraged UNE Zones. To view Geographically Deaveraged UNE Zone Designations by Central Office, refer to internet Website: http://www.interconnection.bellsouth.com/become_a_clec/html/interconnection.htm															
OPERATIONAL SUPPORT SYSTEMS (OSS) - "REGIONAL RATES"															
NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states.															
NOTE: (2) Any element that can be ordered electronically will be billed according to the SOME C rate listed in this category. Please refer to BellSouth's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOME C rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth.															
NOTE: (3) OSS - Manual Service Order Charge, Per Element - UNE Only **Please see applicable rate element for SOMAN charge**															
	OSS - Electronic Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOME C		3.50	0.00	3.50	0.00					
UNE SERVICE DATE ADVANCEMENT CHARGE															
NOTE: The Expedite charge will be maintained commensurate with BellSouth's FCC No.1 Tariff, Section 5 as applicable.

LINE SHARING AND LINE SPLITTING															
NOTE 1: The Line Sharing monthly recurring rates for all installations completed from October 02, 2003 through midnight October 01, 2004 shall be billed as follows:															
NOTE 1: 10/02/2003 - 10/01/2004: 25% of the rate for an unbundled copper loop non-designed ("UCLND")															
NOTE 1: 10/02/2004 - 10/01/2005: 50% of the rate for UCLND															
NOTE 1: 10/02/2005 - 10/01/2006: 75% of the rate for UCLND															
NOTE 1: Above will apply to USOCs: ULSDT and ULSCT															
**NOTE 2: The Line Sharing monthly recurring rates with USOCs ULSDC and ULSCC applies only to circuits installed and inservice on or before October 1, 2003

4-WIRE DS1 LOOP WITH CHANNELIZATION WITH PORT																
System is 1 DS1 Loop, 1 D4 Channel Bank, and up to 24 Feature Activations																
Each System can have up to 24 combinations of rates depending on type and number of ports used																
The UNE-P DS1 combination rates below for 4-Wire DS1 Loop with Channelization with Port in this rate exhibit apply to the embedded base in place as of 10/2/03 until 4/1/04. After 4/1/04 these rates shall revert to tariff rates or a separate agreement.																
Requests for 4-Wire DS1 Loop with Channelization with Port after the effective date of this amendment shall be provided pursuant to a separate agreement or tariff at BellSouth's discretion.																
UNE DS1 Loop

UNBUNDLED CENTREX PORT/LOOP COMBINATIONS - COST BASED RATES															
1. Cost Based Rates are applied where BellSouth is required by FCC and/or State Commission rule to provide Unbundled Local Switching or Switch Ports.															
2. Features shall apply to the Unbundled Port/Loop Combination - Cost Based Rate section in the same manner as they are applied to the Stand-Alone Unbundled Port section of this Rate Exhibit.															
3. End Office and Tandem Switching Usage and Common Transport Usage rates in the Port section of this rate exhibit shall apply to all combinations of loop/port network elements except for UNE Coin Port/Loop Combinations.															
4. The first and additional Port nonrecurring charges apply to Not Currently Combined Combos. For Currently Combined Combos, the nonrecurring charges shall be those identified in the Nonrecurring - Currently Combined sections. Additional NRCs may apply also and are categorized accordingly.															
5. Market Rates for Unbundled Centrex Port/Loop Combination will be negotiated on an Individual Case Basis, until further notice.

<p>The "Zone" shown in the sections for stand-alone loops or loops as part of a combination refers to Geographically Deaveraged UNE Zones. To view Geographically Deaveraged UNE Zone Designations by Central Office, refer to internet Website: http://www.interconnection.bellsouth.com/become_a_clec/html/interconnection.htm</p>															
OPERATIONAL SUPPORT SYSTEMS (OSS) - "REGIONAL RATES"															
<p>NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states.</p>															
<p>NOTE: (2) Any element that can be ordered electronically will be billed according to the SOME C rate listed in this category. Please refer to BellSouth's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOME C rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth.</p>															
	OSS - Electronic Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOME C		3.50	0.00	3.50	0.00					
	OSS - Manual Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOMAN		15.69	0.00	1.97	0.00					
UNE SERVICE DATE ADVANCEMENT CHARGE															
NOTE: The Expedite charge will be maintained commensurate with BellSouth's FCC No.1 Tariff, Section 5 as applicable.

LINE SHARING AND LINE SPLITTING															
NOTE 1: The Line Sharing monthly recurring rates for all installations completed from October 02, 2003 through midnight October 01, 2004 shall be billed as follows:															
NOTE 1: 10/02/2003 - 10/01/2004: 25% of the rate for an unbundled copper loop non-designed ("UCLND")															
NOTE 1: 10/02/2004 - 10/01/2005: 50% of the rate for UCLND															
NOTE 1: 10/02/2005 - 10/01/2006: 75% of the rate for UCLND															
NOTE 1: Above will apply to USOCs: ULSDT and ULSCT															
**NOTE 2: The Line Sharing monthly recurring rates with USOCs ULSDC and ULSCC applies only to circuits installed and inservice on or before October 1, 2003

UNBUNDLED CENTREX PORT/LOOP COMBINATIONS - COST BASED RATES															
1. Cost Based Rates are applied where BellSouth is required by FCC and/or State Commission rule to provide Unbundled Local Switching or Switch Ports.															
2. Features shall apply to the Unbundled Port/Loop Combination - Cost Based Rate section in the same manner as they are applied to the Stand-Alone Unbundled Port section of this Rate Exhibit.															
3. End Office and Tandem Switching Usage and Common Transport Usage rates in the Port section of this rate exhibit shall apply to all combinations of loop/port network elements except for UNE Coin Port/Loop Combinations.															
4. The first and additional Port nonrecurring charges apply to Not Currently Combined Combos. For Currently Combined Combos, the nonrecurring charges shall be those identified in the Nonrecurring - Currently Combined sections. Additional NRCs may apply also and are categorized accordingly.															
5. Market Rates for Unbundled Centrex Port/Loop Combination will be negotiated on an Individual Case Basis, until further notice.

<p>The "Zone" shown in the sections for stand-alone loops or loops as part of a combination refers to Geographically Deaveraged UNE Zones. To view Geographically Deaveraged UNE Zone Designations by Central Office, refer to internet Website: http://www.interconnection.bellsouth.com/become_a_clec/html/interconnection.htm</p>																
OPERATIONAL SUPPORT SYSTEMS (OSS) - "REGIONAL RATES"																
<p>NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states.</p>																
<p>NOTE: (2) Any element that can be ordered electronically will be billed according to the SOME C rate listed in this category. Please refer to BellSouth's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOME C rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth.</p>																
<p>NOTE: (3) OSS - Manual Service Order Charge, Per Element - UNE Only **Please see applicable rate element for SOMAN charge**</p>																
<p>OSS - Electronic Service Order Charge, Per Local Service Request (LSR) - UNE Only</p>																
						SOME C	3.50	0.00	3.50	0.00

LINE SHARING AND LINE SPLITTING															
NOTE 1: The Line Sharing monthly recurring rates for all installations completed from October 02, 2003 through midnight October 01, 2004 shall be billed as follows:															
NOTE 1: 10/02/2003 - 10/01/2004: 25% of the rate for an unbundled copper loop non-designed ("UCLND")															
NOTE 1: 10/02/2004 - 10/01/2005: 50% of the rate for UCLND															
NOTE 1: 10/02/2005 - 10/01/2006: 75% of the rate for UCLND															
NOTE 1: Above will apply to USOCs: ULSDT and ULSCT															
**NOTE 2: The Line Sharing monthly recurring rates with USOCs ULSDC and ULSCC applies only to circuits installed and inservice on or before October 1, 2003

UNBUNDLED CENTREX PORT/LOOP COMBINATIONS - COST BASED RATES										SOMEc	SOMAN	SOMAN	SOMAN	SOMAN	SOMAN
<p>1. Cost Based Rates are applied where BellSouth is required by FCC and/or State Commission rule to provide Unbundled Local Switching or Switch Ports.</p> <p>2. Features shall apply to the Unbundled Port/Loop Combination - Cost Based Rate section in the same manner as they are applied to the Stand-Alone Unbundled Port section of this Rate Exhibit.</p> <p>3. End Office and Tandem Switching Usage and Common Transport Usage rates in the Port section of this rate exhibit shall apply to all combinations of loop/port network elements except for UNE Coin Port/Loop Combinations.</p> <p>4. The first and additional Port nonrecurring charges apply to Not Currently Combined Combos. For Currently Combined Combos, the nonrecurring charges shall be those identified in the Nonrecurring - Currently Combined sections. Additional NRCs may apply also and are categorized accordingly.</p> <p>5. Market Rates for Unbundled Centrex Port/Loop Combination will be negotiated on an Individual Case Basis, until further notice.</p>

- 3. **MISCELLANEOUS 5**

PRE-ORDERING, ORDERING, PROVISIONING, MAINTENANCE AND REPAIR

1. QUALITY OF PRE-ORDERING, ORDERING, PROVISIONING, MAINTENANCE AND REPAIR

- 1.1 BellSouth shall provide to DPI Teleconnect nondiscriminatory access to its Operations Support Systems (OSS) and the necessary information contained therein in order that DPI Teleconnect can perform the functions of pre-ordering, ordering, provisioning, maintenance and repair, and billing.. BellSouth shall provide DPI Teleconnect with all relevant documentation (manuals, user guides, specifications, etc.) regarding business rules and other formatting information as well as practices and procedures necessary to ensure requests are efficiently processed. All documentation will be readily accessible at BellSouth's interconnection website and are incorporated herein by reference. BellSouth shall ensure that its OSS are designed to accommodate access requests for both current and projected demand of DPI Teleconnect and other CLECs in the aggregate.
- 1.2 BellSouth shall provision services during its regular working hours. To the extent DPI Teleconnect requests provisioning of service to be performed outside BellSouth's regular working hours, or the work so requested requires BellSouth's technicians or project manager to work outside of regular working hours, overtime charges shall apply. Notwithstanding the foregoing, if such work is performed outside of regular working hours by a BellSouth technician or project manager during his or her scheduled shift and BellSouth does not incur any overtime charges in performing the work on behalf of DPI Teleconnect, BellSouth will not assess DPI Teleconnect additional charges beyond the rates and charges specified in this Agreement.

2. ACCESS TO OPERATIONS SUPPORT SYSTEMS

- 2.1 BellSouth shall provide DPI Teleconnect nondiscriminatory access to its OSS and the necessary information contained therein in order that DPI Teleconnect can perform the functions of pre-ordering, ordering, provisioning, maintenance and repair, and billing. BellSouth shall provide nondiscriminatory access to the OSS through manual and/or electronic interfaces as described in this Attachment. It is the sole responsibility of DPI Teleconnect to obtain the technical capability to access and utilize BellSouth's OSS interfaces. Specifications for DPI Teleconnect's access and use of BellSouth's electronic interfaces are set forth at BellSouth's interconnection website and are incorporated herein by reference.
- 2.1.1 Pre-Ordering. BellSouth will provide electronic access to its OSS and the information contained therein in order that DPI Teleconnect can perform the following pre-ordering functions: service address validation, telephone number selection, service and feature availability, due date information, customer record

information and loop makeup information. Mechanized access is provided by electronic interfaces whose specifications for access and use are set forth at BellSouth's interconnection website and are incorporated herein by reference. The process by which BellSouth and DPI Teleconnect will manage these electronic interfaces to include the development and introduction of new interfaces will be governed by the change management process as described below. DPI Teleconnect shall provide to BellSouth access to customer record information, including circuit numbers associated with each telephone number where applicable. DPI Teleconnect shall provide such information within four (4) hours after request via electronic access where available. If electronic access is not available, DPI Teleconnect shall provide to BellSouth paper copies of customer record information, including circuit numbers associated with each telephone number where applicable. If BellSouth requests the information before noon, the customer record information shall be provided the same day. If BellSouth requests the information after noon, the customer record information shall be provided by noon the following day.

- 2.1.2 The Parties agree not to view, copy, or otherwise obtain access to the customer record information of any customer without that customer's permission. DPI Teleconnect will obtain access to customer record information only in strict compliance with applicable laws, rules, or regulations of the state in which the service is provided. BellSouth reserves the right to audit DPI Teleconnect's access to customer record information. If a BellSouth audit of DPI Teleconnect's access to customer record information reveals that DPI Teleconnect is accessing customer record information without having obtained the proper End User authorization, BellSouth upon reasonable notice to DPI Teleconnect may take corrective action, including but not limited to suspending or terminating DPI Teleconnect's electronic access to BellSouth's OSS functionality. All such information obtained through an audit shall be deemed Information covered by the Proprietary and Confidential Information section in the General Terms and Conditions of this Agreement.
- 2.1.3 Ordering. BellSouth will make available to DPI Teleconnect electronic interfaces for the purpose of exchanging order information, including order status and completion notification, for non-complex and certain complex resale requests and certain network elements. Specifications for access and use of BellSouth's electronic interfaces are set forth at BellSouth's interconnection website and are incorporated herein by reference. The process by which BellSouth and DPI Teleconnect will manage these electronic interfaces to include the development and introduction of new interfaces will be governed by the change management process as described below.
- 2.1.4 Maintenance and Repair. BellSouth will make available to DPI Teleconnect electronic interfaces for the purpose of reporting and monitoring service troubles. Specifications for access and use of BellSouth's maintenance and repair electronic interfaces are set forth at BellSouth's interconnection website and are incorporated herein by reference. The process by which BellSouth and DPI Teleconnect will

manage these electronic interfaces to include the development and introduction of new interfaces will be governed by the change management process as described below. Requests for trouble repair are billed in accordance with the provisions of this Agreement. BellSouth and DPI Teleconnect agree to adhere to BellSouth's Operational Understanding, as amended from time to time during this Agreement and as incorporated herein by reference. The Operational Understanding may be accessed via BellSouth's interconnection website.

- 2.1.5 Billing. BellSouth will provide DPI Teleconnect nondiscriminatory access to billing information as specified in Attachment 7 to this Agreement.
- 2.2 Change Management. BellSouth and DPI Teleconnect agree that the collaborative change management process known as the Change Control Process (CCP) will be used to manage changes to existing interfaces, introduction of new interfaces and retirement of interfaces. BellSouth and DPI Teleconnect agree to comply with the provisions of the documented Change Control Process as may be amended from time to time and incorporated herein by reference. The change management process will cover changes to BellSouth's electronic interfaces, BellSouth's testing environment, associated manual process improvements, and relevant documentation. The process will define a procedure for resolution of change management disputes. Documentation of the CCP as well as related information and processes will be clearly organized and readily accessible to DPI Teleconnect at BellSouth's interconnection website.
- 2.3 Rates. Charges for use of OSS shall be as set forth in this Agreement.
- 3. MISCELLANEOUS**
- 3.1 Pending Orders. Orders placed in the hold or pending status by DPI Teleconnect will be held for a maximum of thirty (30) calendar days from the date the order is placed on hold. After such time, DPI Teleconnect shall be required to submit a new service request. Incorrect or invalid requests returned to DPI Teleconnect for correction or clarification will be held for thirty (30) calendar days. If DPI Teleconnect does not return a corrected request within thirty (30) calendar days, BellSouth will cancel the request.
- 3.2 Single Point of Contact. DPI Teleconnect will be the single point of contact with BellSouth for ordering activity for network elements and other services used by DPI Teleconnect to provide services to its End Users, except that BellSouth may accept a request directly from another CLEC, or BellSouth, acting with authorization of the affected End User. DPI Teleconnect and BellSouth shall each execute a blanket letter of authorization with respect to customer requests so that prior proof of End User authorization will not be necessary with every request (except in the case of a local service freeze). The Parties shall each be entitled to adopt their own internal processes for verification of customer authorization for requests, provided, however, that such processes shall comply with applicable state and federal law and industry and regulatory guidelines. Pursuant to a request from

another carrier, BellSouth may disconnect any network element being used by DPI Teleconnect to provide service to that End User and may reuse such network elements or facilities to enable such other carrier to provide service to the End User. BellSouth will notify DPI Teleconnect that such a request has been processed but will not be required to notify DPI Teleconnect in advance of such processing.

- 3.2.1 Neither BellSouth nor DPI Teleconnect shall prevent or delay an End User from migrating to another carrier because of unpaid bills, denied service, or contract terms.
- 3.2.2 BellSouth shall return a Firm Order Confirmation (FOC) and Local Service Request (LSR) rejection/clarification within the intervals in accordance with the Service Quality Measurement (SQM) set forth in Attachment 9 of this Agreement.
- 3.2.3 DPI Teleconnect shall return a FOC to BellSouth within thirty-six (36) hours after DPI Teleconnect's receipt from BellSouth of a valid LSR.
- 3.2.4 DPI Teleconnect shall provide a Reject Response to BellSouth within twenty-four (24) hours after BellSouth's submission of an LSR which is incomplete or incorrectly formatted.
- 3.3 Use of Facilities. When a customer of DPI Teleconnect elects to discontinue service and to transfer service to another local exchange carrier, including BellSouth, BellSouth shall have the right to reuse the facilities provided to DPI Teleconnect by BellSouth. In addition, where BellSouth provides local switching, BellSouth may disconnect and reuse facilities when the facility is in a denied state and BellSouth has received a request to establish new service or transfer of service from a customer or a customer's CLEC at the same address served by the denied facility. BellSouth will notify DPI Teleconnect that such a request has been processed after the disconnect order has been completed.
- 3.4 Contact Numbers. The Parties agree to provide one another with toll-free nationwide (50 states) contact numbers for the purpose of ordering, provisioning and maintenance of services.
- 3.5 Subscription Functions. In cases where BellSouth performs subscription functions for an interexchange carrier (IXC) (i.e. PIC and LPIC changes via Customer Account Record Exchange (CARE)), BellSouth will in all possible instances provide the affected IXCs with the Operating Company Number (OCN) of the local provider for the purpose of obtaining End User billing account and other End User information required under subscription requirements.
- 3.5.1 When DPI Teleconnect's End User, served by resale or loop and port combinations, changes its PIC or LPIC, and per BellSouth's FCC or state tariff the interexchange carrier elects to charge the End User the PIC or LPIC change charge, BellSouth will bill the PIC or LPIC change charge to DPI Teleconnect,

which has the billing relationship with that End User, and DPI Teleconnect may pass such charge to the End User.

- 3.6 Cancellation Charges. If DPI Teleconnect cancels a request for network elements or resold services, any costs incurred by BellSouth in conjunction with the provisioning of that request will be recovered in accordance with BellSouth's Private Line Tariff or BellSouth's FCC No. 1 Tariff, Section 5.4, as applicable. Notwithstanding the foregoing, if DPI Teleconnect places an LSR based upon BellSouth's loop makeup information, and such information is inaccurate resulting in the inability of BellSouth to provision the network elements requested and another spare compatible facility cannot be found with the transmission characteristics of the network elements originally requested, cancellation charges described in this Section shall not apply. Where DPI Teleconnect places a single LSR for multiple network elements or services based upon loop makeup information, and information as to some, but not all, of the network elements or services is inaccurate, if BellSouth cannot provision the network elements or services that were the subject of the inaccurate loop makeup information, DPI Teleconnect may cancel its request for those network elements or services without incurring cancellation charges as described in this Section. In such instance, should DPI Teleconnect elect to cancel the entire LSR, cancellation charges as described in this Section shall apply to those elements and services that were not the subject of inaccurate loop makeup.
- 3.7 Service Date Advancement Charges (a.k.a. Expedites). For Service Date Advancement requests by DPI Teleconnect, Service Date Advancement charges will apply for intervals less than the standard interval as outlined in the BellSouth Product and Services Interval Guide. The charges as outlined in BellSouth's FCC No. 1 Tariff, Section 5, will apply as applicable.

**Amendment
To the
Interconnection Agreement
Between
DPI-Teleconnect, LLC
and
BellSouth Telecommunications, Inc.
Dated April 19, 2003**

Pursuant to this Amendment, (the "Amendment"), DPI-Teleconnect, LLC (DPI-Teleconnect), and BellSouth Telecommunications, Inc. ("BellSouth"), hereinafter referred to collectively as the "Parties," hereby agree to amend that certain Interconnection Agreement between the Parties dated April 19, 2003 ("Agreement") to be effective the date of the last signature executing this Amendment.

WHEREAS, BellSouth and DPI-Teleconnect entered into the Agreement on April 19, 2003, and;

WHEREAS, BellSouth and DPI-Teleconnect are amending the Agreement to modify Local Number Portability (LNP) recovery charge pursuant to the Order in the matter of the Telephone Number Portability BellSouth Corporation Petition for Declaratory Ruling and/or Waiver, CC Docket No. 95-116, released April 13, 2004;

NOW, THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. The Parties agree to delete in their entirety all rate elements and USOCs identified as "Local Number Portability charges" in Exhibit A of Attachment 2, as specified by the following USOCs: LNPCX, LNPCP, LNPCN, and LNPCC.
2. The Parties agree to add the following language to Section 4 as Section 4.1.1 of Attachment 2 and Section 5 as Section 5.4.5 of Attachment 2:
 - In addition to other charges specified in this Agreement for Local Number Portability DPI-Teleconnect shall pay to BellSouth the Local Number Portability charges as set forth in Section 13 of the BellSouth FCC No. 1 Tariff;
3. All of the other provisions of the Agreement dated April 19, 2003 shall remain unchanged and in full force and effect.
4. Either or both of the Parties are authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties have executed this Agreement the day and year written below.

BellSouth Telecommunications, Inc.

**Amendment to the Agreement
Between
DPI-Teleconnect, LLC
and
BellSouth Telecommunications, Inc.
Dated March 19, 2003**

Pursuant to this Amendment, (the “Amendment”), DPI-Teleconnect, LLC (“DPI-Teleconnect”), and BellSouth Telecommunications, Inc. (“BellSouth”), hereinafter referred to collectively as the “Parties,” hereby agree to amend that certain Interconnection Agreement between the Parties dated March 19, 2003 (“Agreement”) to be effective January 1, 2005 (“Effective Date”).

WHEREAS, the Parties desire to amend the Agreement in order to modify Attachment 2 to delete all switching requirements and to provide for limited line splitting and line sharing obligations on behalf of BellSouth;

NOW, THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. The rates, terms and conditions for section 3.7 through 3.10.3 of Attachment 2 of this Agreement shall be deleted and replaced with the following language:

- | | |
|-------|---|
| 3.7 | Line Splitting |
| 3.7.1 | <u>Line Splitting.</u> Line Splitting shall mean that a provider of data services (a Data LEC) and a provider of voice services (a Voice CLEC) deliver voice and data service to End Users over the same Loop. The Voice CLEC and Data LEC may be the same or different carriers. |
| 3.7.2 | DPI-Teleconnect may engage in line splitting arrangements with another CLEC using a splitter, provided by DPI-Teleconnect or a third party, in a Collocation Space at the central office, where the Loop terminates into a distribution frame or its equivalent. |
| 3.7.3 | <u>Maintenance – Line Splitting.</u> BellSouth will be responsible for repairing troubles with the physical Loop between the NID at the End User’s premises and the termination point. |
| 3.7.4 | DPI-Teleconnect shall indemnify, defend and hold harmless BellSouth from and against any claims, losses, actions, causes of action, suits, demands, damages, injury, |

and costs including reasonable attorney fees, which arise out of actions related to the other service provider, except to the extent caused by BellSouth's gross negligence or willful misconduct.

2. The following sections from Attachment 2 of this Agreement are hereby deleted: section 4 in its entirety; sections 5.3 – 5.3.5; sections 7, 8, and 9 in their entirety; sections 10 – 10.5.3.3; and sections 12 and 13 in their entirety.
3. Delete Exhibit A of Attachment 2 in its entirety and replace with Exhibit 1 attached hereto.
4. The following sections from Attachment 7 of this Agreement are hereby deleted: section 3, section 4, section 5, and section 6 in their entirety.
5. Delete Exhibit A of Attachment 7 in its entirety.
6. Notwithstanding any reference to switching in this Agreement, BellSouth shall not be obligated to provide switching pursuant to this Agreement.
7. All of the other provisions of the Agreement, dated March 19, 2003, shall remain in full force and effect.
8. Either or both of the Parties are authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

<p>The "Zone" shown in the sections for stand-alone loops or loops as part of a combination refers to Geographically Deaveraged UNE Zones. To view Geographically Deaveraged UNE Zone Designations by Central Office, refer to internet Website: http://www.interconnection.bellsouth.com/become_a_clec/html/interconnection.htm</p>															
OPERATIONAL SUPPORT SYSTEMS (OSS) - "REGIONAL RATES"															
<p>NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states.</p> <p>NOTE: (2) Any element that can be ordered electronically will be billed according to the SOME C rate listed in this category. Please refer to BellSouth's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOME C rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth.</p>															
	OSS - Electronic Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOME C		3.50	0.00	3.50	0.00					
	OSS - Manual Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOMAN		15.66	0.00	1.97	0.00					
UNE SERVICE DATE ADVANCEMENT CHARGE															
NOTE: The Expedite charge will be maintained commensurate with BellSouth's FCC No.1 Tariff, Section 5 as applicable.

LINE SHARING AND LINE SPLITTING													
NOTE 1: The Line Sharing monthly recurring rates for all installations completed from October 02, 2003 through midnight October 01, 2004 shall be billed as follows:													
NOTE 1: 10/02/2003 – 10/01/2004: 25% of the rate for an unbundled copper loop non-designed ("UCLND")													
NOTE 1: 10/02/2004 – 10/01/2005: 50% of the rate for UCLND													
NOTE 1: 10/02/2005 – 10/01/2006: 75% of the rate for UCLND													
NOTE 1: Above will apply to USOCs: ULSDT and ULSC													
**NOTE 2: The Line Sharing monthly recurring rates with USOCs ULSDC and ULSCC applies only to circuits installed and inservice on or before October 1, 2003

<p>The "Zone" shown in the sections for stand-alone loops or loops as part of a combination refers to Geographically Deaveraged UNE Zones. To view Geographically Deaveraged UNE Zone Designations by Central Office, refer to internet Website: http://www.interconnection.bellsouth.com/become_a_clec/html/interconnection.htm</p>																				
<p>OPERATIONAL SUPPORT SYSTEMS (OSS) - "REGIONAL RATES"</p>																				
<p>NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states.</p>																				
<p>NOTE: (2) Any element that can be ordered electronically will be billed according to the SOMEc rate listed in this category. Please refer to BellSouth's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOMEc rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth.</p>																				
	OSS - Electronic Service Order Charge, Per Local Service Request (LSR) - UNE Only					SOMEc		3.50	0.00	3.50	0.00									
	OSS - Manual Service Order Charge, Per Local Service Request (LSR) - UNE Only					SOMAN		11.90	0.00	1.83	0.00									
<p>UNE SERVICE DATE ADVANCEMENT CHARGE</p>																				
<p>NOTE: The Expedite charge will be maintained commensurate with BellSouth's FCC No.1 Tariff, Section 5 as applicable.</p>																				
	UNE Expedite Charge per Circuit or Line Assignable USOC, per Day					SDASP		200.00

LINE SHARING AND LINE SPLITTING																
NOTE 1: The Line Sharing monthly recurring rates for all installations completed from October 02, 2003 through midnight October 01, 2004 shall be billed as follows:																
NOTE 1: 10/02/2003 – 10/01/2004: 25% of the rate for an unbundled copper loop non-designed ("UCLND")																
NOTE 1: 10/02/2004 – 10/01/2005: 50% of the rate for UCLND																
NOTE 1: 10/02/2005 – 10/01/2006: 75% of the rate for UCLND																
NOTE 1: Above will apply to USOCs: ULSDT and ULSC																
**NOTE 2: The Line Sharing monthly recurring rates with USOCs ULSDC and ULSCC applies only to circuits installed and inservice on or before October 1, 2003

<p>The "Zone" shown in the sections for stand-alone loops or loops as part of a combination refers to Geographically Deaveraged UNE Zones. To view Geographically Deaveraged UNE Zone Designations by Central Office, refer to internet Website: http://www.interconnection.bellsouth.com/become_a_clec/html/interconnection.htm</p>															
OPERATIONAL SUPPORT SYSTEMS (OSS) - "REGIONAL RATES"															
<p>NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states.</p>															
<p>NOTE: (2) Any element that can be ordered electronically will be billed according to the SOME C rate listed in this category. Please refer to BellSouth's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOME C rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth.</p>															
	OSS - Electronic Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOME C		3.50	0.00	3.50	0.00					
	OSS - Manual Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOMAN		11.73	0.00	6.13	0.00					
UNE SERVICE DATE ADVANCEMENT CHARGE															
NOTE: The Expedite charge will be maintained commensurate with BellSouth's FCC No.1 Tariff, Section 5 as applicable.

LINE SHARING AND LINE SPLITTING																
NOTE 1: The Line Sharing monthly recurring rates for all installations completed from October 02, 2003 through midnight October 01, 2004 shall be billed as follows:																
NOTE 1: 10/02/2003 – 10/01/2004: 25% of the rate for an unbundled copper loop non-designed ("UCLND")																
NOTE 1: 10/02/2004 – 10/01/2005: 50% of the rate for UCLND																
NOTE 1: 10/02/2005 – 10/01/2006: 75% of the rate for UCLND																
NOTE 1: Above will apply to USOCs: ULSDT and ULSC																
**NOTE 2: The Line Sharing monthly recurring rates with USOCs ULSDC and ULSCC applies only to circuits installed and inservice on or before October 1, 2003

<p>The "Zone" shown in the sections for stand-alone loops or loops as part of a combination refers to Geographically Deaveraged UNE Zones. To view Geographically Deaveraged UNE Zone Designations by Central Office, refer to internet Website: http://www.interconnection.bellsouth.com/become_a_clec/html/interconnection.htm</p>															
OPERATIONAL SUPPORT SYSTEMS (OSS) - "REGIONAL RATES"															
<p>NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states.</p> <p>NOTE: (2) Any element that can be ordered electronically will be billed according to the SOME C rate listed in this category. Please refer to BellSouth's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOME C rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth.</p>															
	OSS - Electronic Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOME C		3.50	0.00	3.50	0.00					
	OSS - Manual Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOMAN		7.86	0.00	0.99	0.00					
UNE SERVICE DATE ADVANCEMENT CHARGE															
NOTE: The Expedite charge will be maintained commensurate with BellSouth's FCC No.1 Tariff, Section 5 as applicable.

LINE SHARING AND LINE SPLITTING												
NOTE 1: The Line Sharing monthly recurring rates for all installations completed from October 02, 2003 through midnight October 01, 2004 shall be billed as follows:												
NOTE 1: 10/02/2003 – 10/01/2004: 25% of the rate for an unbundled copper loop non-designed ("UCLND")												
NOTE 1: 10/02/2004 – 10/01/2005: 50% of the rate for UCLND												
NOTE 1: 10/02/2005 – 10/01/2006: 75% of the rate for UCLND												
NOTE 1: Above will apply to USOCs: ULSDT and ULSC												
**NOTE 2: The Line Sharing monthly recurring rates with USOCs ULSDC and ULSCC applies only to circuits installed and inservice on or before October 1, 2003

<p>The "Zone" shown in the sections for stand-alone loops or loops as part of a combination refers to Geographically Deaveraged UNE Zones. To view Geographically Deaveraged UNE Zone Designations by Central Office, refer to internet Website: http://www.interconnection.bellsouth.com/become_a_clec/html/interconnection.htm</p>															
OPERATIONAL SUPPORT SYSTEMS (OSS) - "REGIONAL RATES"															
<p>NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states.</p> <p>NOTE: (2) Any element that can be ordered electronically will be billed according to the SOME C rate listed in this category. Please refer to BellSouth's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOME C rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth.</p>															
	OSS - Electronic Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOME C		3.50	0.00	3.50	0.00					
	OSS - Manual Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOMAN		15.20	0.00	15.20	0.00					
UNE SERVICE DATE ADVANCEMENT CHARGE															
NOTE: The Expedite charge will be maintained commensurate with BellSouth's FCC No.1 Tariff, Section 5 as applicable.

LINE SHARING AND LINE SPLITTING																
NOTE 1: The Line Sharing monthly recurring rates for all installations completed from October 02, 2003 through midnight October 01, 2004 shall be billed as follows:																
NOTE 1: 10/02/2003 – 10/01/2004: 25% of the rate for an unbundled copper loop non-designed ("UCLND")																
NOTE 1: 10/02/2004 – 10/01/2005: 50% of the rate for UCLND																
NOTE 1: 10/02/2005 – 10/01/2006: 75% of the rate for UCLND																
NOTE 1: Above will apply to USOCs: ULSDT and ULSCT																
**NOTE 2: The Line Sharing monthly recurring rates with USOCs ULSDC and ULSCC applies only to circuits installed and inservice on or before October 1, 2003

The "Zone" shown in the sections for stand-alone loops or loops as part of a combination refers to Geographically Deaveraged UNE Zones. To view Geographically Deaveraged UNE Zone Designations by Central Office, refer to internet Website: http://www.interconnection.bellsouth.com/become_a_clec/html/interconnection.htm															
OPERATIONAL SUPPORT SYSTEMS (OSS) - "REGIONAL RATES"															
NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states.															
NOTE: (2) Any element that can be ordered electronically will be billed according to the SOME C rate listed in this category. Please refer to BellSouth's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOME C rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth.															
	OSS - Electronic Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOME C	3.50	0.00	3.50	0.00						
	OSS - Manual Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOMAN	15.75	0.00	1.97	0.00						
UNE SERVICE DATE ADVANCEMENT CHARGE															
NOTE: The Expedite charge will be maintained commensurate with BellSouth's FCC No.1 Tariff, Section 5 as applicable.															
	UNE Expedite Charge per Circuit or Line Assignable USOC, per Day			UAL, UEANL, UCL, UEF, UDF, UEQ, UDL, UENTW, UDN, UEA, UHL, ULC, USL, U1T12, U1T48, U1TD1, U1TD3, U1TDX, U1TO3, U1TS1, U1TVX, UC1BC, UC1BL, UC1CC, UC1CL, UC1DC, UC1DL, UC1EC, UC1EL, UC1FC, UC1FL, UC1GC, UC1GL, UC1HC, UC1HL, UDL12, UDL48, UDLO3, UDLSX, UE3, ULD12, ULD48, ULDD1, ULDD3, ULDDX, ULDO3, ULDS1, ULDVX, UNC1X, UNC3X, UNCDX, UNCNX, UNCSX, UNCVX, UNLD1, UNLD3, UXTD1, UXTD3, UXTS1, U1TUC, U1TUD, U1TUB, U1TUA	SDASP	200.00

	LINE SHARING AND LINE SPLITTING															
	NOTE 1: The Line Sharing monthly recurring rates for all installations completed from October 02, 2003 through midnight October 01, 2004 shall be billed as follows:															
	NOTE 1: 10/02/2003 - 10/01/2004: 25% of the rate for an unbundled copper loop non-designed ("UCLND")															
	NOTE 1: 10/02/2004 - 10/01/2005: 50% of the rate for UCLND															
	NOTE 1: 10/02/2005 - 10/01/2006: 75% of the rate for UCLND															
	NOTE 1: Above will apply to USOCs: ULSDT and ULSCT															
	**NOTE 2: The Line Sharing monthly recurring rates with USOCs ULSDC and ULSCC applies only to circuits installed and inservice on or before October 1, 2003

<p>The "Zone" shown in the sections for stand-alone loops or loops as part of a combination refers to Geographically Deaveraged UNE Zones. To view Geographically Deaveraged UNE Zone Designations by Central Office, refer to internet Website: http://www.interconnection.bellsouth.com/become_a_clec/html/interconnection.htm</p>																					
OPERATIONAL SUPPORT SYSTEMS (OSS) - "REGIONAL RATES"																					
<p>NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states.</p>																					
<p>NOTE: (2) Any element that can be ordered electronically will be billed according to the SOME C rate listed in this category. Please refer to BellSouth's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOME C rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth.</p>																					
<p>NOTE: (3) OSS - Manual Service Order Charge, Per Element - UNE Only **Please see applicable rate element for SOMAN charge**</p>																					
	OSS - Electronic Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOME C	3.50	0.00	3.50	0.00												
UNE SERVICE DATE ADVANCEMENT CHARGE																					
<p>NOTE: The Expedite charge will be maintained commensurate with BellSouth's FCC No.1 Tariff, Section 5 as applicable.</p>

LINE SHARING AND LINE SPLITTING																
NOTE 1: The Line Sharing monthly recurring rates for all installations completed from October 02, 2003 through midnight October 01, 2004 shall be billed as follows:																
NOTE 1: 10/02/2003 – 10/01/2004: 25% of the rate for an unbundled copper loop non-designed ("UCLND")																
NOTE 1: 10/02/2004 – 10/01/2005: 50% of the rate for UCLND																
NOTE 1: 10/02/2005 – 10/01/2006: 75% of the rate for UCLND																
NOTE 1: Above will apply to USOCs: ULSDT and ULSCT																
**NOTE 2: The Line Sharing monthly recurring rates with USOCs ULSDC and ULSCC applies only to circuits installed and inservice on or before October 1, 2003

<p>The "Zone" shown in the sections for stand-alone loops or loops as part of a combination refers to Geographically Deaveraged UNE Zones. To view Geographically Deaveraged UNE Zone Designations by Central Office, refer to internet Website: http://www.interconnection.bellsouth.com/become_a_clec/html/interconnection.htm</p>															
OPERATIONAL SUPPORT SYSTEMS (OSS) - "REGIONAL RATES"															
<p>NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states.</p>															
<p>NOTE: (2) Any element that can be ordered electronically will be billed according to the SOME C rate listed in this category. Please refer to BellSouth's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOME C rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth.</p>															
	OSS - Electronic Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOME C		3.50	0.00	3.50	0.00					
	OSS - Manual Service Order Charge, Per Local Service Request (LSR) - UNE Only				SOMAN		15.69	0.00	1.97	0.00					
UNE SERVICE DATE ADVANCEMENT CHARGE															
NOTE: The Expedite charge will be maintained commensurate with BellSouth's FCC No.1 Tariff, Section 5 as applicable.

LINE SHARING AND LINE SPLITTING															
NOTE 1: The Line Sharing monthly recurring rates for all installations completed from October 02, 2003 through midnight October 01, 2004 shall be billed as follows:															
NOTE 1: 10/02/2003 – 10/01/2004: 25% of the rate for an unbundled copper loop non-designed ("UCLND")															
NOTE 1: 10/02/2004 – 10/01/2005: 50% of the rate for UCLND															
NOTE 1: 10/02/2005 – 10/01/2006: 75% of the rate for UCLND															
NOTE 1: Above will apply to USOCs: ULSDT and ULSCT															
**NOTE 2: The Line Sharing monthly recurring rates with USOCs ULSDC and ULSCC applies only to circuits installed and inservice on or before October 1, 2003

<p>The "Zone" shown in the sections for stand-alone loops or loops as part of a combination refers to Geographically Deaveraged UNE Zones. To view Geographically Deaveraged UNE Zone Designations by Central Office, refer to internet Website: http://www.interconnection.bellsouth.com/become_a_clec/html/interconnection.htm</p>															
<p>OPERATIONAL SUPPORT SYSTEMS (OSS) - "REGIONAL RATES"</p>															
<p>NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states.</p>															
<p>NOTE: (2) Any element that can be ordered electronically will be billed according to the SOME C rate listed in this category. Please refer to BellSouth's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOME C rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth.</p>															
<p>NOTE: (3) OSS - Manual Service Order Charge, Per Element - UNE Only **Please see applicable rate element for SOMAN charge**</p>															
<p>OSS - Electronic Service Order Charge, Per Local Service Request (LSR) - UNE Only</p>															
						SOME C	3.50	0.00	3.50	0.00					
<p>UNE SERVICE DATE ADVANCEMENT CHARGE</p>															
<p>NOTE: The Expedite charge will be maintained commensurate with BellSouth's FCC No.1 Tariff, Section 5 as applicable.</p>															
<p>UNE Expedite Charge per Circuit or Line Assignable USOC, per Day</p>

**Amendment to the Agreement
Between
DPI-Teleconnect, LLC
and
BellSouth Telecommunications, Inc.
Dated 4/19/2003**

Pursuant to this Amendment, (the "Amendment"), DPI-Teleconnect, LLC (DPI-Teleconnect), and BellSouth Telecommunications, Inc. (BellSouth), hereinafter referred to collectively as the "Parties", hereby agree to amend that certain Interconnection Agreement between the Parties dated 4/19/2003).

WHEREAS, BellSouth and DPI-Teleconnect have entered into good faith negotiations pursuant to the Act to renegotiate an interconnection agreement (New Agreement) to replace the existing Agreement between the Parties, which expired on 4/18/2006; and

WHEREAS, the Parties desire to extend the term of the Agreement; and

WHEREAS, on February 21, 2006, the Georgia Public Service Commission (Commission) issued a Letter Order in Docket No. 14361-U (Letter Order) establishing new UNE rates (New UNE Rates) to replace the rates previously ordered by the Commission on June 24, 2003 and September 22, 2003 in the first phase of Docket No. 14361-U (Old UNE Rates); and

WHEREAS, the Letter Order entitles BellSouth to recover the difference between the Old UNE Rates and the New UNE Rates for the period of time that BellSouth charged DPI-Teleconnect the Old UNE Rates; and

WHEREAS, the Parties are obligated to amend the Agreement to replace the Old UNE Rates in the Agreement with the New UNE Rates established by the Commission in its Letter Order; and

NOW, THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. The parties hereby agree to extend the term of the Agreement by ninety (90) days following the date of the last signature of this Amendment. Other than the modification of the expiration date as described in this Amendment, all provisions in Section 2 of the General Terms and Conditions of the Agreement relating to the term and termination of the Agreement remain in full force and effect.
2. The Parties hereby agree to incorporate into the Agreement the New UNE Rates set forth in Exhibit 1 to Attachment 1, Exhibit 2 to Attachment 2, and Exhibit 4 to Attachment 4, all as attached hereto and incorporated herein by this reference, and such rates shall apply to services provided in the State of Georgia only.
3. To the extent that the New UNE Rates set forth in Exhibit 1 to Attachment 1, Exhibit 2 to Attachment 2, and Exhibit 4 to Attachment 4, all attached hereto,

conflict with any other rates in the Agreement, the rates in these attached Exhibits shall prevail for the State of Georgia.

4. For purposes of amending the Agreement to incorporate the New UNE Rates on a going-forward basis, this Amendment shall be deemed effective on March 31, 2006 (Amendment Effective Date).
5. Nothing in this Amendment shall be deemed to constitute a waiver of the Parties' rights to recover the difference between the rates ordered in the first phase of Docket No. 14361-U and the rates ordered in the second phase of this Docket pursuant to the Georgia Public Service Commission's Letter Order.
6. All of the other provisions of the Agreement shall remain in full force and effect.
7. Either or both of the Parties is authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties have executed this Amendment the day and year written below.

BellSouth Telecommunications, Inc.

**Amendment to the Agreement
Between
DPI-Teleconnect, LLC
and
BellSouth Telecommunications, Inc.
Dated 4/19/2003**

Pursuant to this Amendment, (the "Amendment"), DPI-Teleconnect, LLC (DPI-Teleconnect), and BellSouth Telecommunications, Inc. (BellSouth), hereinafter referred to collectively as the "Parties", hereby agree to amend that certain Interconnection Agreement between the Parties dated 4/19/2003 (Agreement).

WHEREAS, BellSouth and DPI-Teleconnect have entered into good faith negotiations pursuant to the Act to renegotiate an interconnection agreement (New Agreement) to replace the existing Agreement between the Parties, which expired on 4/18/2006; and

WHEREAS, the Parties desire to extend the term of the Agreement; and

WHEREAS, on March 10, 2006, the Public Service Commission of South Carolina (Commission) issued Order No. 2006-136 in Docket No. 2004-316-C (Order), Proceeding to Consider Amendments to Interconnection Agreements Between BellSouth Telecommunications, Inc. and Competitive Local Exchange Carriers Due to Changes of Law; and

WHEREAS, the Parties are obligated to amend the Agreement to bring it in compliance with the Commission's Order;

NOW, THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. The Parties hereby agree to extend the term of the Agreement by ninety (90) days following the date of the last signature of this Amendment. Other than the modification of the expiration date as described in this Amendment, all provisions in Section 2 of the General Terms and Conditions of the Agreement relating to the term and termination of the Agreement remain in full force and effect.
2. The Parties hereby agree to incorporate into the Agreement the contract provisions set forth in Exhibit A hereto, and such contract provisions shall apply to services provided in the State of South Carolina only.
3. The Parties hereby agree to incorporate into the Agreement the rates set forth in Exhibit B hereto, and such rates shall apply to services provided in the State of South Carolina only.
3. To the extent that such contract provisions or rates as set forth in Exhibits A and B hereto conflict with any other rates, terms and conditions in the Agreement, the contract provisions and rates in Exhibits A and B shall prevail in the State of South Carolina.

4. Further, to the extent that defined terms in this Amendment differ from defined terms in the Agreement, such defined terms in the Agreement shall be deemed to have the same meaning as the alternative defined terms in this Amendment to the extent necessary to give full effect to this Amendment consistent with the Public Service Commission of South Carolina's Order.
5. Network elements de-listed under Section 251(c)(3) should be removed from BellSouth's SQM/PMAP/SEEM plans.
6. This Amendment shall be deemed effective on March 11, 2006 (Effective Date).
7. All of the other provisions of the Agreement shall remain in full force and effect.
8. Either or both of the Parties are authorized to submit this Amendment to the state regulatory authority for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties have executed this Amendment the day and year written below.

ACCESS TO NETWORK ELEMENTS AND OTHER SERVICES

1 Introduction

- 1.1 This Attachment sets forth rates, terms and conditions for unbundled network elements (Network Elements) and combinations of Network Elements (Combinations) that BellSouth offers to DPI-Teleconnect for DPI-Teleconnect's provision of Telecommunications Services in accordance with its obligations under Section 251(c)(3) of the Act. Additionally, this Attachment sets forth the rates, terms and conditions for other facilities and services BellSouth makes available to DPI-Teleconnect (Other Services). Additionally, the provision of a particular Network Element or Other Service may require DPI-Teleconnect to purchase other Network Elements or services. In the event of a conflict between this Attachment and any other section or provision of this Agreement, the provisions of this Attachment shall control.
- 1.2 DPI-Teleconnect shall not obtain a Network Element for the exclusive provision of mobile wireless services or interexchange services.
- 1.3 Conversion of Wholesale Services to Network Elements or Network Elements to Wholesale Services. Upon request, BellSouth shall convert a wholesale service, or group of wholesale services, to the equivalent Network Element or Combination that is available to DPI-Teleconnect pursuant to Section 251 of the Act and under this Agreement or convert a Network Element or Combination that is available to DPI-Teleconnect pursuant to Section 251 of the Act and under this Agreement to an equivalent wholesale service or group of wholesale services offered by BellSouth (collectively "Conversion"). BellSouth shall charge the applicable nonrecurring switch-as-is rates for Conversions to specific Network Elements or Combinations found in Exhibit B. BellSouth shall also charge the same nonrecurring switch-as-is rates when converting from Network Elements or Combinations. Any rate change resulting from the Conversion will be effective as of the next billing cycle following BellSouth's receipt of a complete and accurate Conversion request from DPI-Teleconnect. A Conversion shall be considered termination for purposes of any volume and/or term commitments and/or grandfathered status between DPI-Teleconnect and BellSouth. Any change from a wholesale service/group of wholesale services to a Network Element/Combination, or from a Network Element/Combination to a wholesale service/group of wholesale services, that requires a physical rearrangement will not be considered to be a Conversion for purposes of this Agreement. BellSouth will not require physical rearrangements if the Conversion can be completed through record changes only. Orders for Conversions will be handled in accordance with the guidelines set forth in the Ordering Guidelines and Processes and CLEC Information Packages as referenced in Sections 1.8.1 and 1.8.2 below.

- 1.4 Except to the extent expressly provided otherwise in this Attachment, DPI-Teleconnect may not maintain unbundled network elements or combinations of unbundled network elements, that are no longer offered pursuant to this Agreement (collectively “Arrangements”). In the event BellSouth determines that DPI-Teleconnect has in place any Arrangements after the Effective Date of this Agreement, BellSouth will provide DPI-Teleconnect with thirty (30) days written notice to disconnect or convert such Arrangements. If DPI-Teleconnect fails to submit orders to disconnect or convert such Arrangements within such thirty (30) day period, BellSouth will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth pursuant to this Section 1.4 shall be subject to all applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth’s tariffs. The applicable recurring tariff charge shall apply to each circuit as of the Effective Date of this Agreement.
- 1.5 Prior to submitting an order pursuant to this Agreement for high capacity (DS1 or above) Dedicated Transport or high capacity Loops, DPI-Teleconnect shall undertake a reasonably diligent inquiry to determine whether DPI-Teleconnect is entitled to unbundled access to such Network Elements in accordance with the terms of this Agreement. By submitting any such order, DPI-Teleconnect self-certifies that to the best of DPI-Teleconnect’s knowledge, the high capacity Dedicated Transport or high capacity Loop requested is available as a Network Element pursuant to this Agreement. Upon receiving such order, BellSouth shall process the request in reliance upon DPI-Teleconnect’s self-certification. To the extent BellSouth believes that such request does not comply with the terms of this Agreement, BellSouth shall seek dispute resolution in accordance with the General Terms and Conditions of this Agreement. In the event such dispute is resolved in BellSouth’s favor, BellSouth shall bill DPI-Teleconnect the difference between the rates for such circuits pursuant to this Agreement and the applicable nonrecurring and recurring charges for the equivalent tariffed service from the date of installation to the date the circuit is transitioned to the equivalent tariffed service. Within thirty (30) days following a decision finding in BellSouth’s favor, DPI-Teleconnect shall submit a spreadsheet identifying those non-compliant circuits to be transitioned to tariffed services or disconnected.
- 1.5.1 In the event that (1) BellSouth designates a wire center as non-impaired, (2) CLEC converts existing UNEs to other services or orders new services as services other than UNEs, (3) CLEC otherwise would have been entitled to UNEs in such wire center at the time alternative services were provisioned, and (4) BellSouth acknowledges or a state or federal regulatory body with authority determines that, at the time BellSouth designated such wire center as non-impaired, such wire center did not meet the FCC’s non-impairment criteria, then upon request of CLEC, BellSouth shall transition to UNEs any alternative services in such wire center that were established after such wire center was designated as non-

impaired. In such instances, BellSouth shall refund CLEC the difference between the rate paid by CLEC for such services and the applicable UNE rate, including but not limited to any charges associated with the unnecessary conversion from UNE to other wholesale services.

- 1.6 BellSouth will perform Routine Network Modifications (RNM) in accordance with FCC 47 C.F.R. § 51.319 (a)(7) and (e)(4) for Loops and Dedicated Transport provided under this Attachment. If BellSouth has anticipated such RNM and performs them during normal operations and has recovered the costs for performing such modifications through the rates set forth in Exhibit A of Attachment 2 of the Agreement, then BellSouth shall perform such RNM at no additional charge. RNM shall be performed within the intervals established for the Network Element and subject to the performance measurements and associated remedies set forth in Attachment 9 of this Agreement to the extent such RNM were anticipated in the setting of such intervals. If BellSouth has not anticipated a requested network modification as being a RNM and has not recovered the costs of such RNM in the rates set forth in Exhibit A of Attachment 2 of the Agreement, then such request will be handled as a project on an individual case basis. BellSouth will provide a price quote for the request and, upon receipt of payment from DPI-Teleconnect, BellSouth shall perform the RNM.

1.7 Commingling of Services

- 1.7.1 Commingling means the connecting, attaching, or otherwise linking of a Network Element, or a Combination, to one or more Telecommunications Services or facilities that DPI-Teleconnect has obtained at wholesale from BellSouth, or the combining of a Network Element or Combination with one or more such wholesale Telecommunications Services or facilities. DPI-Teleconnect must comply with all rates, terms or conditions applicable to such wholesale Telecommunications Services or facilities.
- 1.7.2 Subject to the limitations set forth elsewhere in this Attachment, BellSouth shall not deny access to a Network Element or a Combination on the grounds that one or more of the elements: (1) is connected to, attached to, linked to, or combined with such a facility or service obtained from BellSouth; or (2) shares part of BellSouth's network with access services or inputs for mobile wireless services and/or interexchange services.
- 1.7.3 Unless otherwise agreed to by the Parties, the Network Element portion of a commingled circuit will be billed at the rates set forth in Exhibit B and the remainder of the circuit or service will be billed in accordance with BellSouth's tariffed rates or rates set forth in a separate agreement between the Parties.
- 1.7.4 When multiplexing equipment is attached to a commingled circuit, the multiplexing equipment will be billed from the same agreement or tariff as the higher bandwidth

circuit. Central Office Channel Interfaces (COCI) will be billed from the same agreement or tariff as the lower bandwidth circuit.

1.7.5 Notwithstanding any other provision of this Agreement, BellSouth shall not be obligated to commingle or combine Network Elements or Combinations with any service, network element or other offering that it is obligated to make available only pursuant to Section 271 of the Act.

1.7.6 Terms and conditions for order cancellation charges and Service Date Advancement Charges will apply in accordance with Attachment 6. The charges shall be as set forth in Exhibit A of Attachment 2 of the Agreement.

1.8 Ordering Guidelines and Processes

1.8.1 For information regarding Ordering Guidelines and Processes for various Network Elements, Combinations and Other Services, DPI-Teleconnect should refer to the "Guides" section of the BellSouth Interconnection Web site.

1.8.2 Additional information may also be found in the individual CLEC Information Packages located at the "CLEC UNE Products" on BellSouth's Interconnection Web site at: www.interconnection.bellsouth.com/guides/html/unes.html.

2 **Loops**

2.1 General. The local loop Network Element is defined as a transmission facility that BellSouth provides pursuant to this Attachment between a distribution frame (or its equivalent) in BellSouth's central office and the loop demarcation point at an End User premises (Loop). Facilities that do not terminate at a demarcation point at an End User premises, including, by way of example, but not limited to, facilities that terminate to another carrier's switch or premises, a cell site, Mobile Switching Center or base station, do not constitute local Loops under Section 251, except to the extent that CLEC may require Loops to such locations for the purpose of providing telecommunications services to its personnel at those locations. The Loop Network Element includes all features, functions, and capabilities of the transmission facilities, including the network interface device, and attached electronics (except those used for the provision of advanced services, such as Digital Subscriber Line Access Multiplexers (DSLAMs)), optronics and intermediate devices (including repeaters and load coils) used to establish the transmission path to the End User's premises, including inside wire owned or controlled by BellSouth. DPI-Teleconnect shall purchase the entire bandwidth of the Loop and, except as required herein or as otherwise agreed to by the Parties, BellSouth shall not subdivide the frequency of the Loop.

2.1.1 The Loop does not include any packet switched features, functions or capabilities.

- 2.1.2 Fiber to the Home (FTTH) loops are local loops consisting entirely of fiber optic cable, whether dark or lit, serving an End User's premises or, in the case of predominantly residential multiple dwelling units (MDUs), a fiber optic cable, whether dark or lit, that extends to the MDU minimum point of entry (MPOE). Fiber to the Curb (FTTC) loops are local loops consisting of fiber optic cable connecting to a copper distribution plant that is not more than five hundred (500) feet from the End User's premises or, in the case of predominantly residential MDUs, not more than five hundred (500) feet from the MDU's MPOE. The fiber optic cable in a FTTC loop must connect to a copper distribution plant at a serving area interface from which every other copper distribution subloop also is not more than five hundred (500) feet from the respective End User's premises.
- 2.1.2.1 In new build (Greenfield) areas, where BellSouth has only deployed FTTH/FTTC facilities, BellSouth is under no obligation to provide Loops. FTTH facilities include fiber loops deployed to the MPOE of a MDU that is predominantly residential regardless of the ownership of the inside wiring from the MPOE to each End User in the MDU. Notwithstanding the foregoing, in such Greenfield areas that are served from an impaired wire center, BellSouth shall make available UNE DS1 Loops as described in this Attachment.
- 2.1.2.2 In FTTH/FTTC overbuild situations where BellSouth also has copper Loops, BellSouth will make those copper Loops available to DPI-Teleconnect on an unbundled basis, until such time as BellSouth chooses to retire those copper Loops using the FCC's network disclosure requirements. In these cases, BellSouth will offer a sixty-four (64) kilobits per second (kbps) voice grade channel over its FTTH/FTTC facilities.
- 2.1.2.3 Furthermore, in FTTH/FTTC overbuild areas where BellSouth has not yet retired copper facilities, BellSouth is not obligated to ensure that such copper Loops in that area are capable of transmitting signals prior to receiving a request for access to such Loops by DPI-Teleconnect. If a request is received by BellSouth for a copper Loop, and the copper facilities have not yet been retired, BellSouth will restore the copper Loop to serviceable condition if technically feasible. In these instances of Loop orders in an FTTH/FTTC overbuild area, BellSouth's standard Loop provisioning interval will not apply, and the order will be handled on a project basis by which the Parties will negotiate the applicable provisioning interval.
- 2.1.3 A hybrid Loop is a local Loop, composed of both fiber optic cable, usually in the feeder plant, and copper twisted wire or cable, usually in the distribution plant. BellSouth shall provide DPI-Teleconnect with nondiscriminatory access to the time division multiplexing features, functions and capabilities of such hybrid Loop, on an unbundled basis to establish a complete transmission path between BellSouth's central office and an End User's premises. Notwithstanding the foregoing, in an impaired wire center, BellSouth shall make available hybrid Loops as described in this Attachment.

- 2.1.4 Transition for DS1 and DS3 Loops
- 2.1.4.1 For purposes of this Section 2, the Transition Period for the Embedded Base of DS1 and DS3 Loops and for the Excess DS1 and DS3 Loops (defined in 2.1.4.3) is the twelve (12) month period beginning March 11, 2005 and ending March 10, 2006.
- 2.1.4.2 For purposes of this Section 2, Embedded Base means DS1 and DS3 Loops that were in service for DPI-Teleconnect as of March 10, 2005 in those wire centers that, as of such date, met the criteria set forth in Sections 2.1.4.5.1 or 2.1.4.5.2 below. For the state of South Carolina, during the Transition Period DPI-Teleconnect shall be entitled to order and BellSouth shall provision moves, changes and additions of and to DS1 and DS3 Loops that DPI-Teleconnect orders for the purpose of serving CLEC's existing DS1 and DS3 End Users as of March 10, 2005, at such End Users' new or existing physical locations, and such facilities shall be included in the Embedded Base. Subsequent disconnects or loss of End Users shall be removed from the Embedded Base.
- 2.1.4.3 Excess DS1 and DS3 Loops are those DPI-Teleconnect DS1 and DS3 Loops in service as of March 10, 2005, in excess of the caps set forth in Sections 2.2.6.2 and 2.2.12 below, respectively. Subsequent disconnects or loss of End Users shall be removed from Excess DS1 and DS3 Loops.
- 2.1.4.4 For purposes of this Section 2, a Business Line is defined in 47 C.F.R. § 51.5.
- 2.1.4.5 Notwithstanding anything to the contrary in this Agreement, and except as set forth in Section 2.1.4.12 below, BellSouth shall make available DS1 and DS3 Loops as described in this Section 2.1.4 only for DPI-Teleconnect's Embedded Base and Excess DS1 and DS3 loops during the Transition Period:
- 2.1.4.5.1 DS1 Loops at any location within the service area of a wire center containing 60,000 or more Business Lines and four (4) or more fiber-based collocators.
- 2.1.4.5.2 DS3 Loops at any location within the service area of a wire center containing 38,000 or more Business Lines and four (4) or more fiber-based collocators.
- 2.1.4.6 A list of wire centers meeting the criteria set forth in Sections 2.1.4.5.1 and 2.1.4.5.2 above as of March 10, 2005 (Initial Wire Center List) as ordered by the Public Service Commission of South Carolina in Docket No. 2004-316-C (Initial Wire Center List), is attached to BellSouth's Carrier Notification Letter SN91086058, dated March 20, 2006, which is available on BellSouth's Interconnection Services Web site.
- 2.1.4.7 Notwithstanding the Effective Date of this Agreement, during the Transition Period, the rates for DPI-Teleconnect's Embedded Base of DS1 and DS3 Loops and DPI-Teleconnect's Excess DS1 and DS3 Loops described in this Section 2.1.4

shall be equal to the higher of 115% of the rate paid for that element on June 15, 2004 or 115% of a new rate the Commission establishes, if any, between June 16, 2004 and March 11, 2005. These rates shall be as set forth in Exhibit A to Attachment 2 of the Agreement and this Section 2.1.4.7.

- 2.1.4.8 The Transition Period shall apply only to (1) DPI-Teleconnect's Embedded Base and (2) DPI-Teleconnect's Excess DS1 and DS3 Loops. DPI-Teleconnect shall not add new DS1 or DS3 loops as described in this Section 2.1.4 pursuant to this Agreement, except pursuant to the self-certification process as set forth in Section 1.8 of this Attachment and as set forth in Section 2.1.4.12 below.
- 2.1.4.9 Once a wire center exceeds both of the thresholds set forth in Section 2.1.4.5.1 above, no future DS1 Loop unbundling will be required in that wire center.
- 2.1.4.10 Once a wire center exceeds both of the thresholds set forth in Section 2.1.4.5.2 above, no future DS3 Loop unbundling will be required in that wire center.
- 2.1.4.11 No later than December 9, 2005 DPI-Teleconnect shall submit spreadsheet(s) identifying all of the Embedded Base of circuits and Excess DS1 and DS3 Loops to be either disconnected or converted to other BellSouth services pursuant to Section 1.3 above. The Parties shall negotiate a project schedule for the Conversion of the Embedded Base and Excess DS1 and DS3 Loops.
- 2.1.4.11.1 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 2.1.4.11 above for all of its Embedded Base and Excess DS1 and DS3 Loops prior to December 9, 2005, BellSouth will identify DPI-Teleconnect's remaining Embedded Base and Excess DS1 and DS3 Loops, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth pursuant to this Section 2.1.4.11.1 shall be subject to all applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
- 2.1.4.11.2 For Embedded Base circuits and Excess DS1 and DS3 Loops converted pursuant to Section 2.1.4.11 above or transitioned pursuant to Section 2.1.4.11.1 above, the applicable recurring tariff charge shall apply to each circuit as of the earlier of the date each circuit is converted or transitioned, as applicable, or March 11, 2006.
- 2.1.4.12 Modifications and Updates to the Wire Center List and Subsequent Transition Periods
- 2.1.4.12.1 In the event BellSouth identifies additional wire centers that meet the criteria set forth in Section 2.1.4.5 above, but that were not included in the Initial Wire Center List, BellSouth shall include such additional wire centers in a carrier notification letter (CNL). Each such list of additional wire centers shall be considered a "Subsequent Wire Center List".

- 2.1.4.12.2 Effective ten (10) business days after the date of a BellSouth CNL providing a Subsequent Wire Center List, BellSouth shall not be required to unbundle DS1 and/or DS3 Loops, as applicable, in such additional wire center(s), except pursuant to the self-certification process as set forth in Section 1.5 of this Attachment.
- 2.1.4.12.3 For purposes of Section 2.1.4.12 above, BellSouth shall make available DS1 and DS3 Loops that were in service for DPI-Teleconnect in a wire center on the Subsequent Wire Center List as of the tenth (10th) business day after the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Embedded Base) until ninety (90) days after the tenth (10th) business day from the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Transition Period).
- 2.1.4.12.4 Subsequent disconnects or loss of End Users shall be removed from the Subsequent Embedded Base.
- 2.1.4.12.5 The rates set forth in Exhibit A of Attachment 2 of the Agreement plus 15% shall apply to the Subsequent Embedded Base during the Subsequent Transition Period.
- 2.1.4.12.6 No later than forty (40) days from BellSouth's CNL identifying the Subsequent Wire Center List, DPI-Teleconnect shall submit a spreadsheet(s) identifying the Subsequent Embedded Base of circuits to be disconnected or converted to other BellSouth services. The Parties shall negotiate a project schedule for the Conversion of the Subsequent Embedded Base.
- 2.1.4.12.6.1 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 2.1.4.12.6 above for all of its Subsequent Embedded Base within forty (40) days after the date of BellSouth's CNL identifying the Subsequent Wire Center List, BellSouth will identify DPI-Teleconnect's remaining Subsequent Embedded Base, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth shall be subject to the applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
- 2.1.4.12.6.2 For Subsequent Embedded Base circuits converted pursuant to Section 2.1.4.12.6 above or transitioned pursuant to Section 2.1.4.12.6.1 above, the applicable recurring tariff charges shall apply as of the earlier of the date each circuit is converted or transitioned, as applicable, or the first day after the end of the Subsequent Transition Period.
- 2.2 Unbundled Digital Loops
- 2.2.1 BellSouth will offer UDLs. UDLs are service specific, will be designed, will be provisioned with test points (where appropriate), and will come standard with OC

and a DLR. The various UDLs are intended to support a specific digital transmission scheme or service.

- 2.2.2 BellSouth shall make available the following UDLs, subject to restrictions set forth herein:
 - 2.2.2.1 2-wire Unbundled ISDN Digital Loop;
 - 2.2.2.2 2-wire Unbundled ADSL Compatible Loop;
 - 2.2.2.3 2-wire Unbundled HDSL Compatible Loop;
 - 2.2.2.4 4-wire Unbundled HDSL Compatible Loop;
 - 2.2.2.5 4-wire Unbundled DS1 Digital Loop;
 - 2.2.2.6 4-wire Unbundled Digital Loop/DS0 – 64 kbps, 56 kbps and below;
 - 2.2.2.7 DS3 Loop; or
 - 2.2.2.8 STS-1 Loop.
- 2.2.3 2-wire Unbundled ISDN Digital Loops. These will be provisioned according to industry standards for 2-Wire Basic Rate ISDN services and will come standard with a test point, OC, and a DLR. DPI-Teleconnect will be responsible for providing BellSouth with a Service Profile Identifier (SPID) associated with a particular ISDN-capable Loop and End User. With the SPID, BellSouth will be able to adequately test the circuit and ensure that it properly supports ISDN service.
- 2.2.4 2-wire ADSL-Compatible Loop. This is a designed Loop that is provisioned according to Revised Resistance Design (RRD) criteria and may be up to 18,000 feet long and may have up to 6,000 feet of bridged tap (inclusive of Loop length). The Loop is a 2-wire circuit and will come standard with a test point, OC, and a DLR.
- 2.2.5 2-wire or 4-wire HDSL-Compatible Loop. This is a designed Loop that meets Carrier Serving Area (CSA) specifications, may be up to 12,000 feet long and may have up to 2,500 feet of bridged tap (inclusive of Loop length). It may be a 2-wire or 4-wire circuit and will come standard with a test point, OC, and a DLR.
- 2.2.6 4-wire Unbundled DS1 Digital Loop.
 - 2.2.6.1 This is a designed 4-wire Loop that is provisioned according to industry standards for DS1 or Primary Rate ISDN services and will come standard with a test point, OC, and a DLR. A DS1 Loop may be provisioned over a variety of loop transmission technologies including copper, HDSL-based technology or fiber optic

transport systems. It will include a 4-wire DS1 Network Interface at the End User's location. For purposes of this Agreement, including the transition of DS1 and DS3 Loops described in Section 2.1.4 above, DS1 Loops include 2-wire and 4-wire copper Loops capable of providing high-bit rate digital subscriber line services, such as 2-wire and 4-wire HDSL Compatible Loops.

- 2.2.6.2 BellSouth shall not provide more than ten (10) unbundled DS1 Loops to DPI-Teleconnect at any single building in which DS1 Loops are available as unbundled Loops.
- 2.2.7 4-wire Unbundled Digital/DS0 Loop. These are designed 4-wire Loops that may be configured as sixty-four (64)kbps, fifty-six (56)kbps, nineteen (19)kbps, and other sub-rate speeds associated with digital data services and will come standard with a test point, OC, and a DLR.
- 2.2.8 DS3 Loop. DS3 Loop is a two-point digital transmission path which provides for simultaneous two-way transmission of serial, bipolar, return-to-zero isochronous digital electrical signals at a transmission rate of forty-four point seven thirty-six (44.736) megabits per second (Mbps) that is dedicated to the use of the ordering CLEC in its provisioning of local exchange and associated exchange access services. It may provide transport for twenty-eight (28) DS1 channels, each of which provides the digital equivalent of twenty-four (24) analog voice grade channels. The interface to unbundled dedicated DS3 transport is a metallic-based electrical interface.
- 2.2.9 STS-1 Loop. STS-1 Loop is a high-capacity digital transmission path with SONET VT1.5 mapping that is dedicated for the use of the ordering customer for the purpose of provisioning local exchange and associated exchange access services. It is a two-point digital transmission path which provides for simultaneous two-way transmission of serial bipolar return-to-zero synchronous digital electrical signals at a transmission rate of fifty-one point eighty-four (51.84) Mbps. It may provide transport for twenty-eight (28) DS1 channels, each of which provides the digital equivalent of twenty-four (24) analog voice grade channels. The interface to unbundled dedicated STS-1 transport is a metallic-based electrical interface.
- 2.2.10 Both DS3 Loop and STS-1 Loop require a SI in order to ascertain availability.
- 2.2.11 DS3 services come with a test point and a DLR. Mileage is airline miles, rounded up and a minimum of one (1) mile applies. BellSouth's TR73501 LightGate[®]Service Interface and Performance Specifications, Issue D, June 1995 applies to DS3 services.
- 2.2.12 DPI-Teleconnect may obtain a maximum of a single Unbundled DS3 Loop to any single building in which DS3 Loops are available as Unbundled Loops.

2.2.13 Fiber based Collocator

2.2.13.1 For purposes of this Amendment a “Fiber-Based Collocator” is, as defined in 47 C.F.R. § 51.5, any carrier, unaffiliated with BellSouth, that maintains a collocation arrangement in a BellSouth wire center, with active electrical power supply, and operates a fiber-optic cable or comparable transmission facility that (1) terminates at a collocation arrangement within the wire center; (2) leaves the BellSouth wire center premises; and (3) is owned by a party other than BellSouth or any affiliate of BellSouth.

2.2.13.2 For purposes of this definition: (i) carriers that have entered into merger and/or other consolidation agreements, or otherwise announced their intention to enter into the same, will be treated as affiliates and therefore as one collocator; provided however, in the case one of the parties to such merger or consolidation arrangement is BellSouth, then the other party’s collocation arrangement shall not be counted as a Fiber-Based Collocator, (ii) a Comparable transmission Facility means, at a minimum, the provision of transmission capacity equivalent to fiber-optic cable with a minimum point-to-point symmetrical data capacity exceeding 12 DS3s; (iii) the network of a Fiber-Based Collocator may only be counted once in making a determination of the number of Fiber-Based Collocators, notwithstanding that such single Fiber-Based Collocator leases its facilities to other collocators in a single wire center; provided, however, that a collocating carrier’s dark fiber leased from an unaffiliated carrier may only be counted as a separate fiber-optic cable from the unaffiliated carrier’s fiber if the collocating carrier obtains this dark fiber on an IRU basis.

2.3 Unbundled Loop Modifications (Line Conditioning)

2.3.1 Line Conditioning is defined as routine network modification that BellSouth regularly undertakes to provide xDSL services to its own customers. This may include the removal of any device, from a copper Loop or copper Subloop that may diminish the capability of the Loop or Subloop to deliver high-speed switched wireline telecommunications capability, including xDSL service. Such devices include, load coils, excessive bridged taps, low pass filters, and range extenders. Excessive bridged taps are bridged taps that serves no network design purpose and that are beyond the limits set according to industry standards and/or the BellSouth’s TR73600 Unbundled Local Loop Technical Specification.

2.3.2 BellSouth will remove load coils only on copper Loops and Subloops that are less than eighteen thousand (18,000) feet in length.

2.3.3 For any copper loop being ordered by DPI-Teleconnect which has over six thousand (6,000) feet of combined bridged tap will be modified, upon request from DPI-Teleconnect, so that the loop will have a maximum of six thousand (6,000)

feet of bridged tap. This modification will be performed at no additional charge to DPI-Teleconnect. Loop conditioning orders that require the removal of bridged tap that serves no network design purpose on a copper Loop that will result in a combined total of bridged tap between two thousand five hundred (2,500) and six thousand (6,000) feet will be performed at the rates set forth in Exhibit A of Attachment 2 of the Agreement.

- 2.3.4 DPI-Teleconnect may request removal of any unnecessary and non-excessive bridged tap (bridged tap between zero (0) and two thousand five hundred (2,500) feet which serves no network design purpose), at rates pursuant to BellSouth's SC Process as mutually agreed to by the Parties.
- 2.3.5 Rates for ULM are as set forth in Exhibit A of Attachment 2 of the Agreement.
- 2.3.6 BellSouth will not modify a Loop in such a way that it no longer meets the technical parameters of the original Loop type (e.g., voice grade, ADSL, etc.) being ordered.
- 2.3.7 If DPI-Teleconnect requests ULM on a reserved facility for a new Loop order, BellSouth may perform a pair change and provision a different Loop facility in lieu of the reserved facility with ULM if feasible. The Loop provisioned will meet or exceed specifications of the requested Loop facility as modified. DPI-Teleconnect will not be charged for ULM if a different Loop is provisioned. For Loops that require a DLR or its equivalent, BellSouth will provide LMU detail of the Loop provisioned.
- 2.3.8 DPI-Teleconnect shall request Loop make up information pursuant to this Attachment prior to submitting a service inquiry and/or a LSR for the Loop type that DPI-Teleconnect desires BellSouth to condition.
- 2.3.9 When requesting ULM for a Loop that BellSouth has previously provisioned for DPI-Teleconnect, DPI-Teleconnect will submit a SI to BellSouth. If a spare Loop facility that meets the Loop modification specifications requested by DPI-Teleconnect is available at the location for which the ULM was requested, DPI-Teleconnect will have the option to change the Loop facility to the qualifying spare facility rather than to provide ULM. In the event that BellSouth changes the Loop facility in lieu of providing ULM, DPI-Teleconnect will not be charged for ULM but will only be charged the service order charges for submitting an order.
- 2.4 Subloop Elements.
- 2.4.1 Where facilities permit, BellSouth shall offer access to its Unbundled Subloop (USL) elements as specified herein.

2.4.2 Unbundled Subloop Distribution (USLD)

2.4.2.1 The USLD facility is a dedicated transmission facility that BellSouth provides from an End User's point of demarcation to a BellSouth cross-connect device. The BellSouth cross-connect device may be located within a remote terminal (RT) or a stand-alone cross-box in the field or in the equipment room of a building. The USLD media is a copper twisted pair that can be provisioned as a 2-wire or 4-wire facility. BellSouth will make available the following subloop distribution offerings where facilities exist:

USLD – Voice Grade (USLD-VG)
Unbundled Copper Subloop (UCSL)
USLD – Intrabuilding Network Cable (USLD-INC (aka riser cable))

2.4.2.2 USLD-VG is a copper subloop facility from the cross-box in the field up to and including the point of demarcation at the End User's premises and may have load coils.

2.4.2.3 UCSL is a copper facility eighteen thousand (18,000) feet or less in length provided from the cross-box in the field up to and including the End User's point of demarcation. If available, this facility will not have any intervening equipment such as load coils between the End User and the cross-box.

2.4.2.3.1 If DPI-Teleconnect requests a UCSL and it is not available, DPI-Teleconnect may request the copper Subloop facility be modified pursuant to the ULM process to remove load coils and/or excessive bridged taps. If load coils and/or excessive bridged taps are removed, the facility will be classified as a UCSL.

2.4.2.4 USLD-INC is the distribution facility owned or controlled by BellSouth inside a building or between buildings on the same property that is not separated by a public street or road. USLD-INC includes the facility from the cross-connect device in the building equipment room up to and including the point of demarcation at the End User's premises.

2.4.2.4.1 Upon request for USLD-INC from DPI-Teleconnect, BellSouth will install a cross-connect panel in the building equipment room for the purpose of accessing USLD-INC pairs from a building equipment room. The cross-connect panel will function as a single point of interconnection (SPOI) for USLD-INC and will be accessible by multiple carriers as space permits. BellSouth will place cross-connect blocks in twenty five (25) pair increments for DPI-Teleconnect's use on this cross-connect panel. DPI-Teleconnect will be responsible for connecting its facilities to the twenty five (25) pair cross-connect block(s).

2.4.2.5 For access to Voice Grade USLD and UCSL, DPI-Teleconnect shall install a cable to the BellSouth cross-box pursuant to the terms and conditions for physical collocation for remote sites set forth in Attachment 4. This cable would be

connected by a BellSouth technician within the BellSouth cross-box during the set-up process. DPI-Teleconnect's cable pairs can then be connected to BellSouth's USL within the BellSouth cross-box by the BellSouth technician.

- 2.4.2.6 Through the SI process, BellSouth will determine whether access to USLs at the location requested by DPI-Teleconnect is technically feasible and whether sufficient capacity exists in the cross-box. If existing capacity is sufficient to meet DPI-Teleconnect's request, then BellSouth will perform the site set-up as described in the CLEC Information Package, located at BellSouth's Interconnection Web site:
www.interconnection.bellsouth.com/products/html/unes.html.
- 2.4.2.7 The site set-up must be completed before DPI-Teleconnect can order Subloop pairs. For the site set-up in a BellSouth cross-connect box in the field, BellSouth will perform the necessary work to splice DPI-Teleconnect's cable into the cross-connect box. For the site set-up inside a building equipment room, BellSouth will perform the necessary work to install the cross-connect panel and the connecting block(s) that will be used to provide access to the requested USLs.
- 2.4.2.8 Once the site set-up is complete, DPI-Teleconnect will request Subloop pairs through submission of a LSR form to the LCSC. OC is required with USL pair provisioning when DPI-Teleconnect requests reuse of an existing facility, and the OC charge shall be billed in addition to the USL pair rate. For expedite requests by DPI-Teleconnect for Subloop pairs, expedite charges will apply for intervals less than five (5) days.
- 2.4.2.9 USLs will be provided in accordance with BellSouth's TR73600 Unbundled Local Loop Technical Specifications.
- 2.4.3 Unbundled Network Terminating Wire (UNTW)
- 2.4.3.1 UNTW is unshielded twisted copper wiring that is used to extend circuits from an intra-building network cable terminal or from a building entrance terminal to an individual End User's point of demarcation. It is the final portion of the Loop that in multi-subscriber configurations represents the point at which the network branches out to serve individual subscribers.
- 2.4.3.2 This element will be provided in MDUs and/or Multi-Tenants Units (MTUs) where either Party owns wiring all the way to the End User's premises. Neither Party will provide this element in locations where the property owner provides its own wiring to the End User's premises, where a third party owns the wiring to the End User's premises.
- 2.4.3.3 Requirements

- 2.4.3.3.1 On a multi-unit premises, upon request of the other Party (Requesting Party), the Party owning the network terminating wire (Provisioning Party) will provide access to UNTW pairs on an Access Terminal that is suitable for use by multiple carriers at each Garden Terminal or Wiring Closet.
- 2.4.3.3.2 The Provisioning Party shall not be required to install new or additional NTW beyond existing NTW to provision the services of the Requesting Party.
- 2.4.3.3.3 In existing MDUs and/or MTUs in which BellSouth does not own or control wiring (INC/NTW) to the End Users premises, and DPI-Teleconnect does own or control such wiring, DPI-Teleconnect will install UNTW Access Terminals for BellSouth under the same terms and conditions as BellSouth provides UNTW Access Terminals to DPI-Teleconnect.
- 2.4.3.3.4 In situations in which BellSouth activates a UNTW pair, BellSouth will compensate DPI-Teleconnect for each pair activated commensurate to the price specified in DPI-Teleconnect's Agreement.
- 2.4.3.3.5 Upon receipt of the UNTW SI requesting access to the Provisioning Party's UNTW pairs at a multi-unit premises, representatives of both Parties will participate in a meeting at the site of the requested access. The purpose of the site visit will include discussion of the procedures for installation and location of the Access Terminals. By request of the Requesting Party, an Access Terminal will be installed either adjacent to each of the Provisioning Party's Garden Terminal or inside each Wiring Closet. The Requesting Party will deliver and connect its central office facilities to the UNTW pairs within the Access Terminal. The Requesting Party may access any available pair on an Access Terminal. A pair is available when a pair is not being utilized to provide service or where the End User has requested a change in its local service provider to the Requesting Party. Prior to connecting the Requesting Party's service on a pair previously used by the Provisioning Party, the Requesting Party is responsible for ensuring the End User is no longer using the Provisioning Party's service or another CLEC's service before accessing UNTW pairs.
- 2.4.3.3.6 Access Terminal installation intervals will be established on an individual case basis.
- 2.4.3.3.7 The Requesting Party is responsible for obtaining the property owner's permission for the Provisioning Party to install an Access Terminal(s) on behalf of the Requesting Party. The submission of the SI by the Requesting Party will serve as certification by the Requesting Party that such permission has been obtained. If the property owner objects to Access Terminal installations that are in progress or within thirty (30) days after completion and demands removal of Access Terminals, the Requesting Party will be responsible for costs associated with removing Access Terminals and restoring the property to its original state prior to Access Terminals being installed.

- 2.4.3.3.8 The Requesting Party shall indemnify and hold harmless the Provisioning Party against any claims of any kind that may arise out of the Requesting Party's failure to obtain the property owner's permission. The Requesting Party will be billed for nonrecurring and recurring charges for accessing UNTW pairs at the time the Requesting Party activates the pair(s). The Requesting Party will notify the Provisioning Party within five (5) business days of activating UNTW pairs using the LSR form.
- 2.4.3.3.9 If a trouble exists on a UNTW pair, the Requesting Party may use an alternate spare pair that serves that End User if a spare pair is available. In such cases, the Requesting Party will re-terminate its existing jumper from the defective pair to the spare pair. Alternatively, the Requesting Party will isolate and report troubles in the manner specified by the Provisioning Party. The Requesting Party must tag the UNTW pair that requires repair. If the Provisioning Party dispatches a technician on a reported trouble call and no UNTW trouble is found, the Provisioning Party will charge Requesting Party for time spent on the dispatch and testing the UNTW pair(s).
- 2.4.3.3.10 If the Requesting Party initiates the Access Terminal installation and the Requesting Party has not activated at least ten percent (10%) of the capacity of the Access Terminal installed pursuant to the Requesting Party's request for an Access Terminal within six (6) months of installation of the Access Terminal, the Provisioning Party will bill the Requesting Party a nonrecurring charge equal to the actual cost of provisioning the Access Terminal.
- 2.4.3.3.11 If the Provisioning Party determines that the Requesting Party is using the UNTW pairs without reporting the activation of the pairs, the Requesting Party will be billed for the use of that pair back to the date the End User began receiving service from the Requesting Party at that location. Upon request, the Requesting Party will provide copies of its billing record to substantiate such date. If the Requesting Party fails to provide such records, then the Provisioning Party will bill the Requesting Party back to the date of the Access Terminal installation.
- 2.4.4 Dark Fiber Loop
- 2.4.4.1 Dark Fiber Loop is an unused optical transmission facility, without attached signal regeneration, multiplexing, aggregation or other electronics, from the demarcation point at an End User's premises to the End User's serving wire center. Dark Fiber Loops may be strands of optical fiber existing in aerial or underground structure. BellSouth will not provide line terminating elements, regeneration or other electronics necessary for DPI-Teleconnect to utilize Dark Fiber Loops.
- 2.4.4.2 Transition for Dark Fiber Loop
- 2.4.4.2.1 For purposes of this Section 2.4.4, the Transition Period for Dark Fiber Loops is the eighteen (18) month period beginning March 11, 2005 and ending September 10, 2006.

- 2.4.4.2.2 For purposes of this Section 2.4.4, Embedded Base means Dark Fiber Loops that were in service for DPI-Teleconnect as of March 10, 2005. For the state of South Carolina, during the Transition Period DPI-Teleconnect shall be entitled to order and BellSouth shall provision moves, changes and additions of and to Dark Fiber Loops that DPI-Teleconnect orders for the purpose of serving CLEC's existing Dark Fiber Loop End Users as of March 10, 2005, at such End Users' new or existing physical locations, and such facilities shall be included in the Embedded Base. Subsequent disconnects or loss of End Users shall be removed from the Embedded Base.
- 2.4.4.3 During the Transition Period only, BellSouth shall make available for the Embedded Base Dark Fiber Loops for DPI-Teleconnect at the terms and conditions set forth in this Attachment.
- 2.4.4.4 Notwithstanding the Effective Date of this Agreement, the rates for DPI-Teleconnect's Embedded Base of Dark Fiber Loops during the Transition Period shall be equal to the higher of 115% of the rate paid for that element on June 15, 2004 or 115% of a new rate the Commission establishes, if any, between June 16, 2004 and March 11, 2005. These rates shall be as set forth in Exhibit A to Attachment 2 of the Agreement and this Section 2.4.4.4.
- 2.4.4.5 The Transition Period shall apply only to DPI-Teleconnect's Embedded Base and DPI-Teleconnect shall not add new Dark Fiber Loops pursuant to this Agreement.
- 2.4.4.6 Effective September 11, 2006, Dark Fiber Loops will no longer be made available pursuant to this Agreement.
- 2.4.4.7 No later than June 10, 2006 DPI-Teleconnect shall submit spreadsheet(s) identifying all of the Embedded Base of circuits to be either disconnected or converted to other BellSouth services as Conversions pursuant to Section 1.3 above. The Parties shall negotiate a project schedule for the Conversion of the Embedded Base.
- 2.4.4.7.1 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 2.4.4.7 above for all of its Embedded Base prior to June 10, 2006, BellSouth will identify DPI-Teleconnect's remaining Embedded Base, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth pursuant to this Section 2.4.4.7.1 shall be subject to all applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
- 2.4.4.7.2 For Embedded Base circuits converted pursuant to Section 2.4.4.7 above or transitioned pursuant to Section 2.4.4.7.1 above, the applicable recurring tariff charge shall apply to each circuit as of the earlier of the date each circuit is converted or transitioned, as applicable, or September 11, 2006.

3 Line Splitting

3.1 Line splitting shall mean that a provider of data services (a Data LEC) and a provider of voice services (a Voice CLEC) to deliver voice and data service to End Users over the same Loop. The Voice CLEC and Data LEC may be the same or different carriers.

3.2 Line Splitting – UNE-L. In the event DPI-Teleconnect provides its own switching or obtains switching from a third party, DPI-Teleconnect may engage in line splitting arrangements with another CLEC using a splitter, provided by DPI-Teleconnect, in a Collocation Space at the central office where the loop terminates into a distribution frame or its equivalent.

3.3 Provisioning Line Splitting and Splitter Space – UNE-L

3.3.1 The Voice CLEC provides the splitter when providing Line Splitting with UNE-L. When DPI-Teleconnect owns the splitter, Line Splitting requires the following: a loop from NID at the End User's location to the serving wire center and terminating into a distribution frame or its equivalent.

3.4 CLEC Provided Splitter – Line Splitting – UNE-L

3.4.1 To order High Frequency Spectrum on a particular Loop, DPI-Teleconnect must have a DSLAM collocated in the central office that serves the End User of such Loop.

3.4.2 DPI-Teleconnect may purchase, install and maintain central office POTS splitters in its collocation arrangements. DPI-Teleconnect may use such splitters for access to its customers and to provide digital line subscriber services to its customers using the High Frequency Spectrum. Existing Collocation rules and procedures and the terms and conditions relating to Collocation set forth in Attachment 4-Central Office shall apply.

3.4.3 Any splitters installed by DPI-Teleconnect in its collocation arrangement shall comply with ANSI T1.413, Annex E, or any future ANSI splitter Standards. DPI-Teleconnect may install any splitters that BellSouth deploys or permits to be deployed for itself or any BellSouth affiliate.

3.5 Maintenance – Line Splitting – UNE-L

3.5.1 BellSouth will be responsible for repairing voice troubles and the troubles with the physical loop between the NID at the End User's premises and the termination point.

3.5.2 DPI-Teleconnect shall indemnify, defend and hold harmless BellSouth from and against any claims, losses, actions, causes of action, suits, demands, damages, injury, and costs including reasonable attorney fees, which arise out of actions

related to the other service provider, except to the extent caused by BellSouth's gross negligence or willful misconduct.

4 EEL Audits

- 4.1 BellSouth may, on an annual basis, audit DPI-Teleconnect's records in order to verify compliance with the qualifying service eligibility criteria. The audit shall be conducted by a third party independent auditor, and the audit must be performed in accordance with the standards established by the American Institute for Certified Public Accountants (AICPA). To the extent the independent auditor's report concludes that DPI-Teleconnect failed to comply with the service eligibility criteria, DPI-Teleconnect must true-up any difference in payments, convert all noncompliant circuits to the appropriate service, and make the correct payments on a going-forward basis. In the event the auditor's report concludes that DPI-Teleconnect did not comply in any material respect with the service eligibility criteria, DPI-Teleconnect shall reimburse BellSouth for the cost of the independent auditor. To the extent the auditor's report concludes that DPI-Teleconnect did comply in all material respects with the service eligibility criteria, BellSouth will reimburse DPI-Teleconnect for its reasonable and demonstrable costs associated with the audit. DPI-Teleconnect will maintain appropriate documentation to support its certifications.
- 4.2 In the event DPI-Teleconnect converts special access services to UNEs, DPI-Teleconnect shall be subject to the termination liability provisions in the applicable special access tariffs, if any.

5 Dedicated Transport and Dark Fiber Transport

- 5.1 Dedicated Transport. Dedicated Transport is defined as BellSouth's transmission facilities between wire centers or switches owned by BellSouth, or between wire centers or switches owned by BellSouth and switches owned by DPI-Teleconnect, including but not limited to DS1, DS3 and OCn level services, as well as dark fiber, dedicated to DPI-Teleconnect. BellSouth shall not be required to provide access to OCn level Dedicated Transport under any circumstances pursuant to this Agreement. In addition, except as set forth in Section 5.2 below, BellSouth shall not be required to provide to DPI-Teleconnect unbundled access to interoffice transmission facilities that do not connect a pair of wire centers or switches owned by BellSouth ("Entrance Facilities").
- 5.2 Transition for DS1 and DS3 Dedicated Transport Including DS1 and DS3 Entrance Facilities
- 5.2.1 For purposes of this Section 5.2, the Transition Period for the Embedded Base of DS1 and DS3 Dedicated Transport, Embedded Base Entrance Facilities and for

Excess DS1 and DS3 Dedicated Transport, is the twelve (12) month period beginning March 11, 2005 and ending March 10, 2006.

- 5.2.2 For purposes of this Section 5.2, Embedded Base means DS1 and DS3 Dedicated Transport that were in service for DPI-Teleconnect as of March 10, 2005 in those wire centers that, as of such date, met the criteria set forth in Sections 5.2.6.1 or 5.2.6.2 below. For the state of South Carolina, during the Transition Period DPI-Teleconnect shall be entitled to order and BellSouth shall provision moves, changes and additions of and to DS1 and DS3 Dedicated Transport that DPI-Teleconnect orders for the purpose of serving CLEC's existing DS1 and DS3 Dedicated Transport End Users as of March 10, 2005, at such End Users' new or existing physical locations, and such facilities shall be included in the Embedded Base. Subsequent disconnects or loss of End Users shall be removed from the Embedded Base.
- 5.2.3 For purposes of this Section 5, Embedded Base Entrance Facilities mean Entrance Facilities that were in service for DPI-Teleconnect as of March 10, 2005. Subsequent disconnects or loss of customers shall be removed from the Embedded Base.
- 5.2.4 For purposes of this Section 5, Excess DS1 and DS3 Dedicated Transport mean those DPI-Teleconnect DS1 and DS3 Dedicated Transport facilities in service as of March 10, 2005, in excess of the caps set forth in Section 5.6 below. Subsequent disconnects and loss of End Users shall be removed from Excess DS1 and DS3 Loops.
- 5.2.5 For purposes of this Section 5.2, a Business Line is as defined in 47 C.F.R. § 51.5.
- 5.2.6 Notwithstanding anything to the contrary in this Agreement, BellSouth shall make available Dedicated Transport as described in this Section 5.2 only for DPI-Teleconnect's Embedded Base and Excess Dedicated Transport during the Transition Period:
- 5.2.6.1 DS1 Dedicated Transport where both wire centers at the end points of the route contain 38,000 or more Business Lines or four (4) or more fiber-based collocators.
- 5.2.6.2 DS3 Dedicated Transport where both wire centers at the end points of the route contain 24,000 or more Business Lines or three (3) or more fiber-based collocators.
- 5.2.6.3 A list of wire centers meeting the criteria set forth in Sections 5.2.6.1 or 5.2.6.2 above as of March 10, 2005, as ordered by the Public Service Commission of South Carolina in Docket No. 2004-316-C (Initial Wire Center List), is attached to BellSouth's Carrier Notification Letter SN91086058, dated March 20, 2006, which is available on BellSouth's Interconnection Services Web site.

- 5.2.6.4 Notwithstanding anything to the contrary in this Agreement, BellSouth shall make available Entrance Facilities only for <DPI-Teleconnect's Embedded Base Entrance Facilities and only during the Transition Period.
- 5.2.6.5 Notwithstanding the Effective Date of this Agreement, during the Transition Period, the rates for DPI-Teleconnect's Embedded Base of DS1 and DS3 Dedicated Transport, DPI-Teleconnect's Excess DS1 and DS3 Dedicated Transport, and DPI-Teleconnect's Embedded Base Entrance Facilities as described in this Section 5.2, shall be equal to the higher of 115% of the rate paid for that element on June 15, 2004 or 115% of a new rate the Commission establishes, if any, between June 16, 2004 and March 11, 2005. These rates shall be as set forth in Exhibit A to Attachment 2 of the Agreement and this Section 5.2.6.5.
- 5.2.6.6 The Transition Period shall apply only to (1) DPI-Teleconnect's Embedded Base and Embedded Base Entrance Facilities; and (2) DPI-Teleconnect's Excess DS1 and DS3 Dedicated Transport. DPI-Teleconnect shall not add new Entrance Facilities pursuant to this Agreement. Further, DPI-Teleconnect shall not add new DS1 or DS3 Dedicated Transport as described in this Section 5.2 pursuant to this Agreement, except pursuant to the self-certification process as set forth in Section 1.5 above of and as set forth in Section 5.2.6.10 below.
- 5.2.6.7 Once a wire center exceeds either of the thresholds set forth in Section 5.2.6.1 above, no future DS1 Dedicated Transport unbundling will be required in that wire center.
- 5.2.6.8 Once a wire center exceeds either of the thresholds set forth in Section 5.2.6.2 above, no future DS3 Dedicated Transport will be required in that wire center.
- 5.2.6.9 No later than December 9, 2005 DPI-Teleconnect shall submit spreadsheet(s) identifying all of the Embedded Base of circuits, Embedded Base Entrance Facilities, and Excess DS1 and DS3 Dedicated Transport to be either disconnected or converted to other BellSouth services pursuant to Section 1.3 above. The Parties shall negotiate a project schedule for the Conversion of the Embedded Base, Embedded Base Entrance Facilities and Excess DS1 and DS3 Dedicated Transport.
- 5.2.6.9.1 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 5.2.6.9 above for all of its Embedded Base, Embedded Base Entrance Facilities and Excess DS1 and DS3 Dedicated Transport prior to December 9, 2005, BellSouth will identify DPI-Teleconnect's remaining Embedded Base, Embedded Base Entrance Facilities and Excess DS1 and DS3 Dedicated Transport, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth pursuant to this Section 5.2.6.9.1 shall be subject to all applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.

- 5.2.6.9.2 For Embedded Base circuits, Embedded Base Entrance Facilities and Excess DS1 and DS3 Dedicated Transport converted pursuant to Section 5.2.6.9 or transitioned pursuant to Section 5.2.6.9.1 above, the applicable recurring tariff charge shall apply to each circuit as of the earlier of the date each circuit is converted or transitioned, as applicable, or March 11, 2006.
- 5.2.6.10 Modifications and Updates to the Wire Center List and Subsequent Transition Periods
- 5.2.6.10.1 In the event BellSouth identifies additional wire centers that meet the criteria set forth in Sections 5.2.6.1 or 5.2.6.2 above, but that were not included in the Initial Wire Center List, BellSouth shall include such additional wire centers in CNL. Each such list of additional wire centers shall be considered a Subsequent Wire Center List.
- 5.2.6.10.2 Effective ten (10) business days after the date of a BellSouth CNL providing a Subsequent Wire Center List, BellSouth shall not be required to provide DS1 and DS3 Dedicated Transport, as applicable, in such additional wire center(s), except pursuant to the self-certification process as set forth in Section 1.5 above.
- 5.2.6.10.3 For purposes of Section 5.2.6.10 above, BellSouth shall make available DS1 and DS3 Dedicated Transport that was in service for DPI-Teleconnect in a wire center on the Subsequent Wire Center List as of the tenth (10th) business day after the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Embedded Base) until ninety (90) days after the tenth (10th) business day from the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Transition Period).
- 5.2.6.10.4 Subsequent disconnects or loss of End Users shall be removed from the Subsequent Embedded Base.
- 5.2.6.10.5 The rates set forth in Exhibit A of Attachment 2 of the Agreement plus 15% shall apply to the Subsequent Embedded Base during the Subsequent Transition Period.
- 5.2.6.10.6 No later than forty (40) days from BellSouth's CNL identifying the Subsequent Wire Center List DPI-Teleconnect shall submit a spreadsheet(s) identifying the Subsequent Embedded Base of circuits to be disconnected or converted to other BellSouth services. The Parties shall negotiate a project schedule for the Conversion of the Subsequent Embedded Base.
- 5.2.6.10.6.1 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 5.2.6.10.6 above for all of its Subsequent Embedded Base within forty (40) days after the date of BellSouth's CNL identifying the Subsequent Wire Center List, BellSouth will identify DPI-Teleconnect's remaining Subsequent Embedded Base, if any, and will transition such circuits to the equivalent tariffed BellSouth

service(s). Those circuits identified and transitioned by BellSouth shall be subject to the applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.

5.2.6.10.7 For Subsequent Embedded Base circuits converted pursuant to Section 5.2.6.10.6 above or transitioned pursuant to Section 5.2.6.10.6.1 above, the applicable recurring tariff charges shall apply as of the earlier of the date each circuit is converted or transitioned, as applicable, or the first day after the end of the Subsequent Transition Period.

5.3 BellSouth shall:

5.3.1 Provide DPI-Teleconnect exclusive use of Dedicated Transport to a particular customer or carrier;

5.3.2 Provide all technically feasible features, functions, and capabilities of Dedicated Transport as outlined within the technical requirements of this section;

5.3.3 Permit, to the extent technically feasible, DPI-Teleconnect to connect Dedicated Transport to equipment designated by DPI-Teleconnect, including but not limited to, DPI-Teleconnect's collocated facilities; and

5.3.4 Permit, to the extent technically feasible, DPI-Teleconnect to obtain the functionality provided by BellSouth's digital cross-connect systems.

5.4 BellSouth shall offer Dedicated Transport:

5.4.1 As capacity on a shared facility; and

5.4.2 As a circuit (i.e., DS0, DS1, DS3, STS-1) dedicated to DPI-Teleconnect.

5.5 Dedicated Transport may be provided over facilities such as optical fiber, copper twisted pair, and coaxial cable, and shall include transmission equipment such as line terminating equipment, amplifiers, and regenerators.

5.6 DPI-Teleconnect may obtain a maximum of twelve (12) unbundled DS3 Dedicated Transport circuits on each route where DS3 Dedicated Transport is available as a Network Element, and a maximum of ten (10) unbundled DS1 Dedicated Transport circuits on each Route where there is no 251(c)(3) unbundling obligation for DS3 Dedicated Transport but for which impairment exists for DS1 Dedicated Transport. A route is defined as a transmission path between one of BellSouth's wire centers or switches and another of BellSouth's wire centers or switches. A route between two (2) points may pass through one or more intermediate wire centers or switches. Transmission paths between identical end

points are the same “route”, irrespective of whether they pass through the same intermediate wire centers or switches, if any.

5.7 Technical Requirements

5.7.1 BellSouth shall offer DS0 equivalent interface transmission rates for DS0 or voice grade Dedicated Transport. For DS1 or DS3 circuits, Dedicated Transport shall at a minimum meet the performance, availability, jitter, and delay requirements specified for Customer Interface to Central Office (CI to CO) connections in the applicable industry standards.

5.7.2 BellSouth shall offer the following interface transmission rates for Dedicated Transport:

5.7.2.1 DS0 Equivalent;

5.7.2.2 DS1;

5.7.2.3 DS3;

5.7.2.4 STS-1; and

5.7.2.5 SDH (Synchronous Digital Hierarchy) Standard interface rates are in accordance with International Telecommunications Union (ITU) Recommendation G.707 and Plesiochronous Digital Hierarchy (PDH) rates per ITU Recommendation G.704.

5.7.3 BellSouth shall design Dedicated Transport according to its network infrastructure. DPI-Teleconnect shall specify the termination points for Dedicated Transport.

5.7.4 At a minimum, Dedicated Transport shall meet each of the requirements set forth in the applicable industry technical references and BellSouth Technical References;

5.7.4.1 Telcordia TR-TSY-000191 Alarm Indication Signals Requirements and Objectives, Issue 1, May 1986.

5.7.4.2 BellSouth’s TR73501 LightGate®Service Interface and Performance Specifications, Issue D, June 1995.

5.7.4.3 BellSouth’s TR73525 MegaLink®Service, MegaLink Channel Service and MegaLink Plus Service Interface and Performance Specifications, Issue C, May 1996.

5.8 Dark Fiber Transport. Dark Fiber Transport is defined as Dedicated Transport that consists of unactivated optical interoffice transmission facilities without attached signal regeneration, multiplexing, aggregation or other electronics. Except as set forth in Section 5.8.1 below, BellSouth shall not be required to

provide access to Dark Fiber Transport Entrance Facilities pursuant to this Agreement.

- 5.8.1 Transition for Dark Fiber Transport and Dark Fiber Transport Entrance Facilities
- 5.8.1.1 For purposes of this Section 5.8, the Transition Period for the Embedded Base of Dark Fiber Transport is the eighteen (18) month period beginning March 11, 2005 and ending September 10, 2006.
- 5.8.1.2 For purposes of this Section 5.8, Embedded Base means Dark Fiber Transport that was in service for DPI-Teleconnect as of March 10, 2005 in those wire centers that, as of such date, met the criteria set forth in 5.8.1.4.1. For the state of South Carolina, during the Transition Period DPI-Teleconnect shall be entitled to order and BellSouth shall provision moves, changes and additions of and to Dark Fiber Transport that DPI-Teleconnect orders for the purpose of serving CLEC's existing Dark Fiber Transport End Users as of March 10, 2005, at such End Users' new or existing physical locations, and such facilities shall be included in the Embedded Base. Subsequent disconnects or loss of End Users shall be removed from the Embedded Base.
- 5.8.1.3 For purposes of this Section 5.8, a Business Line is as defined in 47 C.F.R. § 51.5.
- 5.8.1.4 Notwithstanding anything to the contrary in this Agreement, BellSouth shall make available Dark Fiber Transport as described in this Section 5.8 only for DPI-Teleconnect's Embedded Base during the Transition Period:
- 5.8.1.4.1 Dark Fiber Transport where both wire centers at the end points of the route contain twenty-four thousand (24,000) or more Business Lines or three (3) or more fiber-based collocators.
- 5.8.1.5 A list of wire centers meeting the criteria set forth in Section 5.8.1.4 above as of March 10, 2005, ("Initial List") as ordered by the Public Service Commission of South Carolina in Docket No. 2004-316-C (Initial Wire Center List), is attached to BellSouth's Carrier Notification Letter SN91086058, dated March 20, 2006, which is available on BellSouth's Interconnection Services Web site.
- 5.8.1.6 Notwithstanding the Effective Date of this Agreement, during the Transition Period, the rates for DPI-Teleconnect's Embedded Base of Dark Fiber Transport and DPI-Teleconnect's Embedded Base of Dark Fiber Transport Entrance Facilities as described in Section 5.8.1.2 above shall be equal to the higher of 115% of the rate paid for that element on June 15, 2004 or 115% of a new rate the Commission establishes, if any, between June 16, 2004 and March 11, 2005. These rates shall be as set forth in Exhibit A Attachment 2 of the Agreement and this Section 5.8.1.6.

- 5.8.1.7 The Transition Period shall apply only to DPI-Teleconnect's Embedded Base of Dark Fiber Transport and Dark Fiber Entrance Facilities. DPI-Teleconnect shall not add new Dark Fiber Transport as described in this Section 5.8 except pursuant to the self-certification process as set forth in Section 1.5 of this Attachment and as set forth in Section 5.8.1.10 below. Further, DPI-Teleconnect shall not add new Dark Fiber Entrance Facilities pursuant to this Agreement.
- 5.8.1.8 Once a wire center exceeds either of the thresholds set forth in this Section 5.8.1.4 above, no future Dark Fiber Transport unbundling will be required in that wire center.
- 5.8.1.9 No later than June 10, 2006 DPI-Teleconnect shall submit spreadsheet(s) identifying all of the Embedded Base of Dark Fiber Transport and Dark Fiber Entrance Facilities to be either disconnected or converted to other BellSouth services as Conversions pursuant to Section 1.3 above. The Parties shall negotiate a project schedule for the Conversion of the Embedded Base.
- 5.8.1.9.1 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 5.8.1.9 above for all of its Embedded Base prior to June 10, 2006, BellSouth will identify DPI-Teleconnect's remaining Embedded Base, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth pursuant to this Section 5.8.1.9.1 shall be subject to all applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
- 5.8.1.9.2 For Embedded Base circuits converted pursuant to Section 5.8.1.9 above or transitioned pursuant to Section 5.8.1.9.1 above, the applicable recurring tariff charge shall apply to each circuit as of the earlier of the date each circuit is converted or transitioned, as applicable, or September 11, 2006.
- 5.8.1.10 Modifications and Updates to the Wire Center List and Subsequent Transition Periods
- 5.8.1.10.1 In the event BellSouth identifies additional wire centers that meet the criteria set forth in Section 5.8.1.4.1 above, but that were not included in the Initial Wire Center List, BellSouth shall include such additional wire centers in a CNL. Each such list of additional wire centers shall be considered a "Subsequent Wire Center List".
- 5.8.1.10.2 Effective ten (10) business days after the date of a BellSouth CNL providing a Subsequent Wire Center List, BellSouth shall not be required to provide unbundled access to Dark Fiber Transport, as applicable, in such additional wire center(s), except pursuant to the self-certification process as set forth in Section 1.5 above.

- 5.8.1.10.3 For purposes of Section 5.8.1.10, BellSouth shall make available Dark Fiber Transport that were in service for DPI-Teleconnect in a wire center on the Subsequent Wire Center List as of the tenth (10th) business day after the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Embedded Base) until ninety (90) days after the tenth (10th) business day from the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Transition Period).
- 5.8.1.10.4 Subsequent disconnects or loss of End Users shall be removed from the Subsequent Embedded Base. 5.8.1.10.5 The rates set forth in Exhibit A of Attachment 2 of the Agreement plus 15% shall apply to the Subsequent Embedded Base during the Subsequent Transition Period.
- 5.8.1.10.6 No later than forty (40) days from BellSouth's CNL identifying the Subsequent Wire Center List DPI-Teleconnect shall submit a spreadsheet(s) identifying the Subsequent Embedded Base of circuits to be disconnected or converted to other BellSouth services. The Parties shall negotiate a project schedule for the Conversion of the Subsequent Embedded Base.
- 5.8.1.10.6.1 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 5.8.1.10.6 above for all of its Subsequent Embedded Base within forty (40) days after the date of BellSouth's CNL identifying the Subsequent Wire Center List, BellSouth will identify DPI-Teleconnect's remaining Subsequent Embedded Base, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth shall be subject to the applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
- 5.8.1.10.6.2 For Subsequent Embedded Base circuits converted pursuant to Section 5.8.1.10.6 above or transitioned pursuant to Section 5.8.1.10.6.1 above, the applicable recurring tariff charges shall apply as of the earlier of the date each circuit is converted or transitioned, as applicable, or the first day after the end of the Subsequent Transition Period.

6 Automatic Location Identification/Data Management System

6.1 911 and E911 Databases

- 6.1.1 BellSouth shall provide DPI-Teleconnect with nondiscriminatory access to 911 and E911 databases on an unbundled basis, in accordance with 47 C.F.R. § 51.319 (f).
- 6.1.2 The ALI/DMS database contains End User information (including name, address, telephone information, and sometimes special information from the local service provider or End User) used to determine to which PSAP to route the call. The

ALI/DMS database is used to provide enhanced routing flexibility for E911. DPI-Teleconnect will be required to provide the BellSouth 911 database vendor daily service order updates to E911 database in accordance with Section 6.2.1 below.

6.2 Technical Requirements

- 6.2.1 BellSouth's 911 database vendor shall provide DPI-Teleconnect the capability of providing updates to the ALI/DMS database through a specified electronic interface. DPI-Teleconnect shall contact BellSouth's 911 database vendor directly to request interface. DPI-Teleconnect shall provide updates directly to BellSouth's 911 database vendor on a daily basis. Updates shall be the responsibility of DPI-Teleconnect and BellSouth shall not be liable for the transactions between DPI-Teleconnect and BellSouth's 911 database vendor.
- 6.2.2 It is DPI-Teleconnect's responsibility to retrieve and confirm statistical data and to correct errors obtained from BellSouth's 911 database vendor on a daily basis. All errors will be assigned a unique error code and the description of the error and the corrective action is described in the CLEC Users Guide for Facility Based Providers that is found on the BellSouth Interconnection Web site.
- 6.2.3 DPI-Teleconnect shall conform to the BellSouth standards as described in the CLEC Users Guide to E911 for Facilities Based Providers that is located on the BellSouth's Interconnection Web site: www.interconnection.bellsouth.com/guides.
- 6.2.4 Stranded Unlocks are defined as End User records in BellSouth's ALI/DMS database that have not been migrated for over ninety (90) days to DPI-Teleconnect, as a new provider of local service to the End User. Stranded Unlocks are those End User records that have been "unlocked" by the previous local exchange carrier that provided service to the End User and are open for DPI-Teleconnect to assume responsibility for such records.
- 6.2.5 Based upon End User record ownership information available in the NPAC database, BellSouth shall provide a Stranded Unlock annual report to DPI-Teleconnect that reflects all Stranded Unlocks that remain in the ALI/DMS database for over ninety (90) days. DPI-Teleconnect shall review the Stranded Unlock report, identify its End User records and request to either delete such records or migrate the records to DPI-Teleconnect within two (2) months following the date of the Stranded Unlock report provided by BellSouth. DPI-Teleconnect shall reimburse BellSouth for any charges BellSouth's database vendor imposes on BellSouth for the deletion of DPI-Teleconnect's records.

**Amendment to the Agreement
Between
DPI-Teleconnect, LLC
and
BellSouth Telecommunications, Inc.
Dated 4/19/2003**

Pursuant to this Amendment, (the "Amendment"), DPI-Teleconnect, LLC (DPI-Teleconnect), and BellSouth Telecommunications, Inc. (BellSouth), hereinafter referred to collectively as the "Parties", hereby agree to amend that certain Interconnection Agreement between the Parties dated 4/19/2003 (Agreement).

WHEREAS, BellSouth and DPI-Teleconnect have entered into good faith negotiations pursuant to the Act to renegotiate an interconnection agreement (New Agreement) to replace the existing Agreement between the Parties, which expired on 4/18/2006; and

WHEREAS, the Parties desire to extend the term of the Agreement; and

WHEREAS, on March 1, 2006, the North Carolina Public Utilities Commission ("Commission") issued its Order in Docket No. P-55, Sub 1549 (Order), Proceeding to Consider Amendments to Interconnection Agreements Between BellSouth Telecommunications, Inc. and Competing Local Providers Due to Changes of Law.

WHEREAS, the Parties are obligated to amend the Agreement to bring it in compliance with the Commission's Order;

NOW, THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. The Parties hereby agree to extend the term of the Agreement by ninety (90) days following the date of the last signature of this Amendment. Other than the modification of the expiration date as described in this Amendment, all provisions in Section 2 of the General Terms and Conditions of the Agreement relating to the term and termination of the Agreement remain in full force and effect.
2. The Parties hereby agree to incorporate into the Agreement the contract provisions set forth in Exhibit A hereto, and such contract provisions shall apply to services provided in the State of North Carolina only.
3. The Parties hereby agree to incorporate into the Agreement the rates set forth in Exhibit B hereto, and such rates shall apply to services provided in the State of North Carolina only.
4. To the extent that such contract provisions or rates as set forth in Exhibits A and B hereto conflict with any other rates, terms and conditions in the Agreement, the

contract provisions and rates in Exhibits A and B shall prevail in the State of North Carolina.

5. Further, to the extent that defined terms in this Amendment differ from defined terms in the Agreement, such defined terms in the Agreement shall be deemed to have the same meaning as the alternative defined terms in this Amendment to the extent necessary to give full effect to this Amendment consistent with the North Carolina Utilities Commission's Order.
6. This Amendment shall be approved on the date the North Carolina Public Utilities Commission issues an order approving the Amendment (Approved Date) and shall be deemed effective on March 11, 2006 (Effective Date).
7. All of the other provisions of the Agreement shall remain in full force and effect.
8. Either or both of the Parties is authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties have executed this Amendment the day and year written below.

BellSouth Telecommunications, Inc.

Issue 1 – What is the appropriate language to implement the FCC’s transition plan for: (1) switching; (2) high-capacity loops; and (3) dedicated transport as detailed in the FCC’s TRRO, issued February 4, 2005?

1. 4-wire Unbundled DS1 Digital Loop
 - 1.1 This is a designed 4-wire Loop that is provisioned according to industry standards for DS1 or Primary Rate ISDN services and will come standard with a test point, OC, and a DLR. A DS1 Loop may be provisioned over a variety of loop transmission technologies including copper, HDSL-based technology or fiber optic transport systems. It will include a 4-wire DS1 Network Interface at the End User’s location.
 - 1.2 DS3 Loop. DS3 Loop is a two-point digital transmission path which provides for simultaneous two-way transmission of serial, bipolar, return-to-zero isochronous digital electrical signals at a transmission rate of forty-four point seven thirty-six (44.736) megabits per second (Mbps) that is dedicated to the use of the ordering CLEC in its provisioning of local exchange and associated exchange access services. It may provide transport for twenty-eight (28) DS1 channels, each of which provides the digital equivalent of twenty-four (24) analog voice grade channels. The interface to unbundled dedicated DS3 transport is a metallic-based electrical interface.

2. Transition for DS1 and DS3 Loops

- 2.1 For purposes of this Section 2, the Transition Period for the Embedded Base of DS1 and DS3 Loops and for the Excess DS1 and DS3 Loops (defined in 2.3) is the twelve (12) month period beginning March 11, 2005 and ending March 10, 2006.
- 2.2 For purposes of this Section 2, Embedded Base means DS1 and DS3 Loops that were in service for DPI-Teleconnect as of March 10, 2005 in those wire centers that, as of such date, met the criteria set forth in Sections 2.6.1 or 2.6.2 below. Subsequent disconnects or loss of End Users shall be removed from the Embedded Base.
- 2.3 Excess DS1 and DS3 Loops are those DPI-Teleconnect DS1 and DS3 Loops in service as of March 10, 2005, in excess of the caps set forth in Section 2.4 below, respectively. Subsequent disconnects or loss of End Users shall be removed from Excess DS1 and DS3 Loops.
- 2.4 BellSouth shall not provide more than ten (10) unbundled DS1 Loops to DPI-Teleconnect at any single building in which DS1 Loops are available as unbundled loops. DPI-Teleconnect may obtain a maximum of a single Unbundled DS3 loop to any single building in which DS3 Loops are available as Unbundled Loops.
- 2.5 For purposes of this Section 2, a Business Line is defined in 47 C.F.R. § 51.5.
- 2.6 Notwithstanding anything to the contrary in this Agreement, and except as set forth in Section 11 below, BellSouth shall make available DS1 and DS3 Loops as described in this Section 2.6 only for DPI-Teleconnect's Embedded Base during the Transition Period:
- 2.6.1 DS1 Loops at any location within the service area of a wire center containing 60,000 or more Business Lines and four (4) or more fiber-based collocators.
- 2.6.2 DS3 Loops at any location within the service area of a wire center containing 38,000 or more Business Lines and four (4) or more fiber-based collocators.
- 2.7 A list of wire centers meeting the criteria set forth in Sections 2.6.1 and 2.6.2 above as ordered by the North Carolina Utilities Commission in Docket No. P-55, Sub 1549 (Initial Wire Center List), is attached to BellSouth's Carrier Notification Letter SNxxxxx, dated xxx, which is available on BellSouth's Interconnection Services Web site.
- 2.8 Transition Period Pricing. From March 11, 2005, through the completion of the Transition Period, BellSouth shall charge a rate for DPI-Teleconnect's Embedded Base and DPI-Teleconnect's Excess DS1 and DS3 Loops equal to the higher of:

- 2.8.1 115% of the rate paid for that element on June 15, 2004; or
- 2.8.2 115% of a new rate the Commission establishes, if any, between June 16, 2004 and March 11, 2005.
- 2.8.3 These rates shall be as set forth in Exhibit A to Attachment 2 of the Agreement and this Section 2.8.
- 2.9 The Transition Period shall apply only to (1) DPI-Teleconnect's Embedded Base and (2) DPI-Teleconnect's Excess DS1 and DS3 Loops. DPI-Teleconnect shall not add new DS1 or DS3 loops as described in this Section 2.9 pursuant to this Agreement, except pursuant to the self-certification process as set forth in Section 6 of this Attachment and as set forth in Section 11 below.
- 2.10 Once a wire center exceeds both of the thresholds set forth in Section 2.6.1 above, no future DS1 Loop unbundling will be required in that wire center.
- 2.11 Once a wire center exceeds both of the thresholds set forth in Section 2.6.1 above, no future DS3 Loop unbundling will be required in that wire center.
- 2.12 No later than March 10, 2006 or by other mutually agreed upon date DPI-Teleconnect shall submit spreadsheet(s) identifying all of the Embedded Base of circuits and Excess DS1 and DS3 Loops to be either disconnected or converted to other BellSouth services pursuant to Section 20.1 below. The Parties shall negotiate a project schedule for the Conversion of the Embedded Base and Excess DS1 and DS3 Loops.
- 2.13 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 2.12 above for all of its Embedded Base and Excess DS1 and DS3 Loops prior to March 10, 2006 or by other mutually agreed upon date, BellSouth will identify DPI-Teleconnect's remaining Embedded Base and Excess DS1 and DS3 Loops, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s) effective March 11, 2006. Those circuits identified and transitioned by BellSouth pursuant to this Section 2.13 shall be subject to all applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
- 2.14 For Embedded Base circuits and Excess DS1 and DS3 Loops converted pursuant to Section 2.12 above or transitioned pursuant to Section 2.13 above, the applicable recurring tariff charge shall apply to each circuit as of March 11, 2006.
- 2.15 To the extent that DPI-Teleconnect no longer desires to provide a particular service, it must notify BellSouth of its intent to discontinue and the parties must coordinate the disconnect to take place prior the conclusion of the applicable transition period. DPI-Teleconnect must also adhere to Commission Rule R17-2(q) regarding the discontinuance of service to customers.

North Carolina Generic Change of Law Amendment
Exhibit A

Version: NC COL Amendment
CLEC with CA and IA Amendment
03/13/06

3. Dark Fiber Loop

3.1 Dark Fiber Loop is an unused optical transmission facility, without attached signal regeneration, multiplexing, aggregation or other electronics, from the demarcation point at an End User's premises to the End User's serving wire center. Dark Fiber Loops may be strands of optical fiber existing in aerial or underground structure. BellSouth will not provide line terminating elements, regeneration or other electronics necessary for DPI-Teleconnect to utilize Dark Fiber Loops.

3.2 Transition for Dark Fiber Loop

3.2.1 For purposes of this Section 3, the Transition Period for Dark Fiber Loops is the eighteen (18) month period beginning March 11, 2005 and ending September 10, 2006.

3.2.2 For purposes of this Section 3, Embedded Base means Dark Fiber Loops that were in service for DPI-Teleconnect as of March 10, 2005. Subsequent disconnects or loss of End Users shall be removed from the Embedded Base.

3.2.3 During the Transition Period only, BellSouth shall make available for the Embedded Base Dark Fiber Loops for DPI-Teleconnect at the terms and conditions set forth in this Attachment.

3.2.4 Transition Period Pricing. From March 11, 2005, through the completion of the Transition Period, BellSouth shall charge a rate for DPI-Teleconnect's Embedded Base of Dark Fiber Loops equal to the higher of:

3.2.4.1 115% of the rate paid for that element on June 15, 2004; or

3.2.4.2 115% of a new rate the Commission establishes, if any, between June 16, 2004 and March 11, 2005.

3.2.4.3 These rates shall be as set forth in Exhibit A to Attachment 2 of the Agreement and this Section 3.2.4.

3.2.5 The Transition Period shall apply only to DPI-Teleconnect's Embedded Base and DPI-Teleconnect shall not add new Dark Fiber Loops pursuant to this Agreement.

3.2.6 Effective September 11, 2006, Dark Fiber Loops will no longer be made available pursuant to this Agreement.

3.2.7 No later than June 10, 2006 DPI-Teleconnect shall submit spreadsheet(s) identifying all of the Embedded Base of circuits to be either disconnected or converted to other BellSouth services as Conversions pursuant to Section 20.1 below. The Parties shall negotiate a project schedule for the Conversion of the Embedded Base.

3.2.8 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 3.2.7 above for all of its Embedded Base prior to June 10, 2006, BellSouth

will identify DPI-Teleconnect's remaining Embedded Base, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s) effective September 10, 2006. Those circuits identified and transitioned by BellSouth pursuant to this Section 3.2.8 shall be subject to all applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.

3.2.9 For Embedded Base circuits converted pursuant to Section 3.2.7 above or transitioned pursuant to Section 3.2.8 above, the applicable recurring tariff charge shall apply to each circuit as of September 11, 2006.

3.2.10 To the extent that DPI-Teleconnect no longer desires to provide a particular service, it must notify BellSouth of its intent to discontinue and the parties must coordinate the disconnect to take place prior the conclusion of the applicable transition period. DPI-Teleconnect must also adhere to Commission Rule R17-2(q) regarding the discontinuance of service to customers.

4. Dedicated Transport and Dark Fiber Transport

4.1 Dedicated Transport. Dedicated Transport is defined as BellSouth's transmission facilities between wire centers or switches owned by BellSouth, or between wire centers or switches owned by BellSouth and switches owned by DPI-Teleconnect, including but not limited to DS1, DS3 and OCn level services, as well as dark fiber, dedicated to DPI-Teleconnect. BellSouth shall not be required to provide access to OCn level Dedicated Transport under any circumstances pursuant to this Agreement. In addition, except as set forth in Section 4.2 below, BellSouth shall not be required to provide to DPI-Teleconnect unbundled access to interoffice transmission facilities that do not connect a pair of wire centers or switches owned by BellSouth ("Entrance Facilities").

4.2 Transition for DS1 and DS3 Dedicated Transport Including DS1 and DS3 Entrance Facilities

4.2.1 For purposes of this Section 4.2, the Transition Period for the Embedded Base of DS1 and DS3 Dedicated Transport, Embedded Base Entrance Facilities and for Excess DS1 and DS3 Dedicated Transport, is the twelve (12) month period beginning March 11, 2005 and ending March 10, 2006.

4.2.2 For purposes of this Section 4.2, Embedded Base means DS1 and DS3 Dedicated Transport that were in service for DPI-Teleconnect as of March 10, 2005 in those wire centers that, as of such date, met the criteria set forth in Sections 4.2.7.1 or 4.2.7.2 below. Subsequent disconnects or loss of End Users shall be removed from the Embedded Base.

4.2.3 For purposes of this Section 4.2, Embedded Base Entrance Facilities means Entrance Facilities that were in service for DPI-Teleconnect as of March 10, 2005. Subsequent disconnects or loss of customers shall be removed from the Embedded Base.

4.2.4 DPI-Teleconnect may obtain a maximum of twelve (12) unbundled DS3 Dedicated Transport circuits on each route where DS3 Dedicated Transport is available as a Network Element, and a maximum of ten (10) unbundled DS1 Dedicated Transport circuits on each Route where there is no 251(c)(3) unbundling obligation for DS3 Dedicated Transport but for which impairment exists for DS1 Dedicated Transport.

4.2.5 For purposes of this Section 4.2, Excess DS1 and DS3 Dedicated Transport means those DPI-Teleconnect DS1 and DS3 Dedicated Transport facilities in service as of March 10, 2005, in excess of the caps set forth in Section 4.2.4 above. Subsequent disconnects and loss of End Users shall be removed from Excess DS1 and DS3 Loops.

4.2.6 For purposes of this Section 4.2, a Business Line is as defined in 47 C.F.R. § 51.5.

- 4.2.7 Notwithstanding anything to the contrary in this Agreement, BellSouth shall make available Dedicated Transport as described in this Section 4.2 only for DPI-Teleconnect's Embedded Base during the Transition Period:
- 4.2.7.1 DS1 Dedicated Transport where both wire centers at the end points of the route contain 38,000 or more Business Lines or four (4) or more fiber-based collocators.
- 4.2.7.2 DS3 Dedicated Transport where both wire centers at the end points of the route contain 24,000 or more Business Lines or three (3) or more fiber-based collocators.
- 4.2.7.3 A list of wire centers meeting the criteria set forth in Sections 4.2.7.1 or 4.2.7.2 above as ordered by the North Carolina Utilities Commission in Docket No. P-55, Sub 1549 (Initial Wire Center List), is attached to BellSouth's Carrier Notification Letter SNxxxxx, dated xx, which is available on BellSouth's Interconnection Services Web site,
- 4.2.8 Notwithstanding anything to the contrary in this Agreement, BellSouth shall make available Entrance Facilities only for <DPI-Teleconnect's Embedded Base Entrance Facilities and only during the Transition Period.
- 4.2.9 Transition Period Pricing. From March 11, 2005, through the completion of the Transition Period, BellSouth shall charge a rate for DPI-Teleconnect's Embedded Base of DS1 and DS3 Dedicated Transport and for DPI-Teleconnect's Excess DS1 and DS3 Dedicated Transport, as described in this Section 4.2, equal to the higher of:
- 4.2.9.1 115% of the rate paid for that element on June 15, 2004; or
- 4.2.9.2 115% of a new rate the Commission establishes, if any, between June 16, 2004 and March 11, 2005.
- 4.2.9.3 These rates shall be as set forth in Exhibit A to Attachment 2 of the Agreement and this Section 4.2.9.
- 4.2.9.4 From March 11, 2005, through the completion of the Transition Period, BellSouth shall charge a rate for DPI-Teleconnect's Embedded Base Entrance Facilities as set forth in Exhibit A to Attachment 2 of the Agreement and this Section 4.2.9.
- 4.2.10 The Transition Period shall apply only to (1) DPI-Teleconnect's Embedded Base and Embedded Base Entrance Facilities; and (2) DPI-Teleconnect's Excess DS1 and DS3 Dedicated Transport. DPI-Teleconnect shall not add new Entrance Facilities pursuant to this Agreement. Further, DPI-Teleconnect shall not add new DS1 or DS3 Dedicated Transport as described in this Section 4.2 pursuant to this

Agreement, except pursuant to the self-certification process as set forth in Section 6 of this Attachment and as set forth in Section 12 below.

- 4.2.11 Once a wire center exceeds either of the thresholds set forth in this Section 4.2.7.1 above, no future DS1 Dedicated Transport unbundling will be required in that wire center.
- 4.2.12 Once a wire center exceeds either of the thresholds set forth in Section 4.2.7.2 above, no future DS3 Dedicated Transport will be required in that wire center.
- 4.2.13 No later than March 10, 2005 or by other mutually agreed upon date DPI-Teleconnect shall submit spreadsheet(s) identifying all of the Embedded Base of circuits, Embedded Base Entrance Facilities, and Excess DS1 and DS3 Dedicated Transport to be either disconnected or converted to other BellSouth services pursuant to Section 20.1 below. The Parties shall negotiate a project schedule for the Conversion of the Embedded Base, Embedded Base Entrance Facilities and Excess DS1 and DS3 Dedicated Transport.
- 4.2.14 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 4.2.13 above for all of its Embedded Base, Embedded Base Entrance Facilities and Excess DS1 and DS3 Dedicated Transport prior to March 10, 2006 or by other mutually agreed upon date, BellSouth will identify DPI-Teleconnect's remaining Embedded Base, Embedded Base Entrance Facilities and Excess DS1 and DS3 Dedicated Transport, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s) effective March 11, 2006. Those circuits identified and transitioned by BellSouth pursuant to this Section 4.2.14 shall be subject to all applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
- 4.2.15 For Embedded Base circuits, Embedded Base Entrance Facilities and Excess DS1 and DS3 Dedicated Transport converted pursuant to Section 4.2.13 or transitioned pursuant to Section 4.2.14 above, the applicable recurring tariff charge shall apply to each circuit as of March 11, 2006.
- 4.2.16 To the extent that DPI-Teleconnect no longer desires to provide a particular service, it must notify BellSouth of its intent to discontinue and the parties must coordinate the disconnect to take place prior the conclusion of the applicable transition period. DPI-Teleconnect must also adhere to Commission Rule R17-2(q) regarding the discontinuance of service to customers.

- 5. Dark Fiber Transport.** Dark Fiber Transport is defined as Dedicated Transport that consists of unactivated optical interoffice transmission facilities without attached signal regeneration, multiplexing, aggregation or other electronics. Except as set forth in Section 5.1 below, BellSouth shall not be required to provide access to Dark Fiber Transport Entrance Facilities pursuant to this Agreement.
- 5.1 Transition for Dark Fiber Transport and Dark Fiber Transport Entrance Facilities**
- 5.1.1 For purposes of this Section 5, the Transition Period for the Embedded Base of Dark Fiber Transport is the eighteen (18) month period beginning March 11, 2005 and ending September 10, 2006.
- 5.1.2 For purposes of this Section 5, Embedded Base means Dark Fiber Transport that was in service for DPI-Teleconnect as of March 10, 2005 in those wire centers that, as of such date, met the criteria set forth in 5.1.4.1. Subsequent disconnects or loss of End Users shall be removed from the Embedded Base.
- 5.1.3 For purposes of this Section 5.1, a Business Line is as defined in 47 C.F.R. § 51.5.
- 5.1.4 Notwithstanding anything to the contrary in this Agreement, BellSouth shall make available Dark Fiber Transport as described in this Section 5.1 only for DPI-Teleconnect's Embedded Base during the Transition Period:
- 5.1.4.1 Dark Fiber Transport where both wire centers at the end points of the route contain twenty-four thousand (24,000) or more Business Lines or three (3) or more fiber-based collocators.
- 5.1.5 A list of wire centers meeting the criteria set forth in Section 5.1.4 above as ordered by the North Carolina Utilities Commission in Docket No. P-55, Sub 1549, ("Initial List") is attached to BellSouth's Carrier Notification Letter SNxxxxxx, dated xx, which is available on BellSouth's Interconnection Services Web site.
- 5.1.6 Transition Period Pricing. From March 11, 2005, through the completion of the Transition Period, BellSouth shall charge a rate for DPI-Teleconnect's Embedded Base and Excess of Dark Fiber Transport and Embedded Base Dark Fiber Transport Entrance Facilities shall be equal to the higher of:
- 5.1.6.1 115% of the rate paid for that element on June 15, 2004; or
- 5.1.6.2 115% of a new rate the Commission establishes, if any, between June 16, 2004 and March 11, 2005.

- 5.1.6.3 These rates shall be as set forth in Exhibit A Attachment 2 of the Agreement and this Section 5.1.6.
- 5.1.7 The Transition Period shall apply only to DPI-Teleconnect's Embedded Base of Dark Fiber Transport and Dark Fiber Entrance Facilities. DPI-Teleconnect shall not add new Dark Fiber Transport as described in this Section 5.1 except pursuant to the self-certification process as set forth in Section 6 of this Attachment and as set forth in Section 13 below. Further, DPI-Teleconnect shall not add new Dark Fiber Entrance Facilities pursuant to this Agreement.
- 5.1.8 Once a wire center exceeds either of the thresholds set forth in this Section 5.1.4 above, no future Dark Fiber Transport unbundling will be required in that wire center.
- 5.1.9 No later than June 10, 2006 DPI-Teleconnect shall submit spreadsheet(s) identifying all of the Embedded Base of Dark Fiber Transport and Dark Fiber Entrance Facilities to be either disconnected or converted to other BellSouth services as Conversions pursuant to Section 20.1 below. The Parties shall negotiate a project schedule for the Conversion of the Embedded Base.
- 5.1.10 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 5.1.9 above for all of its Embedded Base prior to June 10, 2006, BellSouth will identify DPI-Teleconnect's remaining Embedded Base, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s) effective September 10, 2006. Those circuits identified and transitioned by BellSouth pursuant to this Section 5.1.10 shall be subject to all applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
- 5.1.11 For Embedded Base circuits converted pursuant to Section 5.1.9 above or transitioned pursuant to Section 5.1.10 above, the applicable recurring tariff charge shall apply to each circuit as of September 11, 2006.
- 5.1.12 To the extent that DPI-Teleconnect no longer desires to provide a particular service, it must notify BellSouth of its intent to discontinue and the parties must coordinate the disconnect to take place prior the conclusion of the applicable transition period. DPI-Teleconnect must also adhere to Commission Rule R17-2(q) regarding the discontinuance of service to customers.

6. Prior to submitting an order pursuant to this Agreement for high capacity (DS1 or above) Dedicated Transport or high capacity Loops, DPI-Teleconnect shall undertake a reasonably diligent inquiry to determine whether DPI-Teleconnect is entitled to unbundled access to such Network Elements in accordance with the terms of this Agreement. By submitting any such order, DPI-Teleconnect self-certifies that to the best of DPI-Teleconnect's knowledge, the high capacity Dedicated Transport or high capacity Loop requested is available as a Network Element pursuant to this Agreement. Upon receiving such order, BellSouth shall process the request in reliance upon DPI-Teleconnect's self-certification. To the extent BellSouth believes that such request does not comply with the terms of this Agreement, BellSouth shall seek dispute resolution in accordance with the General Terms and Conditions of this Agreement. If BellSouth prevails in such dispute resolution proceeding, DPI-Teleconnect shall be liable to BellSouth for the difference between the rate for the equivalent BellSouth alternative arrangement and the self certified UNE, plus interest, on such rate differential.

Issue 3 –What is the appropriate language to implement BellSouth's obligation to provide Section 251 unbundled access to high-capacity loops and dedicated

Version: NC COL Amendment
CLEC with CA and IA Amendment
03/13/06

transport and how should the following terms be defined? (i) Business Line; (ii) Fiber-Based Collocator; (iii) Building (iv) Route?

7. A Business Line is defined in 47 CFR § 51.5.
8. A Fiber-Based Collocator is defined in 47 CFR § 51.5.
9. A Building is defined as a permanent physical structure including, but not limited to, a structure in which people reside, or conduct business or work on a daily basis and through which there is one centralized point of entry in the structure through which all telecommunications services must transit. As an example only, a high rise office building with a general telecommunications equipment room through which all telecommunications services to that building's tenants must pass would be a single "building for purposes of this Attachment 2. Two or more physical areas served by a individual points of entry through which telecommunications services must transit will be considered separate buildings. For instance, a strip mall with individual businesses obtaining telecommunications services from different access points on the building(s) will be considered individual buildings, even though they might share common walls.
10. A route is defined as a transmission path between one of BellSouth's wire centers or switches. Transmission paths between identical end points are the same "route", irrespective of whether they pass through the same intermediate wire centers or switches, if any. For the purposes of determining routes wire centers include non-BellSouth locations where BellSouth has reverse collocated switches with line side functionality that terminate loops.

Issue 6 – What language should be included in agreements to reflect the procedures identified in Matrix Item No. 5(b)?

11. Modifications and Updates to the Wire Center List and Subsequent Transition Periods for DS1 and/or DS3 Loops

- 11.1 In the event BellSouth identifies additional wire centers that meet the criteria set forth in Section 2.6 above, but that were not included in the Initial Wire Center List, BellSouth shall include such additional wire centers in a carrier notification letter (CNL). Each such list of additional wire centers shall be considered a “Subsequent Wire Center List”.
- 11.2 Effective thirty (30) business days after the date of a BellSouth CNL providing a Subsequent Wire Center List, BellSouth shall not be required to unbundle DS1 and/or DS3 Loops, as applicable, in such additional wire center(s).
- 11.3 For purposes of this Section 11, BellSouth shall make available DS1 and DS3 Loops that were in service for DPI-Teleconnect in a wire center on the Subsequent Wire Center List as of the thirtieth (30th) business day after the date of BellSouth’s CNL identifying the Subsequent Wire Center List (Subsequent Embedded Base) until one hundred and fifty (150) days after the thirtieth business day from the date of BellSouth’s CNL identifying the Subsequent Wire Center List (Subsequent Transition Period).
- 11.4 Subsequent disconnects or loss of End Users shall be removed from the Subsequent Embedded Base.
- 11.5 The rates set forth in Exhibit A Attachment 2 of the Agreement plus 15% shall apply to the Subsequent Embedded Base during the Subsequent Transition Period.
- 11.6 No later than forty (40) days from BellSouth’s CNL identifying the Subsequent Wire Center List, DPI-Teleconnect shall submit a spreadsheet(s) identifying the Subsequent Embedded Base of circuits to be disconnected or converted to other BellSouth services. The Parties shall negotiate a project schedule for the Conversion of the Subsequent Embedded Base.
- 11.7 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 11.6 above for all of its Subsequent Embedded Base within forty (40) days after the date of BellSouth’s CNL identifying the Subsequent Wire Center List, BellSouth will identify DPI-Teleconnect’s remaining Subsequent Embedded Base, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth shall be subject to the applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth’s tariffs
- 11.8 For Subsequent Embedded Base circuits converted pursuant to Section 11.6 above or transitioned pursuant to Section 11.7 above, the applicable recurring

tariff charges shall apply as of the earlier of the date each circuit is converted or transitioned, as applicable, or the first day after the end of the Subsequent Transition Period.

- 11.9 Where facilities are available, BellSouth will install Loops in compliance with BellSouth's Products and Services Interval Guide available at BellSouth's Web site. For orders of fifteen (15) or more Loops, the installation and any applicable Order Coordination as described below will be handled on a project basis, and the intervals will be set by the BellSouth project manager for that order. When Loops require a Service Inquiry (SI) prior to issuing the order to determine if facilities are available, the interval for the SI process is separate from the installation interval.
- 11.10 In the event that (1) BellSouth designates a wire center as non-impaired, (2) DPI-Teleconnect converts existing UNEs to other services or orders new services as services other than UNEs, (3) DPI-Teleconnect otherwise would have been entitled to UNEs in such wire center at the time alternative services provisioned, and (4) BellSouth acknowledges or a state or federal agency regulatory body with authority determines that, at the time BellSouth designated such wire center as non-impaired, such wire center did not meet the FCC's non-impairment criteria, then upon request of DPI-Teleconnect, BellSouth shall transition to UNEs any alternative services in such wire center that were established after such wire center was designated as non-impaired. In such instances, BellSouth shall refund DPI-Teleconnect the difference between the rate paid by DPI-Teleconnect for such services and the applicable UNE rate, including but not limited to any charges associated with the unnecessary conversion from UNE to other wholesale services.

12. Modifications and Updates to the Wire Center List and Subsequent Transition Periods for DS1 and/or DS3 Transport

- 12.1 In the event BellSouth identifies additional wire centers that meet the criteria set forth in Sections 4.2.11 or 4.2.12 above, but that were not included in the Initial Wire Center List, BellSouth shall include such additional wire centers in CNL. Each such list of additional wire centers shall be considered a Subsequent Wire Center List.
- 12.2 Effective thirty (30) business days after the date of a BellSouth CNL providing a Subsequent Wire Center List, BellSouth shall not be required to provide DS1 and DS3 Dedicated Transport, as applicable, in such additional wire center(s).
- 12.3 For purposes of this Section 12, BellSouth shall make available DS1 and DS3 Dedicated Transport that was in service for DPI-Teleconnect in a wire center on the Subsequent Wire Center List as of the thirtieth (30th) business day after the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Embedded Base) until one hundred and fifty (150) days after the

thirtieth (30th) business day from the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Transition Period).

- 12.4 Subsequent disconnects or loss of End Users shall be removed from the Subsequent Embedded Base.
- 12.5 The rates set forth in Exhibit A Attachment 2 of the Agreement plus 15% shall apply to the Subsequent Embedded Base during the Subsequent Transition Period.
- 12.6 No later than forty (40) days from BellSouth's CNL identifying the Subsequent Wire Center List DPI-Teleconnect shall submit a spreadsheet(s) identifying the Subsequent Embedded Base of circuits to be disconnected or converted to other BellSouth services. The Parties shall negotiate a project schedule for the Conversion of the Subsequent Embedded Base.
- 12.7 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 12.6 above for all of its Subsequent Embedded Base within forty (40) days after the date of BellSouth's CNL identifying the Subsequent Wire Center List, BellSouth will identify DPI-Teleconnect's remaining Subsequent Embedded Base, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth shall be subject to the applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
- 12.8 For Subsequent Embedded Base circuits converted pursuant to Section 12.6 above or transitioned pursuant to Section 12.7 above, the applicable recurring tariff charges shall apply as of the earlier of the date each circuit is converted or transitioned, as applicable, or the first day after the end of the Subsequent Transition Period.
- 12.9 In the event that (1) BellSouth designates a wire center as non-impaired, (2) DPI-Teleconnect converts existing UNEs to other services or orders new services as services other than UNEs, (3) DPI-Teleconnect otherwise would have been entitled to UNEs in such wire center at the time alternative services provisioned, and (4) BellSouth acknowledges or a state or federal agency regulatory body with authority determines that, at the time BellSouth designated such wire center as non-impaired, such wire center did not meet the FCC's non-impairment criteria, then upon request of DPI-Teleconnect, BellSouth shall transition to UNEs any alternative services in such wire center that were established after such wire center was designated as non-impaired. In such instances, BellSouth shall refund DPI-Teleconnect the difference between the rate paid by DPI-Teleconnect for such services and the applicable UNE rate, including but not limited to any charges associated with the unnecessary conversion from UNE to other wholesale services.

13. Modifications and Updates to the Wire Center List and Subsequent Transition Periods for Dark Fiber Transport

- 13.1 In the event BellSouth identifies additional wire centers that meet the criteria set forth in Section 5 above, but that were not included in the Initial Wire Center List, BellSouth shall include such additional wire centers in a CNL. Each such list of additional wire centers shall be considered a "Subsequent Wire Center List".
- 13.2 Effective thirty (30) business days after the date of a BellSouth CNL providing a Subsequent Wire Center List, BellSouth shall not be required to provide unbundled access to Dark Fiber Transport, as applicable, in such additional wire center(s), except pursuant to the self-certification process as set forth in Section 6 above.
- 13.3 For purposes of this Section 13, BellSouth shall make available DS1 and DS3 Loops that were in service for DPI-Teleconnect in a wire center on the Subsequent Wire Center List as of the thirtieth (30th) business day after the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Embedded Base) until one hundred and fifty (150) days after the thirtieth (30th) business day from the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Transition Period).
- 13.4 Subsequent disconnects or loss of End Users shall be removed from the Subsequent Embedded Base.
- 13.5 The rates set forth in Exhibit A Attachment 2 of the Agreement plus 15% shall apply to the Subsequent Embedded Base during the Subsequent Transition Period.
- 13.6 No later than forty (40) days from BellSouth's CNL identifying the Subsequent Wire Center List DPI-Teleconnect shall submit a spreadsheet(s) identifying the Subsequent Embedded Base of circuits to be disconnected or converted to other BellSouth services. The Parties shall negotiate a project schedule for the Conversion of the Subsequent Embedded Base.
- 13.7 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 13.6 above for all of its Subsequent Embedded Base within forty (40) days after the date of BellSouth's CNL identifying the Subsequent Wire Center List, BellSouth will identify DPI-Teleconnect's remaining Subsequent Embedded Base, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth shall be subject to the applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
- 13.8 For Subsequent Embedded Base circuits converted pursuant to Section 13.6 above or transitioned pursuant to Section 13.7 above, the applicable recurring tariff charges shall apply as of the earlier of the date each circuit is converted or transitioned, as applicable, or the first day after the end of the Subsequent Transition Period.

- 13.9 In the event that (1) BellSouth designates a wire center as non-impaired, (2) DPI-Teleconnect converts existing UNEs to other services or orders new services as services other than UNEs, (3) DPI-Teleconnect otherwise would have been entitled to UNEs in such wire center at the time alternative services provisioned, and (4) BellSouth acknowledges or a state or federal agency regulatory body with authority determines that, at the time BellSouth designated such wire center as non-impaired, such wire center did not meet the FCC's non-impairment criteria, then upon request of DPI-Teleconnect, BellSouth shall transition to UNEs any alternative services in such wire center that were established after such wire center was designated as non-impaired. In such instances, BellSouth shall refund DPI-Teleconnect the difference between the rate paid by DPI-Teleconnect for such services and the applicable UNE rate, including but not limited to any charges associated with the unnecessary conversion from UNE to other wholesale services.

Issue 7 – Are HDSL-capable copper loops the equivalent of DS1 loops for the purpose of evaluating impairment?

14. 2-wire or 4-wire HDSL-Compatible Loop. This is a designed Loop that meets Carrier Serving Area (CSA) specifications, may be up to 12,000 feet long and may have up to 2,500 feet of bridged tap (inclusive of Loop

length). It may be a 2-wire or 4-wire circuit and will come standard with a test point, OC, and a DLR.

15. 4-wire Unbundled DS1 Digital Loop.

This is a designed 4-wire Loop that is provisioned according to industry standards for DS1 or Primary Rate ISDN services and will come standard with a test point, OC, and a DLR. A DS1 Loop may be provisioned over a variety of loop transmission technologies including copper, HDSL-based technology or fiber optic transport systems. It will include a 4-wire DS1 Network Interface at the End User's location.

Issue 8 – (a) Does the Commission have the authority to require BellSouth to include in its ICAs entered into pursuant to Section 252, network elements either under state law or pursuant to Section 271 or any other federal law other than Section 251? (b) If the answer to part (a) is affirmative in any respect, does the Commission have the authority to establish rates for such element? (c) If the answer to part (a) or (b) is affirmative in any respect, (i) what language, if any should be included in the ICA with regard to the rates for such elements, and (ii) what language, if any, should be included in the ICA with regard to the terms and conditions of such elements?

16. This Attachment sets forth rates, terms and conditions for unbundled network elements (Network Elements) and combinations of Network Elements (Combinations) that BellSouth offers to DPI-Teleconnect for DPI-Teleconnect's provision of Telecommunications Services in accordance with its obligations under Section 251(c)(3) of the Act.

Issue 9 – What conditions, if any, should be imposed on moving, adding, or changing orders to a CLP’s respective embedded base of switching, high-capacity loops, and dedicated transport, and what is the appropriate language to implement such conditions, if any?

17. For the state of North Carolina, during the Transition Period, CLEC shall be entitled to order and BellSouth shall provision UNE-P that CLEC orders for the purpose of serving CLEC’s existing UNE-P End Users as of March 10, 2005`

Issue 10 – What rates terms and conditions should govern the transition of existing network elements that BellSouth is no longer obligated to provide as Section 251 UNEs to non-Section 251 network elements and other services and (a) what is the proper treatment for such network elements at the end of the transition period,; and (b) what is the appropriate transition period, and what are the appropriate rates, terms and conditions during such transition period, for unbundled high-capacity loops, high capacity transport, and dark fiber transport in and between wire that do not meet the FCC’s non-impairment standards at this time, but that meet such standards in the future?

18. Effective March 11, 2006, and except to the extent expressly provided otherwise in this Attachment, DPI-Teleconnect may not maintain unbundled network elements or combinations of unbundled network elements, that are no longer offered pursuant to this Agreement (collectively “Arrangements”). In the event BellSouth determines that DPI-Teleconnect has in place any Arrangements after the Effective Date of this Agreement, BellSouth will provide DPI-Teleconnect with thirty (30) days written notice to disconnect or convert such Arrangements. If DPI-Teleconnect fails to submit orders to disconnect or convert such Arrangements within such thirty (30) day period, BellSouth will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth pursuant to this Section 18 shall be subject to applicable switch-as-is charges.

Issue 13 – What is the scope of commingling allowed under the FCC’s rules and orders and what language should be included in Interconnection Agreements to implement commingling (including rates)?

19. **Commingling of Services**

- 19.1 Commingling means the connecting, attaching, or otherwise linking of a Network Element, or a Combination, to one or more Telecommunications Services or facilities that DPI-Teleconnect has obtained at wholesale from BellSouth, or the combining of a Network Element or Combination with one or more such wholesale Telecommunications Services or facilities consistent with the NCUC’s Order dated March 1, 2006 in Docket No. P-55, Sub 1549. DPI-Teleconnect must comply with all rates, terms or conditions applicable to such wholesale Telecommunications Services or facilities.
- 19.2 Subject to the limitations set forth elsewhere in this Attachment, BellSouth shall not deny access to a Network Element or a Combination on the grounds that one or more of the elements: (1) is connected to, attached to, linked to, or combined with such a facility or service obtained from BellSouth; or (2) shares part of BellSouth’s network with access services or inputs for mobile wireless services and/or interexchange services.
- 19.3 Unless otherwise agreed to by the Parties, the Network Element portion of a commingled circuit will be billed at the rates set forth in Exhibit B and the remainder of the circuit or service will be billed in accordance with BellSouth’s tariffed rates or rates set forth in a separate agreement between the Parties.
- 19.4 When multiplexing equipment is attached to a commingled circuit, the multiplexing equipment will be billed from the same agreement or tariff as the higher bandwidth circuit. Central Office Channel Interfaces (COCI) will be billed from the same agreement or tariff as the lower bandwidth circuit.
- 19.5 Terms and conditions for order cancellation charges and Service Date Advancement Charges will apply in accordance with Attachment 6 and are incorporated herein by this reference. The charges shall be as set forth in Exhibit A to Attachment 2 of the Agreement.

Issue 14 – Is BellSouth required to provide conversion of special access circuits to UNE pricing, and, if so, at what rates, terms and conditions and during what timeframe should such new requests for such conversions be effectuated?

Issue 15 – What are the appropriate rates, terms and conditions and effective dates, if any, for conversion requests that were pending on the effective date of the TRO?

20. Conversion of Wholesale Services to Network Elements or Network Elements to Wholesale Services.

20.1 Upon request, BellSouth shall convert a wholesale service, or group of wholesale services, to the equivalent Network Element or Combination that is available to DPI-Teleconnect pursuant to this Agreement, or convert a Network Element or Combination that is available to DPI-Teleconnect under this Agreement to an equivalent wholesale service or group of wholesale services offered by BellSouth (collectively “Conversion”). BellSouth shall charge the applicable nonrecurring switch-as-is rates for Conversions to specific Network Elements or Combinations found in Exhibit B. BellSouth shall also charge the same nonrecurring switch-as-is rates when converting from Network Elements or Combinations. Any rate change resulting from the Conversion will be effective as of the next billing cycle following BellSouth’s receipt of a complete and accurate Conversion request from the CLEC. A Conversion shall be considered termination for purposes of any volume and/or term commitments and/or grandfathered status between CLEC and BellSouth. Any change from a wholesale service/group of wholesale services to a Network Element/Combination, or from a Network Element/Combination to a wholesale service/group of wholesale services that requires a physical rearrangement will not be considered to be a Conversion for purposes of this Agreement. BellSouth shall not require physical rearrangements if the Conversion can be completed through record changes only. Orders for Conversions will be handled in accordance with the guidelines set forth in the Ordering Guidelines and Processes and CLEC Information Packages as referenced in Section 20.3 below.

20.2 To the extent, DPI-Teleconnect had a Conversion request pending between October 2, 2003 and the effective date of this Amendment, such Conversion shall be deemed converted as of the date of such request.

20.3 Ordering Guidelines and Processes

20.3.1 For information regarding Ordering Guidelines and Processes for various Network Elements, Combinations and Other Services, DPI-Teleconnect

should refer to the “Guides” section of the BellSouth Interconnection Web site.

- 20.3.2 Additional information may also be found in the individual CLEC Information Packages located at the “CLEC UNE Products” on BellSouth’s Interconnection Web site at:
www.interconnection.bellsouth.com/guides/html/unes.html.
- 20.3.3 The provisioning of Network Elements, Combinations and Other Services to DPI-Teleconnect’s Collocation Space will require cross-connections within the central office to connect the Network Element, Combinations or Other Services to the demarcation point associated with DPI-Teleconnect’s Collocation Space. These cross-connects are separate components that are not considered a part of the Network Element, Combinations or Other Services and, thus, have a separate charge pursuant to this Agreement.

Issue 18: LINE SPLITTING: What is the appropriate ICA language to implement BellSouth's obligations with regard to line splitting?

21. Line Splitting

- 21.1 Line splitting shall mean that DPI-Teleconnect purchases a whole loop and provides the splitter to provide voice and data services through an arrangement with a third party CLEC, who is either the provider of data services (Data CLEC) or the provider of voice services (Voice CLEC), to deliver voice and data service to End Users over the same Loop. The Voice CLEC and Data CLEC are different carriers, with DPI-Teleconnect being either the Voice CLEC or Data CLEC.
- 21.2 Line Splitting – UNE-L. In the event DPI-Teleconnect provides its own switching or obtains switching from a third party, DPI-Teleconnect may engage in line splitting arrangements with another CLEC using a splitter, provided by DPI-Teleconnect, in a Collocation Space at the central office where the loop terminates into a distribution frame or its equivalent.
- 21.3 Line Splitting – Loop and Port
To the extent DPI-Teleconnect is using a commingled arrangement that consists of an Unbundled Loop purchased pursuant to this Agreement and Local Switching provided by BellSouth pursuant to Section 271, BellSouth will permit DPI-Teleconnect to utilize Line Splitting. BellSouth shall charge the rates previously approved by the North Carolina Utilities Commission as set forth in Exhibit A of Attachment 2 in the Agreement.
- 21.4 DPI-Teleconnect shall provide BellSouth with a signed LOA between it and the third party CLEC (Data CLEC or Voice CLEC) with which it desires to provision Line Splitting services, where DPI-Teleconnect will not provide voice and data services.
- 21.5 Provisioning Line Splitting and Splitter Space – Loop and Port
- 21.5.1 The Data LEC, Voice CLEC, or a third party may provide the splitter. When DPI-Teleconnect or its authorized agent owns the splitter, Line Splitting requires the following: a non-designed analog Loop from the serving wire center to the NID at the End User's location; a collocation cross-connection connecting the Loop to the collocation space; and a second collocation cross-connection from the collocation space connected to a voice port.
- 21.5.2 An unloaded 2-wire copper Loop must serve the End User. The meet point for the Voice CLEC and the Data CLEC is the point of termination on the MDF for the Data CLEC's cable and pairs.
- 21.5.3 The foregoing procedures are applicable to migration from a UNE-P arrangement to Line Splitting Service, including a Line splitting service that includes a commingled arrangement of Loop and unbundled local switching pursuant to Section 271.

- 21.5.4 Provisioning Line Splitting and Splitter Space – UNE-L
- 21.5.4.1 **DPI-Teleconnect** provides the splitter when providing Line Splitting with UNE-L. When DPI-Teleconnect or its authorized agent owns the splitter, Line Splitting requires the following: a loop from NID at the End User’s location to the serving wire center and terminating into a distribution frame or its equivalent.

- 21.6 Maintenance – Line Splitting – Loop and Port and UNE-L
- 21.6.1 BellSouth will be responsible for repairing voice troubles and the troubles with the physical loop between the NID at the End User’s premises and the termination point.
- 21.6.2 BellSouth must make all necessary network modifications, including providing nondiscriminatory access to operations support systems necessary for pre-ordering, ordering, provisioning, maintenance and repair, and billing for loops used in line splitting arrangements.

- 21.7 Indemnity
- 21.7.1 DPI-Teleconnect shall indemnify, defend and hold harmless BellSouth from and against any claims, losses, damages and costs, which arise out of actions related to the other service provider, except to the extent caused by BellSouth’s gross negligence or willful misconduct.

Issue 19 – What is the appropriate ICA language, if any, to address call related databases?

22. Call Related Databases and Signaling

22.1 Except for 911 and E911, BellSouth is not required to provide unbundled access to call related databases pursuant to section 251.

22.2 Automatic Location Identification/Data Management System

22.2.1 911 and E911 Databases

22.2.1.1 BellSouth shall provide DPI-Teleconnect with nondiscriminatory access to 911 and E911 databases on an unbundled basis, in accordance with 47 C.F.R. § 51.319 (f).

22.2.1.1 The ALI/DMS database contains End User information (including name, address, telephone information, and sometimes special information from the local service provider or End User) used to determine to which PSAP to route the call. The ALI/DMS database is used to provide enhanced routing flexibility for E911. DPI-Teleconnect will be required to provide the BellSouth 911 database vendor daily service order updates to E911 database in accordance with Section 22.3.1 below.

22.3 Technical Requirements

22.3.1 BellSouth's 911 database vendor shall provide DPI-Teleconnect the capability of providing updates to the ALI/DMS database through a specified electronic interface. DPI-Teleconnect shall contact BellSouth's 911 database vendor directly to request interface. DPI-Teleconnect shall provide updates directly to BellSouth's 911 database vendor on a daily basis. Updates shall be the responsibility of DPI-Teleconnect and BellSouth shall not be liable for the transactions between DPI-Teleconnect and BellSouth's 911 database vendor.

22.3.2 It is DPI-Teleconnect's responsibility to retrieve and confirm statistical data and to correct errors obtained from BellSouth's 911 database vendor on a daily basis. All errors will be assigned a unique error code and the description of the error and the corrective action is described in the CLEC Users Guide for Facility Based Providers that is found on the BellSouth Interconnection Web site.

22.3.3 DPI-Teleconnect shall conform to the BellSouth standards as described in the CLEC Users Guide to E911 for Facilities Based Providers that is located on the BellSouth's Interconnection Web site:
www.interconnection.bellsouth.com/guides.

22.3.4 Stranded Unlocks are defined as End User records in BellSouth's ALI/DMS database that have not been migrated for over ninety (90) days to DPI-Teleconnect, as a new provider of local service to the End User. Stranded Unlocks are those End User records that have been "unlocked" by the previous local exchange carrier that provided service to the End User and are open for DPI-Teleconnect to assume responsibility for such records.

22.3.5 Based upon End User record ownership information available in the NPAC database, BellSouth shall provide a Stranded Unlock annual report to DPI-Teleconnect that reflects all Stranded Unlocks that remain in the ALI/DMS database for over ninety (90) days. DPI-Teleconnect shall review the Stranded Unlock report, identify its End User records and request to either delete such records or migrate the records to DPI-Teleconnect within two (2) months following the date of the Stranded Unlock report provided by BellSouth. DPI-Teleconnect shall reimburse BellSouth for any charges BellSouth's database vendor imposes on BellSouth for the deletion of DPI-Teleconnect's records.

Issue 20 - What is the appropriate language to implement BellSouth's obligation, if any, to offer unbundled access to newly deployed or "greenfield" fiber loops, including fiber loops deployed to the minimum point of entry (MPOE) of a multiple dwelling unit that is predominantly residential and what, if any impact does the ownership of the inside wiring from the MPOE to each end user have on this obligation?

- 23.1 Fiber to the Home (FTTH) loops are local loops consisting entirely of fiber optic cable, whether dark or lit, serving an End User's premises or, in the case of predominantly residential multiple dwelling units (MDUs), a fiber optic cable, whether dark or lit, that extends to the MDU minimum point of entry (MPOE). Fiber to the Curb loops are local loops consisting of fiber optic cable connecting to a copper distribution plant that is not more than five hundred (500) feet from the End User's premises or, in the case of predominantly residential MDUs, not more than five hundred (500) feet from the MDU's MPOE. The fiber optic cable in a FTTC loop must connect to a copper distribution plant at a serving area interface from which every other copper distribution subloop also is not more than five hundred (500) feet from the respective End User's premises. BellSouth shall offer CLPs unbundled access to FTTH/FTTC loops serving enterprise customers and predominantly business MDUs.
- 23.2 In new build (Greenfield) areas, where BellSouth has only deployed FTTH/FTTC facilities, BellSouth is under no obligation to provide such FTTH and FTTC Loops. FTTH facilities include fiber loops deployed to the MPOE of a MDU that is predominantly residential regardless of the ownership of the inside wiring from the MPOE to each End User in the MDU.
- 23.3 Notwithstanding the above, nothing in this Section shall limit BellSouth's obligation to offer CLECs an unbundled DS1 loop (or loop/transport combination) in any wire center where BellSouth is required to provide unbundled access to DS1 loops and loop/transport combinations

Issue 21: What is the appropriate ICA language to implement BellSouth's obligation to provide unbundled access to hybrid loops?

24. A hybrid loop is a local loop, composed of both fiber optic cable usually in the feeder plant and copper twisted wire or cable usually in the distribution plant. BellSouth shall provide unbundled access to hybrid loops pursuant to the requirements of 47 C.F.R. 51.319(a)(2).

Issue 22: What is the appropriate ICA language to implement BellSouth's obligation to provide RNMs?

Issue 23: What is the appropriate process for establishing a rate, if any, to allow for the cost of a routine network modification that is not already recovered in Commission-approved recurring and nonrecurring rates? What is the appropriate language, if any, to incorporate into the ICAs?

25. Routine Network Modifications

25.1 BellSouth will perform Routine Network Modifications (RNM) in accordance with FCC 47 CFR 51.319 (a)(7) and (e)(4) for Loops and Dedicated Transport provided under this Attachment. If BellSouth performs such RNM during normal operations and has recovered the costs for performing such modifications through the rates set forth in Exhibit A Attachment 2 of the Agreement, then BellSouth will perform such RNM at no additional charge.

25.2 RNM shall be performed within the intervals established for the Network Element and subject to the performance measurements and associated remedies set forth in Attachment 9 of this Agreement. If BellSouth has not recovered the costs of such RNM in the rates set forth in Exhibit A to Attachment 2 of the Agreement, then such request will be handled as a project on an individual case basis. BellSouth will provide a price quote for the request and, upon receipt of payment from DPI-Teleconnect, BellSouth will perform the RNM.

Issue 24: What is the appropriate language, if any, to address access to overbuild deployments of fiber to the home and fiber to the curb facilities?

26. In FTTH/FTTC overbuild situations where BellSouth also has copper Loops, BellSouth may make those copper Loops available to DPI-Teleconnect on an unbundled basis, pursuant to the requirements of 47 C.F.R. § 51.319(a)(3)(iii), BellSouth's retirements of copper loops or copper subloops must comply with the requirements of 47 C.F.R. § 51.319(a)(3)(iv).

Issue 25: What is the appropriate ICA language to implement BellSouth's EEL audit rights, if any, under the TRO?

Version: NC COL Amendment
CLEC with CA and IA Amendment
03/13/06

EELs Audit provisions

- 27.1 BellSouth may, on an annual basis audit DPI-Teleconnect's records in order to verify compliance with the high capacity EEL eligibility criteria. To invoke its limited right to audit, BellSouth will send a Notice of Audit to DPI-Teleconnect stating its concern that DPI-Teleconnect is not complying with the service eligibility requirements as set forth above and a concise statement of the reasons therefore. Such Notice of Audit will be delivered to DPI-Teleconnect no less than thirty (30) calendar days prior to the date upon which BellSouth seeks to commence an audit. BellSouth is not required to provide documentation, as distinct from a statement of concern, to support its basis for an audit, or seek the concurrence of the requesting carrier before selecting the location of the audit.
- 27.2 The audit shall be conducted by a third party independent auditor, retained and paid for by BellSouth. BellSouth may select the independent auditor without the prior approval of DPI-Teleconnect or the Commission. Challenges to the independence of the auditor may be filed with the Commission only after the audit has been concluded. The audit must be performed in accordance with the standards established by the American Institute for Certified Public Accountants (AICPA) which will require the auditor to perform an "examination engagement" and issue an opinion regarding DPI-Teleconnect's compliance with the high capacity EEL eligibility criteria. AICPA standards and other AICPA requirements will be used to determine the independence of an auditor. The independent auditor's report will conclude whether DPI-Teleconnect complied in all material respects with the applicable service eligibility criteria. Consistent with standard auditing practices, such audits require compliance testing designed by the independent auditor.
- 27.3 To the extent the independent auditor's report concludes that DPI-Teleconnect failed to comply with the service eligibility criteria, DPI-Teleconnect must true-up any difference in payments, convert all noncompliant circuits to the appropriate service, and make the correct payments on a going-forward basis.
- 27.4 To the extent the independent auditor's report concludes that DPI-Teleconnect failed to comply in all material respects with the service eligibility criteria, DPI-Teleconnect shall reimburse BellSouth for the cost of the independent auditor. To the extent the independent auditor's report concludes that DPI-Teleconnect did comply in all material respects with the service eligibility criteria, BellSouth will reimburse DPI-Teleconnect for its reasonable and demonstrable costs associated with the audit. DPI-Teleconnect will maintain appropriate documentation to support its certifications. The Parties shall provide such reimbursement within thirty (30) calendar days of receipt of a statement of such costs.

North Carolina Generic Change of Law Amendment
Exhibit A

Version: NC COL Amendment
CLEC with CA and IA Amendment
03/13/06

28. DPI-Teleconnect shall not obtain a Network Element for the exclusive provision of mobile wireless services or interexchange services.
29. Facilities that do not terminate at a demarcation point at an End User premises, including, by way of example, but not limited to, facilities that terminate to another carrier's switch or premises, a cell site, Mobile Switching Center or base station, do not constitute local Loops under Section 251, except to the extent that DPI-Teleconnect may require Loops to such locations for the purpose of providing telecommunications services to its personnel at those locations.
30. Subloop Elements.
- 30.1 Where facilities permit, BellSouth shall offer access to its Unbundled Subloop (USL) elements as specified herein.
- 30.2 Unbundled Subloop Distribution (USLD)
- 30.2.1 The USLD facility is a dedicated transmission facility that BellSouth provides from an End User's point of demarcation to a BellSouth cross-connect device. The BellSouth cross-connect device may be located within a remote terminal (RT) or a stand-alone cross-box in the field or in the equipment room of a building. The USLD media is a copper twisted pair that can be provisioned as a 2-wire or 4-wire facility. BellSouth will make available the following subloop distribution offerings where facilities exist:
- USLD – Voice Grade (USLD-VG)
 - Unbundled Copper Subloop (UCSL)
 - USLD – Intrabuilding Network Cable (USLD-INC (aka riser cable))
- 30.2.2 USLD-VG is a copper subloop facility from the cross-box in the field up to and including the point of demarcation at the End User's premises and may have load coils.
- 30.2.3 UCSL is a copper facility eighteen thousand (18,000) feet or less in length provided from the cross-box in the field up to and including the End User's point of demarcation. If available, this facility will not have any intervening equipment such as load coils between the End User and the cross-box.
- 30.2.4 If DPI-Teleconnect requests a UCSL and it is not available, DPI-Teleconnect may request the copper Subloop facility be modified pursuant to the ULM process to remove load coils and/or excessive bridged taps. If

load coils and/or excessive bridged taps are removed, the facility will be classified as a UCSL.

- 30.2.5 USLD-INC is the distribution facility owned or controlled by BellSouth inside a building or between buildings on the same property that is not separated by a public street or road. USLD-INC includes the facility from the cross-connect device in the building equipment room up to and including the point of demarcation at the End User's premises.
- 30.2.6 Upon request for USLD-INC from DPI-Teleconnect, BellSouth will install a cross-connect panel in the building equipment room for the purpose of accessing USLD-INC pairs from a building equipment room. The cross-connect panel will function as a single point of interconnection (SPOI) for USLD-INC and will be accessible by multiple carriers as space permits. BellSouth will place cross-connect blocks in twenty five (25) pair increments for DPI-Teleconnect's use on this cross-connect panel. DPI-Teleconnect will be responsible for connecting its facilities to the twenty five (25) pair cross-connect block(s).
- 30.2.7 For access to Voice Grade USLD and UCSL, DPI-Teleconnect shall install a cable to the BellSouth cross-box pursuant to the terms and conditions for physical collocation for remote sites set forth in Attachment 4. This cable would be connected by a BellSouth technician within the BellSouth cross-box during the set-up process. DPI-Teleconnect's cable pairs can then be connected to BellSouth's USL within the BellSouth cross-box by the BellSouth technician.
- 30.2.8 Through the SI process, BellSouth will determine whether access to USLs at the location requested by DPI-Teleconnect is technically feasible and whether sufficient capacity exists in the cross-box. If existing capacity is sufficient to meet DPI-Teleconnect's request, then BellSouth will perform the site set-up as described in the CLEC Information Package, located at BellSouth's Interconnection Web site:
www.interconnection.bellsouth.com/products/html/unes.html.
- 30.2.9 The site set-up must be completed before DPI-Teleconnect can order Subloop pairs. For the site set-up in a BellSouth cross-connect box in the field, BellSouth will perform the necessary work to splice DPI-Teleconnect's cable into the cross-connect box. For the site set-up inside a building equipment room, BellSouth will perform the necessary work to install the cross-connect panel and the connecting block(s) that will be used to provide access to the requested USLs.
- 30.2.10 Once the site set-up is complete, DPI-Teleconnect will request Subloop pairs through submission of a LSR form to the LCSC. OC is required with USL pair provisioning when DPI-Teleconnect requests reuse of an existing facility, and the OC charge shall be billed in addition to the USL pair rate. For expedite requests by DPI-Teleconnect for Subloop pairs, expedite charges will apply for intervals less than five (5) days.

- 30.2.11 USLs will be provided in accordance with BellSouth's TR73600 Unbundled Local Loop Technical Specifications.
- 30.3 Unbundled Network Terminating Wire (UNTW)
- 30.3.1 UNTW is unshielded twisted copper wiring that is used to extend circuits from an intra-building network cable terminal or from a building entrance terminal to an individual End User's point of demarcation. It is the final portion of the Loop that in multi-subscriber configurations represents the point at which the network branches out to serve individual subscribers.
- 30.3.1.1 This element will be provided in MDUs and/or Multi-Tenants Units (MTUs) where either Party owns wiring all the way to the End User's premises. Neither Party will provide this element in locations where the property owner provides its own wiring to the End User's premises, where a third party owns the wiring to the End User's premises.
- 30.3.2 Requirements
- 30.3.2.1 On a multi-unit premises, upon request of the other Party (Requesting Party), the Party owning the network terminating wire (Provisioning Party) will provide access to UNTW pairs on an Access Terminal that is suitable for use by multiple carriers at each Garden Terminal or Wiring Closet.
- 30.3.2.2 The Provisioning Party shall not be required to install new or additional NTW beyond existing NTW to provision the services of the Requesting Party.
- 30.3.2.3 In existing MDUs and/or MTUs in which BellSouth does not own or control wiring (INC/NTW) to the End Users premises, and DPI-Teleconnect does own or control such wiring, DPI-Teleconnect will install UNTW Access Terminals for BellSouth under the same terms and conditions as BellSouth provides UNTW Access Terminals to DPI-Teleconnect.
- 30.2.3.4 In situations in which BellSouth activates a UNTW pair, BellSouth will compensate DPI-Teleconnect for each pair activated commensurate to the price specified in DPI-Teleconnect's Agreement.
- 30.2.3.5 Upon receipt of the UNTW SI requesting access to the Provisioning Party's UNTW pairs at a multi-unit premises, representatives of both Parties will participate in a meeting at the site of the requested access. The purpose of the site visit will include discussion of the procedures for installation and location of the Access Terminals. By request of the Requesting Party, an Access Terminal will be installed either adjacent to each of the Provisioning Party's Garden Terminal or inside each Wiring Closet. The Requesting Party will deliver and connect its central office facilities to the UNTW pairs within the Access Terminal. The Requesting Party may access any available pair on an Access Terminal. A pair is available when a pair is not being utilized to provide service or where the End User has requested a change in its local service provider to the

Requesting Party. Prior to connecting the Requesting Party's service on a pair previously used by the Provisioning Party, the Requesting Party is responsible for ensuring the End User is no longer using the Provisioning Party's service or another CLEC's service before accessing UNTW pairs.

- 30.3.2.6 Access Terminal installation intervals will be established on an individual case basis.
- 30.3.2.7 The Requesting Party is responsible for obtaining the property owner's permission for the Provisioning Party to install an Access Terminal(s) on behalf of the Requesting Party. The submission of the SI by the Requesting Party will serve as certification by the Requesting Party that such permission has been obtained. If the property owner objects to Access Terminal installations that are in progress or within thirty (30) days after completion and demands removal of Access Terminals, the Requesting Party will be responsible for costs associated with removing Access Terminals and restoring the property to its original state prior to Access Terminals being installed.
- 30.3.2.8 The Requesting Party shall indemnify and hold harmless the Provisioning Party against any claims of any kind that may arise out of the Requesting Party's failure to obtain the property owner's permission. The Requesting Party will be billed for nonrecurring and recurring charges for accessing UNTW pairs at the time the Requesting Party activates the pair(s). The Requesting Party will notify the Provisioning Party within five (5) business days of activating UNTW pairs using the LSR form.
- 30.3.2.9 If a trouble exists on a UNTW pair, the Requesting Party may use an alternate spare pair that serves that End User if a spare pair is available. In such cases, the Requesting Party will re-terminate its existing jumper from the defective pair to the spare pair. Alternatively, the Requesting Party will isolate and report troubles in the manner specified by the Provisioning Party. The Requesting Party must tag the UNTW pair that requires repair. If the Provisioning Party dispatches a technician on a reported trouble call and no UNTW trouble is found, the Provisioning Party will charge Requesting Party for time spent on the dispatch and testing the UNTW pair(s).
- 30.3.2.10 If the Requesting Party initiates the Access Terminal installation and the Requesting Party has not activated at least ten percent (10%) of the capacity of the Access Terminal installed pursuant to the Requesting Party's request for an Access Terminal within six (6) months of installation of the Access Terminal, the Provisioning Party will bill the Requesting Party a nonrecurring charge equal to the actual cost of provisioning the Access Terminal.
- 30.3.3.11 If the Provisioning Party determines that the Requesting Party is using the UNTW pairs without reporting the activation of the pairs, the Requesting Party will be billed for the use of that pair back to the date the End User began receiving service from the Requesting Party at that location. Upon

North Carolina Generic Change of Law Amendment
Exhibit A

request, the Requesting Party will provide copies of its billing record to substantiate such date. If the Requesting Party fails to provide such records, then the Provisioning Party will bill the Requesting Party back to the date of the Access Terminal installation.

**Amendment to the Agreement
Between
DPI-Teleconnect, LLC
and
BellSouth Telecommunications, Inc.
Dated 4/19/2003**

Pursuant to this Amendment, (the "Amendment"), DPI-Teleconnect, LLC (DPI-Teleconnect), and BellSouth Telecommunications, Inc. (BellSouth), hereinafter referred to collectively as the "Parties", hereby agree to amend that certain Interconnection Agreement between the Parties dated 4/19/2003 (Agreement).

WHEREAS, BellSouth and DPI-Teleconnect have entered into good faith negotiations pursuant to the Act to renegotiate an interconnection agreement ("New Agreement") to replace the existing Agreement between the Parties, which expired on 4/18/2006; and

WHEREAS, the Parties desire to extend the term of the Agreement; and

WHEREAS, on February 7, 2006, the Florida Public Service Commission rendered its decision in Docket No. 041269-TP, Petition to Establish Generic Docket to Consider Amendments to Interconnection Agreements Resulting from Change of Law (Decision);

WHEREAS, the Parties are obligated to amend the Agreement to incorporate the Decision;

NOW, THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. The Parties hereby agree to extend the term of the Agreement by ninety (90) days following the date of the last signature of this Amendment. Other than the modification of the expiration date as described in this Amendment, all provisions in Section 2 of the General Terms and Conditions of the Agreement relating to the term and termination of the Agreement remain in full force and effect.
2. The Parties hereby agree to incorporate into the Agreement the contract provisions set forth in Exhibit A hereto, and such contract provisions shall apply to services provided in the State of Florida only.
3. The Parties hereby agree to incorporate into the Agreement the rates set forth in Exhibit B hereto, and such rates shall apply to services provided in the State of Florida only.
4. To the extent that such contract provisions or rates as set forth in Exhibits A and B hereto conflict with any other rates, terms and conditions in the Agreement, the

Version: FL COL Amendment
CLEC with CA & Amended IA
02/16/06

contract provisions and rates in Exhibits A and B shall prevail in the State of Florida.

6. Further, to the extent that defined terms in this Amendment differ from defined terms in the Agreement, such defined terms in the Agreement shall be deemed to have the same meaning as the alternative defined terms in this Amendment to the extent necessary to give full effect to this Amendment consistent with the Florida Commission's Decision.
6. All performance data and penalties associated for services (de-listed elements) no longer required under Section 251(c)(3) should be removed from BellSouth's SQM/PMAP/SEEM plans and are inapplicable for services that are no longer provided pursuant to the Agreement.
7. This Amendment shall be approved on the date the Florida Public Service Commission issues an order approving the Amendment (Approved Date) and shall be deemed effective on March 11, 2006 (Effective Date).
8. All of the other provisions of the Agreement shall remain in full force and effect.
9. Either or both of the Parties is authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties have executed this Amendment the day and year written below.

BellSouth Telecommunications, Inc.

DPI-Teleconnect, LLC

Title: PRESIDENT + CEO

Date: 11/16/06

Date: 11/14/06

1. Transition for DS1 and DS3 Loops

1.1 For purposes of this Section 1, the Transition Period for the Embedded Base of DS1 and DS3 Loops and for the Excess DS1 and DS3 Loops is the twelve (12) month period beginning March 11, 2005 and ending March 10, 2006.

1.2 For purposes of this Section 1, Embedded Base means DS1 and DS3 Loops that were in service for DPI-Teleconnect as of March 11, 2005, in those wire centers that, as of such date, met the criteria set forth in Section 1.4.1 and 1.4.2. Subsequent disconnects or loss of End Users shall be removed from the Embedded Base.

1.3 Excess DS1 and DS3 Loops are those DPI-Teleconnect DS1 and DS3 Loops in service as of March 11, 2005, in excess of the caps set forth in Sections 1.3.1 and 1.3.2 below, respectively. Subsequent disconnects or loss of End Users shall be removed from Excess DS1 and DS3 Loops.

1.3.1 BellSouth shall not provide more than ten (10) unbundled DS1 Loops to DPI-Teleconnect at any single building in which DS1 Loops are available as unbundled loops.

1.3.2 DPI-Teleconnect may obtain a maximum of a single Unbundled DS3 loop to any single building in which DS3 Loops are available as Unbundled Loops.

1.4 Notwithstanding anything to the contrary in this Agreement, and except as set forth in Section 11, BellSouth shall make available DS1 and DS3 Loops only for DPI-Teleconnect's Embedded Base during the Transition Period:

1.4.1 DS1 Loops to any Building served by a wire center containing 60,000 or more Business Lines and four (4) or more fiber-based collocators (DS1 Threshold).

1.4.2 DS3 Loops to any Building served by a wire center containing 38,000 or more Business Lines and four (4) or more fiber-based collocators (DS3 Threshold).

1.5 The initial list of wire centers (Initial Wire Center List) meeting the criteria set forth in Sections 1.4.1 and 1.4.2 above, is set forth in Section 5.2.4 hereto. As of the effective date of this Amendment, no self-certification in any wire center set forth in the Initial Wire Center List is permitted.

1.6 Transition Period Pricing. From March 11, 2005, through the completion of the Transition Period, BellSouth shall charge a rate for DPI-Teleconnect's Embedded Base and DPI-Teleconnect's Excess DS1 and DS3 Loops equal to the higher of:

1.6.1 115% of the rate paid for that element on June 15, 2004; or

- 1.6.2 115% of a new rate the Commission establishes, if any, between June 16, 2004 and March 11, 2005.
- 1.6.3 These rates shall be as set forth in Exhibit A to Attachment 2 of the Agreement and this Section 1.6.
- 1.7 The Transition Period shall apply only to (1) DPI-Teleconnect's Embedded Base and (2) DPI-Teleconnect's Excess DS1 and DS3 Loops. DPI-Teleconnect shall not add new DS1 or DS3 loops pursuant to this Agreement.
- 1.8 DPI-Teleconnect shall provide spreadsheets to BellSouth no later than March 10, 2006, identifying the specific DS1 and DS3 Loops, including the Embedded Base and Excess DS1 and DS3 Loops to be either (1) disconnected and transitioned to wholesale facilities obtained from other carriers or self-provisioned facilities; or (2) converted to other available UNE Loops or other wholesale facilities provided by BellSouth, including special access. For Conversions as defined in Section 15, such spreadsheets shall take the place of an LSR or ASR. The Parties shall negotiate a project schedule for the Conversion of the Embedded Base and Excess DS1 and DS3 Loops. If a DPI-Teleconnect chooses to convert the DS1 and DS3 UNE Loops to special access circuits, BellSouth will include such DS1 and DS3 Loops once converted within DPI-Teleconnect's total special access circuits and apply any discounts to which DPI-Teleconnect is entitled.
- 1.8.1 If DPI-Teleconnect submits the spreadsheet(s) for its Embedded Base and Excess DS1 and DS3 Loops on or before March 10, 2006, those identified circuits shall be subject to the Commission-approved switch-as-is conversion nonrecurring charges and no UNE disconnect charges.
- 1.8.2 If DPI-Teleconnect fails to submit the spreadsheet(s) for its Embedded Base and Excess DS1 and DS3 Loops on or before March 10, 2006, BellSouth will identify and transition such circuits to the equivalent wholesale services provided by BellSouth. Those circuits identified and transitioned by BellSouth pursuant to this Section shall be subject to all applicable UNE disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
- 1.9 For Embedded Base circuits and Excess DS1 and DS3 Loops converted, the applicable recurring tariff charge shall apply to each circuit as of March 11, 2006. The transition of the Embedded Base and Excess DS1 and DS3 Loops should be performed in a manner that avoids, or otherwise minimizes to the extent possible, disruption or degradation to DPI-Teleconnect's customers' service.
2. Dark Fiber Loop
- 2.1 Dark Fiber Loop is an unused optical transmission facility, without attached signal regeneration, multiplexing, aggregation or other electronics, from the demarcation point at an End User's premises to the End User's serving wire center. Dark Fiber

Loops may be strands of optical fiber existing in aerial or underground structure. BellSouth will not provide line terminating elements, regeneration or other electronics necessary for DPI-Teleconnect to utilize Dark Fiber Loops.

2.2 Transition for Dark Fiber Loop

2.2.1 For purposes of this Section 2.2, the Transition Period for Dark Fiber Loops is the eighteen (18) month period beginning March 11, 2005 and ending September 10, 2006.

2.2.2 For purposes of this Section 2.2, Embedded Base means Dark Fiber Loops that were in service for DPI-Teleconnect as of March 11, 2005. Subsequent disconnects or loss of End Users shall be removed from the Embedded Base.

2.2.3 During the Transition Period only, BellSouth shall make available for the Embedded Base Dark Fiber Loops for DPI-Teleconnect at the terms and conditions set forth in this Attachment.

2.2.4 Transition Period Pricing. From March 11, 2005, through the completion of the Transition Period, BellSouth shall charge a rate for DPI-Teleconnect's Embedded Base of Dark Fiber Loops equal to the higher of:

2.2.4.1 115% of the rate paid for that element on June 15, 2004; or

2.2.4.2 115% of a new rate the Commission establishes, if any, between June 16, 2004 and March 11, 2005.

2.2.4.3 These rates shall be as set forth in Exhibit A to Attachment 2 of the Agreement and this Section 2.2.4.

2.2.4.4 The Transition Period shall apply only to DPI-Teleconnect's Embedded Base and DPI-Teleconnect shall not add new Dark Fiber Loops pursuant to this Agreement.

2.2.5 Effective September 11, 2006, Dark Fiber Loops will no longer be made available pursuant to this Agreement.

2.2.6 DPI-Teleconnect shall provide spreadsheets to BellSouth no later than September 10, 2006, identifying the specific Dark Fiber Loops, to be either disconnected or converted to other BellSouth services. DPI-Teleconnect may transition from Dark Fiber Loops to other available wholesale facilities provided by BellSouth, including special access, wholesale facilities obtained from other carriers, or self-provisioned facilities. For Conversions as defined in Section 15, such spreadsheets shall take the place of an LSR or ASR. The Parties shall negotiate a project schedule for the Conversion of the Embedded Base Dark Fiber Loops. If DPI-Teleconnect chooses to convert the Dark Fiber UNE Loops to special access circuits, BellSouth will include such Dark Fiber Loops once converted within DPI-Teleconnect's total special access circuits and apply any discounts to which DPI-Teleconnect is entitled.

- 2.2.6.1 If DPI-Teleconnect submits the spreadsheets specified in Section 2.2.6 above for all of its Embedded Base on or before September 10, 2006, Conversions shall be subject to Commission-approved switch-as-is charges and no UNE disconnect charges.
- 2.2.6.2 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 2.2.6 above for all of its Embedded Base on or before September 10, 2006, BellSouth will identify DPI-Teleconnect's remaining Embedded Base, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth pursuant to this Section 2.2.6.2 shall be subject to all applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
- 2.2.6.3 For Embedded Base circuits converted or transitioned, the applicable recurring tariff charge shall apply to each circuit as of September 11, 2006. The transition of the Embedded Base circuits should be performed in a manner that avoids, or otherwise minimizes to the extent possible, disruption or degradation to DPI-Teleconnect's customers' service.

3. Dedicated Transport and Dark Fiber Transport

3.1 Dedicated Transport. Dedicated Transport is defined as BellSouth's transmission facilities between wire centers or switches owned by BellSouth, or between wire centers or switches owned by BellSouth and switches owned by DPI-Teleconnect, including but not limited to DS1, DS3 and OCn level services, as well as dark fiber, dedicated to DPI-Teleconnect. BellSouth shall not be required to provide access to OCn level Dedicated Transport under any circumstances pursuant to this Agreement. In addition, except as set forth in Section 3.2, BellSouth shall not be required to provide to DPI-Teleconnect unbundled access to interoffice transmission facilities that do not connect a pair of wire centers or switches owned by BellSouth ("Entrance Facilities").

3.2 Transition for DS1 and DS3 Dedicated Transport Including DS1 and DS3 Entrance Facilities

3.2.1 For purposes of this Section 3.2, the Transition Period for the Embedded Base of DS1 and DS3 Dedicated Transport, Embedded Base Entrance Facilities and for Excess DS1 and DS3 Dedicated Transport, is the twelve (12) month period beginning March 11, 2005 and ending March 10, 2006.

3.2.2 For purposes of this Section 3.2, Embedded Base means DS1 and DS3 Dedicated Transport that were in service for DPI-Teleconnect as of March 11, 2005 in those wire centers that, as of such date, met the criteria set forth in Sections 3.2.5.1 or 3.2.5.2 below. Subsequent disconnects or loss of End Users shall be removed from the Embedded Base.

- 3.2.3 For purposes of this Section 3.2, Embedded Base Entrance Facilities means Entrance Facilities that were in service for DPI-Teleconnect as of March 11, 2005. Subsequent disconnects or loss of customers shall be removed from the Embedded Base.
- 3.2.4 For purposes of this Section 3.2, Excess DS1 and DS3 Dedicated Transport means those DPI-Teleconnect DS1 and DS3 Dedicated Transport facilities in service as of March 11, 2005, in excess of the caps set forth in Section 3.2.5.3. Subsequent disconnects and loss of End Users shall be removed from Excess DS1 and DS3 Loops.
- 3.2.5 Notwithstanding anything to the contrary in this Agreement, BellSouth shall make available Dedicated Transport as described in this Section 3.2 only for DPI-Teleconnect's Embedded Base during the Transition Period:
- 3.2.5.1 DS1 Dedicated Transport where both wire centers at the end points of the route contain 38,000 or more Business Lines or four (4) or more fiber-based collocators. (Tier 1 Wire Center)
- 3.2.5.2 DS3 Dedicated Transport where both wire centers at the end points of the route contain 24,000 or more Business Lines or three (3) or more fiber-based collocators (Tier 2 Wire Center).
- 3.2.5.3 DPI-Teleconnect may obtain a maximum of twelve (12) unbundled DS3 Dedicated Transport circuits on each route where DS3 Dedicated Transport is available as a Network Element, and a maximum of ten (10) unbundled DS1 Dedicated Transport circuits on each Route where there is no 251(c)(3) unbundling obligation for DS3 Dedicated Transport but for which impairment exists for DS1 Dedicated Transport.
- 3.2.6 The initial list of wire centers (Initial Wire Center List) meeting the criteria set forth in Sections 3.2.5.1 and 3.2.5.2 above, is set forth in Section 5.1.4 hereto. As of the effective date of this Amendment, no self-certification in any wire center set forth in the Initial Wire Center List is permitted.
- 3.2.7 Notwithstanding anything to the contrary in this Agreement, BellSouth shall make available Entrance Facilities only for <DPI-Teleconnect's Embedded Base Entrance Facilities and only during the Transition Period.
- 3.2.8 Transition Period Pricing. From March 11, 2005, through the completion of the Transition Period, BellSouth shall charge a rate for DPI-Teleconnect's Embedded Base of DS1 and DS3 Dedicated Transport and for DPI-Teleconnect's Excess DS1 and DS3 Dedicated Transport, as described in this Section 3.2, equal to the higher of:
- 3.2.8.1 115% of the rate paid for that element on June 15, 2004; or
- 3.2.8.2 115% of a new rate the Commission establishes, if any, between June 16, 2004 and March 11, 2005.

- 3.2.8.3 These rates shall be as set forth in Exhibit A to Attachment 2 of the Agreement and this Section 3.2.8.
- 3.2.8.4 From March 11, 2005, through the completion of the Transition Period, BellSouth shall charge a rate for DPI-Teleconnect's Embedded Base Entrance Facilities as set forth in Exhibit A to Attachment 2 of the Agreement and this Section 3.2.8.
- 3.2.9 The Transition Period shall apply only to (1) DPI-Teleconnect's Embedded Base circuits and Embedded Base Entrance Facilities; and (2) DPI-Teleconnect's Excess DS1 and DS3 Dedicated Transport. DPI-Teleconnect shall not add new Entrance Facilities pursuant to this Agreement. Further, DPI-Teleconnect shall not add new DS1 or DS3 Dedicated Transport as described in this Section 3.2 pursuant to this Agreement.
- 3.2.10 A wire center listed on the Initial Wire Center List exceeds either of the thresholds set forth in Sections 3.2.5.1 or 3.2.5.2. No further DS1 Dedicated Transport Unbundling will be required from that wire center to other Tier 1 wire centers.
- 3.2.11 A wire center listed on the Initial Wire Center List exceeds either of the thresholds set forth in Sections 3.2.5.1 or 3.2.5.2. No further DS3 Dedicated Transport unbundling will be required from that wire center to Tier 1 or Tier 2 wire centers.
- 3.2.12 No later than March 10, 2006 DPI-Teleconnect shall submit spreadsheet(s) identifying all of the Embedded Base circuits, Embedded Base Entrance Facilities, and Excess DS1 and DS3 Dedicated Transport to be either disconnected or converted to other BellSouth services pursuant to Section 15. DPI-Teleconnect may transition from these DS1 and DS3 Dedicated Transport, Entrance Facilities, and Excess DS1 and DS3 Dedicated Transport arrangements to other available wholesale arrangements provided by BellSouth, wholesale facilities obtained from other carriers, or self-provisioned facilities. For Conversions as defined in Section 15, such spreadsheet shall take the place of an LSR or ASR. If a DPI-Teleconnect chooses to convert the DS1 and DS3 UNE Dedicated Transport circuits or UNE Entrance Facilities to special access circuits, BellSouth will include such DS1 and DS3 UNE Dedicated Transport circuits and UNE Entrance Facilities once converted within DPI-Teleconnect's total special access circuits and apply any discounts to which DPI-Teleconnect is entitled. The Parties shall negotiate a project schedule for the Conversion of the Embedded Base, Embedded Base Entrance Facilities, and Excess DS1 and DS3 Dedicated Transport.
- 3.2.12.1 If DPI-Teleconnect submits the spreadsheets specified in Section 3.2.12 above for all of its Embedded Base on or before March 10, 2006, Conversions shall be subject to Commission-approved switch-as-is charges.
- 3.2.12.2 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 3.2.12 above for all of its Embedded Base circuits, Embedded Base Entrance Facilities and Excess DS1 and DS3 Dedicated Transport on or before March 10, 2006, BellSouth will identify DPI-Teleconnect's remaining Embedded Base circuits, Embedded Base

Entrance Facilities and Excess DS1 and DS3 Dedicated Transport, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth shall be subject to all applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.

- 3.2.12.3 For Embedded Base circuits, Embedded Base Entrance Facilities and Excess DS1 and DS3 Dedicated Transport converted or transitioned, the applicable recurring tariff charge shall apply to each circuit as of March 11, 2006. The transition of the Embedded Base, Embedded Base Entrance Facilities and Excess DS1 and DS3 Dedicated Transport should be performed in a manner that avoids, or otherwise, minimizes to the extent possible, disruption or degradation to DPI-Teleconnect's customers' service.
- 3.3 Dark Fiber Transport. Dark Fiber Transport is defined as Dedicated Transport that consists of unactivated optical interoffice transmission facilities without attached signal regeneration, multiplexing, aggregation or other electronics. Except as set forth in Section 3.3.1 below, BellSouth shall not be required to provide access to Dark Fiber Transport Entrance Facilities pursuant to this Agreement.
 - 3.3.1 Transition for Dark Fiber Transport and Dark Fiber Transport Entrance Facilities
 - 3.3.2 For purposes of this Section 3.3, the Transition Period for the Embedded Base Dark Fiber Transport and Embedded Base Dark Fiber Entrance Facilities is the eighteen (18) month period beginning March 11, 2005 and ending September 10, 2006.
 - 3.3.3 For purposes of this Section 3.3, Embedded Base means Dark Fiber Transport that was in service for DPI-Teleconnect as of March 11, 2005 in those wire centers that, as of such date, met the criteria set forth in 3.3.6 below. Subsequent disconnects or loss of End Users shall be removed from the Embedded Base.
 - 3.3.4 For purposes of this Section 3.3, Embedded Base Dark Fiber Entrance Facilities means Fiber Entrance Facilities that were in service for DPI-Teleconnect as of March 11, 2005 in those wire centers that, as of such date, met the criteria set forth in 3.3.6 below. Subsequent disconnects or loss of End Users shall be removed from the Embedded Base.
 - 3.3.5 Notwithstanding anything to the contrary in this Agreement, BellSouth shall make available Dark Fiber Transport as described in this Section 3.3 only for DPI-Teleconnect's Embedded Base during the Transition Period:
 - 3.3.6 Dark Fiber Transport where both wire centers at the end points of the route contain twenty-four thousand (24,000) or more Business Lines or three (3) or more fiber-based collocators. (Tier 2 Wire Center)

- 3.3.7 The initial list of wire centers (Initial Wire Center List) meeting the criteria set forth in Section 3.3.6 above, is set forth in Section 5.1.4 hereto. As of the effective date of this Amendment, no self-certification in any wire center set forth in the Initial Wire Center List is permitted.
- 3.3.8 Transition Period Pricing. From March 11, 2005, through the completion of the Transition Period, BellSouth shall charge a rate for DPI-Teleconnect's Embedded Base and Embedded Base Dark Fiber Entrance Facilities shall be equal to the higher of:
- 3.3.8.1 115% of the rate paid for that element on June 15, 2004; or
- 3.3.8.2 115% of a new rate the Commission establishes, if any, between June 16, 2004 and March 11, 2005.
- 3.3.8.3 These rates shall be as set forth in Exhibit A Attachment 2 of the Agreement and this Section 3.3.8.
- 3.3.8.4 From March 11, 2005, through the completion of the Transition Period, BellSouth shall charge a rate for DPI-Teleconnect's Embedded Base Entrance Facilities as set forth in this Section 3.3.8.
- 3.3.9 The Transition Period shall apply only to DPI-Teleconnect's Embedded Base of Dark Fiber Transport and Dark Fiber Entrance Facilities. DPI-Teleconnect shall not add new Dark Fiber Transport as described in this Section 3.3. DPI-Teleconnect shall not add new Dark Fiber Entrance Facilities pursuant to this Agreement.
- 3.3.10 Wire Centers listed on the Initial List exceed the threshold set forth in Section 3.3.6, BellSouth will not be required to provide DPI-Teleconnect future access to Dark Fiber Transport from those wire centers.
- 3.3.11 No later than September 10, 2006 DPI-Teleconnect shall submit spreadsheet(s) identifying all of the Embedded Base of Dark Fiber Transport and Dark Fiber Entrance Facilities to be either disconnected or converted to other BellSouth services as Conversions pursuant to Section 15. DPI-Teleconnect may transition from these Dark Fiber Transport and Dark Fiber Entrance Facilities to other available wholesale arrangements provided by BellSouth, wholesale facilities obtained from other carriers, or self-provisioned facilities. For Conversions as defined in Section 15, such spreadsheet shall take the place of an LSR or ASR. If a DPI-Teleconnect chooses to convert the Dark Fiber UNE Transport circuits and Dark Fiber Entrance Facilities to special access circuits, BellSouth will include such Dark Fiber UNE Transport circuits and Dark Fiber UNE Entrance Facilities once converted within DPI-Teleconnect's total special access circuits and apply any discounts to which DPI-Teleconnect is entitled. The Parties shall negotiate a project schedule for the Conversion of the Embedded Base of Dark Fiber Transport and Dark Fiber Entrance Facilities.

- 3.3.11.1 If DPI-Teleconnect submits the spreadsheets specified in Section 3.3.11 for all of its Embedded Base of Dark Fiber Transport and Dark Fiber Entrance Facilities on or before September 10, 2006, Conversions shall be subject to Commission-approved switch-as-is charges.
- 3.3.11.2 If DPI-Teleconnect fails to submit the spreadsheet(s) for all of its Embedded Base of Dark Fiber Transport and Dark Fiber Entrance Facilities prior to September 10, 2006, BellSouth will identify DPI-Teleconnect's remaining Embedded Base of Dark Fiber Transport and Dark Fiber Entrance Facilities, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth shall be subject to all applicable UNE disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
- 3.3.11.3 For Embedded Base Dark Fiber Transport and Embedded Base Dark Fiber Entrance Facilities converted or transitioned, the applicable recurring tariff charge shall apply to each circuit as of September 11, 2006. The transition of the Embedded Base Dark Fiber Transport and Embedded Base Dark Fiber Entrance Facilities should be performed in a manner that avoids, or otherwise, minimizes to the extent possible, disruption or degradation to DPI-Teleconnect's customers' service.

4. Loops/Transport

4.1 Language to implement BellSouth's obligation to provide § 251 unbundled access to high capacity loops and dedicated transport is included under Issue 1.

4.2 (i) Business Line

4.2.1 For purposes of this Amendment, a "Business Line" is, as defined in 47 C.F.R. § 51.5, a BellSouth-owned switched access line used to serve a business customer, whether by BellSouth itself or by a CLEC that leases the line from BellSouth. The number of business lines in a wire center shall equal the sum of all BellSouth business switched access lines, plus the sum of all UNE loops connected to that wire center, including UNE loops provisioned in combination with other unbundled elements. Among these requirements, business line tallies (1) shall include only those access lines connecting end-user customers with BellSouth end-offices for switched services, (2) shall not include non-switched special access lines, (3) shall account for ISDN and other digital access lines by counting each 64 kbps-equivalent as one line. For example, a DS1 line corresponds to 24 64 kbps-equivalents, and therefore to 24 "business lines."

4.3 (ii) Fiber-Based Collocation

4.3.1 For purposes of this Amendment a "Fiber-Based Collocator" is, as defined in 47 C.F.R. § 51.5, any carrier, unaffiliated with BellSouth, that maintains a collocation arrangement in a BellSouth wire center, with active electrical power supply, and operates a fiber-optic cable or comparable transmission facility that (1) terminates at a collocation arrangement within the wire center; (2) leaves the BellSouth wire center premises; and (3) is owned by a party other than BellSouth or any affiliate of BellSouth, except as set forth in this paragraph. Dark fiber obtained from an incumbent LEC on an indefeasible right of use basis shall be treated as non-incumbent LEC fiber-optic cable. Two or more affiliated fiber-based collocators in a single wire center shall collectively be counted as a single fiber-based collocator. For purposes of this paragraph, the term affiliate is defined by 47 U.S.C. § 153(1) and any relevant interpretation in this Title.

4.4 (iii) Building

4.4.1 For purposes of this Amendment, a "Building" is a permanent physical structure including, but not limited to, a structure in which people reside, or conduct business or work on a daily basis and through which there is one centralized point of entry in the structure through which all telecommunications services must transit. As an example only, a high rise office building with a general telecommunications equipment room through which all telecommunications services to that building's

tenants must pass would be a single “building” for purposes of this Amendment. Two or more physical areas served by individual points of entry through which telecommunications services must transit will be considered separate buildings. For instance, a strip mall with individual businesses obtaining telecommunication services from different access points on the building(s) will be considered individual buildings, even though they might share common walls.

4.5 (iv) Route

4.5.1 The definition of a route is as defined in Section 3.1 of this Exhibit A.

5.1 Procedures For Additional Designations Of “Non-Impaired” Wire Centers

5.1.1 If BellSouth seeks to designate additional wire centers as “non-impaired” for purposes of the FCC’s Triennial Review Remand Order (TRRO), BellSouth will post a Carrier Notification Letter (CNL) designating any new (additional) “non-impaired” wire centers (“subsequent wire centers”). The list of additional “non-impaired” wire centers as designated by BellSouth will reflect the number of Business Lines, as of December 31 of the previous year, and will also reflect the number of fiber-based collocators in each subsequent wire center on the list at the time of BellSouth’s designation.

5.1.2 Designation by BellSouth of additional “non-impaired” wire centers will be based on the following criteria:

- a. The CLLI of the wire center.
- b. The number of switched business lines served by BellSouth in that wire center based upon data as reported in ARMIS 43-08 for the previous year.
- c. The sum of all UNE Loops connected to each wire center, including UNE Loops provisioned in combination with other elements.
- d. A completed worksheet that shows, in detail, any conversion of access lines to voice grade equivalents.
- e. The names of any carriers relied upon as fiber-based collocators.

5.1.3 BellSouth and DPI-Teleconnect agree to resolve disputes concerning BellSouth’s additional wire center designations in dispute resolution proceedings before the Commission.

5.1.4 The initial wire center list is shown below.

WPBHFLLE	13,622	3	2	

6. 2-wire or 4-wire HDSL-Compatible Loop. This is a designed Loop that meets Carrier Serving Area (CSA) specifications, may be up to 12,000 feet long and may have up to 2,500 feet of bridged tap (inclusive of Loop length). It may be a 2-wire or 4-wire circuit and will come standard with a test point, OC, and a DLR.

7. 4-wire Unbundled DS1 Digital Loop. This is a designed 4-wire Loop that is provisioned according to industry standards for DS1 or Primary Rate ISDN services and will come standard with a test point, OC, and a DLR. A DS1 Loop may be provisioned over a variety of loop transmission technologies including copper, HDSL-based technology or fiber optic transport systems. It will include a 4-wire DS1 Network Interface at the End User's location. For purposes of this Amendment, including the transition of DS1 and DS3 Loops described in Section 1 above, DS1 Loops include 2-wire and 4-wire HDSL Compatible Loops.

8. Except to the extent expressly provided otherwise in this Attachment, DPI-Teleconnect may not maintain unbundled network elements or combinations of unbundled network elements, that are no longer offered pursuant to this Agreement (collectively “Arrangements”). In the event BellSouth determines that DPI-Teleconnect has in place any Arrangements after the Effective Date of this Agreement, BellSouth will provide DPI-Teleconnect with thirty (30) calendar days written notice to disconnect or convert such Arrangements. Those circuits identified by DPI-Teleconnect within such thirty (30) day period shall be subject to Commission-approved switch-as-is rates with no UNE disconnect charges. If DPI-Teleconnect fails to submit orders to disconnect or convert such Arrangements within such thirty (30)-day period, BellSouth will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth shall be subject to all applicable UNE disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth’s tariffs. The applicable recurring tariff charges shall apply to each circuit beginning the day following the thirty (30)-day notice period.

9. Self-Certification. Prior to submitting an order pursuant to this Agreement for high capacity (DS1 or above) Dedicated Transport or high capacity Loops, DPI-Teleconnect shall undertake a reasonably diligent inquiry to determine whether DPI-Teleconnect is entitled to unbundled access to such Network Elements in accordance with the terms of this Agreement. By submitting any such order, DPI-Teleconnect self-certifies that to the best of DPI-Teleconnect’s knowledge, the high capacity Dedicated Transport or high capacity Loop requested is available as a Network Element pursuant to this Agreement. Upon receiving such order, BellSouth shall process the request in reliance upon DPI-Teleconnect’s self-certification. To the extent BellSouth believes that such request does not comply with the terms of this Agreement, BellSouth shall seek dispute resolution in accordance with the General Terms and Conditions of this Agreement. In the event such dispute is resolved in BellSouth’s favor, BellSouth shall bill DPI-Teleconnect the difference between the rates for such circuits pursuant to this Agreement and the applicable nonrecurring and recurring charges for the equivalent tariffed service from the date of installation to the date the circuit is transitioned to the equivalent tariffed service. Within thirty (30) calendar days following a decision finding in BellSouth’s favor, DPI-Teleconnect shall submit a spreadsheet identifying those non-compliant circuits to be transitioned to tariffed services or disconnected.

10. In the event that (1) BellSouth designates a wire center as non-impaired, (2) DPI-Teleconnect converts existing UNEs to other services or orders new services as services other than UNEs, (3) DPI-Teleconnect otherwise would have been entitled to UNEs in such wire center at the time alternative services provisioned, and (4)

BellSouth acknowledges or a state or federal agency regulatory body with authority determines that, at the time BellSouth designated such wire center as non-impaired, such wire center did not meet the FCC's non-impairment criteria, then upon request of DPI-Teleconnect, BellSouth shall transition to UNEs any alternative services in such wire center that were established after such wire center was designated as non-impaired. In such instances, BellSouth shall refund DPI-Teleconnect the difference between the rate paid by DPI-Teleconnect for such services and the applicable UNE rate, including but not limited to any charges associated with the unnecessary conversion from UNE to other wholesale services.

11. Modifications and Updates to the Wire Center List and Subsequent Transition Periods
 - 11.1 DS1 or DS3 loops, or Dedicated Transport in Wire Centers that Meet the TRRO Non-Impaired Criteria in the Future
 - 11.2 In the event BellSouth identifies additional wire centers that meet the criteria set forth in Sections 1.4.1 (DS1 loops), 1.4.2 (DS3 loops), 3.2.5.1 (DS1 transport) and 3.2.5.2 (DS3 transport) but that were not included in the Initial Wire Center List, BellSouth shall include such additional wire centers in a carrier notification letter (CNL). Each such list of additional wire centers shall be considered a "Subsequent Wire Center List."
 - 11.3 Effective thirty (30) calendar days after the date of a BellSouth CNL providing a Subsequent Wire Center List, BellSouth shall not be required to unbundle new DS1 or DS3 Loops, or transport, as applicable, in such additional wire center(s), except pursuant to the self-certification process.
 - 11.4 BellSouth shall make available de-listed DS1 and DS3 Loops and transport that were in service for DPI-Teleconnect in a de-listed wire center on the Subsequent Wire Center List as of the thirtieth (30th) calendar day after the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Embedded Base) until one hundred and eighty (180) calendar days after the thirtieth (30th) calendar day from the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Transition Period).
 - 11.5 Subsequent disconnects or loss of End Users shall be removed from the Subsequent Embedded Base.
 - 11.6 The rates that shall apply to the Subsequent Embedded Base throughout the entire Subsequent Transition Period. The rates shall equal the rate paid for that element at the time of the CNL posting, plus 15%.
 - 11.7 No later than one hundred and eighty (180) calendar days from BellSouth's CNL identifying the Subsequent Wire Center List, DPI-Teleconnect shall submit a spreadsheet(s) identifying the Subsequent Embedded Base of circuits to be disconnected or converted to other BellSouth services. For Conversions as defined in Section 15, such spreadsheets shall take the place of an LSR or ASR. The Parties shall negotiate a project schedule for the Conversion of the Subsequent Embedded Base of circuits. If a DPI-Teleconnect chooses to convert the de-listed DS1 and DS3

- Loops and Transport to special access circuits, BellSouth will include such de-listed DS1 and DS3 Loops and Transport once converted within DPI-Teleconnect's total special access circuits and apply any discounts to which DPI-Teleconnect is entitled. The Parties shall negotiate a project schedule for the Conversion of the Subsequent Embedded Base.
- 11.7.1 If DPI-Teleconnect submits the spreadsheet(s) for its Subsequent Embedded Base by one hundred and eighty (180) calendar days from BellSouth's CNL identifying the Subsequent Wire Center List, those identified circuits shall be subject to the Commission-approved switch-as-is conversion nonrecurring charges.
- 11.7.2 If DPI-Teleconnect fails to submit the spreadsheet(s) for all of its Subsequent Embedded Base by one hundred and eighty (180) calendar days after the date of BellSouth's CNL identifying the Subsequent Wire Center List, BellSouth will identify DPI-Teleconnect's remaining Subsequent Embedded Base, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth shall be subject to the applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
- 11.7.3 For Subsequent Embedded Base circuits converted or transitioned, the applicable recurring tariff charges shall apply on the first day after the end of the Subsequent Transition Period. The transition of the Subsequent Embedded Base circuits should be performed in a manner that avoids, or otherwise minimizes to the extent possible, disruption or degradation to DPI-Teleconnect's customers' service.
- 11.8 Dark Fiber Transport in Wire Centers that Meet the TRRO Non-Impaired Criteria in the Future
- 11.8.1 In the event BellSouth identifies additional wire centers that meet the criteria set forth in Section 3.3.6 above, but that were not included in the Initial Wire Center List, BellSouth shall include such additional wire centers in a CNL. Each such list of additional wire centers shall be considered a "Subsequent Wire Center List."
- 11.8.2 Effective thirty (30) calendar days after the date of a BellSouth CNL providing a Subsequent Wire Center List, BellSouth shall not be required to unbundle new Dark Fiber Transport, as applicable, in such additional wire center(s), except pursuant to the self-certification process as set forth in Section 9 above.
- 11.8.3 For purposes of Section 11.8, BellSouth shall make available dark fiber transport that was in service for DPI-Teleconnect in a wire center on the Subsequent Wire Center List as of the thirtieth (30th) calendar day after the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Embedded Base) until two hundred and seventy (270) calendar days after the thirtieth (30th) calendar day from the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Transition Period).
- 11.8.4 Subsequent disconnects or loss of End Users shall be removed from the Subsequent Embedded Base.

- 11.8.5 The rates that shall apply to the Subsequent Embedded Base throughout the entire Subsequent Transition Period. The rates shall equal the rate paid for that element at the time of the CNL posting, plus 15%.
- 11.8.6 No later than two hundred and seventy (270) calendar days from BellSouth's CNL identifying the Subsequent Wire Center List DPI-Teleconnect shall submit a spreadsheet(s) identifying the Subsequent Embedded Base of circuits to be disconnected or converted to other BellSouth services. For Conversions as defined in Section 15, such spreadsheets shall take the place of an LSR or ASR. The Parties shall negotiate a project schedule for the Conversion of the Subsequent Embedded Base of circuits. If a DPI-Teleconnect chooses to convert the Dark Fiber Transport to special access circuits, BellSouth will include such Dark Fiber Transport once converted within DPI-Teleconnect's total special access circuits and apply any discounts to which DPI-Teleconnect is entitled. The Parties shall negotiate a project schedule for the Conversion of the Subsequent Embedded Base.
- 11.8.6.1 If DPI-Teleconnect submits the spreadsheet(s) for its Subsequent Embedded Base within two hundred and seventy (270) calendar days from BellSouth's CNL identifying the Subsequent Wire Center List, those identified circuits shall be subject to the Commission-approved switch-as-is conversion nonrecurring charges are applicable
- 11.8.6.2 If DPI-Teleconnect fails to submit the spreadsheet(s) for all of its Subsequent Embedded Base within two hundred and seventy (270) calendar days after the date of BellSouth's CNL identifying the Subsequent Wire Center List, BellSouth will identify DPI-Teleconnect's remaining Subsequent Embedded Base, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth shall be subject to the applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
- 11.8.7 For Subsequent Embedded Base circuits converted or transitioned, the applicable recurring tariff charges shall apply on the first day after the end of the Subsequent Transition Period. The transition of the Subsequent Embedded Base circuits should be performed in a manner that avoids, or otherwise, minimizes to the extent possible, disruption or degradation to DPI-Teleconnect's customers' service.

12. DPI-Teleconnect may purchase and use Network Elements and Other Services from BellSouth in accordance with 47 C.F.R §51.309. Performance Measurements associated with this Attachment 2 are contained in Attachment 9. The quality of the Network Elements provided pursuant to §251, as well as the quality of the access to said Network Elements that BellSouth provides to DPI-Teleconnect, shall be, to the extent technically feasible, at least equal to that which BellSouth provides to itself, and its affiliates.

13. The Parties shall comply with the requirements as set forth in the technical references within this Attachment 2. BellSouth shall comply with the requirements set forth in the technical reference TR73400, as well as any performance or other requirements identified in this Agreement, to the extent that they are consistent with the greater of BellSouth's actual performance or applicable industry standards. If one or more of the requirements set forth in this Agreement are in conflict, the technical reference TR73600 requirements shall apply. If the parties cannot reach agreement, the dispute resolution process set forth in the General Terms and Conditions of this Agreement shall apply.

14. Commingling of Services

- 14.1 Commingling means the connecting, attaching, or otherwise linking of a Network Element, or a Combination, to one or more Telecommunications Services or facilities that DPI-Teleconnect has obtained at wholesale from BellSouth, or the combining of a Network Element or Combination with one or more such wholesale Telecommunications Services or facilities. The wholesale services that can be commingled with Network Elements or a Combination do not include network elements required to be unbundled under Section 271. DPI-Teleconnect must comply with all rates, terms or conditions applicable to such wholesale Telecommunications Services or facilities.
- 14.2 Subject to the limitations set forth elsewhere in this Attachment, BellSouth shall not deny access to a Network Element or a Combination on the grounds that one or more of the elements: 1) is connected to, attached to, linked to, or combined with such a facility or service obtained from BellSouth; or 2) shares part of BellSouth's network with access services or inputs for mobile wireless services and/or interexchange services.
- 14.3 Unless expressly prohibited by the terms of this Attachment, BellSouth shall permit DPI-Teleconnect to Commingle an unbundled Network Element or a Combination of unbundled Network Elements with wholesale services obtained from BellSouth. For purposes of example only, DPI-Teleconnect may Commingle unbundled Network Elements or Combinations of unbundled Network Elements with wholesale services including switched and special access services, or services purchased under resale arrangements with BellSouth.
- 14.4 Unless otherwise agreed to by the Parties, the Network Element portion of a commingled circuit will be billed at the rates set forth in this Agreement and the remainder of the circuit or service will be billed in accordance with BellSouth's tariffed rates or rates set forth in that separate agreement.
- 14.5 When multiplexing equipment is attached to a commingled arrangement, the multiplexing equipment will be billed from the same agreement or the tariff as the higher bandwidth circuit. Central Office Channel Interfaces (COCI) will be billed from the same agreement or tariff as the lower bandwidth circuit.
- 14.6 Terms and conditions for order cancellation charges and Service Date Advancement Charges will apply in accordance with Attachment 6 and are incorporated herein by this reference. The charges shall be as set forth in Exhibit A to Attachment 2 of the Agreement and Exhibit B hereto.

15. Conversion of Wholesale Services to Network Elements or Network Elements to Wholesale Services

15.1 Upon request, BellSouth shall convert a wholesale service, or group of wholesale services, to the equivalent Network Element or Combination that is available to DPI-Teleconnect pursuant to Section 251 of the Act and under this Agreement, or convert a Network Element or Combination that is available to DPI-Teleconnect pursuant to Section 251 of the Act and under this Agreement to an equivalent wholesale service or group of wholesale services offered by BellSouth (collectively "Conversion"). BellSouth shall charge the applicable nonrecurring switch-as-is rates for Conversions to specific Network Elements or Combinations found in Exhibit A. BellSouth shall also charge the same nonrecurring switch-as-is rates when converting from Network Elements or Combinations. Any rate change resulting from the Conversion will be effective as of the next billing cycle following BellSouth's receipt of a complete and accurate Conversion request from DPI-Teleconnect. A Conversion shall be considered termination for purposes of any volume and/or term commitments and/or grandfathered status between DPI-Teleconnect and BellSouth. Any change from a wholesale service/group of wholesale services to a Network Element/Combination, or from a Network Element/Combination to a wholesale service/group of wholesale services that requires a physical rearrangement will not be considered to be a Conversion for purposes of this Agreement. BellSouth will not require physical rearrangements if the Conversion can be completed through record changes only. Orders for Conversions will be handled in accordance with the guidelines set forth in the Ordering Guidelines and Processes and CLEC Information Packages as referenced in Section 15.3 below.

15.2 Any outstanding conversions shall be effective on or after the effective date of this agreement.

15.3 Ordering Guidelines and Processes

15.3.1 For information regarding Ordering Guidelines and Processes for various Network Elements, Combinations and Other Services, DPI-Teleconnect should refer to the "Guides" section of the BellSouth Interconnection Web site.

15.3.2 Additional information may also be found in the individual CLEC Information Packages located at the "CLEC UNE Products" on BellSouth's Interconnection Web site at: www.interconnection.bellsouth.com/guides/html/unes.html.

15.3.3 The provisioning of Network Elements, Combinations and Other Services to DPI-Teleconnect's Collocation Space will require cross-connections within the central office to connect the Network Element, Combinations or Other Services to the demarcation point associated with DPI-Teleconnect's Collocation Space. These cross-connects are separate components that are not considered a part of the Network Element, Combinations or Other Services and, thus, have a separate charge pursuant to this Agreement.

15.3.4 Any pending conversions shall be effective on the effective date of this agreement.

16. Line Splitting

16.1 Line splitting shall mean that DPI-Teleconnect purchases a whole loop and provides the splitter to provide voice and data services through an arrangement with a third party CLEC, who is either the provider of data services (Data CLEC) or the provider of voice services (Voice CLEC), to deliver voice and data service to End Users over the same Loop. The Voice CLEC and Data CLEC are different carriers, with DPI-Teleconnect being either the Voice CLEC or Data CLEC.

16.2 Line Splitting – UNE-L. In the event DPI-Teleconnect provides its own switching or obtains switching from a third party, DPI-Teleconnect may engage in line splitting arrangements with another CLEC using a splitter, provided by DPI-Teleconnect, in a Collocation Space at the central office where the loop terminates into a distribution frame or its equivalent.

16.3 Provisioning Line Splitting and Splitter Space – UNE-L

16.3.1 **DPI-Teleconnect** provides the splitter when providing Line Splitting with UNE-L. When DPI-Teleconnect or its authorized agent owns the splitter, Line Splitting requires the following: a loop from NID at the End User's location to the serving wire center and terminating into a distribution frame or its equivalent.

16.4 CLEC Provided Splitter – Line Splitting –UNE-L

16.4.1 To order High Frequency Spectrum on a particular Loop, DPI-Teleconnect or its authorized agent must have a DSLAM collocated in the central office that serves the End User of such Loop.

16.4.2 DPI-Teleconnect or its authorized agent may purchase, install and maintain central office POTS splitters in its collocation arrangements. DPI-Teleconnect or its authorized agent may use such splitters for access to its customers and to provide digital line subscriber services to its customers using the High Frequency Spectrum. Existing Collocation rules and procedures and the terms and conditions relating to Collocation set forth in Attachment 4-Central Office shall apply.

16.4.3 Any splitters installed by DPI-Teleconnect or its authorized agent in its collocation arrangement shall comply with ANSI T1.413, Annex E, or any future ANSI splitter Standards. DPI-Teleconnect or its authorized agent may install any splitters that BellSouth deploys or permits to be deployed for itself or any BellSouth affiliate.

16.5 Maintenance – Line Splitting –UNE-L

16.5.1 BellSouth will be responsible for repairing voice troubles and the troubles with the physical loop between the NID at the End User's premises and the termination point.

16.5.2 BellSouth must make all necessary network modifications, including providing nondiscriminatory access to operations support systems necessary for pre-ordering, ordering, provisioning, maintenance and repair, and billing for loops used in line splitting arrangements. BellSouth may use existing state commission collaboratives

and change management processes to address OSS modifications that are necessary to support line splitting.

16.6 Indemnity

16.6.1 DPI-Teleconnect shall indemnify, defend and hold harmless BellSouth from and against any Claims, Losses, and Costs, which arise out of actions related to the other service provider (i.e., CLEC party to the line splitting arrangement who is not DPI-Teleconnect), except to the extent caused by BellSouth's gross negligence or willful misconduct.

16.6.2 PROVIDED, HOWEVER, that all amounts advanced in respect of such Claims, Losses and Costs shall be repaid to DPI-Teleconnect by BellSouth if it shall ultimately be determined in a final judgment without further appeal by a court of appropriate jurisdiction that BellSouth is not entitled to be indemnified for such Claims, Losses and Costs because the Claims, Losses and Costs arose as a result of BellSouth's gross negligence or willful misconduct.

16.6.3 BellSouth will indemnify, defend and hold harmless DPI-Teleconnect from and against any Claims, Losses, and Costs, which arise out of actions related to the other service provider (i.e., CLEC party to the line splitting arrangement who is not DPI-Teleconnect) brought against DPI-Teleconnect to the extent such Claim alleges that the cause of Claim, Loss and Cost was the result of BellSouth's gross negligence or willful misconduct.

16.6.4 PROVIDED, HOWEVER, that BellSouth shall have no obligation to indemnify DPI-Teleconnect under this section unless: DPI-Teleconnect provides BellSouth with prompt written notice of any such Claim; DPI-Teleconnect permits BellSouth to assume and control the defense to such action, with counsel chosen by BellSouth; and BellSouth does not enter into any settlement or compromise of such Claim.

16.6.5 PROVIDED, HOWEVER, that all amounts advanced in respect of such Claims, Losses and Costs shall be repaid to BellSouth by DPI-Teleconnect if it shall ultimately be determined in a final judgment without further appeal by a court of appropriate jurisdiction that DPI-Teleconnect is not entitled to be indemnified for such Claims, Losses and Costs because the Claims, Losses and Costs did not arise as a result of BellSouth's gross negligence or willful misconduct.

16.6.6 "Claim" means any threatened, pending or completed action, suit or proceeding, or any inquiry or investigation that BellSouth or DPI-Teleconnect in good faith believes might lead to the institution of any such action, suit or proceeding.

16.6.7 "Loss" means any and all damages, injury, judgments, fines, penalties, amounts paid or payable in settlement, deficiencies, and expenses (including all interest, assessments, and other charges paid or payable in connection with or respect of such Losses) incurred in connection with the Claim.

16.6.8 “Costs” means all reasonable attorney’s fees and all other reasonable fees, expenses and obligations paid or incurred in connection with the Claim or related matters, including without limitation, investigating, defending or participating (as a party, witness or otherwise) in (including on appeal), or preparing to defend or participate in any Claim.

17. 911 and E911 Databases

17.1 BellSouth shall provide DPI-Teleconnect with nondiscriminatory access to 911 and E911 databases on an unbundled basis, in accordance with 47 C.F.R. § 51.319 (f).

17.2 The ALI/DMS database contains End User information (including name, address, telephone information, and sometimes special information from the local service provider or End User) used to determine to which PSAP to route the call. The ALI/DMS database is used to provide enhanced routing flexibility for E911. DPI-Teleconnect will be required to provide the BellSouth 911 database vendor daily service order updates to E911 database in accordance with Section 17.3.1 below.

17.3 Technical Requirements

17.3.1 BellSouth's 911 database vendor shall provide DPI-Teleconnect the capability of providing updates to the ALI/DMS database through a specified electronic interface. DPI-Teleconnect shall contact BellSouth's 911 database vendor directly to request interface. DPI-Teleconnect shall provide updates directly to BellSouth's 911 database vendor on a daily basis. Updates shall be the responsibility of DPI-Teleconnect and BellSouth shall not be liable for the transactions between DPI-Teleconnect and BellSouth's 911 database vendor.

17.3.2 It is DPI-Teleconnect's responsibility to retrieve and confirm statistical data and to correct errors obtained from BellSouth's 911 database vendor on a daily basis. All errors will be assigned a unique error code and the description of the error and the corrective action is described in the CLEC Users Guide for Facility Based Providers that is found on the BellSouth Interconnection Web site.

17.3.3 DPI-Teleconnect shall conform to the BellSouth standards as described in the CLEC Users Guide to E911 for Facilities Based Providers that is located on the BellSouth's Interconnection Web site: www.interconnection.bellsouth.com/guides.

17.3.4 Stranded Unlocks are defined as End User records in BellSouth's ALI/DMS database that have not been migrated for over ninety (90) days to DPI-Teleconnect, as a new provider of local service to the End User. Stranded Unlocks are those End User records that have been "unlocked" by the previous local exchange carrier that provided service to the End User and are open for DPI-Teleconnect to assume responsibility for such records.

17.3.5 Based upon End User record ownership information available in the NPAC database, BellSouth shall provide a Stranded Unlock annual report to DPI-Teleconnect that

reflects all Stranded Unlocks that remain in the ALI/DMS database for over ninety (90) days. DPI-Teleconnect shall review the Stranded Unlock report, identify its End User records and request to either delete such records or migrate the records to DPI-Teleconnect within two (2) months following the date of the Stranded Unlock report provided by BellSouth. DPI-Teleconnect shall reimburse BellSouth for any charges BellSouth's database vendor imposes on BellSouth for the deletion of DPI-Teleconnect's records.

18. Fiber to the Home (FTTH) loops are local loops consisting entirely of fiber optic cable, whether dark or lit, serving an End User's premises or, in the case of predominantly residential multiple dwelling units (MDUs), a fiber optic cable, whether dark or lit, that extends to the MDU minimum point of entry (MPOE). Fiber to the Curb (FTTC) loops are local loops consisting of fiber optic cable connecting to a copper distribution plant that is not more than five hundred (500) feet from the End User's premises or, in the case of predominantly residential MDUs, not more than five hundred (500) feet from the MDU's MPOE. The fiber optic cable in a FTTC loop must connect to a copper distribution plant at a serving area interface from which every other copper distribution subloop also is not more than five hundred (500) feet from the respective End User's premises.
- 18.1 In new build (Greenfield) areas, where BellSouth has only deployed FTTH/FTTC facilities, BellSouth is only required to unbundle FTTH/FTTC loops to predominantly commercial MDUs, but has no obligation to unbundle such fiber loops to residential MDUs. While the FCC's rules provide that FTTH/FTTC loops serving end user customer premises do not have to be unbundled, CLEC access to unbundled DS1 and DS3 loops was also preserved. Accordingly, in wire centers in which a non-impairment finding for DS1 or DS3 loops has not been made, BellSouth is obligated upon request to unbundle a FTTH/FTTC loop to provide a DS1 or DS3 loop.

19. A hybrid loop is a local loop, composed of both fiber optic cable, usually in the feeder plant, and copper twisted wire or cable, usually in the distribution plant. BellSouth shall provide DPI-Teleconnect with nondiscriminatory access to the time division multiplexing features, functions and capabilities of such hybrid loop, including DS1 and DS3 capacity under Section 251 where impairment exists, on an unbundled basis to establish a complete transmission path between BellSouth's central office and an End User's premises.
- 19.1 BellSouth shall not engineer the transmission capabilities of its network in a manner, or engage in any policy, practice, or procedure, that disrupts or degrades access to a local loop or subloop, including the time division multiplexing-based features, functions, and capabilities of a hybrid loop, for which a requesting telecommunications carrier may obtain or has obtained access pursuant to this Attachment.

20. Routine Network Modifications

- 20.1 BellSouth will perform Routine Network Modifications (RNM) in accordance with FCC 47 CFR 51.319 (a)(7) and (e)(4) for Loops and Dedicated Transport provided under this Attachment. If BellSouth normally provides such RNM for its own customers and has recovered the costs for performing such modifications through the rates set forth in Exhibit A Attachment 2 of the Agreement, then BellSouth will perform such RNM at no additional charge. A routine network modification is an activity that BellSouth regularly undertakes for its own customers. Routine network modifications include, but are not limited to, rearranging or splicing of cable; adding an equipment case; adding a doubler or repeater; adding a smart jack; installing a repeater shelf; adding a line card; and deploying a new multiplexer or reconfiguring an existing multiplexer. Routine network modifications may entail activities such as accessing manholes, deploying bucket trucks to reach aerial cable, and installing equipment casings. Routine network modifications do not include the construction of a new loop, or the installation of new aerial or buried cable for a CLEC.
- 20.2 RNM will be performed within the intervals established for the Network Element and subject to the performance measurements and associated remedies set forth in Attachment 9 of this Agreement. If BellSouth does not normally provide such RNM for its own customers, and has not recovered the costs of such RNM in the rates set forth in Exhibit A to Attachment 2 of the Agreement, then such request will be handled as a project on an individual case basis. BellSouth will provide a price quote for the request and, upon receipt of payment from DPI-Teleconnect, BellSouth will perform the RNM.

21. Line Conditioning

- 21.1 Line Conditioning is defined as routine network modification that BellSouth regularly undertakes to provide xDSL services to its own customers. This may include the removal of any device, from a copper Loop or copper Subloop that may diminish the capability of the Loop or Subloop to deliver high-speed switched wireline telecommunications capability, including xDSL service. Such devices include, load coils, excessive bridged taps, low pass filters, and range extenders. Excessive bridged taps are bridged taps that serve no network design purpose and that are beyond the limits set according to industry standards and/or the BellSouth's TR 73600 Unbundled Local Loop Technical Specification.
- 21.2 BellSouth will remove load coils only on copper Loops and Subloops that are less than eighteen thousand (18,000) feet in length.
- 21.3 Any copper loop being ordered by DPI-Teleconnect which has over 6,000 feet of combined bridged tap will be modified, upon request from DPI-Teleconnect, so that the loop will have a maximum of 6,000 feet of bridged tap. This modification will be performed at no additional charge to DPI-Teleconnect. Line conditioning orders that

- require the removal of other bridged tap that serves no network design purpose on a copper Loop that will result in a combined total of bridged tap between two thousand five hundred (2,500) and six thousand (6,000) feet will be performed at the rates set forth in Exhibit A to Attachment 2 of the Agreement.
- 21.4 DPI-Teleconnect may request removal of any unnecessary and non excessive bridged tap (bridged tap between zero (0) and two thousand five hundred (2,500) feet which serves no network design purpose), at rates pursuant to BellSouth's SC Process as mutually agreed to by the Parties.
- 21.5 Rates for Unbundled Loop Modification (ULM) are as set forth in Exhibit A to Attachment 2 of the Agreement.
- 21.6 BellSouth will not modify a Loop in such a way that it no longer meets the technical parameters of the original Loop type (e.g., voice grade, ADSL, etc.) being ordered.
- 21.7 If DPI-Teleconnect requests ULM on a reserved facility for a new Loop order, BellSouth may perform a pair change and provision a different Loop facility in lieu of the reserved facility with ULM if feasible. The Loop provisioned will meet or exceed specifications of the requested Loop facility as modified. DPI-Teleconnect will not be charged for ULM if a different Loop is provisioned. For Loops that require a DLR or its equivalent, BellSouth will provide LMU detail of the Loop provisioned.
- 21.8 DPI-Teleconnect will request Loop make up information pursuant to this Attachment prior to submitting a service inquiry and/or a LSR for the Loop type that DPI-Teleconnect desires BellSouth to condition.
- 21.9 When requesting ULM for a Loop that BellSouth has previously provisioned for DPI-Teleconnect, DPI-Teleconnect will submit a SI to BellSouth. If a spare Loop facility that meets the Loop modification specifications requested by DPI-Teleconnect is available at the location for which the ULM was requested, DPI-Teleconnect will have the option to change the Loop facility to the qualifying spare facility rather than to provide ULM. In the event that BellSouth changes the Loop facility in lieu of providing ULM, DPI-Teleconnect will not be charged for ULM but will only be charged the service order charges for submitting an order.

22. In FTTH/FTTC overbuild situations where BellSouth also has copper Loops, BellSouth may make those copper Loops available to DPI-Teleconnect on an unbundled basis, until such time as BellSouth chooses to retire those copper Loops using the FCC's network disclosure requirements. Alternatively, BellSouth will offer a 64 Kbps second voice grade channel over its FTTH/FTTC facilities. BellSouth's retirement of copper Loops must comply with applicable law.
- 22.1 Furthermore, in FTTH/FTTC overbuild areas where BellSouth has not yet retired copper facilities, BellSouth is not obligated to ensure that such copper Loops in that area are capable of transmitting signals prior to receiving a request for access to such Loops by DPI-Teleconnect. If a request is received by BellSouth for a copper Loop, and the copper facilities have not yet been retired, BellSouth will restore the copper Loop to serviceable condition if technically feasible. In these instances of Loop orders in a FTTH/FTTC overbuild area, BellSouth's standard Loop provisioning interval will not apply, and the order will be handled on a project basis by which the Parties will negotiate the applicable provisioning interval.

23. EELs Audit provisions

- 23.1 BellSouth may, on an annual basis audit DPI-Teleconnect's records in order to verify compliance with the high capacity EEL eligibility criteria. To invoke its limited right to audit, BellSouth will send a Notice of Audit to DPI-Teleconnect. Such Notice of Audit will be delivered to DPI-Teleconnect no less than thirty (30) calendar days prior to the date upon which BellSouth seeks to commence an audit.
- 23.2 The audit shall be conducted by a third party independent auditor, retained and paid for by BellSouth. The audit must be performed in accordance with the standards established by the American Institute for Certified Public Accountants (AICPA) which will require the auditor to perform an "examination engagement" and issue an opinion regarding DPI-Teleconnect's compliance with the high capacity EEL eligibility criteria. AICPA standards and other AICPA requirements will be used to determine the independence of an auditor. The independent auditor's report will conclude whether DPI-Teleconnect complied in all material respects with the applicable service eligibility criteria. Consistent with standard auditing practices, such audits require compliance testing designed by the independent auditor.
- 23.3 To the extent the independent auditor's report concludes that DPI-Teleconnect failed to comply with the service eligibility criteria, DPI-Teleconnect must true-up any difference in payments, convert all noncompliant circuits to the appropriate service, and make the correct payments on a going-forward basis.
- 23.4 To the extent the independent auditor's report concludes that DPI-Teleconnect failed to comply in all material respects with the service eligibility criteria, DPI-Teleconnect shall reimburse BellSouth for the cost of the independent auditor. To the extent the independent auditor's report concludes that DPI-Teleconnect did comply in all material respects with the service eligibility criteria, BellSouth will reimburse DPI-Teleconnect for its reasonable and demonstrable costs associated with the audit. DPI-Teleconnect will maintain appropriate documentation to support its certifications. The Parties shall provide such reimbursement within thirty (30) calendar days of receipt of a statement of such costs.

24. DPI-Teleconnect shall not obtain a Network Element for the exclusive provision of mobile wireless services or interexchange services.

25. Facilities that do not terminate at a demarcation point at an End User premises, including, by way of example, but not limited to, facilities that terminate to another carrier's switch or premises, a cell site, Mobile Switching Center or base station, do not constitute local Loops under Section 251, except to the extent that DPI-Teleconnect may require Loops to such locations for the purpose of providing telecommunications services to its personnel at those locations.

26. Subloop Elements.

26.1 Where facilities permit, BellSouth shall offer access to its Unbundled Subloop (USL) elements as specified herein.

26.2 Unbundled Subloop Distribution (USLD)

26.2.1 The USLD facility is a dedicated transmission facility that BellSouth provides from an End User's point of demarcation to a BellSouth cross-connect device. The BellSouth cross-connect device may be located within a remote terminal (RT) or a stand-alone cross-box in the field or in the equipment room of a building. The USLD media is a copper twisted pair that can be provisioned as a 2-wire or 4-wire facility. BellSouth will make available the following subloop distribution offerings where facilities exist:

USLD – Voice Grade (USLD-VG)
Unbundled Copper Subloop (UCSL)
USLD – Intrabuilding Network Cable (USLD-INC (aka riser cable))

26.2.2 USLD-VG is a copper subloop facility from the cross-box in the field up to and including the point of demarcation at the End User's premises and may have load coils.

26.2.3 UCSL is a copper facility eighteen thousand (18,000) feet or less in length provided from the cross-box in the field up to and including the End User's point of demarcation. If available, this facility will not have any intervening equipment such as load coils between the End User and the cross-box.

26.2.4 If DPI-Teleconnect requests a UCSL and it is not available, DPI-Teleconnect may request the copper Subloop facility be modified pursuant to the ULM process to remove load coils and/or excessive bridged taps. If load coils and/or excessive bridged taps are removed, the facility will be classified as a UCSL.

26.2.5 USLD-INC is the distribution facility owned or controlled by BellSouth inside a building or between buildings on the same property that is not separated by a public street or road. USLD-INC includes the facility from the cross-connect device in the building equipment room up to and including the point of demarcation at the End User's premises.

26.2.6 Upon request for USLD-INC from DPI-Teleconnect, BellSouth will install a cross-connect panel in the building equipment room for the purpose of accessing USLD-INC pairs from a building equipment room. The cross-connect panel will function as a single point of interconnection (SPOI) for USLD-INC and will be accessible by multiple carriers as space permits. BellSouth will place cross-connect blocks in twenty five (25) pair increments for DPI-Teleconnect's use on this cross-connect panel. DPI-Teleconnect will be responsible for connecting its facilities to the twenty five (25) pair cross-connect block(s).

- 26.2.7 For access to Voice Grade USLD and UCSL, DPI-Teleconnect shall install a cable to the BellSouth cross-box pursuant to the terms and conditions for physical collocation for remote sites set forth in Attachment 4. This cable would be connected by a BellSouth technician within the BellSouth cross-box during the set-up process. DPI-Teleconnect's cable pairs can then be connected to BellSouth's USL within the BellSouth cross-box by the BellSouth technician.
- 26.2.8 Through the SI process, BellSouth will determine whether access to USLs at the location requested by DPI-Teleconnect is technically feasible and whether sufficient capacity exists in the cross-box. If existing capacity is sufficient to meet DPI-Teleconnect's request, then BellSouth will perform the site set-up as described in the CLEC Information Package, located at BellSouth's Interconnection Web site: www.interconnection.bellsouth.com/products/html/unes.html.
- 26.2.9 The site set-up must be completed before DPI-Teleconnect can order Subloop pairs. For the site set-up in a BellSouth cross-connect box in the field, BellSouth will perform the necessary work to splice DPI-Teleconnect's cable into the cross-connect box. For the site set-up inside a building equipment room, BellSouth will perform the necessary work to install the cross-connect panel and the connecting block(s) that will be used to provide access to the requested USLs.
- 26.2.10 Once the site set-up is complete, DPI-Teleconnect will request Subloop pairs through submission of a LSR form to the LCSC. OC is required with USL pair provisioning when DPI-Teleconnect requests reuse of an existing facility, and the OC charge shall be billed in addition to the USL pair rate. For expedite requests by DPI-Teleconnect for Subloop pairs, expedite charges will apply for intervals less than five (5) days.
- 26.2.11 USLs will be provided in accordance with BellSouth's TR73600 Unbundled Local Loop Technical Specifications.
- 26.3 Unbundled Network Terminating Wire (UNTW)
- 26.3.1 NTW is unshielded twisted copper wiring that is used to extend circuits from an intra-building network cable terminal or from a building entrance terminal to an individual End User's point of demarcation. It is the final portion of the Loop that in multi-subscriber configurations represents the point at which the network branches out to serve individual subscribers.
- 26.3.2 This element will be provided in MDUs and/or Multi-Tenants Units (MTUs) where either Party owns wiring all the way to the End User's premises. Neither Party will provide this element in locations where the property owner provides its own wiring to the End User's premises, where a third party owns the wiring to the End User's premises.
- 26.3.3 Requirements
- 26.3.3.1 On a multi-unit premises, upon request of the other Party (Requesting Party), the Party owning the network terminating wire (Provisioning Party) will provide access to UNTW pairs on an Access Terminal that is suitable for use by multiple carriers at each Garden Terminal or Wiring Closet.

- 26.3.3.2 The Provisioning Party shall not be required to install new or additional NTW beyond existing NTW to provision the services of the Requesting Party.
- 26.3.3.3 In existing MDUs and/or MTUs in which BellSouth does not own or control wiring (INC/NTW) to the End Users premises, and DPI-Teleconnect does own or control such wiring, DPI-Teleconnect will install UNTW Access Terminals for BellSouth under the same terms and conditions as BellSouth provides UNTW Access Terminals to DPI-Teleconnect.
- 26.3.3.4 In situations in which BellSouth activates a UNTW pair, BellSouth will compensate DPI-Teleconnect for each pair activated commensurate to the price specified in DPI-Teleconnect's Agreement.
- 26.3.3.5 Upon receipt of the UNTW SI requesting access to the Provisioning Party's UNTW pairs at a multi-unit premises, representatives of both Parties will participate in a meeting at the site of the requested access. The purpose of the site visit will include discussion of the procedures for installation and location of the Access Terminals. By request of the Requesting Party, an Access Terminal will be installed either adjacent to each of the Provisioning Party's Garden Terminal or inside each Wiring Closet. The Requesting Party will deliver and connect its central office facilities to the UNTW pairs within the Access Terminal. The Requesting Party may access any available pair on an Access Terminal. A pair is available when a pair is not being utilized to provide service or where the End User has requested a change in its local service provider to the Requesting Party. Prior to connecting the Requesting Party's service on a pair previously used by the Provisioning Party, the Requesting Party is responsible for ensuring the End User is no longer using the Provisioning Party's service or another CLEC's service before accessing UNTW pairs.
- 26.3.3.6 Access Terminal installation intervals will be established on an individual case basis.
- 26.3.3.7 The Requesting Party is responsible for obtaining the property owner's permission for the Provisioning Party to install an Access Terminal(s) on behalf of the Requesting Party. The submission of the SI by the Requesting Party will serve as certification by the Requesting Party that such permission has been obtained. If the property owner objects to Access Terminal installations that are in progress or within thirty (30) days after completion and demands removal of Access Terminals, the Requesting Party will be responsible for costs associated with removing Access Terminals and restoring the property to its original state prior to Access Terminals being installed.
- 26.3.3.8 The Requesting Party shall indemnify and hold harmless the Provisioning Party against any claims of any kind that may arise out of the Requesting Party's failure to obtain the property owner's permission. The Requesting Party will be billed for nonrecurring and recurring charges for accessing UNTW pairs at the time the Requesting Party activates the pair(s). The Requesting Party will notify the Provisioning Party within five (5) business days of activating UNTW pairs using the LSR form.
- 26.3.3.9 If a trouble exists on a UNTW pair, the Requesting Party may use an alternate spare pair that serves that End User if a spare pair is available. In such cases, the Requesting Party will re-terminate its existing jumper from the defective pair to the

spare pair. Alternatively, the Requesting Party will isolate and report troubles in the manner specified by the Provisioning Party. The Requesting Party must tag the UNTW pair that requires repair. If the Provisioning Party dispatches a technician on a reported trouble call and no UNTW trouble is found, the Provisioning Party will charge Requesting Party for time spent on the dispatch and testing the UNTW pair(s).

- 26.3.3.10 If the Requesting Party initiates the Access Terminal installation and the Requesting Party has not activated at least ten percent (10%) of the capacity of the Access Terminal installed pursuant to the Requesting Party's request for an Access Terminal within six (6) months of installation of the Access Terminal, the Provisioning Party will bill the Requesting Party a nonrecurring charge equal to the actual cost of provisioning the Access Terminal.
- 26.3.3.11 If the Provisioning Party determines that the Requesting Party is using the UNTW pairs without reporting the activation of the pairs, the Requesting Party will be billed for the use of that pair back to the date the End User began receiving service from the Requesting Party at that location. Upon request, the Requesting Party will provide copies of its billing record to substantiate such date. If the Requesting Party fails to provide such records, then the Provisioning Party will bill the Requesting Party back to the date of the Access Terminal installation.

**Amendment to the Agreement
Between
DPI-Teleconnect, LLC
and
BellSouth Telecommunications, Inc.
Dated 4/19/2003**

Pursuant to this Amendment, (the "Amendment"), DPI-Teleconnect, LLC (DPI-Teleconnect), and BellSouth Telecommunications, Inc. (BellSouth), hereinafter referred to collectively as the "Parties", hereby agree to amend that certain Interconnection Agreement between the Parties dated 4/19/2003 (Agreement).

WHEREAS, BellSouth and DPI-Teleconnect have entered into good faith negotiations pursuant to the Act to renegotiate an interconnection agreement (New Agreement) to replace the existing Agreement between the Parties, which expired on 4/18/2006; and

WHEREAS, the Parties desire to extend the term of the Agreement; and

WHEREAS, on July 25, 2006, the Louisiana Public Service Commission ("Commission") issued its Order in Docket No. U-28356 ("Order"), Petition Regarding the Establishment of a Generic Proceeding on Change of Law and Nondiscriminatory Pricing for UNEs; and

WHEREAS, the Parties are obligated to amend the Agreement to bring it in compliance with the Commission's Order;

NOW, THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. The Parties hereby agree to extend the term of the Agreement by ninety (90) days following the date of the last signature of this Amendment. Other than the modification of the expiration date as described in this Amendment, all provisions in Section 2 of the General Terms and Conditions of the Agreement relating to the term and termination of the Agreement remain in full force and effect.
2. The Parties hereby agree to incorporate into the Agreement the contract provisions set forth in Exhibit A hereto, and such contract provisions shall apply to services provided in the State of Louisiana only.
3. The Parties hereby agree to incorporate into the Agreement the rates set forth in Exhibit B and C hereto, and such rates shall apply to services provided in the State of Louisiana only.
4. To the extent that such contract provisions or rates as set forth in Exhibits A and B and C hereto conflict with any other rates, terms and conditions in the Agreement, the contract provisions and rates in Exhibits A, B, and C shall prevail in the State of Louisiana.

5. The Parties hereby agree to delete the following rates from Attachment 2, Exhibit A of the Agreement for the state of Louisiana:

8XX Access Ten Digit Screening
Line Information Data Base (LIDB) Access
Calling Name (CNAM) Service
Unbundled Local Switching
Unbundled Port/loop Combinations
Selective Routing
AIN Selective Carrier Routing
AIN – BellSouth AIN SIMS Access Service

6. The Parties also hereby agree to delete the following provisions and associated rates from Attachment 7 of the Agreement for Louisiana:

Optional Daily Usage File (ODUF);
Access Daily Usage File (ADUF);
Enhanced Optional Daily Usage File (EODUF) in their entirety

7. Further, to the extent that defined terms in this Amendment differ from defined terms in the Agreement, such defined terms in the Agreement shall be deemed to have the same meaning as the alternative defined terms in this Amendment to the extent necessary to give full effect to this Amendment consistent with the Louisiana Public Service Commission's Orders.

8. This Amendment shall be shall be deemed effective on March 11, 2006 (Effective Date).

9. All of the other provisions of the Agreement shall remain in full force and effect.

10. Either or both of the Parties are authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties have executed this Amendment the day and year written below.

BellSouth Telecommunications, Inc.

1. **Transition for DS1 and DS3 Loops**
- 1.1 For purposes of this Section 1, the Transition Period for the Embedded Base of DS1 and DS3 Loops and for the Excess DS1 and DS3 Loops is the twelve (12) month period beginning March 11, 2005 and ending March 10, 2006.
- 1.2 For purposes of this Section 1, Embedded Base means DS1 and DS3 Loops that were in service for DPI-Teleconnect as of March 11, 2005 in those wire centers that, as of such date, met the criteria set forth in Section 1.4.1 and 1.4.2.
- 1.3 Excess DS1 and DS3 Loops are those DPI-Teleconnect DS1 and DS3 Loops in service as of March 11, 2005, in excess of the caps set forth in Sections 1.3.1 and 1.3.2 below, respectively.
- 1.3.1 DPI-Teleconnect may obtain a maximum of ten (10) unbundled DS1 Loops to any single building in which such Loops are still subject to unbundling requirements.
- 1.3.2 DPI-Teleconnect may obtain a maximum of one (1) Unbundled DS3 Loop to any single building in which such Loops are still subject to unbundling requirements.
- 1.4 DPI-Teleconnect may obtain access to the following:
 - 1.4.1 Unbundled DS1 Loops to any Building not served by a wire center with at least 60,000 Business Lines and four (4) or more fiber-based collocators.
 - 1.4.2 Unbundled DS3 Loops to any Building not served by a wire center with at least 38,000 Business Lines and four (4) or more fiber-based collocators.
- 1.5 The Initial Unimpaired Wire Center List setting forth the wire centers meeting the criteria set forth in Sections 1.4.1 and 1.4.2 above, is set forth in Carrier Notification Letter SN91086185, which is available on BellSouth's Interconnection Web site.
- 1.6 **Transition Period Pricing.** From March 11, 2005, through the expiration of the Transition Period, BellSouth shall charge/collect a rate for DPI-Teleconnect's Embedded Base and DPI-Teleconnect's Excess DS1 and DS3 Loops equal to 115% of the rate paid for that element on June 15, 2004.

- 1.6.1 These rates shall be as set forth in Exhibit A to Attachment 2 of the Agreement and this Section 1.6.
- 1.7 If DPI-Teleconnect failed to submit the spreadsheet(s) for its Embedded Base and Excess DS1 and DS3 Loops on or before March 10, 2006, BellSouth will identify and transition such circuits to the equivalent wholesale services provided by BellSouth. Those circuits identified and transitioned by BellSouth pursuant to this Section shall be subject to the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
- 1.7.1 For Embedded Base circuits and Excess DS1 and DS3 Loops converted, the applicable recurring tariff charge shall apply to each circuit as of March 11, 2006. The transition of the Embedded Base and Excess DS1 and DS3 Loops should be performed in a manner that avoids, or otherwise minimizes to the extent possible, disruption or degradation to DPI-Teleconnect's customers' service.
2. Dark Fiber Loop
- 2.1 Dark Fiber Loop is an unused optical transmission facility, without attached signal regeneration, multiplexing, aggregation or other electronics, from the demarcation point at an Customer's premises to the Customer's serving wire center. Dark Fiber Loops may be strands of optical fiber existing in aerial or underground structure. BellSouth will not provide line terminating elements, regeneration or other electronics necessary for DPI-Teleconnect to utilize Dark Fiber Loops.
- 2.2 Transition for Dark Fiber Loop
- 2.2.1 For purposes of this Section 2.2, the Transition Period for Dark Fiber Loops is the eighteen (18) month period beginning March 11, 2005 and ending September 10, 2006.
- 2.2.2 For purposes of this Section 2.2, Embedded Base means Dark Fiber Loops that were in service for DPI-Teleconnect as of March 11, 2005 and/or added during the Transition Period as pursuant to Commission Order.
- 2.2.3 During the Transition Period only, BellSouth shall make available for the Embedded Base Dark Fiber Loops for DPI-Teleconnect at the terms and conditions set forth in this Attachment.
- 2.2.4 Transition Period Pricing. From March 11, 2005, through the completion of the Transition Period, BellSouth shall charge a rate for DPI-Teleconnect's Embedded Base of Dark Fiber Loops equal to 115% of the rate paid for that element on June 15, 2004.

- 2.2.4.1 These rates shall be as set forth in Exhibit A to Attachment 2 of the Agreement and this Section 2.2.4.
- 2.2.4.2 The Transition Period shall apply only to DPI-Teleconnect's Embedded Base and DPI-Teleconnect shall not add new Dark Fiber Loops pursuant to this Agreement.
- 2.2.5 Effective September 11, 2006, Dark Fiber Loops shall no longer be made available pursuant to this Agreement.
- 2.2.6 DPI-Teleconnect shall strive to provide spreadsheets to BellSouth no later than September 10, 2006, identifying the specific Dark Fiber Loops, to be either disconnected or converted to other BellSouth services. DPI-Teleconnect may transition from Dark Fiber Loops to other available wholesale facilities provided by BellSouth, including special access, wholesale facilities obtained from other carriers, or self-provisioned facilities. For Conversions as defined in Section 13, such spreadsheets shall take the place of an LSR or ASR. The Parties shall negotiate a project schedule for the Conversion of the Embedded Base Dark Fiber Loops.
 - 2.2.6.1 If DPI-Teleconnect submits the spreadsheets specified in Section 2.2.6 above for all of its Embedded Base on or before September 10, 2006, Conversions shall be subject to Commission-approved switch-as-is charges and no disconnect charges.
 - 2.2.6.2 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 2.2.6 above for all of its Embedded Base on or before September 10, 2006, BellSouth will identify DPI-Teleconnect's remaining Embedded Base, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth pursuant to this Section 2.2.6.2 shall be subject to the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
 - 2.2.6.3 For Embedded Base circuits converted or transitioned, the applicable recurring tariff charge shall apply to each circuit as of September 11, 2006. The transition of the Embedded Base circuits should be performed in a manner that avoids, or otherwise minimizes to the extent possible, disruption or degradation to DPI-Teleconnect's customers' service.
- 3. Local Switching
 - 3.1 Local Switching is not available pursuant to this Agreement.
- 4. Dedicated Transport and Dark Fiber Transport
 - 4.1 Dedicated Transport. Dedicated Transport is defined as BellSouth's transmission facilities between wire centers or switches owned by BellSouth, or between wire

centers or switches owned by BellSouth and switches owned by DPI-Teleconnect, including but not limited to DS1, DS3 and OCn level services, as well as dark fiber, dedicated to DPI-Teleconnect. BellSouth shall not be required to provide access to OCn level Dedicated Transport under any circumstances pursuant to this Agreement. In addition, except as set forth in Section 4.2 below, BellSouth shall not be required to provide to DPI-Teleconnect unbundled access to interoffice transmission facilities that do not connect a pair of wire centers or switches owned by BellSouth (“Entrance Facilities”).

- 4.2 Transition for DS1 and DS3 Dedicated Transport Including DS1 and DS3 Entrance Facilities
 - 4.2.1 For purposes of this Section 4.2, the Transition Period for the Embedded Base of DS1 and DS3 Dedicated Transport, Embedded Base Entrance Facilities and for Excess DS1 and DS3 Dedicated Transport, is the twelve (12) month period beginning March 11, 2005 and ending March 10, 2006.
 - 4.2.2 For purposes of this Section 4.2, Embedded Base means DS1 and DS3 Dedicated Transport that were in service for DPI-Teleconnect as of March 11, 2005 in those wire centers that, as of such date, met the criteria set forth in Sections 4.2.5.1 or 4.2.5.2 below.
 - 4.2.3 For purposes of this Section 4.2, Embedded Base Entrance Facilities means Entrance Facilities that were in service for DPI-Teleconnect as of March 11, 2005.
 - 4.2.4 For purposes of this Section 4.2, Excess DS1 and DS3 Dedicated Transport means those DPI-Teleconnect DS1 and DS3 Dedicated Transport facilities in service as of March 11, 2005, in excess of the caps set forth in Section 4.2.5.3.
 - 4.2.5 DPI-Teleconnect may obtain access to the following:

- 4.2.5.1 DS1 Transport except on routes connecting a pair of wire centers, where both wire centers contain at least four (4) fiber-based collocators or at least 38,000 Business access lines.
- 4.2.5.2 DS3 Transport except on routes connecting a pair of wire centers, each of which contains at least three (3) fiber-based collocators or at least 24,000 Business access lines.
- 4.2.5.3 DPI-Teleconnect may obtain a maximum of twelve (12) unbundled DS3 Dedicated Transport circuits on each route where DS3 Dedicated Transport is available as a Network Element, and a maximum of ten (10) unbundled DS1 Dedicated Transport circuits on each Route where there is no 251(c)(3) unbundling obligation for DS3 Dedicated Transport but for which impairment exists for DS1 Dedicated Transport.
- 4.2.6 The Initial Unimpaired Wire Center List setting forth the wire centers meeting the criteria set forth in Sections 4.2.5.1 and 4.2.5.2 above is set forth in Carrier Notification Letter SN91086185, which is available on BellSouth's Interconnection Web site.
- 4.2.7 Transition Period Pricing. From March 11, 2005, through the completion of the Transition Period, BellSouth shall charge/collect a rate for DPI-Teleconnect's Embedded Base of DS1 and DS3 Dedicated Transport and for DPI-Teleconnect's Excess DS1 and DS3 Dedicated Transport, as described in this Section 4.2, equal to 115% of the rate paid for that element on June 15, 2004.
- 4.2.7.1 These rates shall be as set forth in Exhibit A to Attachment 2 of the Agreement and this Section 4.2.7.
- 4.2.7.2 From March 11, 2005, through the completion of the Transition Period, BellSouth shall charge/collect a rate for DPI-Teleconnect's Embedded Base Entrance Facilities as set forth in Exhibit A to Attachment 2 of the Agreement and this Section 4.2.7.
- 4.2.8 If DPI-Teleconnect failed to submit the spreadsheet(s) identifying its Embedded Base DS1 and DS3 Dedicated Transport circuits, Embedded Base Entrance Facilities and Excess DS1 and DS3 Dedicated Transport on or before March 10, 2006, BellSouth will identify DPI-Teleconnect's remaining Embedded Base DS1 and DS3 Dedicated Transport circuits, Embedded Base Entrance Facilities and Excess DS1 and DS3 Dedicated Transport, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth shall be subject to the full nonrecurring charges for installation of such BellSouth services as set forth in BellSouth's tariffs.
- 4.2.9 For Embedded Base DS1 and DS3 Dedicated Transport circuits, Embedded Base Entrance Facilities and Excess DS1 and DS3 Dedicated Transport converted or transitioned, the applicable recurring tariff charge shall apply to each circuit as of March 11, 2006. The transition of the Embedded Base DS1 and DS3 Dedicated

Transport, Embedded Base Entrance Facilities and Excess DS1 and DS3 Dedicated Transport should be performed in a manner that avoids, or otherwise, minimizes to the extent possible, disruption or degradation to DPI-Teleconnect's customers' service.

- 4.3 Dark Fiber Transport. Dark Fiber Transport is defined as Dedicated Transport that consists of unactivated optical interoffice transmission facilities without attached signal regeneration, multiplexing, aggregation or other electronics. Except as set forth in Section 4.3.1 below, BellSouth shall not be required to provide access to Dark Fiber Transport Entrance Facilities pursuant to this Agreement.
- 4.3.1 Transition for Dark Fiber Transport and Dark Fiber Transport Entrance Facilities
- 4.3.2 For purposes of this Section 4.3, the Transition Period for the Embedded Base Dark Fiber Transport and Embedded Base Dark Fiber Entrance Facilities is the eighteen (18) month period beginning March 11, 2005 and ending September 10, 2006.
- 4.3.3 For purposes of this Section 4.3, Embedded Base means Dark Fiber Transport that was in service for DPI-Teleconnect as of March 11, 2005 in those wire centers that, as of such date, met the criteria set forth in Section 4.3.5 below.
- 4.3.4 For purposes of this Section 4.3, Embedded Base Dark Fiber Entrance Facilities means Fiber Entrance Facilities that were in service for DPI-Teleconnect as of March 11, 2005 in those wire centers that, as of such date, met the criteria set forth in Section 4.3.5 below.
- 4.3.5 DPI-Teleconnect may obtain access to the following:
- 4.3.5.1 Dark Fiber Transport except on routes connecting a pair of wire centers, each of which contains at least three (3) fiber-based collocators or 24,000 Business access lines.
- 4.3.6 The Initial Unimpaired Wire Center List setting forth the wire centers meeting the criteria set forth in Section 4.3.5.1 above is set forth in Carrier Notification Letter SN91086185, which is available on BellSouth's Interconnection Web site.
- 4.3.7 Transition Period Pricing. From March 11, 2005, through the completion of the Transition Period, BellSouth shall charge/collect a rate for DPI-Teleconnect's Embedded Base of Dark Fiber and Embedded Base Dark Fiber Entrance Facilities equal to 115% of the rate paid for that element on June 15, 2004.

- 4.3.7.1 These rates shall be as set forth in Exhibit A Attachment 2 of the Agreement and this Section 4.3.7.
- 4.3.8 No later than September 10, 2006 DPI-Teleconnect shall submit spreadsheet(s) identifying all of the Embedded Base of Dark Fiber Transport and Dark Fiber Entrance Facilities to be either disconnected or converted to other BellSouth services as Conversions pursuant to Section 13. The Parties shall negotiate a project schedule for the Conversion of the Embedded Base of Dark Fiber Transport and Dark Fiber Entrance Facilities.
- 4.3.9 If DPI-Teleconnect submits the spreadsheets specified in Section 4.3.8 for all of its Embedded Base of Dark Fiber Transport and Dark Fiber Entrance Facilities on or before September 10, 2006, Conversions shall be subject to Commission-approved switch-as-is charges.
- 4.3.10 If DPI-Teleconnect fails to submit the spreadsheet(s) for all of its Embedded Base of Dark Fiber Transport and Dark Fiber Entrance Facilities prior to September 10, 2006, BellSouth will identify DPI-Teleconnect's remaining Embedded Base of Dark Fiber Transport and Dark Fiber Entrance Facilities, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s) subject to the full nonrecurring charges for installation of such BellSouth services as set forth in BellSouth's tariffs.
- 4.3.11 For Embedded Base of Dark Fiber Transport and Embedded Base Dark Fiber Entrance Facilities converted or transitioned, the applicable recurring tariff charge shall apply to each circuit as of September 11, 2006. The transition of the Embedded Base of Dark Fiber Transport and Embedded Base Dark Fiber Entrance Facilities should be performed in a manner that avoids, or otherwise, minimizes to the extent possible, disruption or degradation to DPI-Teleconnect's customers' service.
5. Prior to submitting an order pursuant to this Agreement for high capacity (DS1 or above) Dedicated Transport or high capacity Loops, DPI-Teleconnect shall undertake a reasonably diligent inquiry to determine whether DPI-Teleconnect is entitled to unbundled access to such Network Elements in accordance with the terms of this Agreement. By submitting any such order, DPI-Teleconnect self-certifies that to the best of DPI-Teleconnect's knowledge, the high capacity Dedicated Transport or high capacity Loop requested is available as a Network Element pursuant to this Agreement. Upon receiving such order, BellSouth shall process the request in reliance upon DPI-Teleconnect's self-certification. To the extent BellSouth believes that such request does not comply with the terms of this Agreement, BellSouth shall seek dispute resolution in accordance with the General Terms and Conditions of this Agreement. If BellSouth prevails in such dispute resolution proceeding, DPI-Teleconnect shall be liable to BellSouth for the difference between the rate for the equivalent BellSouth alternative arrangement and the self certified UNE, plus interest, on such rate differential.

6. BellSouth will not accept UNE orders for de-listed high capacity Loops or Dedicated Transport elements, as applicable, in the wire centers set forth on the Initial Unimpaired Wire Center List.

Issue 4 –What is the appropriate language to implement BellSouth’s obligation to provide Section 251 unbundled access to high-capacity loops and dedicated transport and how should the following terms be defined? (i) Business Line; (ii) Fiber-Based Collocator; (iii) Building (iv) route; (v) Is a CLEC entitled to obtain DS3 transport from a Tier 3 wire center to each of two or more Tier 1 or Tier 2 wire centers? (vi) is a CLEC entitled to obtain dark fiber transport from a Tier 3 wire center to each of two or more Tier 1 or Tier 2 wire centers?

7. (i) Business Line

7.1 For purposes of this Attachment 2, a “Business Line” is, as defined in 47 C.F.R. § 51.5, and shall include all UNE Loop lines and digital access lines at full capacity.

7.2 (ii) Fiber-Based Collocation

7.2.1 For purposes of this Attachment 2 a “Fiber-Based Collocator” is, as defined in 47 C.F.R. § 51.5.

7.3 (iii) Building

7.3.1 For purposes of this Attachment 2, the definition of a “Building” is to be determined from a “reasonable person” perspective, but within the context of the telecommunications industry, taking into account the FCC’s purpose and rationale behind its current rules.

7.4 (iv) Route

7.4.1 For purposes of this Attachment 2, a “Route” is, as defined in 47 C.F.R. §. 51.319(e).

Issue 6 – Are HDSL-capable copper loops the equivalent of DS1 loops for the purpose of evaluating impairment?

8. 2-wire or 4-wire HDSL-Compatible Loop. This is a designed Loop which meets Carrier Serving Area (CSA) specifications, may be up to 12,000 feet long and may have up to 2,500 feet of bridged tap (inclusive of Loop length). It may be a 2-wire or 4-wire circuit and will come standard with a test point, OC, and a DLR.

9. 4-wire Unbundled DS1 Digital Loop. This is a designed 4-wire Loop that is provisioned according to industry standards for DS1 or Primary Rate ISDN services and will come standard with a test point, OC, and a DLR. A DS1 Loop may be provisioned over a variety of loop transmission technologies including copper, HDSL-based technology or fiber optic transport systems. It will include a 4-wire DS1 Network Interface at the End User's location. For purposes of this Agreement, including the transition of DS1 and DS3 Loops described in Section 1 above, DS1 Loops include 2-wire and 4-wire HDSL-Compatible Loops to which the necessary electronics have been added to provide service speeds of 1.544 megabytes per second.

Issue 10 – Transition of De-listed Network elements to Which No Specified Transition Period Applies. What rates terms and conditions should govern the transition of existing network elements that BellSouth is no longer obligated to provide as Section 251 UNEs to non-Section 251 network elements and other services and (a) what is the proper treatment for such network elements at the end of the transition period,; and (b) what is the appropriate transition period, and what are the appropriate rates, terms and conditions during such transition period, for unbundled high-capacity loops, high capacity transport, and dark fiber transport in and between wire centers that do not meet the FCC’s non-impairment standards at this time, but that meet such standards in the future?

10. Except to the extent expressly provided otherwise in this Attachment, DPI-Teleconnect may not maintain unbundled network elements or combinations of unbundled network elements, that are no longer offered pursuant to this Amendment (collectively “Arrangements”). In the event BellSouth determines that DPI-Teleconnect has in place any Arrangements after the Effective Date of this Amendment, BellSouth will provide DPI-Teleconnect with written notice identifying the specific Arrangement(s) which must be converted or disconnected. DPI-Teleconnect shall have thirty (30) days from the date of the notice to submit orders to disconnect or convert the Arrangements. Those circuits to be converted to other BellSouth services shall be subject to nonrecurring charges associated with that conversion. If DPI-Teleconnect disputes BellSouth’s identification of Arrangement(s) to be disconnected or converted, DPI-Teleconnect shall send written notice of its dispute within thirty (30) days of Bellsouth’s notice. Bellsouth shall not disconnect the disputed Arrangement(s) while the dispute is being resolved. If the Parties are unable to reach a voluntary resolution of the dispute, they may petition the Commission for assistance. If DPI-Teleconnect does not dispute BellSouth’s claims or fails to submit orders to disconnect or convert such Arrangements within the established thirty (30)day period, BellSouth will transition such circuits to the equivalent tariffed BellSouth service(s) subject to the full nonrecurring charges for installation of the equivalent tariffed BellSouth services(s) as set forth in Bellsouth’s tariffs. The applicable recurring tariff charges shall apply to each circuit upon conversion.

Issue 5 – a) Does the Commission have the authority to determine whether or not BellSouth’s application of the FCC’s Section 251 non-impairment criteria for high-capacity loops and transport is appropriate?

b) What procedures should be used to identify those wire centers that satisfy the FCC’s Section 251 non-impairment criteria for high-capacity loops and transport?

c) What language should be included in agreements to reflect the procedures identified in (b)?

11. Modifications and Updates to the Wire Center List and Subsequent Transition Periods

11.1 DS1 or DS3 loops, or Dedicated Transport in Wire Centers that Meet the TRRO Unimpaired Criteria in the Future

11.2 In the event BellSouth identifies additional wire centers that meet the criteria set forth in Sections 1.4.1 (DS1 loops), 1.4.2 (DS3 loops), 4.2.5.1 (DS1 transport) and 4.2.5.2 (DS3 transport) but that were not included in the Initial unimpaired Wire Center List adopted by the Commission, BellSouth shall include such additional wire centers in a carrier notification letter (CNL). Each such list of additional wire centers shall be considered a “Subsequent Wire Center List.”

11.3 DPI-Teleconnect shall have thirty (30) days to dispute the additional wire centers listed on BellSouth’s CNL.

11.3.1 Absent any such dispute being filed, effective thirty (30) business days after the date of a BellSouth CNL providing a Subsequent Wire Center List, BellSouth shall not be required to unbundle DS1 and/or DS3 Loops or DS1 and/or DS3 Transport, as applicable, in such additional wire center(s).

11.3.2 BellSouth shall make available DS1 and DS3 Loops and Transport that were in service for DPI-Teleconnect in a wire center on the Subsequent Wire Center List as of the tenth (10th) business day after the date of BellSouth’s CNL identifying the Subsequent Wire Center List (Subsequent Embedded Base) until ninety (90) days after the tenth (10th) business day from the date of BellSouth’s CNL identifying the Subsequent Wire Center List (Subsequent Transition Period).

11.3.3 Subsequent disconnects or loss of customers shall be removed from the Subsequent Embedded Base.

11.3.4 The rates that shall apply to the Subsequent Embedded Base during the Subsequent Transition Period shall be as set forth in Sections 1.6 (DS1 and DS3 loops), 4.2.7 (DS1 and DS3 Transport).

- 11.3.5 No later than forty (40) days from BellSouth's CNL identifying the Subsequent Wire Center List, DPI-Teleconnect shall submit a spreadsheet(s) identifying the Subsequent Embedded Base of circuits to be disconnected or converted to other BellSouth services. The Parties shall negotiate a project schedule for the Conversion of the Subsequent Embedded Base.
- 11.3.5.1 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 11.3.5 above for all of its Subsequent Embedded Base within forty (40) days after the date of BellSouth's CNL identifying the Subsequent Wire Center List, BellSouth will identify DPI-Teleconnect's remaining Subsequent Embedded Base, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth shall be subject to the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
- 11.3.5.2 For Subsequent Embedded Base circuits converted pursuant to Section 11.3.5 above or transitioned pursuant to Section 11.3.5.1 above, the applicable recurring tariff charges shall apply as of the earlier of the date each circuit is converted or transitioned, as applicable, or the first day after the end of the Subsequent Transition Period.
- 11.3.6 Dark Fiber Transport in Wire Centers that Meet the TRRO Unimpaired Criteria in the Future
- 11.3.6.1 In the event BellSouth identifies additional wire centers that meet the criteria set forth in Section 4.3.5 above, but that were not included in the Initial unimpaired Wire Center List adopted by the Commission, BellSouth shall include such additional wire centers in a CNL. Each such list of additional wire centers shall be considered a "Subsequent Wire Center List."
- 11.3.6.2 DPI-Teleconnect shall have thirty (30) days to dispute the additional wire centers listed on BellSouth's CNL.
- 11.3.6.3 Absent any such dispute being filed, effective thirty (30) business days after the date of a BellSouth CNL providing a Subsequent Wire Center List, BellSouth shall not be required to unbundle Dark Fiber Transport, as applicable, in such additional wire center(s).
- 11.3.6.4 BellSouth shall make available Dark Fiber Transport that were in service for DPI-Teleconnect in a wire center on the Subsequent Wire Center List as of the tenth (10th) business day after the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Embedded Base) until ninety (90) days after the tenth (10th) business day from the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Transition Period).

- 11.3.6.5 Subsequent disconnects or loss of customers shall be removed from the Subsequent Embedded Base.
- 11.3.6.6 The rates that shall apply to the Subsequent Embedded Base during the Subsequent Transition Period shall be as set forth in Section 4.3.7 (Dark Fiber Transport).
- 11.3.6.7 No later than forty (40) days from BellSouth's CNL identifying the Subsequent Wire Center List, DPI-Teleconnect shall submit a spreadsheet(s) identifying the Subsequent Embedded Base of circuits to be disconnected or converted to other BellSouth services. The Parties shall negotiate a project schedule for the Conversion of the Subsequent Embedded Base.
- 11.3.6.8 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 11.3.6.7 above for all of its Subsequent Embedded Base within forty (40) days after the date of BellSouth's CNL identifying the Subsequent Wire Center List, BellSouth will identify DPI-Teleconnect's remaining Subsequent Embedded Base, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth shall be subject to the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
- 11.3.6.8.1 For Subsequent Embedded Base circuits converted pursuant to Section 11.3.6.7 above or transitioned pursuant to Section 11.3.6.8 above, the applicable recurring tariff charges shall apply as of the earlier of the date each circuit is converted or transitioned, as applicable, or the first day after the end of the Subsequent Transition Period.
- 11.3.7 In the event that (1) BellSouth designates a wire center as unimpaired, (2) DPI-Teleconnect converts existing UNEs to other services or orders new services as services other than UNEs, (3) DPI-Teleconnect otherwise would have been entitled to UNEs in such wire center at the time alternative services provisioned, and (4) BellSouth acknowledges or a state or federal agency regulatory body with authority determines that, at the time BellSouth designated such wire center as unimpaired, such wire center did not meet the FCC's unimpairment criteria, then upon request of DPI-Teleconnect, BellSouth shall transition to UNEs any alternative services in such wire center that were established after such wire center was designated as unimpaired. In such instances, BellSouth shall refund DPI-Teleconnect the difference between the rate paid by DPI-Teleconnect for such services and the applicable UNE rate, including but not limited to any charges associated with the unnecessary conversion from UNE to other wholesale services.

Issue 14 – What is the scope of commingling allowed under the FCC’s rules and orders and what language should be included in Interconnection Agreements to implement commingling (including rates)?

12. Commingling of Services

12.1 Commingling means the connecting, attaching, or otherwise linking of a Network Element, or a Combination, to one or more Telecommunications Services or facilities that DPI-Teleconnect has obtained at wholesale from BellSouth, or the combining of a Network Element or Combination with one or more such wholesale Telecommunications Services or facilities. The wholesale services that can be commingled with Network Elements or a Combination include network elements required to be unbundled under Section 271. However, BellSouth will not commingle Section 271 element with Network Elements or Combinations pursuant to this Agreement. DPI-Teleconnect must comply with all rates, terms or conditions applicable to such wholesale Telecommunications Services or facilities.

12.2 Subject to the limitations set forth elsewhere in this Attachment, BellSouth shall not deny access to a Network Element or a Combination on the grounds that one or more of the elements: 1) is connected to, attached to, linked to, or combined with such a facility or service obtained from BellSouth; or 2) shares part of BellSouth’s network with access services or inputs for mobile wireless services and/or interexchange services.

12.3 Unless expressly prohibited by the terms of this Attachment, BellSouth shall permit DPI-Teleconnect to Commingle an Unbundled Network Element or a Combination of unbundled Network Elements with wholesale services obtained from BellSouth, services obtained from third parties or facilities provided by DPI-Teleconnect. For purposes of example only, DPI-Teleconnect may Commingle unbundled Network Elements or Combinations of unbundled Network Elements with wholesale services including switched and special access services, or services purchased under resale arrangements with BellSouth.

- 12.4 Unless otherwise agreed to by the Parties, the Network Element portion of a commingled circuit will be billed at the rates set forth in Exhibit B and the remainder of the circuit or service will be billed in accordance with BellSouth's tariffed rates or rates set forth by separate agreement.
- 12.5 When multiplexing equipment is attached to a commingled arrangement, the multiplexing equipment will be billed from the same agreement or the tariff as the higher bandwidth circuit. Central Office Channel Interfaces (COCI) will be billed from the same agreement or tariff as the lower bandwidth circuit.
- 12.6 Terms and conditions for order cancellation charges and Service Date Advancement Charges will apply in accordance with Attachment 2. The charges shall be as set forth in Exhibit A of Attachment 2 of the parties Agreement.

Issue 15 – Is BellSouth required to provide conversion of special access circuits to UNE pricing, and, if so, what rates, terms and conditions and during what timeframe should such new requests for such conversions be effectuated?

13. Conversion of Wholesale Services to Network Elements or Network Elements to Wholesale Services

13.1 Upon request, BellSouth shall convert a wholesale service, or group of wholesale services, to the equivalent Network Element or Combination that is available to DPI-Teleconnect pursuant to Section 251 of the Act and under this Agreement, or convert a Network Element or Combination that is available to DPI-Teleconnect pursuant to Section 251 of the Act and under this Agreement to an equivalent wholesale service or group of wholesale services offered by BellSouth (collectively “Conversion”). BellSouth shall charge the applicable nonrecurring switch-as-is rates for Conversions to specific Network Elements or Combinations found in Exhibit B. BellSouth shall also charge the same nonrecurring switch-as-is rates when converting from Network Elements or Combinations. Any rate change resulting from the Conversion will be effective as of the next billing cycle following BellSouth’s receipt of a complete and accurate Conversion request from DPI-Teleconnect. Any change from a wholesale service/group of wholesale services to a Network Element/Combination, or from a Network Element/Combination to a wholesale service/group of wholesale services that requires a physical rearrangement will not be considered to be a Conversion for purposes of this Agreement. BellSouth will not require physical rearrangements if the Conversion can be completed through record changes only. Orders for Conversions will be handled in accordance with the guidelines set forth in the Ordering Guidelines and Processes and CLEC Information Packages.

13.2 Any outstanding conversions shall be effective on or after the effective date of this Agreement.

Issue 19: LINE SPLITTING: What is the appropriate ICA language to implement BellSouth's obligations with regard to line splitting?

- 14. Line Splitting
 - 14.1 Line splitting shall mean that DPI-Teleconnect purchases a whole Loop and provides the splitter to provide voice and data services through an arrangement with a third party CLEC, who is either the provider of data services (a Data LEC) or the provider of voice services (a Voice CLEC) to deliver voice and data service to End Users over the same Loop. The Voice CLEC and Data LEC may be the same or different carriers.
 - 14.2 Line Splitting – UNE-L. In the event DPI-Teleconnect provides its own switching or obtains switching from a third party, DPI-Teleconnect may engage in line splitting arrangements with another CLEC using a splitter, provided by DPI-Teleconnect, in a Collocation Space at the central office where the Loop terminates into a distribution frame or its equivalent.
 - 14.2.1 Provisioning Line Splitting and Splitter Space – UNE-L
 - 14.2.1.1 DPI-Teleconnect provides the splitter when providing Line Splitting with UNE-L. When DPI-Teleconnect or its authorized agent owns the splitter, Line Splitting requires the following: a loop from NID at the End User's location to the serving wire center and terminating into a distribution frame or its equivalent.
 - 14.2.1.2 An unloaded 2-wire copper Loop must serve the customer. The meet point for the Voice CLEC and the Data LEC is the point of termination on the MDF for the Data LEC's cable and pairs.
 - 14.3 To order Line Splitting utilizing UNE-L, DPI-Teleconnect or its authorized agent must have a DSLAM collocated in the central office that serves the End User of such Loop.
 - 14.3.1 DPI-Teleconnect or its authorized agent may purchase, install and maintain central office POTS splitters in its collocation arrangements. DPI-Teleconnect or its authorized agent may use such splitters for access to its customers and to provide digital line subscriber services to its customers using the high frequency spectrum of the UNE-L. Existing Collocation rules and procedures and the terms and conditions relating to Collocation set forth in Attachment 4 Central Office shall apply.
 - 14.3.2 Any splitters installed by DPI-Teleconnect in its collocation arrangement shall comply with ANSI T1.413, Annex E, or any future ANSI splitter Standards. DPI-Teleconnect may install any splitters that BellSouth deploys or permits to be deployed for itself or any BellSouth affiliate.

- 14.4 Maintenance – Line Splitting – UNE-L
 - 14.4.1 BellSouth will be responsible for repairing voice troubles and the troubles with the physical loop between the NID at the End User’s premises and the termination point.
- 14.5 Indemnification
 - 14.5.1 DPI-Teleconnect shall indemnify, defend and hold harmless BellSouth from and against any claims, losses, and costs which arise out of actions related to the other service provider (i.e. CLEC party to the line splitting arrangement who is not DPI-Teleconnect), except to the extent caused by BellSouth’s gross negligence or willful misconduct.
- 15. 911 and E911 Databases
 - 15.1 BellSouth shall provide DPI-Teleconnect with nondiscriminatory access to 911 and E911 databases on an unbundled basis, in accordance with 47 C.F.R. § 51.319 (f).
 - 15.2 The ALI/DMS database contains End User information (including name, address, telephone information, and sometimes special information from the local service provider or End User) used to determine to which PSAP to route the call. The ALI/DMS database is used to provide enhanced routing flexibility for E911. DPI-Teleconnect will be required to provide the BellSouth 911 database vendor daily service order updates to E911 database in accordance with Section 15.3.1 below.
 - 15.3 Technical Requirements
 - 15.3.1 BellSouth’s 911 database vendor shall provide DPI-Teleconnect the capability of providing updates to the ALI/DMS database through a specified electronic interface. DPI-Teleconnect shall contact BellSouth’s 911 database vendor directly to request interface. DPI-Teleconnect shall provide updates directly to BellSouth’s 911 database vendor on a daily basis. Updates shall be the responsibility of DPI-Teleconnect and BellSouth shall not be liable for the transactions between DPI-Teleconnect and BellSouth’s 911 database vendor.
 - 15.3.2 It is DPI-Teleconnect’s responsibility to retrieve and confirm statistical data and to correct errors obtained from BellSouth’s 911 database vendor on a daily basis. All errors will be assigned a unique error code and the description of the error and the corrective action is described in the CLEC Users Guide for Facility Based Providers that is found on the BellSouth Interconnection Web site.
 - 15.3.3 DPI-Teleconnect shall conform to the BellSouth standards as described in the CLEC Users Guide to E911 for Facilities Based Providers that is located on the BellSouth’s Interconnection Web site.

- 15.3.4 Stranded Unlocks are defined as End User records in BellSouth's ALI/DMS database that have not been migrated for over ninety (90) days to DPI-Teleconnect, as a new provider of local service to the End User. Stranded Unlocks are those End User records that have been "unlocked" by the previous local exchange carrier that provided service to the End User and are open for DPI-Teleconnect to assume responsibility for such records.
- 15.3.5 Based upon End User record ownership information available in the NPAC database, BellSouth shall provide a Stranded Unlock annual report to DPI-Teleconnect that reflects all Stranded Unlocks that remain in the ALI/DMS database for over ninety (90) days. DPI-Teleconnect shall review the Stranded Unlock report, identify its End User records and request to either delete such records or migrate the records to DPI-Teleconnect within two (2) months following the date of the Stranded Unlock report provided by BellSouth. DPI-Teleconnect shall reimburse BellSouth for any charges BellSouth's database vendor imposes on BellSouth for the deletion of DPI-Teleconnect's records.
- 15.4 911 PBX Locate Service®. 911 PBX Locate Service is comprised of a database capability and a separate transport component.
- 15.5 Description of Product. The transport component provides a dedicated trunk path from a Private Branch Exchange (PBX) switch to the appropriate BellSouth 911 tandem.
- 15.6 The database capability allows DPI-Teleconnect to offer an E911 service to its PBX End Users that identifies to the PSAP the physical location of the DPI-Teleconnect PBX 911 End User station telephone number for the 911 call that is placed by the End User.
- 15.7 DPI-Teleconnect may order either the database capability or the transport component as desired or DPI-Teleconnect may order both components of the service.
- 15.8 911 PBX Locate Database Capability. DPI-Teleconnect's End User or DPI-Teleconnect's End User's database management agent (DMA) must provide the End User PBX station telephone numbers and corresponding address and location data to BellSouth's 911 database vendor. The data will be loaded and maintained in BellSouth's ALI database.
- 15.9 Ordering, provisioning, testing and maintenance shall be provided by DPI-Teleconnect pursuant to the 911 PBX Locate Marketing Service Description (MSD) that is located on the BellSouth Interconnection Web site.
- 15.10 DPI-Teleconnect's End User, or DPI-Teleconnect's End User database management agent must provide ongoing updates to BellSouth's 911 database

vendor within a commercially reasonable timeframe of all PBX station telephone number adds, moves and deletions. It will be the responsibility of DPI-Teleconnect to ensure that the End User or DMA maintain the data pertaining to each End User's extension managed by the 911 PBX Locate Service product. DPI-Teleconnect should not submit telephone number updates for specific PBX station telephone numbers that are submitted by DPI-Teleconnect's End User, or DPI-Teleconnect's End User DMA under the terms of 911 PBX Locate product.

- 15.11 DPI-Teleconnect must provision all PBX station numbers in the same LATA as the E911 tandem.
- 15.12 DPI-Teleconnect agrees to release, indemnify, defend and hold harmless BellSouth from any and all loss, claims, demands, suits, or other action, or any liability whatsoever, whether suffered, made, instituted or asserted by DPI-Teleconnect's End User or by any other party or person, for any personal injury to or death of any person or persons, or for any loss, damage or destruction of any property, whether owned by DPI-Teleconnect or others, or for any infringement or invasion of the right of privacy of any person or persons, caused or claimed to have been caused, directly or indirectly, by the installation, operation, failure to operate, maintenance, removal, presence, condition, location or use of PBX Locate Service features or by any services which are or may be furnished by BellSouth in connection therewith, including but not limited to the identification of the telephone number, address or name associated with the telephone used by the party or parties accessing 911 services using 911 PBX Locate Service hereunder, except to the extent caused by BellSouth's gross negligence or willful misconduct. DPI-Teleconnect is responsible for assuring that its authorized End Users comply with the provisions of these terms and that unauthorized persons do not gain access to or use the 911 PBX Locate Service through user names, passwords, or other identifiers assigned to DPI-Teleconnect's End User or DMA pursuant to these terms. Specifically, DPI-Teleconnect's End User or DMA must keep and protect from use by any unauthorized individual identifiers, passwords, and any other security token(s) and devices that are provided for access to this product.
- 15.13 DPI-Teleconnect may only use BellSouth PBX Locate Service solely for the purpose of validating and correcting 911 related data for DPI-Teleconnect's End Users' telephone numbers for which it has direct management authority.
- 15.14 911 PBX Locate Transport Component. The 911 PBX Locate Service transport component requires DPI-Teleconnect to order a CAMA type dedicated trunk from DPI-Teleconnect's End User premise to the appropriate BellSouth 911 tandem pursuant to the following provisions.
- 15.15 Except as otherwise set forth below, a minimum of two (2) End User specific, dedicated 911 trunks are required between the DPI-Teleconnect's End User

premise and the BellSouth 911 tandem as described in BellSouth's Technical Reference (TR) 73576 and in accordance with the 911 PBX Locate Marketing Service Description located on the BellSouth Interconnection Web site. DPI-Teleconnect is responsible for connectivity between the End User's PBX and DPI-Teleconnect's switch or POP location. DPI-Teleconnect will then order 911 trunks from their switch or POP location to the BellSouth 911 tandem. The dedicated trunks shall be, at a minimum, DS0 level trunks configured as part of a digital interface (delivered over a DPI-Teleconnect purchased DS1 facility that hands off at a DS1 or higher level digital or optical interface). DPI-Teleconnect is responsible for ensuring that the PBX switch is capable of sending the calling station's Direct Inward Dial (DID) telephone number to the BellSouth 911 tandem in a specified Multi-frequency (MF) Address Signaling Protocol. If the PBX switch supports Primary Rate ISDN (PRI) and the calling stations are DID numbers, then the 911 call can be transmitted using PRI, and there will be no requirement for the PBX Locate Transport component.

- 15.16 Ordering and Provisioning. DPI-Teleconnect will submit an Access Service Request (ASR) to BellSouth to order a minimum of two (2) End User specific 911 trunks from its switch or POP location to the BellSouth 911 tandem.
- 15.17 Testing and maintenance shall be provided by DPI-Teleconnect pursuant to the 911 PBX Locate Marketing Service description that is located on the BellSouth Interconnection Web site.
- 15.18 Rates. Rates for the 911 PBX Locate Service database component are set forth in Exhibit C. Trunks and facilities for 911 PBX Locate transport component may be ordered by DPI-Teleconnect pursuant to the terms and conditions set forth in Attachment 2 of the Agreement.

Issue 23 - What is the appropriate language to implement BellSouth's obligation, if any, to offer unbundled access to newly deployed or "greenfield" fiber loops, including fiber loops deployed to the minimum point of entry (MPOE) of a multiple dwelling unit that is predominantly residential and what, if any impact does the ownership of the inside wiring from the MPOE to each end user have on this obligation?

Issue 28: What is the appropriate language, if any, to address access to overbuild deployments of fiber to the home and fiber to the curb facilities?

16. Fiber to the Home (FTTH) loops are local loops consisting entirely of fiber optic cable, whether dark or lit, serving a customer's premises or, in the case of predominantly residential multiple dwelling units (MDUs), a fiber optic cable, whether dark or lit, that extends to the MDU minimum point of entry (MPOE).
17. Fiber to the Curb (FTTC) loops are local loops consisting of fiber optic cable connecting to a copper distribution plant that is not more than five hundred (500) feet from the customer's premises or, in the case of predominantly residential MDUs, not more than five hundred (500) feet from the MDU's MPOE. The fiber optic cable in a FTTC loop must connect to a copper distribution plant at a serving area interface from which every other copper distribution subloop also is not more than five hundred (500) feet from the respective customer's premises.
18. Greenfield Requirements: In new build (Greenfield) areas, where BellSouth has only deployed FTTH/FTTC facilities, BellSouth is under no obligation to provide such FTTH and FTTC Loops. FTTH facilities include fiber loops deployed to the MPOE of a MDU that is predominately residential regardless of the ownership of the inside wiring from the MPOE to each customer's in the MDU.
- 18.1 Overbuild Requirements: In FTTH/FTTC overbuild situations where Bellsouth also has copper loops, BellSouth will make those copper loops available to CLEC on an unbundled basis, until such time as BellSouth chooses to retire those copper Loops using the FCC's network disclosure requirements. In these cases, BellSouth will offer a 64 Kbps second voice grade channel over its FTTH/FTTC facilities. BellSouth's retirement of copper loops must comply with Applicable Law.
- 18.2 DS1/DS3 Requirements: Notwithstanding the above, nothing in this Section shall limit BellSouth's obligation to offer CLECs unbundled DS1 and DS3 loops (or loop/transport combination) in any wire center where BellSouth is required to provide such loop facilities.

Issue 24: What is the appropriate ICA language to implement BellSouth's obligation to provide unbundled access to hybrid loops?

19. Hybrid loops are defined in the federal rules at 47 CFR §51.319(a)(2) as local loops, composed of both fiber optic cable, usually in the feeder plant, and copper twisted wire or cable, usually in the distribution plant. BellSouth shall provide DPI-Teleconnect with nondiscriminatory access to the time division multiplexing features, functions and capabilities of such hybrid loop, on an unbundled basis to establish a complete transmission path between BellSouth's central office and an customer's premises, but BellSouth is not required to provide access to the packet switched features, functions and capabilities of its hybrid loops.
20. Routine Network Modifications
 - 20.1 BellSouth will perform Routine Network Modifications (RNM) in accordance with FCC 47 CFR 51.319 (a)(7) and (e)(4) for Loops and Dedicated Transport provided under this Attachment. If BellSouth has anticipated such RNM and performs them during normal operations and has recovered the costs for performing such modifications through the rates set forth in Exhibit A Attachment 2 of the Agreement, then BellSouth will perform such RNM at no additional charge.
 - 20.2 RNM shall be performed within the intervals established for the Network Element and subject to the performance measurements and associated remedies set forth in Attachment 9 to the extent such RNM were anticipated in the setting of such intervals. If BellSouth has not anticipated a requested network modification as being an RNM and has not recovered the costs of such RNM in the rates set forth in Exhibit A, then such request will be handled as a project on an individual case basis. BellSouth will provide a price quote for the request and, upon receipt of payment from DPI-Teleconnect, BellSouth will perform the RNM.
 - 20.3 To the extent BellSouth claims that any charge is due for any requested RNM and DPI-Teleconnect disputes such charge, BellSouth will file a rate application and supporting documentation with the Commission for approval.

21. Line Conditioning
- 21.1 Definition: Line Conditioning is defined as the removal from a copper Loop or copper Subloop of any device that could diminish the capability of the Loop or Subloop to deliver high-speed switched wireline telecommunications capability, including digital subscriber line service. Such devices include, but are not limited to, bridges taps, load coils, low pass filters, and range extenders.
- 21.2 BellSouth will remove load coils only on copper Loops and Subloops that are less than eighteen thousand (18,000) feet in length.
- 21.3 Any copper loop being ordered by DPI-Teleconnect which has over 6,000 feet of combined bridged tap will be modified, upon request from DPI-Teleconnect, so that the loop will have a maximum of 6,000 feet of bridged tap. This modification will be performed at no additional charge to DPI-Teleconnect. Line conditioning orders that require the removal of other bridged tap that serves no network design purpose on a copper Loop that will result in a combined total of bridged tap between two thousand five hundred (2,500) and six thousand (6,000) feet will be performed at the rates set forth in Exhibit A to Attachment 2 of the Agreement.
- 21.4 DPI-Teleconnect may request removal of any unnecessary and non excessive bridged tap (bridged tap between zero (0) and two thousand five hundred (2,500) feet which serves no network design purpose), at rates pursuant to BellSouth's SC Process as mutually agreed to by the Parties.
- 8.1 Rates for Unbundled Loop Modification (ULM) are as set forth in Exhibit A to Attachment 2 of the Agreement.
- 21.5 BellSouth will not modify a Loop in such a way that it no longer meets the technical parameters of the original Loop type (e.g., voice grade, ADSL, etc.) being ordered
- 21.6 If DPI-Teleconnect requests ULM on a reserved facility for a new Loop order, BellSouth may perform a pair change and provision a different Loop facility in lieu of the reserved facility with ULM if feasible. The Loop provisioned will meet or exceed specifications of the requested Loop facility as modified. DPI-Teleconnect will not be charged for ULM if a different Loop is provisioned. For Loops that require a DLR or its equivalent, BellSouth will provide LMU detail of the Loop provisioned.
- 21.7 DPI-Teleconnect will request Loop make up information pursuant to this Attachment prior to submitting a service inquiry and/or a LSR for the Loop type that DPI-Teleconnect desires BellSouth to condition.
- 21.8 When requesting ULM for a Loop that BellSouth has previously provisioned for DPI-Teleconnect, DPI-Teleconnect will submit a SI to BellSouth. If a spare Loop

facility that meets the Loop modification specifications requested by DPI-Teleconnect is available at the location for which the ULM was requested, DPI-Teleconnect will have the option to change the Loop facility to the qualifying spare facility rather than to provide ULM. In the event that BellSouth changes the Loop facility in lieu of providing ULM, DPI-Teleconnect will not be charged for ULM but will only be charged the service order charges for submitting an order.

Issue 29: What is the appropriate ICA language to implement BellSouth's EEL audit rights, if any, under the TRO?

22. EELs Audit provisions
- 22.1 BellSouth may, on an annual basis audit DPI-Teleconnect's records based on cause, in order to verify compliance with the high capacity EEL eligibility criteria. To invoke its limited right to audit, BellSouth shall send a written Notice of Audit to DPI-Teleconnect stating its concern that DPI-Teleconnect is not complying with the service eligibility requirements. Such Notice of Audit will be delivered to DPI-Teleconnect no less than thirty (30) calendar days prior to the date upon which BellSouth seeks to commence an audit and shall include a listing of the circuits for which BellSouth alleges noncompliance, including all supporting documentation and a list of three auditors from which DPI-Teleconnect may choose one to conduct the audit.
- 22.2 The auditor selected shall be an independent third party retained and paid for by BellSouth. The audit must be performed in accordance with the standards established by the American Institute for Certified Public Accountants (AICPA) which will require the auditor to perform an "examination engagement" and issue an opinion regarding DPI-Teleconnect's compliance with the high capacity EEL eligibility criteria. AICPA standards and other AICPA requirements will be used to determine the independence of an auditor. The independent auditor's report will conclude whether DPI-Teleconnect complied in all material respects with the applicable service eligibility criteria. Consistent with standard auditing practices, such audits require compliance testing designed by the independent auditor.
- 22.3 To the extent the independent auditor's report concludes that DPI-Teleconnect failed to comply with the service eligibility criteria, DPI-Teleconnect must true-up any difference in payments, convert all noncompliant circuits to the appropriate service, and make the correct payments on a going forward basis.
- 22.4 To the extent the independent auditor's report concludes that DPI-Teleconnect failed to comply in all material respects with the service eligibility criteria, DPI-Teleconnect shall reimburse BellSouth for the cost of the independent auditor. To the extent the independent auditor's report concludes that DPI-Teleconnect did comply in all material respects with the service eligibility criteria, BellSouth will reimburse DPI-Teleconnect for its reasonable and demonstrable costs associated with the audit. DPI-Teleconnect will maintain appropriate documentation to support its certifications.
23. DPI-Teleconnect shall not obtain a Network Element for the exclusive provision of mobile wireless services or interexchange services.
24. Facilities that do not terminate at a demarcation point at an End User premises, including, by way of example, but not limited to, facilities that terminate to

another carrier's switch or premises, a cell site, Mobile Switching Center or base station, do not constitute local Loops under Section 251, except to the extent that DPI-Teleconnect may require Loops to such locations for the purpose of providing telecommunications services to its personnel at those locations.

25. Subloop Elements.

25.1 Where facilities permit, BellSouth shall offer access to its Unbundled Subloop (USL) elements as specified herein.

25.2 Unbundled Subloop Distribution (USLD)

25.2.1 The USLD facility is a dedicated transmission facility that BellSouth provides from an End User's point of demarcation to a BellSouth cross-connect device. The BellSouth cross-connect device may be located within a remote terminal (RT) or a stand-alone cross-box in the field or in the equipment room of a building. The USLD media is a copper twisted pair that can be provisioned as a 2-wire or 4-wire facility. BellSouth will make available the following subloop distribution offerings where facilities exist:

USLD – Voice Grade (USLD-VG)

Unbundled Copper Subloop (UCSL)

USLD – Intrabuilding Network Cable (USLD-INC (aka riser cable))

25.2.2 USLD-VG is a copper subloop facility from the cross-box in the field up to and including the point of demarcation at the End User's premises and may have load coils.

25.2.3 UCSL is a copper facility eighteen thousand (18,000) feet or less in length provided from the cross-box in the field up to and including the End User's point of demarcation. If available, this facility will not have any intervening equipment such as load coils between the End User and the cross-box.

25.2.4 If DPI-Teleconnect requests a UCSL and it is not available, DPI-Teleconnect may request the copper Subloop facility be modified pursuant to the ULM process to remove load coils and/or excessive bridged taps. If load coils and/or excessive bridged taps are removed, the facility will be classified as a UCSL.

25.2.5 USLD-INC is the distribution facility owned or controlled by BellSouth inside a building or between buildings on the same property that is not separated by a public street or road. USLD-INC includes the facility from the cross-connect device in the building equipment room up to and including the point of demarcation at the End User's premises.

25.2.6 Upon request for USLD-INC from DPI-Teleconnect, BellSouth will install a cross-connect panel in the building equipment room for the purpose of accessing USLD-INC pairs from a building equipment room. The cross-connect panel will

function as a single point of interconnection (SPOI) for USLD-INC and will be accessible by multiple carriers as space permits. BellSouth will place cross-connect blocks in twenty five (25) pair increments for DPI-Teleconnect's use on this cross-connect panel. DPI-Teleconnect will be responsible for connecting its facilities to the twenty five (25) pair cross-connect block(s).

- 25.2.7 For access to Voice Grade USLD and UCSL, DPI-Teleconnect shall install a cable to the BellSouth cross-box pursuant to the terms and conditions for physical collocation for remote sites set forth in Attachment 4. This cable would be connected by a BellSouth technician within the BellSouth cross-box during the set-up process. DPI-Teleconnect's cable pairs can then be connected to BellSouth's USL within the BellSouth cross-box by the BellSouth technician.
- 25.2.8 Through the SI process, BellSouth will determine whether access to USLs at the location requested by DPI-Teleconnect is technically feasible and whether sufficient capacity exists in the cross-box. If existing capacity is sufficient to meet DPI-Teleconnect's request, then BellSouth will perform the site set-up as described in the CLEC Information Package, located at BellSouth's Interconnection Web site:
www.interconnection.bellsouth.com/products/html/unes.html.
- 25.2.9 The site set-up must be completed before DPI-Teleconnect can order Subloop pairs. For the site set-up in a BellSouth cross-connect box in the field, BellSouth will perform the necessary work to splice DPI-Teleconnect's cable into the cross-connect box. For the site set-up inside a building equipment room, BellSouth will perform the necessary work to install the cross-connect panel and the connecting block(s) that will be used to provide access to the requested USLs.
- 25.2.10 Once the site set-up is complete, DPI-Teleconnect will request Subloop pairs through submission of a LSR form to the LCSC. OC is required with USL pair provisioning when DPI-Teleconnect requests reuse of an existing facility, and the OC charge shall be billed in addition to the USL pair rate. For expedite requests by DPI-Teleconnect for Subloop pairs, expedite charges will apply for intervals less than five (5) days.
- 25.2.11 USLs will be provided in accordance with BellSouth's TR73600 Unbundled Local Loop Technical Specifications.
- 25.3 Unbundled Network Terminating Wire (UNTW)
- 25.3.1 UNTW is unshielded twisted copper wiring that is used to extend circuits from an intra-building network cable terminal or from a building entrance terminal to an individual End User's point of demarcation. It is the final portion of the Loop that in multi-subscriber configurations represents the point at which the network branches out to serve individual subscribers.

- 25.3.2 This element will be provided in MDUs and/or Multi-Tenants Units (MTUs) where either Party owns wiring all the way to the End User's premises. Neither Party will provide this element in locations where the property owner provides its own wiring to the End User's premises, where a third party owns the wiring to the End User's premises.
- 25.3.3 Requirements
- 29.3.3.1 On a multi-unit premises, upon request of the other Party (Requesting Party), the Party owning the network terminating wire (Provisioning Party) will provide access to UNTW pairs on an Access Terminal that is suitable for use by multiple carriers at each Garden Terminal or Wiring Closet.
- 29.3.3.2 The Provisioning Party shall not be required to install new or additional NTW beyond existing NTW to provision the services of the Requesting Party.
- 29.3.3.3 In existing MDUs and/or MTUs in which BellSouth does not own or control wiring (INC/NTW) to the End Users premises, and DPI-Teleconnect does own or control such wiring, DPI-Teleconnect will install UNTW Access Terminals for BellSouth under the same terms and conditions as BellSouth provides UNTW Access Terminals to DPI-Teleconnect.
- 29.3.3.4 In situations in which BellSouth activates a UNTW pair, BellSouth will compensate DPI-Teleconnect for each pair activated commensurate to the price specified in DPI-Teleconnect's Agreement.
- 29.3.3.5 Upon receipt of the UNTW SI requesting access to the Provisioning Party's UNTW pairs at a multi-unit premises, representatives of both Parties will participate in a meeting at the site of the requested access. The purpose of the site visit will include discussion of the procedures for installation and location of the Access Terminals. By request of the Requesting Party, an Access Terminal will be installed either adjacent to each of the Provisioning Party's Garden Terminal or inside each Wiring Closet. The Requesting Party will deliver and connect its central office facilities to the UNTW pairs within the Access Terminal. The Requesting Party may access any available pair on an Access Terminal. A pair is available when a pair is not being utilized to provide service or where the End User has requested a change in its local service provider to the Requesting Party. Prior to connecting the Requesting Party's service on a pair previously used by the Provisioning Party, the Requesting Party is responsible for ensuring the End User is no longer using the Provisioning Party's service or another CLEC's service before accessing UNTW pairs.
- 29.3.3.6 Access Terminal installation intervals will be established on an individual case basis.

- 29.3.3.7 The Requesting Party is responsible for obtaining the property owner's permission for the Provisioning Party to install an Access Terminal(s) on behalf of the Requesting Party. The submission of the SI by the Requesting Party will serve as certification by the Requesting Party that such permission has been obtained. If the property owner objects to Access Terminal installations that are in progress or within thirty (30) days after completion and demands removal of Access Terminals, the Requesting Party will be responsible for costs associated with removing Access Terminals and restoring the property to its original state prior to Access Terminals being installed.
- 29.3.3.8 The Requesting Party shall indemnify and hold harmless the Provisioning Party against any claims of any kind that may arise out of the Requesting Party's failure to obtain the property owner's permission. The Requesting Party will be billed for nonrecurring and recurring charges for accessing UNTW pairs at the time the Requesting Party activates the pair(s). The Requesting Party will notify the Provisioning Party within five (5) business days of activating UNTW pairs using the LSR form.
- 29.3.3.9 If a trouble exists on a UNTW pair, the Requesting Party may use an alternate spare pair that serves that End User if a spare pair is available. In such cases, the Requesting Party will re-terminate its existing jumper from the defective pair to the spare pair. Alternatively, the Requesting Party will isolate and report troubles in the manner specified by the Provisioning Party. The Requesting Party must tag the UNTW pair that requires repair. If the Provisioning Party dispatches a technician on a reported trouble call and no UNTW trouble is found, the Provisioning Party will charge Requesting Party for time spent on the dispatch and testing the UNTW pair(s).
- 29.3.3.10 If the Requesting Party initiates the Access Terminal installation and the Requesting Party has not activated at least ten percent (10%) of the capacity of the Access Terminal installed pursuant to the Requesting Party's request for an Access Terminal within six (6) months of installation of the Access Terminal, the Provisioning Party will bill the Requesting Party a nonrecurring charge equal to the actual cost of provisioning the Access Terminal.
- 29.3.3.11 If the Provisioning Party determines that the Requesting Party is using the UNTW pairs without reporting the activation of the pairs, the Requesting Party will be billed for the use of that pair back to the date the End User began receiving service from the Requesting Party at that location. Upon request, the Requesting Party will provide copies of its billing record to substantiate such date. If the Requesting Party fails to provide such records, then the Provisioning Party will bill the Requesting Party back to the date of the Access Terminal installation.

**Amendment to the Agreement
Between
DPI-Teleconnect, LLC
and
BellSouth Telecommunications, Inc.
Dated 4/19/2003**

Pursuant to this Amendment, (the "Amendment"), DPI-Teleconnect, LLC (DPI-Teleconnect), and BellSouth Telecommunications, Inc. (BellSouth), hereinafter referred to collectively as the "Parties", hereby agree to amend that certain Interconnection Agreement between the Parties dated 4/19/2003 ("Agreement").

WHEREAS, BellSouth and DPI-Teleconnect have entered into good faith negotiations pursuant to the Act to renegotiate an interconnection agreement (New Agreement) to replace the existing Agreement between the Parties, which expired on 4/18/2006; and

WHEREAS, the Parties desire to extend the term of the Agreement; and

WHEREAS, on March 2, 2006, the Georgia Public Service Commission (Commission) issued its Order in Docket No. 19341-U(Change of Law Order), Proceeding to Consider Amendments to Interconnection Agreements Between BellSouth Telecommunications, Inc. and certified Competitive Local Exchange Carriers (CLECs) Due to Changes of Law; and

WHEREAS, on March 10, 2006, the Commission issued its Order Setting Rates Under Section 271 in Docket No. 19341-U (271 Order); and

WHEREAS, on March 24, 2006, Commission issued its Order on Reconsideration of the March 10, 2006 Order Setting Rates Under Section 271 in Docket No. 19341-U(271 Reconsideration Order); and

WHEREAS, the Parties are obligated to amend the Agreement to bring it in compliance with the Commission's Change of Law Order, 271 Order and 271 Reconsideration Order (collectively, "Orders"); and

NOW, THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. The Parties hereby agree to extend the term of the Agreement by ninety (90) days following the date of the last signature of this Amendment. Other than the modification of the expiration date as described in this Amendment, all provisions in Section 2 of the General Terms and Conditions of the Agreement relating to the term and termination of the Agreement remain in full force and effect.

2. The Parties hereby agree to incorporate into the Agreement the contract provisions set forth in Exhibit A hereto, and such contract provisions shall apply to services provided in the State of Georgia only.
3. The Parties hereby agree to incorporate into the Agreement the rates set forth in Exhibit B and C hereto, and such rates shall apply to services provided in the State of Georgia only.
4. To the extent that such contract provisions or rates as set forth in Exhibits A, B, and C hereto conflict with any other rates, terms and conditions in the Agreement, the contract provisions and rates in Exhibits A, B, and C shall prevail in the State of Georgia.
5. Further, to the extent that defined terms in this Amendment differ from defined terms in the Agreement, such defined terms in the Agreement shall be deemed to have the same meaning as the alternative defined terms in this Amendment to the extent necessary to give full effect to this Amendment consistent with the Georgia Public Service Commission's Orders.
6. This Amendment shall be deemed effective on March 11, 2006 ("Effective Date").
7. All of the other provisions of the Agreement shall remain in full force and effect.
8. Either or both of the Parties are authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties have executed this Amendment the day and year written below.

BellSouth Telecommunications, Inc.

Issue 2 – What is the appropriate language to implement the FCC’s transition plan for: (1) switching; (2) high-capacity loops; and (3) dedicated transport as detailed in the FCC’s TRRO, issued February 4, 2005?

1. Loops

1.1 4-wire Unbundled DS1 Digital Loop

This is a designed 4-wire Loop that is provisioned according to industry standards for DS1 or Primary Rate ISDN services and will come standard with a test point, OC, and a DLR. A DS1 Loop may be provisioned over a variety of loop transmission technologies including copper, HDSL-based technology or fiber optic transport systems. It will include a 4-wire DS1 Network Interface at the End User’s location. For purposes of this Agreement, including the transition of DS1 and DS3 Loops described in Section 1.4 below, DS1 Loops include 2-wire and 4-wire copper Loops capable of providing high-bit digital subscriber line services, such as 2-wire and 4-wire HDSL Compatible Loops.

1.2 2-wire or 4-wire HDSL-Compatible Loop

This is a designed Loop that meets Carrier Serving Area (CSA) specifications, may be up to 12,000 feet long and may have up to 2,500 feet of bridged tap (inclusive of Loop length). It may be a 2-wire or 4-wire circuit and will come standard with a test point, OC, and a DLR.

1.3 DS3 Loop.

DS3 Loop is a two-point digital transmission path which provides for simultaneous two-way transmission of serial, bipolar, return-to-zero isochronous digital electrical signals at a transmission rate of forty-four point seven thirty-six (44.736) megabits per second (Mbps) that is dedicated to the use of the ordering CLEC in its provisioning of local exchange and associated exchange access services. It may provide transport for twenty-eight (28) DS1 channels, each of which provides the digital equivalent of twenty-four (24) analog voice grade channels. The interface to unbundled dedicated DS3 transport is a metallic-based electrical interface.

1.4 Transition for DS1 and DS3 Loops

1.4.1 For purposes of this Section 1, the Transition Period for the Embedded Base of DS1 and DS3 Loops and for the Excess DS1 and DS3 Loops (defined in 1.4.3) is the twelve (12) month period beginning March 11, 2005 and ending March 10, 2006.

1.4.2 For purposes of this Section 1, Embedded Base means DS1 and DS3 Loops that were in service for DPI-Teleconnect as of March 11, 2005 in those wire centers that, as of such date, met the criteria set forth in

Sections 1.4.6.1 or 1.4.6.2 below. Subsequent disconnects or loss of End Users shall be removed from the Embedded Base.

- 1.4.3 Excess DS1 and DS3 Loops are those DPI-Teleconnect DS1 and DS3 Loops in service as of March 11, 2005, in excess of the caps set forth in Section 1.4.4 below, respectively. Subsequent disconnects or loss of End Users shall be removed from Excess DS1 and DS3 Loops.
- 1.4.4 BellSouth shall not provide more than ten (10) unbundled DS1 Loops to DPI-Teleconnect at any single building in which DS1 Loops are available as unbundled loops. DPI-Teleconnect may obtain a maximum of a single Unbundled DS3 loop to any single building in which DS3 Loops are available as Unbundled Loops.
- 1.4.5 For purposes of this Section 1, a Business Line is defined in 47 C.F.R. § 51.5.
- 1.4.6 Notwithstanding anything to the contrary in this Agreement, and except as set forth in Section 10 below, BellSouth shall make available DS1 and DS3 Loops as described in this Section 1.4 only for DPI-Teleconnect's Embedded Base during the Transition Period:
 - 1.4.6.1 DS1 Loops at any location within the service area of a wire center containing 60,000 or more Business Lines and four (4) or more fiber-based collocators.
 - 1.4.6.2 DS3 Loops at any location within the service area of a wire center containing 38,000 or more Business Lines and four (4) or more fiber-based collocators.
- 1.4.7 A list of wire centers meeting the criteria set forth in Sections 1.4.6.1 and 1.4.6.2 above as ordered by the Georgia Public Service Commission in Docket No. 19341-U (Initial Wire Center List) is attached to BellSouth's Carrier Notification Letter SN91086068, dated March 30, 2006, which is available on BellSouth's Interconnection Services Web site.
- 1.4.8 Transition Period Pricing. From March 11, 2005, through the completion of the Transition Period, BellSouth shall charge a rate for DPI-Teleconnect's Embedded Base and DPI-Teleconnect's Excess DS1 and DS3 Loops equal to 115% of the rates set forth in the Amendment to the Agreement to implement the Georgia Public Service Commission's Letter Order dated March 2, 2006 in docket 14361-U.
- 1.4.9 The Transition Period shall apply only to (1) DPI-Teleconnect's Embedded Base and (2) DPI-Teleconnect's Excess DS1 and DS3 Loops. DPI-Teleconnect shall not add new DS1 or DS3 loops as described in this Section 1.4 pursuant to this Agreement, except pursuant to the self-certification process as set forth in Section 5 of this Attachment and as set forth in Section 10 below.

- 1.4.10 Once a wire center meets or exceeds both of the thresholds set forth in Section 1.4.6.1 above, no future DS1 Loop unbundling will be required in that wire center.
- 1.4.11 Once a wire center meets or exceeds both of the thresholds set forth in Section 1.4.6.2 above, no future DS3 Loop unbundling will be required in that wire center.
- 1.4.12 No later than March 11, 2006, or some other mutually agreed upon date, DPI-Teleconnect shall submit spreadsheet(s) identifying all of the Embedded Base of circuits and Excess DS1 and DS3 Loops to be either disconnected or converted to other BellSouth services pursuant to Section 15.1 below. The Parties shall negotiate a project schedule for the Conversion of the Embedded Base and Excess DS1 and DS3 Loops. In the case of Conversion, the applicable switch as is charge will apply. In the case of disconnection, the applicable disconnect charges set forth in this Agreement shall apply.
- 1.4.13 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 1.4.12 above for all of its Embedded Base and Excess DS1 and DS3 Loops by March 11, 2006 or some other mutually agreed upon date, BellSouth will identify DPI-Teleconnect's remaining Embedded Base and Excess DS1 and DS3 Loops, if any, and will transition such circuits to the 271 equivalent BellSouth service(s) as set forth in Section 26 below, effective March 11, 2006. Those circuits identified and transitioned by BellSouth pursuant to this Section 1.4.13 shall be 115% of the switch-as-is rates set forth in the amendment incorporating into this Agreement the Georgia Public Service Commission's Letter Order dated March 2, 2006 in docket 14361-U.
- 1.4.14 For Embedded Base circuits and Excess DS1 and DS3 Loops in place after March 11, 2006, the applicable recurring 271 charge shall apply to each circuit as of March 11, 2006.
- 2. Dark Fiber Loop**
- 2.1 Dark Fiber Loop is an unused optical transmission facility, without attached signal regeneration, multiplexing, aggregation or other electronics, from the demarcation point at an End User's premises to the End User's serving wire center. Dark Fiber Loops may be strands of optical fiber existing in aerial or underground structure. BellSouth will not provide line terminating elements, regeneration or other electronics necessary for DPI-Teleconnect to utilize Dark Fiber Loops.
- 2.2 Transition for Dark Fiber Loop**
- 2.2.1 For purposes of this Section 2, the Transition Period for Dark Fiber Loops is the eighteen (18) month period beginning March 11, 2005 and ending September 10, 2006.
- 2.2.2 For purposes of this Section 2, Embedded Base means Dark Fiber Loops that were in service for DPI-Teleconnect as of March 11, 2005.

Subsequent disconnects or loss of End Users shall be removed from the Embedded Base.

- 2.2.3 During the Transition Period only, BellSouth shall make available for the Embedded Base Dark Fiber Loops for DPI-Teleconnect at the terms and conditions set forth in this Attachment.
- 2.2.4 Transition Period Pricing. From March 11, 2005, through the completion of the Transition Period, BellSouth shall charge a rate for DPI-Teleconnect's Embedded Base of Dark Fiber Loops equal to 115% of the rates set forth in the Parties' Amendment to the Agreement to implement the Georgia Public Service Commission's Letter Order dated March 2, 2006 in docket 14361-U.
- 2.2.5 The Transition Period shall apply only to DPI-Teleconnect's Embedded Base and DPI-Teleconnect shall not add new Dark Fiber Loops pursuant to this Agreement.
- 2.2.6 Effective September 11, 2006, Dark Fiber Loops will no longer be made available pursuant to this Agreement.
- 2.2.7 No later than June 10, 2006 DPI-Teleconnect shall submit spreadsheet(s) identifying all of the Embedded Base of circuits to be either disconnected or converted to other BellSouth services as Conversions pursuant to Section 15.1 below. The Parties shall negotiate a project schedule for the Conversion of the Embedded Base. In the case of disconnection, the applicable disconnect charges set forth in this Agreement shall apply.
- 2.2.8 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 2.2.7 above for all of its Embedded Base prior to June 10, 2006, BellSouth will identify DPI-Teleconnect's remaining Embedded Base, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s) effective September 10, 2006. Those circuits identified and transitioned by BellSouth pursuant to this Section 2.2.8 shall be subject to 115% of the applicable switch-as-is rates set forth in the Parties' Amendment to the Agreement to implement the Georgia Public Service Commission's Letter Order dated March 2, 2006 in Docket No.14361-U.
- 2.2.9 For Embedded Base circuits in place after September 10, 2006, the applicable tariff charge shall apply to each circuit as of September 10, 2006.

3. Dedicated Transport and Dark Fiber Transport

- 3.1 **Dedicated Transport.** Dedicated Transport is defined as BellSouth's transmission facilities between wire centers or switches owned by BellSouth, or between wire centers or switches owned by BellSouth and switches owned by DPI-Teleconnect, including but not limited to DS1, DS3 and OCn level services, as well as dark fiber, dedicated to DPI-Teleconnect. BellSouth shall not be required to provide access to OCn

level Dedicated Transport under any circumstances pursuant to this Agreement. In addition, except as set forth in Section 3.2 below, BellSouth shall not be required to provide to DPI-Teleconnect unbundled access to interoffice transmission facilities that do not connect a pair of wire centers or switches owned by BellSouth (“Entrance Facilities”).

3.2 **Transition for DS1 and DS3 Dedicated Transport Including DS1 and DS3 Entrance Facilities**

- 3.2.1 For purposes of this Section 3.2, the Transition Period for the Embedded Base of DS1 and DS3 Dedicated Transport, Embedded Base Entrance Facilities and for Excess DS1 and DS3 Dedicated Transport, is the twelve (12) month period beginning March 11, 2005 and ending March 10, 2006.
- 3.2.2 For purposes of this Section 3.2, Embedded Base means DS1 and DS3 Dedicated Transport that were in service for DPI-Teleconnect as of March 11, 2005 in those wire centers that, as of such date, met the criteria set forth in Sections 3.2.7.1 or 3.2.7.2 below. Subsequent disconnects or loss of End Users shall be removed from the Embedded Base.
- 3.2.3 For purposes of this Section 3.2, Embedded Base Entrance Facilities means Entrance Facilities that were in service for DPI-Teleconnect as of March 11, 2005. Subsequent disconnects or loss of customers shall be removed from the Embedded Base.
- 3.2.4 DPI-Teleconnect may obtain a maximum of twelve (12) unbundled DS3 Dedicated Transport circuits on each route where DS3 Dedicated Transport is available as a Network Element, and a maximum of ten (10) unbundled DS1 Dedicated Transport circuits on each Route where there is no 251(c)(3) unbundling obligation for DS3 Dedicated Transport but for which impairment exists for DS1 Dedicated Transport.
- 3.2.5 For purposes of this Section 3.2, Excess DS1 and DS3 Dedicated Transport means those DPI-Teleconnect DS1 and DS3 Dedicated Transport facilities in service as of March 11, 2005, in excess of the caps set forth in Section 3.2.4 above. Subsequent disconnects and loss of End Users shall be removed from Excess DS1 and DS3 Loops.
- 3.2.6 For purposes of this Section 3.2, a Business Line is as defined in 47 C.F.R. § 51.5.
- 3.2.7 Notwithstanding anything to the contrary in this Agreement, BellSouth shall make available Dedicated Transport as described in this Section 3.2 only for DPI-Teleconnect’s Embedded Base during the Transition Period:
- 3.2.7.1 DS1 Dedicated Transport where both wire centers at the end points of the route contain 38,000 or more Business Lines or four (4) or more fiber-based collocators.
- 3.2.7.2 DS3 Dedicated Transport where both wire centers at the end points of the route contain 24,000 or more Business Lines or three (3) or more fiber-based collocators.

- 3.2.7.3 A list of wire centers meeting the criteria set forth in Sections 3.2.7.1 or 3.2.7.2 above as ordered by the Georgia Public Service Commission in Docket No. 19341-U(Initial Wire Center List), is attached to BellSouth's Carrier Notification Letter SN91086068, dated March 30, 2006, which is available on BellSouth's Interconnection Services Web site.
- 3.2.8 Notwithstanding anything to the contrary in this Agreement, BellSouth shall make available Entrance Facilities only for <DPI-Teleconnect's Embedded Base Entrance Facilities and only during the Transition Period.
- 3.2.9 Transition Period Pricing. From March 11, 2005, through the completion of the Transition Period, BellSouth shall charge a rate for DPI-Teleconnect's Embedded Base of DS1 and DS3 Dedicated Transport and for DPI-Teleconnect's Excess DS1 and DS3 Dedicated Transport, as described in this Section 3.2, equal to 115% of the rates set forth in the Parties' Amendment to the Agreement to implement the Georgia Public Service Commission's Letter Order dated March 2, 2006 in docket 14361.
- 3.2.9.4 From March 11, 2005, through the completion of the Transition Period, BellSouth shall charge a rate for DPI-Teleconnect's Embedded Base Entrance Facilities as set forth in the Georgia Public Service Commission's Letter Order dated March 2, 2006 in docket 14361-U.
- 3.2.10 The Transition Period shall apply only to (1) DPI-Teleconnect's Embedded Base and Embedded Base Entrance Facilities; and (2) DPI-Teleconnect's Excess DS1 and DS3 Dedicated Transport. DPI-Teleconnect shall not add new Entrance Facilities pursuant to this Agreement. Further, DPI-Teleconnect shall not add new DS1 or DS3 Dedicated Transport as described in this Section 3.2 pursuant to this Agreement, except pursuant to the self-certification process as set forth in Section 5 below of and as set forth in Section 11 below.
- 3.2.11 Once a wire center meets or exceeds either of the thresholds set forth in this Section 3.2.7.1 above, no future DS1 Dedicated Transport unbundling will be required in that wire center.
- 3.2.12 Once a wire center meets or exceeds either of the thresholds set forth in Section 3.2.7.2 above, no future DS3 Dedicated Transport will be required in that wire center.
- 3.2.13 No later than March 11, 2006 or some other mutually agreed upon date DPI-Teleconnect shall submit spreadsheet(s) identifying all of the Embedded Base of circuits, Embedded Base Entrance Facilities, and Excess DS1 and DS3 Dedicated Transport to be either disconnected or converted to other BellSouth services pursuant to Section 15.1 below. The Parties shall negotiate a project schedule for the Conversion of the Embedded Base, Embedded Base Entrance Facilities and Excess DS1 and DS3 Dedicated Transport. In the case of disconnection, the applicable disconnect charges set forth in this Agreement shall apply.

- 3.2.14 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 3.2.13 above for all of its Embedded Base, and Excess DS1 and DS3 Dedicated Transport by March 11, 2006 or some other mutually agreed upon date, BellSouth will identify DPI-Teleconnect's remaining Embedded Base and Excess DS1 and DS3 Dedicated Transport, if any, and will transition such circuits to BellSouth's 271 equivalent service as set forth in Section 26 below effective March 11, 2006. For those circuits identified and transitioned by BellSouth pursuant to this Section 3.2.14, BellSouth shall charge a rate equal to 115% of the applicable nonrecurring switch-as-is rates set forth in the Georgia Public Service Commission's Letter Order dated March 2, 2006 in docket 14361-U.
- 3.2.15 For Embedded Base and Excess DS1 and DS3 Dedicated Transport in place after March 11, 2006, the applicable 271 rate as set forth in Exhibit B shall apply as of March 11, 2006.
- 3.2.16 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 5.2.13 above for all of its Embedded Base Entrance Facilities by March 11, 2006 or some other mutually agreed upon date, BellSouth will identify DPI-Teleconnect's remaining Embedded Base Entrance Facilities, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s) effective March 11, 2006. Those circuits identified and transitioned by BellSouth pursuant to this Section 3.2.16 shall be subject to 115% of the switch-as-is rate set forth in the Georgia Public Service Commission's Letter Order dated March 2, 2006 in docket 14361-U.
- 3.2.17 For Embedded Base Entrance Facilities in place after March 11, 2006, the applicable recurring tariff charges shall apply as of March 11, 2006.
4. **Dark Fiber Transport.** Dark Fiber Transport is defined as Dedicated Transport that consists of unactivated optical interoffice transmission facilities without attached signal regeneration, multiplexing, aggregation or other electronics. Except as set forth in Section 4.1 below, BellSouth shall not be required to provide access to Dark Fiber Transport Entrance Facilities pursuant to this Agreement.
- 4.1 **Transition for Dark Fiber Transport and Dark Fiber Transport Entrance Facilities**
- 4.1.1 For purposes of this Section 4, the Transition Period for the Embedded Base of Dark Fiber Transport is the eighteen (18) month period beginning March 11, 2005 and ending September 10, 2006.
- 4.1.2 For purposes of this Section 4, Embedded Base means Dark Fiber Transport that was in service for DPI-Teleconnect as of March 11, 2005 in those wire centers that, as of such date, met the criteria set forth in 4.1.4.1. Subsequent disconnects or loss of End Users shall be removed from the Embedded Base.
- 4.1.3 For purposes of this Section 4.1, a Business Line is as defined in 47 C.F.R. § 51.5.

- 4.1.4 Notwithstanding anything to the contrary in this Agreement, BellSouth shall make available Dark Fiber Transport as described in this Section 4.1 only for DPI-Teleconnect's Embedded Base during the Transition Period:
- 4.1.4.1 Dark Fiber Transport where both wire centers at the end points of the route contain twenty-four thousand (24,000) or more Business Lines or three (3) or more fiber-based collocators.
- 4.1.5 A list of wire centers meeting the criteria set forth in Section 4.1.4 above as ordered by the Georgia Public Service Commission in Docket No. 19341-U, ("Initial List") is attached to BellSouth's Carrier Notification Letter SN91086068, dated March 30, 2006, which is available on BellSouth's Interconnection Services Web site.
- 4.1.6 Transition Period Pricing. From March 11, 2005, through the completion of the Transition Period, BellSouth shall charge a rate for DPI-Teleconnect's Embedded Base and Excess of Dark Fiber Transport and Embedded Base Dark Fiber Transport Entrance Facilities shall be equal to 115% of the rates set forth in the Parties' Amendment to the Agreement to implement Georgia Public Service Commission's Letter Order dated March 2, 2006 in docket 14361-U.
- 4.1.7 The Transition Period shall apply only to DPI-Teleconnect's Embedded Base of Dark Fiber Transport and Dark Fiber Entrance Facilities. DPI-Teleconnect shall not add new Dark Fiber Transport as described in this Section 4.1 except pursuant to the self-certification process as set forth in Section 5 of this Attachment and as set forth in Section 12 below. Further, DPI-Teleconnect shall not add new Dark Fiber Entrance Facilities pursuant to this Agreement.
- 4.1.8 Once a wire center exceeds either of the thresholds set forth in Section 4.1.4 above, no future Dark Fiber Transport unbundling will be required in that wire center.
- 4.1.9 No later than June 10, 2006 DPI-Teleconnect shall submit spreadsheet(s) identifying all of the Embedded Base of Dark Fiber Transport and Dark Fiber Entrance Facilities to be either disconnected or converted to other BellSouth services as Conversions pursuant to Section 15.1 below. The Parties shall negotiate a project schedule for the Conversion of the Embedded Base. In the case of disconnection, the applicable disconnect charges set forth in this Agreement shall apply.
- 4.1.10 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 4.1.9 above for all of its Embedded Base prior to June 10, 2006, BellSouth will identify DPI-Teleconnect's remaining Embedded Base, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s) effective September 10, 2006. Those circuits identified and transitioned by BellSouth pursuant to this Section 4.1.10 shall be subject to 115% of the switch-as-is rates set forth in the amendment incorporating into this

Agreement the Georgia Public Service Commission's Letter Order dated March 2, 2006 in docket 14361-U.

- 4.1.11 For Embedded Base circuits in place as of September 11, 2006, the applicable recurring tariff charge shall apply to each circuit as of September 11, 2006.

Issue 4 –What is the appropriate language to implement BellSouth's obligation to provide Section 251 unbundled access to high-capacity loops and dedicated transport and how should the following terms be defined? (i) Business Line; (ii) Fiber-Based Collocator; (iii) Building (iv) Route; (v) Is a CLEC entitled to obtain DS3 transport from a Tier 3 wire center to each of two or more Tier 1 or Tier 2 wire centers? (vi) Is a CLEC entitled to obtain dark fiber transport from a Tier 3 wire center to each of two or more Tier 1 or Tier 2 wire centers?

5. Prior to submitting an order pursuant to this Agreement for high capacity (DS1 or above) Dedicated Transport or high capacity Loops, DPI-Teleconnect shall undertake a reasonably diligent inquiry to determine whether DPI-Teleconnect is entitled to unbundled access to such Network Elements in accordance with the terms of this Agreement. By submitting any such order, DPI-Teleconnect self-certifies that to the best of DPI-Teleconnect's knowledge, the high capacity Dedicated Transport or high capacity Loop requested is available as a Network Element pursuant to this Attachment. Upon receiving such order, BellSouth shall process the request in reliance upon DPI-Teleconnect's self-certification. To the extent BellSouth believes that such request does not comply with the terms of this Attachment, BellSouth shall seek dispute resolution in accordance with the General Terms and Conditions of this Agreement. If BellSouth prevails in such dispute resolution proceeding, DPI-Teleconnect shall be liable to BellSouth for the difference between the rate for the equivalent BellSouth alternative arrangement and the self certified UNE, plus interest, on such rate differential.

- 5.1 In the event that (1) BellSouth designates a wire center as non-impaired, (2) DPI-Teleconnect converts existing UNEs to other services or orders new services as services other than UNEs, (3) DPI-Teleconnect otherwise would have been entitled to UNEs in such wire center at the time alternative services provisioned, and (4) BellSouth acknowledges or a state or federal agency regulatory body with authority determines that, at the time BellSouth designated such wire center as non-impaired, such wire center did not meet the FCC's non-impairment criteria, then upon request of DPI-Teleconnect, BellSouth shall transition to UNEs any alternative services in such wire center that were established after such wire center was designated as non-impaired. In such instances, BellSouth shall refund DPI-Teleconnect the difference between the rate paid by DPI-Teleconnect for such services and the applicable UNE rate, including but not limited to any charges associated with the unnecessary conversion from UNE to other wholesale services.

6. A Business Line is defined in 47 CFR § 51.5.

Version: GA COL Amendment
CLEC with CA
05/08/06

7. A Fiber-Based Collocator is defined in 47 CFR § 51.5.
8. A Building is defined as a permanent physical structure including, but not limited to, a structure in which people reside, or conduct business or work on a daily basis and through which there is one centralized point of entry in the structure through which all telecommunications services must transit. As an example only, a high rise office building with a general telecommunications equipment room through which all telecommunications services to that building's tenants must pass would be a single "building" for purposes of this Attachment 2. Two or more physical areas served by individual points of entry through which telecommunications services must transit will be considered separate buildings. For instance, a strip mall with individual businesses obtaining telecommunications services from different access points on the building(s) will be considered individual buildings, even though they might share common walls.
9. A route is defined as a transmission path between one of BellSouth's wire centers or switches and another of BellSouth's wire centers or switches. A route between two (2) points may pass through one or more intermediate wire centers or switches. Transmission paths between identical end points are the same "route", irrespective of whether they pass through the same intermediate wire centers or switches, if any.

Issue 5 – a) Does the Commission have the authority to determine whether or not BellSouth's application of the FCC's Section 251 non-impairment criteria for high-capacity loops and transport is appropriate?

b) What procedures should be used to identify those wire centers that satisfy the FCC's Section 251 non-impairment criteria for high-capacity loops and transport?

c) What language should be included in agreements to reflect the procedures identified in (b)?

10. Modifications and Updates to the Wire Center List and Subsequent Transition Periods for DS1 and/or DS3 Loops

10.1 In the event BellSouth identifies additional wire centers that meet the criteria set forth in Section 1.4.6 above, but that were not included in the Initial Wire Center List, BellSouth shall provide notice of such additional wire centers in a Carrier Notification Letter (CNL) sent to the point of contact in this Agreement, or in the absence of such point of contact, BellSouth shall post the CNL on BellSouth's Web site. Each such list of additional wire centers shall be considered a "Subsequent Wire Center List."

10.2 Effective ten (10) business days after the date of BellSouth's notice providing a Subsequent Wire Center List, BellSouth shall not be required to unbundle DS1 and/or DS3 Loops, as applicable, in such additional wire center(s), except pursuant to the self-certification process as set forth in Section 5 above.

- 10.3 For purposes of this Section 10, BellSouth shall make available DS1 and DS3 Loops that were in service for DPI-Teleconnect in a wire center on the Subsequent Wire Center List as of the tenth (10th) business day after the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Embedded Base) until one hundred and ten (110) days after the tenth (10th) business day from the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Transition Period).
- 10.4 Subsequent disconnects or loss of End Users shall be removed from the Subsequent Embedded Base.
- 10.5 The applicable rate for the Subsequent Embedded Base during the Subsequent Transition Period shall be 115% of the rate for such Loops set forth in the Parties' Amendment to the Agreement to implement the Georgia Public Service Commission's Letter Order dated March 2, 2006 in Docket No.14361-U.
- 10.6 No later than forty (40) days from BellSouth's CNL identifying the Subsequent Wire Center List, DPI-Teleconnect shall submit a spreadsheet(s) identifying the Subsequent Embedded Base of circuits to be disconnected or converted to other BellSouth services. In the case of disconnection, the applicable disconnect charges set forth in this Agreement shall apply.
- 10.7 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 10.6 above for all of its Subsequent Embedded Base within forty (40) days after the date of BellSouth's CNL identifying the Subsequent Wire Center List BellSouth will identify DPI-Teleconnect's remaining Subsequent Embedded Base, if any, and will transition such circuits to BellSouth's 271 equivalent service set forth in Section 26 below. Those circuits identified and transitioned by BellSouth pursuant to this Section 10.7 shall be subject to 115% of the switch-as-is rate set forth in the Parties' Amendment to the Agreement to implement the Georgia Public Service Commission's Letter Order dated March 2, 2006 in Docket No.14361-U.
- 10.8 The applicable recurring 271 rate set forth in Exhibit B shall apply to the Subsequent Embedded Base as of the 110th day after the tenth business day from the date of BellSouth's CNL identifying the Subsequent Embedded Base.
- 11. Modifications and Updates to the Wire Center List and Subsequent Transition Periods for DS1 and/or DS3 Transport**
- 11.1 In the event BellSouth identifies additional wire centers that meet the criteria set forth in Sections 3.2.11 or 3.2.12 above, but that were not included in the Initial Wire Center List, BellSouth shall provide notice of such additional wire centers in a Carrier Notification Letter (CNL) sent to the point of contact in this Agreement, or in the absence of such point of contact, BellSouth shall post the CNL on BellSouth's Web site. Each such

list of additional wire centers shall be considered a “Subsequent Wire Center List.”

- 11.2 Effective ten (10) business days after the date of BellSouth’s notice providing a Subsequent Wire Center List, BellSouth shall not be required to provide DS1 and DS3 Dedicated Transport, as applicable, in such additional wire center(s), except pursuant to the self-certification process as set forth in Section 5 above.
- 11.3 For purposes of this Section 11, BellSouth shall make available DS1 and DS3 Dedicated Transport that were in service for DPI-Teleconnect in a wire center on the Subsequent Wire Center List as of the tenth (10th) business day after the date of BellSouth’s CNL identifying the Subsequent Wire Center List (Subsequent Embedded Base) until one hundred and ten (110) days after the tenth (10th) business day from the date of BellSouth’s CNL identifying the Subsequent Wire Center List (Subsequent Transition Period).
- 11.4 Subsequent disconnects or loss of End Users shall be removed from the Subsequent Embedded Base.
- 11.5 The applicable rate for the Subsequent Embedded Base during the Subsequent Transition Period shall be 115% of the rate for such DS1 and DS3 Dedicated Transport set forth in the Parties’ Amendment to the Agreement to implement the Georgia Public Service Commission’s Letter Order dated March 2, 2006 in Docket No.14361-U.
- 11.6 No later than forty (40) days from BellSouth’s CNL identifying the Subsequent Wire Center List DPI-Teleconnect shall submit a spreadsheet(s) identifying the Subsequent Embedded Base of circuits to be disconnected or converted to other BellSouth services. In the case of disconnection, the applicable disconnect charges set forth in this Agreement shall apply.
- 11.7 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 11.6 above for all of its Subsequent Embedded Base within forty (40) days after the date of BellSouth’s CNL identifying the Subsequent Wire Center List, BellSouth will identify DPI-Teleconnect’s remaining Subsequent Embedded Base, if any, and will transition such circuits to BellSouth’s 271 equivalent service as set forth in Section 26 below. Those circuits identified and transitioned by BellSouth pursuant to this Section 11.7 shall be subject to 115% of the switch-as-is rate set forth in the Parties’ Amendment to the Agreement to implement the Georgia Public Service Commission’s Letter Order dated March 2, 2006 in Docket No.14361-U.
- 11.8 The applicable 271 rate set forth in the tariff shall apply to the Subsequent Embedded Base as of the 110th day after the 10th business day from the date of BellSouth’s CNL identifying the Subsequent Embedded Base.
12. **Modifications and Updates to the Wire Center List and Subsequent Transition Periods for Dark Fiber Transport**

- 12.1 In the event BellSouth identifies additional wire centers that meet the criteria set forth in Section 4 above, but that were not included in the Initial Wire Center List, BellSouth shall provide notice of such additional wire centers in a Carrier Notification Letter (CNL) sent to the point of contact in this Agreement, or in the absence of such point of contact, BellSouth shall post the CNL on BellSouth's Web site. Each such list of additional wire centers shall be considered a "Subsequent Wire Center List."
- 12.2 Effective ten (10) business days after the date of BellSouth's notice providing a Subsequent Wire Center List, BellSouth shall not be required to provide unbundled access to Dark Fiber Transport, as applicable, in such additional wire center(s), except pursuant to the self-certification process as set forth in Section 5 above.
- 12.3 For purposes of this Section 12, BellSouth shall make available Dark Fiber Transport that was in service for DPI-Teleconnect in a wire center on the Subsequent Wire Center List as of the tenth (10th) business day after the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Embedded Base) until one hundred and ten (110) days after the tenth (10th) business day from the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Transition Period).
- 12.4 Subsequent disconnects or loss of End Users shall be removed from the Subsequent Embedded Base.
- 12.5 The applicable rate for the Subsequent Embedded Base during the Subsequent Transition Period shall be 115% of the rate for such Dark Fiber Transport set forth in the Parties' Amendment to the Agreement to implement the Georgia Public Service Commission's Letter Order dated March 2, 2006 in Docket No.14361-U.
- 12.6 No later than forty (40) days from BellSouth's CNL identifying the Subsequent Wire Center List, DPI-Teleconnect shall submit a spreadsheet(s) identifying the Subsequent Embedded Base of circuits to be disconnected or converted to other BellSouth services. In the case of disconnection, the applicable disconnect charges set forth in this Agreement shall apply.
- 12.7 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 12.6 above for all of its Subsequent Embedded Base within forty (40) days after the date of BellSouth's CNL identifying the Subsequent Wire Center List, BellSouth will identify DPI-Teleconnect's remaining Subsequent Embedded Base, if any, and will transition such circuits to BellSouth's equivalent tariffed service set forth in Section 26 below. Those circuits identified and transitioned by BellSouth pursuant to this Section 12.7 shall be subject to 115% of the switch-as-is rate set forth in the Parties' Amendment to the Agreement to implement the Georgia Public Service Commission's Letter Order dated March 2, 2006 in Docket No.14361-U.

- 12.8 The applicable tariff rate shall apply to the Subsequent Embedded Base as of the 110th day after the 10th business day from the date of BellSouth's CNL identifying the Subsequent Embedded Base.

Issue 10 – Transition of Delisted Network Elements to Which No Specified Transition Period Applies - What rates terms and conditions should govern the transition of existing network elements that BellSouth is no longer obligated to provide as Section 251 UNEs to non-Section 251 network elements and other services and (a) what is the proper treatment for such network elements at the end of the transition period,; and (b) what is the appropriate transition period, and what are the appropriate rates, terms and conditions during such transition period, for unbundled high-capacity loops, high capacity transport, and dark fiber transport in and between wire that do not meet the FCC's non-impairment standards at this time, but that meet such standards in the future?

13. Except to the extent expressly provided otherwise in this Attachment, DPI-Teleconnect may not maintain unbundled network elements or combinations of unbundled network elements, that are no longer offered pursuant to Section 251 of the Act (collectively "Arrangements"). In the event DPI-Teleconnect has in place any such Arrangements after the Effective Date of this Agreement, this amendment shall serve as BellSouth's written notice to DPI-Teleconnect that DPI-Teleconnect has thirty (30) days to transition all DS1 Local Switching and UNE-P arrangements and sixty (60) days to transition all other Arrangements. If DPI-Teleconnect fails to submit orders to disconnect or convert such Arrangements within the aforementioned timeframes, BellSouth will transition such circuits to the equivalent tariffed BellSouth service(s). To the extent no tariff equivalent service exists, BellSouth shall disconnect such facility or arrangement. Those circuits identified and transitioned by BellSouth pursuant to this Section 13 shall be subject to 115% of the applicable switch-as-is charges set forth in the Parties' Amendment to the Agreement to implement the Georgia Public Service Commission's Letter Order dated March 2, 2006 in Docket No. 14361-U.
- 13.1 The applicable recurring resale or tariffed charge shall apply to each circuit as of the Effective Date of this Agreement.

Issue 14 – What is the scope of commingling allowed under the FCC's rules and orders and what language should be included in Interconnection Agreements to implement commingling (including rates)?

14. **Commingling of Services**

- 14.1 Commingling means the connecting, attaching, or otherwise linking of a Network Element, or a Combination, to one or more Telecommunications Services or facilities that DPI-Teleconnect has obtained at wholesale from BellSouth, or the combining of a Network Element or Combination with one or more such wholesale Telecommunications Services or facilities, consistent with the Georgia Public Service Commission's Order dated March 2, 2006 in Docket No. 19341-U. To the extent a Section 271

facility or service is obtained at wholesale, BellSouth will commingle such facility or service with Section 251 Network Elements or Combinations. DPI-Teleconnect must comply with all rates, terms or conditions applicable to such wholesale Telecommunications Services or facilities.

- 14.2 Subject to the limitations set forth elsewhere in this Attachment, BellSouth shall not deny access to a Network Element or a Combination on the grounds that one or more of the elements: (1) is connected to, attached to, linked to, or combined with such a facility or service obtained from BellSouth; or (2) shares part of BellSouth's network with access services or inputs for mobile wireless services and/or interexchange services.
- 14.3 Unless otherwise agreed to by the Parties, the Network Element portion of a commingled circuit will be billed at the rates set forth in the Parties' Amendment to the Agreement to implement the Georgia Public Service Commission's Letter Order dated March 2, 2006 in Docket No.14361-U, and the remainder of the circuit or service will be billed in accordance with either BellSouth's tariffed rates or the 271 rates set forth in Exhibit B of this Agreement, as applicable.
- 14.4 When multiplexing equipment is attached to a commingled circuit, the multiplexing equipment will be billed from the same agreement or tariff as the higher bandwidth circuit. Central Office Channel Interfaces (COCI) will be billed from the same agreement or tariff as the lower bandwidth circuit.

Issue 15 – Is BellSouth required to provide conversion of special access circuits to UNE pricing, and, if so, at what rates, terms and conditions and during what timeframe should such new requests for such conversions be effectuated?

Issue 16 – What are the appropriate rates, terms and conditions and effective dates, if any, for conversion requests that were pending on the effective date of the TRO?

15. Conversion of Wholesale Services to Network Elements or Network Elements to Wholesale Services.

- 15.1 Upon request, BellSouth shall convert a wholesale service, or group of wholesale services, to the equivalent Network Element or Combination that is available to DPI-Teleconnect pursuant to this Agreement, or convert a Network Element or Combination that is available to DPI-Teleconnect under this Agreement to an equivalent wholesale service or group of wholesale services offered by BellSouth (collectively "Conversion"). BellSouth shall charge 115% of the switch-as-is rate set forth in the Parties' Amendment to the Agreement to implement the Georgia Public Service Commission's Letter Order dated March 2, 2006 in Docket No.14361-U for Conversions to specific Network Elements or Combinations. BellSouth shall also charge the same nonrecurring switch-as-is rates when converting from Network Elements or Combinations. Any rate change resulting from the Conversion will be effective as of the next billing cycle following BellSouth's receipt of a complete and accurate

Conversion request from the CLEC. A Conversion shall be considered termination for purposes of any volume and/or term commitments and/or grandfathered status between CLEC and BellSouth. Any change from a wholesale service/group of wholesale services to a Network Element/Combination, or from a Network Element/Combination to a wholesale service/group of wholesale services that requires a physical rearrangement will not be considered to be a Conversion for purposes of this Agreement. BellSouth shall not require physical rearrangements if the Conversion can be completed through record changes only. Orders for Conversions will be handled in accordance with the guidelines set forth in the Ordering Guidelines and Processes and CLEC Information Packages as referenced in Section 15.3 below.

- 15.2 To the extent, DPI-Teleconnect had a Conversion request pending between October 2, 2003 and the effective date of this Amendment, such Conversion shall be deemed converted as of the date of such request.

15.3 Ordering Guidelines and Processes

- 15.3.1 For information regarding Ordering Guidelines and Processes for various Network Elements, Combinations and Other Services, DPI-Teleconnect should refer to the “Guides” section of the BellSouth Interconnection Web site.
- 15.3.2 Additional information may also be found in the individual CLEC Information Packages located at the “CLEC UNE Products” on BellSouth’s Interconnection Web site.
- 15.3.3 The provisioning of Network Elements, Combinations and Other Services to DPI-Teleconnect’s Collocation Space will require cross-connections within the central office to connect the Network Element, Combinations or Other Services to the demarcation point associated with DPI-Teleconnect’s Collocation Space. These cross-connects are separate components that are not considered a part of the Network Element, Combinations or Other Services and, thus, have a separate charge pursuant to this Agreement.

Issue 19: Line Splitting: What is the appropriate ICA language to implement BellSouth’s obligations with regard to line splitting?

16. Line Splitting

- 16.1 Line splitting shall mean that DPI-Teleconnect purchases a whole loop and provides the splitter to provide voice and data services through an arrangement with a third party CLEC, who is either the provider of data services (Data CLEC) or the provider of voice services (Voice CLEC), to deliver voice and data service to End Users over the same Loop. The Voice CLEC and Data CLEC are different carriers, with DPI-Teleconnect being either the Voice CLEC or Data CLEC.

- 16.2 Line Splitting – UNE-L. In the event DPI-Teleconnect provides its own switching or obtains switching from a third party, DPI-Teleconnect may engage in line splitting arrangements with another CLEC using a splitter, provided by DPI-Teleconnect, in a Collocation Space at the central office where the loop terminates into a distribution frame or its equivalent.
- 16.3 Line Splitting – Loop and Port. To the extent DPI-Teleconnect is using a commingled arrangement that consists of an Unbundled Loop purchased pursuant to this Agreement and Local Switching provided by BellSouth pursuant to Section 271, BellSouth will permit DPI-Teleconnect to utilize Line Splitting. BellSouth shall charge the applicable rates ordered by the Georgia Public Service Commission in its March 2, 2006 Letter Order in docket 14361-U.
- 16.4 DPI-Teleconnect shall provide BellSouth with a signed LOA between it and the third party CLEC (Data CLEC or Voice CLEC) with which it desires to provision Line Splitting services, where DPI-Teleconnect will not provide voice and data services.
- 16.5 Provisioning Line Splitting and Splitter Space – Loop and Port
- 16.5.1 The Data LEC, Voice CLEC, or a third party may provide the splitter. When DPI-Teleconnect or its authorized agent owns the splitter, Line Splitting requires the following: a non-designed analog Loop from the serving wire center to the NID at the End User's location; a collocation cross-connection connecting the Loop to the collocation space; and a second collocation cross-connection from the collocation space connected to a voice port.
- 16.5.2 An unloaded 2-wire copper Loop must serve the End User. The meet point for the Voice CLEC and the Data CLEC is the point of termination on the MDF for the Data CLEC's cable and pairs.
- 16.5.3 The foregoing procedures are applicable to migration from a loop and port arrangement to Line Splitting Service, including a Line splitting service that includes a commingled arrangement of Loop and unbundled local switching pursuant to Section 271.
- 16.6 CLEC Provided Splitter – Line Splitting – Loop and Port and UNE-L
- 16.6.1 DPI-Teleconnect or its authorized agent may purchase, install and maintain central office POTS splitters in its collocation arrangements. DPI-Teleconnect or its authorized agent may use such splitters for access to its customers and to provide digital line subscriber services to its customers using the High Frequency Spectrum. Existing Collocation rules and procedures and the terms and conditions relating to Collocation set forth in Attachment 4-Central Office shall apply.
- 16.6.2 Any splitters installed by DPI-Teleconnect or its authorized agent in its collocation arrangement shall comply with ANSI T1.413, Annex E, or any future ANSI splitter Standards. DPI-Teleconnect or its authorized agent

may install any splitters that BellSouth deploys or permits to be deployed for itself or any BellSouth affiliate.

- 16.7 Provisioning Line Splitting and Splitter Space – UNE-L
- 16.7.1 **DPI-Teleconnect** provides the splitter when providing Line Splitting with UNE-L. When DPI-Teleconnect or its authorized agent owns the splitter, Line Splitting requires the following: a loop from NID at the End User's location to the serving wire center and terminating into a distribution frame or its equivalent.
- 16.8 Maintenance – Line Splitting – Loop and Port and UNE-L
- 16.8.1 BellSouth will be responsible for repairing troubles with the physical loop between the NID at the End User's premises and the termination point.
- 16.8.2 BellSouth must make all necessary network modifications, including providing nondiscriminatory access to operations support systems necessary for pre-ordering, ordering, provisioning, maintenance and repair, and billing for loops used in line splitting arrangements.
- 16.9 Indemnity
- 16.9.1 DPI-Teleconnect shall indemnify, defend and hold harmless BellSouth from and against any claims, losses, damages and costs incurred by BellSouth, which arise out of actions related to the other service provider, except to the extent caused by BellSouth's gross negligence or willful misconduct.

Issue 22 – What is the appropriate ICA language, if any, to address call related databases?

- 17.1 Automatic Location Identification/Data Management System**
- 17.1.1 911 and E911 Databases
- 17.1.1.1 BellSouth shall provide DPI-Teleconnect with nondiscriminatory access to 911 and E911 databases on an unbundled basis, in accordance with 47 C.F.R. § 51.319 (f).
- 17.1.1.2 The ALI/DMS database contains End User information (including name, address, telephone information, and sometimes special information from the local service provider or End User) used to determine to which PSAP to route the call. The ALI/DMS database is used to provide enhanced routing flexibility for E911. DPI-Teleconnect will be required to provide the BellSouth 911 database vendor daily service order updates to E911 database in accordance with Section 17.3.1 below.
- 17.2 Technical Requirements
- 17.2.1 BellSouth's 911 database vendor shall provide DPI-Teleconnect the capability of providing updates to the ALI/DMS database through a specified electronic interface. DPI-Teleconnect shall contact BellSouth's 911 database vendor directly to request interface. DPI-Teleconnect shall

provide updates directly to BellSouth's 911 database vendor on a daily basis. Updates shall be the responsibility of DPI-Teleconnect and BellSouth shall not be liable for the transactions between DPI-Teleconnect and BellSouth's 911 database vendor.

- 17.2.2 It is DPI-Teleconnect's responsibility to retrieve and confirm statistical data and to correct errors obtained from BellSouth's 911 database vendor on a daily basis. All errors will be assigned a unique error code and the description of the error and the corrective action is described in the CLEC Users Guide for Facility Based Providers that is found on the BellSouth Interconnection Web site.
- 17.2.3 DPI-Teleconnect shall conform to the BellSouth standards as described in the CLEC Users Guide to E911 for Facilities Based Providers that is located on the BellSouth's Interconnection Web site.
- 17.2.4 Stranded Unlocks are defined as End User records in BellSouth's ALI/DMS database that have not been migrated for over ninety (90) days to DPI-Teleconnect, as a new provider of local service to the End User. Stranded Unlocks are those End User records that have been "unlocked" by the previous local exchange carrier that provided service to the End User and are open for DPI-Teleconnect to assume responsibility for such records.
- 17.2.5 Based upon End User record ownership information available in the NPAC database, BellSouth shall provide a Stranded Unlock annual report to DPI-Teleconnect that reflects all Stranded Unlocks that remain in the ALI/DMS database for over ninety (90) days. DPI-Teleconnect shall review the Stranded Unlock report, identify its End User records and request to either delete such records or migrate the records to DPI-Teleconnect within two (2) months following the date of the Stranded Unlock report provided by BellSouth. DPI-Teleconnect shall reimburse BellSouth for any charges BellSouth's database vendor imposes on BellSouth for the deletion of DPI-Teleconnect's records.
- 17.3 911 PBX Locate Service®. 911 PBX Locate Service is comprised of a database capability and a separate transport component.
 - 17.3.1 Description of Product. The transport component provides a dedicated trunk path from a Private Branch Exchange (PBX) switch to the appropriate BellSouth 911 tandem.
 - 17.3.1.1 The database capability allows DPI-Teleconnect to offer an E911 service to its PBX End Users that identifies to the PSAP the physical location of the DPI-Teleconnect PBX 911 End User station telephone number for the 911 call that is placed by the End User.
 - 17.3.2 DPI-Teleconnect may order either the database capability or the transport component as desired or DPI-Teleconnect may order both components of the service.

- 17.3.3 911 PBX Locate Database Capability. DPI-Teleconnect's End User or DPI-Teleconnect's End User's database management agent (DMA) must provide the End User PBX station telephone numbers and corresponding address and location data to BellSouth's 911 database vendor. The data will be loaded and maintained in BellSouth's ALI database.
- 17.3.4 Ordering, provisioning, testing and maintenance shall be provided by DPI-Teleconnect pursuant to the 911 PBX Locate Marketing Service Description (MSD) that is located on the BellSouth Interconnection Web site.
- 17.3.5 DPI-Teleconnect's End User, or DPI-Teleconnect's End User database management agent must provide ongoing updates to BellSouth's 911 database vendor within a commercially reasonable timeframe of all PBX station telephone number adds, moves and deletions. It will be the responsibility of DPI-Teleconnect to ensure that the End User or DMA maintain the data pertaining to each End User's extension managed by the 911 PBX Locate Service product. DPI-Teleconnect should not submit telephone number updates for specific PBX station telephone numbers that are submitted by DPI-Teleconnect's End User, or DPI-Teleconnect's End User DMA under the terms of 911 PBX Locate product.
- 17.3.6 DPI-Teleconnect must provision all PBX station numbers in the same LATA as the E911 tandem.
- 17.3.7 DPI-Teleconnect agrees to release, indemnify, defend and hold harmless BellSouth from any and all loss, claims, demands, suits, or other action, or any liability whatsoever, whether suffered, made, instituted or asserted by DPI-Teleconnect's End User or by any other party or person, for any personal injury to or death of any person or persons, or for any loss, damage or destruction of any property, whether owned by DPI-Teleconnect or others, or for any infringement or invasion of the right of privacy of any person or persons, caused or claimed to have been caused, directly or indirectly, by the installation, operation, failure to operate, maintenance, removal, presence, condition, location or use of PBX Locate Service features or by any services which are or may be furnished by BellSouth in connection therewith, including but not limited to the identification of the telephone number, address or name associated with the telephone used by the party or parties accessing 911 services using 911 PBX Locate Service hereunder, except to the extent caused by BellSouth's gross negligence or wilful misconduct. DPI-Teleconnect is responsible for assuring that its authorized End Users comply with the provisions of these terms and that unauthorized persons do not gain access to or use the 911 PBX Locate Service through user names, passwords, or other identifiers assigned to DPI-Teleconnect's End User or DMA pursuant to these terms. Specifically, DPI-Teleconnect's End User or DMA must keep and protect from use by any unauthorized individual identifiers, passwords, and any other security token(s) and devices that are provided for access to this product.

- 17.3.8 DPI-Teleconnect may only use BellSouth PBX Locate Service solely for the purpose of validating and correcting 911 related data for DPI-Teleconnect's End Users' telephone numbers for which it has direct management authority.
- 17.3.9 911 PBX Locate Transport Component. The 911 PBX Locate Service transport component requires DPI-Teleconnect to order a CAMA type dedicated trunk from DPI-Teleconnect's End User premise to the appropriate BellSouth 911 tandem pursuant to the following provisions.
- 17.3.10 Except as otherwise set forth below, a minimum of two (2) End User specific, dedicated 911 trunks are required between the DPI-Teleconnect's End User premise and the BellSouth 911 tandem as described in BellSouth's Technical Reference (TR) 73576 and in accordance with the 911 PBX Locate Marketing Service Description located on the BellSouth Interconnection Web site. DPI-Teleconnect is responsible for connectivity between the End User's PBX and DPI-Teleconnect's switch or POP location. DPI-Teleconnect will then order 911 trunks from their switch or POP location to the BellSouth 911 tandem. The dedicated trunks shall be, at a minimum, DS0 level trunks configured as part of a digital interface (delivered over a DPI-Teleconnect purchased DS1 facility that hands off at a DS1 or higher level digital or optical interface). DPI-Teleconnect is responsible for ensuring that the PBX switch is capable of sending the calling station's Direct Inward Dial (DID) telephone number to the BellSouth 911 tandem in a specified Multi-frequency (MF) Address Signaling Protocol. If the PBX switch supports Primary Rate ISDN (PRI) and the calling stations are DID numbers, then the 911 call can be transmitted using PRI, and there will be no requirement for the PBX Locate Transport component.
- 17.3.11 Ordering and Provisioning. DPI-Teleconnect will submit an Access Service Request (ASR) to BellSouth to order a minimum of two (2) End User specific 911 trunks from its switch or POP location to the BellSouth 911 tandem.
- 17.3.12 Testing and maintenance shall be provided by DPI-Teleconnect pursuant to the 911 PBX Locate Marketing Service description that is located on the BellSouth Interconnection Web site.
- 17.3.13 Rates. Rates for the 911 PBX Locate Service database component are set forth in Exhibit C. Trunks and facilities for 911 PBX Locate transport component may be ordered by DPI-Teleconnect pursuant to the terms and conditions set forth in Attachment 3.

Issue 23 - What is the appropriate language to implement BellSouth's obligation, if any, to offer unbundled access to newly deployed or "greenfield" fiber loops, including fiber loops deployed to the minimum point of entry (MPOE) of a multiple dwelling unit that is predominantly residential and what, if any impact does the ownership of the inside wiring from the MPOE to each end user have on this obligation?

Version: GA COL Amendment
CLEC with CA
05/08/06

- 18.1 Fiber to the Home (FTTH) loops are local loops consisting entirely of fiber optic cable, whether dark or lit, serving an End User's premises or, in the case of predominantly residential multiple dwelling units (MDUs), a fiber optic cable, whether dark or lit, that extends to the MDU minimum point of entry (MPOE). As defined in 47 C.F.R. 68.105(B), Fiber to the Curb (FTTC) loops are local loops consisting of fiber optic cable connecting to a copper distribution plant that is not more than five hundred (500) feet from the End User's premises or, in the case of predominantly residential MDUs, not more than five hundred (500) feet from the MDU's MPOE. The fiber optic cable in a FTTC loop must connect to a copper distribution plant at a serving area interface from which every other copper distribution subloop also is not more than five hundred (500) feet from the respective End User's premises.
- 18.2 In new build (Greenfield) areas, where BellSouth has only deployed FTTH/FTTC facilities, BellSouth is under no obligation to provide such FTTH and FTTC Loops. FTTH facilities include fiber loops deployed to the MPOE of a MDU that is predominantly residential regardless of the ownership of the inside wiring from the MPOE to each End User in the MDU.

Issue 24: What is the appropriate ICA language to implement BellSouth's obligation to provide unbundled access to hybrid loops?

19. A hybrid Loop is a local Loop, composed of both, fiber optic cable usually in the feeder plant and copper twisted wire or cable usually in the distribution plant. BellSouth shall provide DPI-Teleconnect with nondiscriminatory access to the time division multiplexing features, functions and capabilities of such hybrid Loop, on an unbundled basis to establish a complete transmission path between BellSouth's central office and an End User's premises.

Issue 26: What is the appropriate ICA language to implement BellSouth's obligation to provide RNMs?

Issue 27: What is the appropriate process for establishing a rate, if any, to allow for the cost of a routine network modification that is not already recovered in Commission-approved recurring and nonrecurring rates? What is the appropriate language, if any, to incorporate into the ICAs?

20. Routine Network Modifications
- 20.1 BellSouth will perform Routine Network Modifications (RNM) in accordance with FCC 47 CFR 51.319 (a)(7) and (e)(4) for Loops and Dedicated Transport provided under this Attachment. BellSouth shall make all routine network modifications to unbundled loop and transport facilities used by DPI-Teleconnect at DPI-Teleconnect's request where the requested loop and/or transport facility has already been constructed.

BellSouth shall perform these routine network modifications to facilities in a non-discriminatory fashion, without regard to whether the loop or transport facility being accessed was constructed on behalf, or in accordance with the specifications, of any carrier. A routine network modification is an activity that BellSouth regularly undertakes for its own customers. Routine network modifications include, but are not limited to, rearranging or splicing of cable; adding an equipment case; adding a doubler or repeater; adding a smart jack; installing a repeater shelf; adding a line card; deploying a new multiplexer or reconfiguring an existing multiplexer; and attaching electronic and other equipment that BellSouth ordinarily attaches to a loop or transport facility to serve its own customers. Routine network modifications may entail activities such as accessing manholes, deploying bucket trucks to reach aerial cable, and installing equipment casings. Routine network modifications do not include the construction of a new loop, or the installation of new aerial or buried cable for DPI-Teleconnect.

- 20.2 BellSouth shall perform routine network modifications pursuant to the existing non-recurring charges and recurring rates ordered by the state commission for the loop and transport facilities set forth in Exhibit A of Attachment 2 of the Agreement and not at an additional charge. RNM shall be performed within the intervals established for the Network Element and subject to the performance measurements and associated remedies set forth in Attachment 9 of this Agreement except to the extent BellSouth demonstrates that such RNM were not anticipated in the setting of such intervals. If BellSouth believes that it has not anticipated a requested network modification as being a RNM and has not recovered the costs of such RNM in the rates set forth in Exhibit A of Attachment 2 of the Agreement, BellSouth can seek resolution from the state commission. However, in the interim, BellSouth will perform the RNM at the existing recurring and non-recurring rates associated with the provision of the loop or transport facility. There may not be any double recovery or retroactive recovery of these costs.

Issue 28: What is the appropriate language, if any, to address access to overbuild deployments of fiber to the home and fiber to the curb facilities?

21. Furthermore, in FTTH/FTTC overbuild areas where BellSouth has not yet retired copper facilities, BellSouth is not obligated to ensure that such copper Loops in that area are capable of transmitting signals prior to receiving a request for access to such Loops by DPI-Teleconnect. If a request is received by BellSouth for a copper Loop, and the copper facilities have not yet been retired, BellSouth will restore the copper Loop to serviceable condition if technically feasible. In these instances of Loop orders in an FTTH/FTTC overbuild area, BellSouth's standard Loop provisioning interval will apply.

Issue 29: What is the appropriate ICA language to implement BellSouth's EEL audit rights, if any, under the TRO?

22 EELs Audit provisions

22.1 BellSouth may, on an annual basis audit DPI-Teleconnect's records based on cause, in order to verify compliance with the high capacity EEL eligibility criteria. To invoke its limited right to audit, BellSouth will send a Notice of Audit to DPI-Teleconnect stating its concern that DPI-Teleconnect is not complying with the service eligibility requirements as set forth above and a concise statement of the reasons therefore. Such Notice of Audit will be delivered to DPI-Teleconnect no less than thirty (30) calendar days prior to the date upon which BellSouth seeks to commence an audit. BellSouth is not required to provide documentation, as distinct from a statement of concern, to support its basis for an audit, or seek the concurrence of the requesting carrier before selecting the location of the audit.

22.2 The audit shall be conducted by a third party independent auditor, retained and paid for by BellSouth. BellSouth may select the independent auditor without the prior approval of DPI-Teleconnect or the Commission. Challenges to the independence of the auditor may be filed with the Commission only after the audit has been concluded. The audit must be performed in accordance with the standards established by the American Institute for Certified Public Accountants (AICPA) which will require the auditor to perform an "examination engagement" and issue an opinion regarding DPI-Teleconnect's compliance with the high capacity EEL eligibility criteria. AICPA standards and other AICPA requirements will be used to determine the independence of an auditor. The independent auditor's report will conclude whether DPI-Teleconnect complied in all material respects with the applicable service eligibility criteria. Consistent with standard auditing practices, such audits require compliance testing designed by the independent auditor.

22.3 To the extent the independent auditor's report concludes that DPI-Teleconnect failed to comply with the service eligibility criteria, DPI-Teleconnect must true-up any difference in payments, convert all noncompliant circuits to the appropriate service, and make the correct payments on a going-forward basis.

22.4 To the extent the independent auditor's report concludes that DPI-Teleconnect failed to comply in all material respects with the service eligibility criteria, DPI-Teleconnect shall reimburse BellSouth for the cost of the independent auditor. To the extent the independent auditor's report concludes that DPI-Teleconnect did comply in all material respects with

the service eligibility criteria, BellSouth will reimburse DPI-Teleconnect for its reasonable and demonstrable costs associated with the audit. DPI-Teleconnect will maintain appropriate documentation to support its certifications. The Parties shall provide such reimbursement within thirty (30) calendar days of receipt of a statement of such costs.

23. DPI-Teleconnect shall not obtain a Network Element for the exclusive provision of mobile wireless services or interexchange services.
24. Facilities that do not terminate at a demarcation point at an End User premises, including, by way of example, but not limited to, facilities that terminate to another carrier's switch or premises, a cell site, Mobile Switching Center or base station, do not constitute local Loops under Section 251, except to the extent that DPI-Teleconnect may require Loops to such locations for the purpose of providing telecommunications services to its personnel at those locations.
25. Subloop Elements.
 - 25.1 Where facilities permit, BellSouth shall offer access to its Unbundled Subloop (USL) elements as specified herein.
 - 25.2 Unbundled Subloop Distribution (USLD)
 - 25.2.1 The USLD facility is a dedicated transmission facility that BellSouth provides from an End User's point of demarcation to a BellSouth cross-connect device. The BellSouth cross-connect device may be located within a remote terminal (RT) or a stand-alone cross-box in the field or in the equipment room of a building. The USLD media is a copper twisted pair that can be provisioned as a 2-wire or 4-wire facility. BellSouth will make available the following subloop distribution offerings where facilities exist:
 - USLD – Voice Grade (USLD-VG)
 - Unbundled Copper Subloop (UCSL)
 - USLD – Intrabuilding Network Cable (USLD-INC (aka riser cable))
 - 25.2.2 USLD-VG is a copper subloop facility from the cross-box in the field up to and including the point of demarcation at the End User's premises and may have load coils.
 - 25.2.3 UCSL is a copper facility eighteen thousand (18,000) feet or less in length provided from the cross-box in the field up to and including the End User's point of demarcation. If available, this facility will not have any intervening equipment such as load coils between the End User and the cross-box.
 - 25.2.4 If DPI-Teleconnect requests a UCSL and it is not available, DPI-Teleconnect may request the copper Subloop facility be modified pursuant

to the ULM process to remove load coils and/or excessive bridged taps. If load coils and/or excessive bridged taps are removed, the facility will be classified as a UCSL.

- 25.2.5 USLD-INC is the distribution facility owned or controlled by BellSouth inside a building or between buildings on the same property that is not separated by a public street or road. USLD-INC includes the facility from the cross-connect device in the building equipment room up to and including the point of demarcation at the End User's premises.
- 25.2.6 Upon request for USLD-INC from DPI-Teleconnect, BellSouth will install a cross-connect panel in the building equipment room for the purpose of accessing USLD-INC pairs from a building equipment room. The cross-connect panel will function as a single point of interconnection (SPOI) for USLD-INC and will be accessible by multiple carriers as space permits. BellSouth will place cross-connect blocks in twenty five (25) pair increments for DPI-Teleconnect's use on this cross-connect panel. DPI-Teleconnect will be responsible for connecting its facilities to the twenty five (25) pair cross-connect block(s).
- 25.2.7 For access to Voice Grade USLD and UCSL, DPI-Teleconnect shall install a cable to the BellSouth cross-box pursuant to the terms and conditions for physical collocation for remote sites set forth in Attachment 4. This cable would be connected by a BellSouth technician within the BellSouth cross-box during the set-up process. DPI-Teleconnect's cable pairs can then be connected to BellSouth's USL within the BellSouth cross-box by the BellSouth technician.
- 25.2.8 Through the SI process, BellSouth will determine whether access to USLs at the location requested by DPI-Teleconnect is technically feasible and whether sufficient capacity exists in the cross-box. If existing capacity is sufficient to meet DPI-Teleconnect's request, then BellSouth will perform the site set-up as described in the CLEC Information Package, located at BellSouth's Interconnection Web site:
www.interconnection.bellsouth.com/products/html/unec.html.
- 25.2.9 The site set-up must be completed before DPI-Teleconnect can order Subloop pairs. For the site set-up in a BellSouth cross-connect box in the field, BellSouth will perform the necessary work to splice DPI-Teleconnect's cable into the cross-connect box. For the site set-up inside a building equipment room, BellSouth will perform the necessary work to install the cross-connect panel and the connecting block(s) that will be used to provide access to the requested USLs.
- 25.2.10 Once the site set-up is complete, DPI-Teleconnect will request Subloop pairs through submission of a LSR form to the LCSC. OC is required with USL pair provisioning when DPI-Teleconnect requests reuse of an existing facility, and the OC charge shall be billed in addition to the USL pair rate. For expedite requests by DPI-Teleconnect for Subloop pairs, expedite charges will apply for intervals less than five (5) days.

- 25.2.11 USLs will be provided in accordance with BellSouth's TR73600 Unbundled Local Loop Technical Specifications.
- 25.3 Unbundled Network Terminating Wire (UNTW)
- 25.3.1 UNTW is unshielded twisted copper wiring that is used to extend circuits from an intra-building network cable terminal or from a building entrance terminal to an individual End User's point of demarcation. It is the final portion of the Loop that in multi-subscriber configurations represents the point at which the network branches out to serve individual subscribers.
- 25.3.1.1 This element will be provided in MDUs and/or Multi-Tenants Units (MTUs) where either Party owns wiring all the way to the End User's premises. Neither Party will provide this element in locations where the property owner provides its own wiring to the End User's premises, where a third party owns the wiring to the End User's premises.
- 25.3.2 Requirements
- 25.3.2.1 On a multi-unit premises, upon request of the other Party (Requesting Party), the Party owning the network terminating wire (Provisioning Party) will provide access to UNTW pairs on an Access Terminal that is suitable for use by multiple carriers at each Garden Terminal or Wiring Closet.
- 25.3.2.2 The Provisioning Party shall not be required to install new or additional NTW beyond existing NTW to provision the services of the Requesting Party.
- 25.3.2.3 In existing MDUs and/or MTUs in which BellSouth does not own or control wiring (INC/NTW) to the End Users premises, and DPI-Teleconnect does own or control such wiring, DPI-Teleconnect will install UNTW Access Terminals for BellSouth under the same terms and conditions as BellSouth provides UNTW Access Terminals to DPI-Teleconnect.
- 25.3.2.4 In situations in which BellSouth activates a UNTW pair, BellSouth will compensate DPI-Teleconnect for each pair activated commensurate to the price specified in DPI-Teleconnect's Agreement.
- 25.3.2.5 Upon receipt of the UNTW SI requesting access to the Provisioning Party's UNTW pairs at a multi-unit premises, representatives of both Parties will participate in a meeting at the site of the requested access. The purpose of the site visit will include discussion of the procedures for installation and location of the Access Terminals. By request of the Requesting Party, an Access Terminal will be installed either adjacent to each of the Provisioning Party's Garden Terminal or inside each Wiring Closet. The Requesting Party will deliver and connect its central office facilities to the UNTW pairs within the Access Terminal. The Requesting Party may access any available pair on an Access Terminal. A pair is available when a pair is not being utilized to provide service or where the End User has requested a change in its local service provider to the

Requesting Party. Prior to connecting the Requesting Party's service on a pair previously used by the Provisioning Party, the Requesting Party is responsible for ensuring the End User is no longer using the Provisioning Party's service or another CLEC's service before accessing UNTW pairs.

- 25.3.2.6 Access Terminal installation intervals will be established on an individual case basis.
- 25.3.2.7 The Requesting Party is responsible for obtaining the property owner's permission for the Provisioning Party to install an Access Terminal(s) on behalf of the Requesting Party. The submission of the SI by the Requesting Party will serve as certification by the Requesting Party that such permission has been obtained. If the property owner objects to Access Terminal installations that are in progress or within thirty (30) days after completion and demands removal of Access Terminals, the Requesting Party will be responsible for costs associated with removing Access Terminals and restoring the property to its original state prior to Access Terminals being installed.
- 25.3.2.8 The Requesting Party shall indemnify and hold harmless the Provisioning Party against any claims of any kind that may arise out of the Requesting Party's failure to obtain the property owner's permission. The Requesting Party will be billed for nonrecurring and recurring charges for accessing UNTW pairs at the time the Requesting Party activates the pair(s). The Requesting Party will notify the Provisioning Party within five (5) business days of activating UNTW pairs using the LSR form.
- 25.3.2.9 If a trouble exists on a UNTW pair, the Requesting Party may use an alternate spare pair that serves that End User if a spare pair is available. In such cases, the Requesting Party will re-terminate its existing jumper from the defective pair to the spare pair. Alternatively, the Requesting Party will isolate and report troubles in the manner specified by the Provisioning Party. The Requesting Party must tag the UNTW pair that requires repair. If the Provisioning Party dispatches a technician on a reported trouble call and no UNTW trouble is found, the Provisioning Party will charge Requesting Party for time spent on the dispatch and testing the UNTW pair(s).
- 25.3.2.10 If the Requesting Party initiates the Access Terminal installation and the Requesting Party has not activated at least ten percent (10%) of the capacity of the Access Terminal installed pursuant to the Requesting Party's request for an Access Terminal within six (6) months of installation of the Access Terminal, the Provisioning Party will bill the Requesting Party a nonrecurring charge equal to the actual cost of provisioning the Access Terminal.
- 25.3.3.11 If the Provisioning Party determines that the Requesting Party is using the UNTW pairs without reporting the activation of the pairs, the Requesting Party will be billed for the use of that pair back to the date the End User began receiving service from the Requesting Party at that location. Upon

request, the Requesting Party will provide copies of its billing record to substantiate such date. If the Requesting Party fails to provide such records, then the Provisioning Party will bill the Requesting Party back to the date of the Access Terminal installation.

26. 271 Requirements

26.1 This Section sets forth terms and conditions for de-listed network elements that BellSouth is required to offer pursuant to the Georgia Public Service Commission's Order in Docket No. 19341-U (Order) to DPI-Teleconnect for DPI-Teleconnect's provision of Telecommunications Services in accordance with its obligations under Section 271 of the Act ("271").

26.1.1 To the extent DS1 and/or DS3 Loops, DS1 and/or DS3 Dedicated Transport and Multiplexing are not available elsewhere in the Agreement, these services will be made available pursuant to Section 271 of the Act at the rates set forth in Exhibit B to this Amendment.

26.2 271 Dark Fiber Loops, 271 DS1 and DS3 Entrance Facilities, and 271 Dark Fiber Transport Facilities are available at the rates, terms, and conditions set forth in the applicable BellSouth tariff.

26.3 Line Sharing

26.3.1 General. Line Sharing is defined as the process by which DPI-Teleconnect provides digital subscriber line service ("xDSL") over the same copper Loop that BellSouth uses to provide retail voice service, with BellSouth using the low frequency portion of the Loop and DPI-Teleconnect using the high frequency spectrum (as defined below) of the Loop.

26.3.2 Line Sharing arrangements in service as of October 1, 2003 will be billed at the rates set forth in the Parties' Amendment to the Agreement to implement the Georgia Public Service Commission's Letter Order dated March 2, 2006 in Docket No.14361-U.

26.3.3 For Line Sharing arrangements placed in service between October 2, 2003, and October 1, 2004 the rates set forth in the Parties' Amendment to the Agreement to implement the Georgia Public Service Commission's Letter Order dated March 2, 2006 in Docket No.14361-U.

26.3.4 For Line Sharing arrangements placed on or after October 2, 2004 (whether under this Agreement only, or under this Agreement and a prior Agreement), the rates will be the full copper loop rate as set forth in the Parties' Amendment to the Agreement to implement the Georgia Public Service Commission's Letter Order dated March 2, 2006 in Docket No.14361-U.

- 26.3.5 As of October 2, 2006, the rates for Line Sharing arrangements shall be as set forth in Exhibit B of this Amendment.
- 26.3.6 The High Frequency Spectrum is defined as the frequency range above the voiceband on a copper Loop facility carrying analog circuit-switched voiceband transmissions. Access to the High Frequency Spectrum is intended to allow DPI-Teleconnect the ability to provide xDSL data services to the End User for which BellSouth provides voice services.
- 26.3.7 The High Frequency Spectrum shall be available for any version of xDSL complying with Spectrum Management Class 5 of ANSI T1.417, American National Standard for Telecommunications, Spectrum Management for Loop Transmission Systems. BellSouth will continue to have access to the low frequency portion of the Loop spectrum (from 300 Hertz to at least 3000 Hertz, and potentially up to 3400 Hertz, depending on equipment and facilities) for the purposes of providing voice service. DPI-Teleconnect shall only use xDSL technology that is within the PSD mask for Spectrum Management Class 5 as found in the abovementioned document.
- 26.3.8 Access to the High Frequency Spectrum requires an unloaded, 2-wire copper Loop. An unloaded Loop is a copper Loop with no load coils, lowpass filters, range extenders, DAMLs, or similar devices and minimal bridged taps consistent with ANSI T1.413 and TI .601.
- 26.3.9 BellSouth will provide Loop Modification to DPI-Teleconnect on an existing Loop for Line Sharing in accordance with procedures as specified in Attachment 2 of this Agreement. BellSouth is not required to modify a Loop for access to the High Frequency spectrum if modification of that Loop significantly degrades BellSouth's voice service. If DPI-Teleconnect requests that BellSouth modify a Loop and such modification significantly degrades the voice services on the Loop, DPI-Teleconnect shall pay for the Loop to be restored to its original state.
- 26.3.10 Line Sharing shall only be available on Loops on which BellSouth is also providing, and continues to provide, analog voice service directly to the End User. In the event the End User terminates its BellSouth provided voice service for any reason, or in the event BellSouth disconnects the End User's voice service pursuant to its tariffs or applicable law, and DPI-Teleconnect desires to continue providing xDSL service on such Loop, DPI-Teleconnect or the new voice provider, or both, shall be required to purchase a full stand-alone Loop. In those cases in which BellSouth no longer provides voice service to the End User and DPI-Teleconnect purchases the full stand-alone Loop, DPI-Teleconnect may elect the type of Loop it will purchase. DPI-Teleconnect will pay the appropriate recurring and nonrecurring rates for such Loop as set forth in the Parties'

Amendment to the Agreement to implement the Georgia Public Service Commission's Letter Order dated March 2, 2006 in Docket No.14361-U. In the event DPI-Teleconnect purchases a voice grade Loop, DPI-Teleconnect acknowledges that such Loop may not remain xDSL compatible.

- 26.3.11 Only one CLEC shall be permitted access to the High Frequency Spectrum of any particular Loop.
- 26.3.12 Provisioning of Line Sharing and Splitter Space. BellSouth will provide DPI-Teleconnect with access to the High Frequency Spectrum as follows:
- 26.3.12.1 To order High Frequency Spectrum on a particular Loop, DPI-Teleconnect must have a Digital Subscriber Line Access Multiplexer (DSLAM) collocated in the central office that serves the End User of such Loop.
- 26.3.12.2 DPI-Teleconnect may provide its own splitters or may order splitters in a central office once it has installed its DSLAM in that central office. BellSouth will install splitters within thirty-six (36) calendar days of DPI-Teleconnect's submission of an error free Line Splitter Ordering Document (LSOD) to the BellSouth Complex Resale Support Group.
- 26.3.12.3 Once a splitter is installed on behalf of DPI-Teleconnect in a central office in which DPI-Teleconnect is located, DPI-Teleconnect shall be entitled to order the High Frequency Spectrum on lines served out of that central office. BellSouth will bill and DPI-Teleconnect shall pay the electronic or manual ordering charges, as set forth in Exhibit A of Attachment 2 of the Agreement, as applicable when DPI-Teleconnect orders High Frequency Spectrum for End User service.
- 26.3.12.4 Once BellSouth has placed cross-connects on behalf of DPI-Teleconnect to provide DPI-Teleconnect access to the High Frequency Spectrum and chooses to rearrange its splitter or CLEC pairs, DPI-Teleconnect may order the rearrangement of its splitter or cable pairs via "Subsequent Activity". Subsequent Activity is any rearrangement of DPI-Teleconnect's cable pairs or splitter ports after BellSouth has placed cross-connection to provide DPI-Teleconnect access to the High Frequency Spectrum. BellSouth shall bill and DPI-Teleconnect shall pay the Subsequent Activity charges as set forth in Exhibit B of this Amendment.
- 26.3.13 BellSouth Provided Splitter – Line Sharing. BellSouth will select, purchase, install, and maintain a central office POTS splitter and provide DPI-Teleconnect access to data ports on the splitter. The splitter will route the High Frequency Spectrum on the circuit to DPI-Teleconnect's xDSL equipment in DPI-Teleconnect's collocation space. At least thirty (30) calendar days before making a change in splitter suppliers, BellSouth will provide DPI-Teleconnect with a carrier notification letter, informing

DPI-Teleconnect of change. DPI-Teleconnect shall purchase ports on the splitter in increments of eight (8), twenty-four (24), or ninety-six (96) ports.

- 26.3.14 BellSouth will install the splitter in (i) a common area close to DPI-Teleconnect's collocation area, if possible; or (ii) in a BellSouth relay rack as close to DPI-Teleconnect's DS0 termination point as possible. For purposes of this section, a common area is defined as an area in the central office in which both Parties have access to a common test access point. A Termination Point is defined as the point of termination for DPI-Teleconnect on the main distributing frame in the central office and is not the demarcation point set forth in Attachment 4 of this Agreement. BellSouth will cross-connect the splitter data ports to a specified DPI-Teleconnect DS0 at such time that a DPI-Teleconnect End User's service is established.
- 26.3.15 CLEC Provided Splitter – Line Sharing. DPI-Teleconnect may at its option purchase, install and maintain central office POTS splitters in its collocation arrangements. DPI-Teleconnect may use such splitters to provide xDSL services to its End Users using the High Frequency Spectrum. Existing Collocation rules and procedures and the terms and conditions relating to Collocation set forth in Attachment 4-Central Office shall apply.
- 26.3.16 Any splitters installed by DPI-Teleconnect in its collocation arrangement shall comply with ANSI T1.413, Annex E, or any future ANSI splitter Standards. DPI-Teleconnect may install any splitters that BellSouth deploys or permits to be deployed for itself or any BellSouth affiliate.
- 26.3.17 Ordering – Line Sharing. DPI-Teleconnect shall use BellSouth's LSOD to order splitters from BellSouth and to activate and deactivate DS0 Collocation Connecting Facility Assignments (CFA) for use with High Frequency Spectrum.
- 26.3.18 BellSouth's Local Ordering Handbook (LOH) will provide DPI-Teleconnect the LSR format to be used when ordering disconnections of the High Frequency Spectrum or Subsequent Activity.
- 26.3.19 BellSouth will provision High Frequency Spectrum in compliance with BellSouth's Products and Services Interval Guide available at BellSouth's Interconnection Web site.
- 26.3.20 BellSouth shall test the data portion of the Loop to ensure the continuity of the wiring for DPI-Teleconnect's data.

- 26.3.21 BellSouth will provide DPI-Teleconnect access to Preordering LMU in accordance with the terms of this Agreement. BellSouth shall bill and DPI-Teleconnect shall pay the rates for such services, as described in Exhibit B of this Amendment.
- 26.3.22 Maintenance and Repair - Line Sharing. DPI-Teleconnect shall have access for repair and maintenance purposes to any Loop for which it has access to the High Frequency Spectrum. DPI-Teleconnect may test from the collocation space, the Termination Point, or the NID. BellSouth will be responsible for repairing voice services and the physical line between the NID at the End User's premises and the Termination Point. DPI-Teleconnect will be responsible for repairing its data services. Each Party will be responsible for maintaining its own equipment.
- 26.3.23 DPI-Teleconnect shall inform its End Users to direct data problems to DPI-Teleconnect, unless both voice and data services are impaired, in which event DPI-Teleconnect should direct the End Users to contact BellSouth. Once a Party has isolated a trouble to the other Party's portion of the Loop, the Party isolating the trouble shall notify the End User that the trouble is on the other Party's portion of the Loop.
- 26.3.24 If DPI-Teleconnect reports a trouble on the High Frequency Spectrum of a Loop and no trouble actually exists on the BellSouth portion, or BellSouth isolates the trouble to the physical collocation arrangement belonging to DPI-Teleconnect, BellSouth will charge DPI-Teleconnect for any dispatching and testing (both inside and outside the CO) required by BellSouth in order to confirm the working status. The rates charged for no trouble found (NTF) shall be as set forth in Exhibit B of this Amendment.

**Amendment
to the
Agreement Between
DPI-Teleconnect, LLC
and
BellSouth Telecommunications, Inc.
Dated 4/19/2003**

Pursuant to this Amendment, (the "Amendment"), DPI-Teleconnect, LLC (DPI-Teleconnect), and BellSouth Telecommunications, Inc. ("BellSouth"), hereinafter referred to collectively as the "Parties", hereby agree to amend that certain Interconnection Agreement between the Parties dated 4/19/2003 ("Agreement").

WHEREAS, BellSouth and DPI-Teleconnect have entered into good faith negotiations pursuant to the Act to renegotiate an interconnection agreement ("New Agreement") to replace the existing Agreement between the Parties, which expired on 4/18/2006; and

WHEREAS, the Parties desire to extend the term of the Agreement; and

WHEREAS, on October 20, 2006, the Mississippi Public Service Commission ("Commission") issued its Order in Docket No. 2005-AD-139 ("Order"), Order Establishing Generic Change Of Law to Existing Interconnection Agreements; and

WHEREAS, the Parties are obligated to amend the Agreement to bring it in compliance with the Commission's Order;

NOW, THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. The Parties hereby agree to extend the term of the Agreement by ninety (90) days following the date of the last signature of this Amendment. Other than the modification of the expiration date as described in this Amendment, all provisions in Section 2 of the General Terms and Conditions of the Agreement relating to the term and termination of the Agreement remain in full force and effect.
2. The Parties hereby agree to incorporate into the Agreement the contract provisions set forth in Exhibit A hereto, and such contract provisions shall apply to services provided in the state of Mississippi only.
3. The Parties hereby agree to incorporate into the Agreement the rates set forth in Exhibit B hereto, and such rates shall apply to services provided in the state of Mississippi only.

4. To the extent that such contract provisions or rates as set forth in Exhibits A and B hereto conflict with any other rates, terms and conditions in the Agreement, the contract provisions and rates in Exhibits A and B shall prevail in the state of Mississippi.

5. The Parties hereby agree to delete the following rates from Attachment 2, Exhibit A of the Agreement:

8XX Access Ten Digit Screening
Line Information Data Base (LIDB) Access
Calling Name (CNAM) Service
Unbundled Local Switching
Unbundled Port/loop Combinations
Selective Routing
AIN Selective Carrier Routing
AIN – BellSouth AIN SIMS Access Service

6. The Parties also hereby agree to delete the following provisions and associated rates from Attachment 7 of the Agreement:

Optional Daily Usage File (ODUF);
Access Daily Usage File (ADUF);
Enhanced Optional Daily Usage File (EODUF) in their entirety

7. Further, to the extent that defined terms in this Amendment differ from defined terms in the Agreement, such defined terms in the Agreement shall be deemed to have the same meaning as the alternative defined terms in this Amendment to the extent necessary to give full effect to this Amendment consistent with the Mississippi Public Service Commission's Orders.

8. This Amendment shall be deemed effective on March 11, 2006 ("Effective Date").

9. All of the other provisions of the Agreement shall remain in full force and effect.

10. Either or both of the Parties are authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties have executed this Amendment the day and year written below.

BellSouth Telecommunications, Inc.

ACCESS TO NETWORK ELEMENTS AND OTHER SERVICES

1 Introduction

- 1.1 This Attachment sets forth rates, terms and conditions for unbundled network elements (Network Elements) and combinations of Network Elements (Combinations) that BellSouth offers to DPI-Teleconnect for DPI-Teleconnect's provision of Telecommunications Services in accordance with its obligations under Section 251(c)(3) of the Act. Additionally, this Attachment sets forth the rates, terms and conditions for other facilities and services BellSouth makes available to DPI-Teleconnect (Other Services). Additionally, the provision of a particular Network Element or Other Service may require DPI-Teleconnect to purchase other Network Elements or services. In the event of a conflict between this Attachment and any other section or provision of this Agreement, the provisions of this Attachment shall control.
- 1.2 DPI-Teleconnect shall not obtain a Network Element for the exclusive provision of mobile wireless services or interexchange services.
- 1.3 Conversion of Wholesale Services to Network Elements or Network Elements to Wholesale Services. Upon request, BellSouth shall convert a wholesale service, or group of wholesale services, to the equivalent Network Element or Combination that is available to DPI-Teleconnect pursuant to Section 251 of the Act and under this Agreement or convert a Network Element or Combination that is available to DPI-Teleconnect pursuant to Section 251 of the Act and under this Agreement to an equivalent wholesale service or group of wholesale services offered by BellSouth (collectively "Conversion"). BellSouth shall charge the applicable nonrecurring switch-as-is rates for Conversions to specific Network Elements or Combinations found in Exhibit B to this Amendment. BellSouth shall also charge the same nonrecurring switch-as-is rates when converting from Network Elements or Combinations. Any rate change resulting from the Conversion will be effective as of the next billing cycle following BellSouth's receipt of a complete and accurate Conversion request from DPI-Teleconnect. A Conversion shall be considered termination for purposes of any volume and/or term commitments and/or grandfathered status between DPI-Teleconnect and BellSouth. Any change from a wholesale service/group of wholesale services to a Network Element/Combination, or from a Network Element/Combination to a wholesale service/group of wholesale services, that requires a physical rearrangement will not be considered to be a Conversion for purposes of this Agreement. BellSouth will not require physical rearrangements if the Conversion can be completed through record changes only. Orders for Conversions will be handled in accordance with the guidelines set forth in the Ordering Guidelines and Processes and CLEC Information Packages as referenced in Section 1.8 below.

- 1.4 Except to the extent expressly provided otherwise in this Attachment, DPI-Teleconnect may not maintain unbundled network elements or combinations of unbundled network elements, that are no longer offered pursuant to this Agreement (collectively “Arrangements”). In the event BellSouth determines that DPI-Teleconnect has in place any Arrangements after the Effective Date of this Agreement, BellSouth will provide DPI-Teleconnect with thirty (30) days written notice to disconnect or convert such Arrangements. If DPI-Teleconnect fails to submit orders to disconnect or convert such Arrangements within such thirty (30) day period, BellSouth will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth pursuant to this Section 1.4 shall be subject to all applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth’s tariffs. The applicable recurring tariff charge shall apply to each circuit as of the Effective Date of this Agreement.
- 1.5 Prior to submitting an order pursuant to this Agreement for high capacity (DS1 or above) Dedicated Transport or high capacity Loops, DPI-Teleconnect shall undertake a reasonably diligent inquiry to determine whether DPI-Teleconnect is entitled to unbundled access to such Network Elements in accordance with the terms of this Agreement. By submitting any such order, DPI-Teleconnect self-certifies that to the best of DPI-Teleconnect’s knowledge, the high capacity Dedicated Transport or high capacity Loop requested is available as a Network Element pursuant to this Agreement. Upon receiving such order, BellSouth shall process the request in reliance upon DPI-Teleconnect’s self-certification. To the extent BellSouth believes that such request does not comply with the terms of this Agreement, BellSouth shall seek dispute resolution in accordance with the General Terms and Conditions of this Agreement. In the event such dispute is resolved in BellSouth’s favor, BellSouth shall bill DPI-Teleconnect the difference between the rates for such circuits pursuant to this Agreement and the applicable nonrecurring and recurring charges for the equivalent tariffed service from the date of installation to the date the circuit is transitioned to the equivalent tariffed service. Within thirty (30) days following a decision finding in BellSouth’s favor, DPI-Teleconnect shall submit a spreadsheet identifying those non-compliant circuits to be transitioned to tariffed services or disconnected.
- 1.5.1 In the event that (1) BellSouth designates a wire center as non-impaired, (2) CLEC converts existing UNEs to other services or orders new services as services other than UNEs, (3) CLEC otherwise would have been entitled to UNEs in such wire center at the time alternative services were provisioned, and (4) BellSouth acknowledges or a state or federal regulatory body with authority determines that, at the time BellSouth designated such wire center as non-impaired, such wire center did not meet the FCC’s non-impairment criteria, then upon request of CLEC, BellSouth shall transition to UNEs any alternative services in such wire center that were established after such wire center was designated as non-

impaired. In such instances, BellSouth shall refund CLEC the difference between the rate paid by CLEC for such services and the applicable UNE rate, including but not limited to any charges associated with the unnecessary conversion from UNE to other wholesale services.

1.6 BellSouth will perform Routine Network Modifications (RNM) in accordance with FCC 47 C.F.R. § 51.319 (a)(7) and (e)(4) for Loops and Dedicated Transport provided under this Attachment. If BellSouth has anticipated such RNM and performs them during normal operations and has recovered the costs for performing such modifications through the rates set forth in Exhibit A, then BellSouth shall perform such RNM at no additional charge. RNM shall be performed within the intervals established for the Network Element and subject to the performance measurements and associated remedies set forth in Attachment 9 of this Agreement to the extent such RNM were anticipated in the setting of such intervals. If BellSouth has not anticipated a requested network modification as being a RNM and has not recovered the costs of such RNM in the rates set forth in Exhibit A, then such request will be handled as a project on an individual case basis. BellSouth will provide a price quote for the request and, upon receipt of payment from DPI-Teleconnect, BellSouth shall perform the RNM.

1.7 Commingling of Services

1.7.1 Commingling means the connecting, attaching, or otherwise linking of a Network Element, or a Combination, to one or more Telecommunications Services or facilities that DPI-Teleconnect has obtained at wholesale from BellSouth, or the combining of a Network Element or Combination with one or more such wholesale Telecommunications Services or facilities. DPI-Teleconnect must comply with all rates, terms or conditions applicable to such wholesale Telecommunications Services or facilities.

1.7.2 Subject to the limitations set forth elsewhere in this Attachment, BellSouth shall not deny access to a Network Element or a Combination on the grounds that one or more of the elements: (1) is connected to, attached to, linked to, or combined with such a facility or service obtained from BellSouth; or (2) shares part of BellSouth's network with access services or inputs for mobile wireless services and/or interexchange services.

1.7.3 Unless otherwise agreed to by the Parties, the Network Element portion of a commingled circuit will be billed at the rates set forth in Exhibit A to Attachment 2 of the Agreement and the remainder of the circuit or service will be billed in accordance with BellSouth's tariffed rates or rates set forth in a separate agreement between the Parties.

1.7.4 When multiplexing equipment is attached to a commingled circuit, the multiplexing equipment will be billed from the same agreement or tariff as the higher bandwidth

circuit. Central Office Channel Interfaces (COCI) will be billed from the same agreement or tariff as the lower bandwidth circuit.

1.7.5 Notwithstanding any other provision of this Agreement, BellSouth shall not be obligated to commingle or combine Network Elements or Combinations with any service, network element or other offering that it is obligated to make available only pursuant to Section 271 of the Act.

1.8 Ordering Guidelines and Processes

1.8.1 For information regarding Ordering Guidelines and Processes for various Network Elements, Combinations and Other Services, DPI-Teleconnect should refer to the “Guides” section of the BellSouth Interconnection Web site.

1.8.2 Additional information may also be found in the individual CLEC Information Packages located at the “CLEC UNE Products” on BellSouth’s Interconnection Web site at: www.interconnection.bellsouth.com/guides/html/unes.html.

1.8.3 The provisioning of Network Elements, Combinations and Other Services to DPI-Teleconnect’s Collocation Space will require cross-connections within the central office to connect the Network Element, Combinations or Other Services to the demarcation point associated with DPI-Teleconnect’s Collocation Space. These cross-connects are separate components that are not considered a part of the Network Element, Combinations or Other Services and, thus, have a separate charge pursuant to this Agreement.

2 **Loops**

2.1 General. The local loop Network Element is defined as a transmission facility that BellSouth provides pursuant to this Attachment between a distribution frame (or its equivalent) in BellSouth’s central office and the loop demarcation point at an End User premises (Loop). Facilities that do not terminate at a demarcation point at an End User premises, including, by way of example, but not limited to, facilities that terminate to another carrier’s switch or premises, a cell site, Mobile Switching Center or base station, do not constitute local Loops under Section 251, except to the extent that CLEC may require Loops to such locations for the purpose of providing telecommunications services to its personnel at those locations. The Loop Network Element includes all features, functions, and capabilities of the transmission facilities, including the network interface device, and attached electronics (except those used for the provision of advanced services, such as Digital Subscriber Line Access Multiplexers (DSLAMs)), optronics and intermediate devices (including repeaters and load coils) used to establish the transmission path to the End User’s premises, including inside wire owned or controlled by BellSouth. DPI-Teleconnect shall purchase the entire bandwidth of

the Loop and, except as required herein or as otherwise agreed to by the Parties, BellSouth shall not subdivide the frequency of the Loop.

- 2.1.1 The Loop does not include any packet switched features, functions or capabilities.
- 2.1.2 Fiber to the Home (FTTH) loops are local loops consisting entirely of fiber optic cable, whether dark or lit, serving an End User's premises or, in the case of predominantly residential multiple dwelling units (MDUs), a fiber optic cable, whether dark or lit, that extends to the MDU minimum point of entry (MPOE). Fiber to the Curb (FTTC) loops are local loops consisting of fiber optic cable connecting to a copper distribution plant that is not more than five hundred (500) feet from the End User's premises or, in the case of predominantly residential MDUs, not more than five hundred (500) feet from the MDU's MPOE. The fiber optic cable in a FTTC loop must connect to a copper distribution plant at a serving area interface from which every other copper distribution subloop also is not more than five hundred (500) feet from the respective End User's premises.
 - 2.1.2.1 In new build (Greenfield) areas, where BellSouth has only deployed FTTH/FTTC facilities, BellSouth is under no obligation to provide Loops. FTTH facilities include fiber loops deployed to the MPOE of a MDU that is predominantly residential regardless of the ownership of the inside wiring from the MPOE to each End User in the MDU.
 - 2.1.2.2 In FTTH/FTTC overbuild situations where BellSouth also has copper Loops, BellSouth will make those copper Loops available to DPI-Teleconnect on an unbundled basis, until such time as BellSouth chooses to retire those copper Loops using the FCC's network disclosure requirements. In these cases, BellSouth will offer a sixty-four (64) kilobits per second (kbps) voice grade channel over its FTTH/FTTC facilities.
 - 2.1.2.3 Furthermore, in FTTH/FTTC overbuild areas where BellSouth has not yet retired copper facilities, BellSouth is not obligated to ensure that such copper Loops in that area are capable of transmitting signals prior to receiving a request for access to such Loops by DPI-Teleconnect. If a request is received by BellSouth for a copper Loop, and the copper facilities have not yet been retired, BellSouth will restore the copper Loop to serviceable condition if technically feasible. In these instances of Loop orders in an FTTH/FTTC overbuild area, BellSouth's standard Loop provisioning interval will not apply, and the order will be handled on a project basis by which the Parties will negotiate the applicable provisioning interval
- 2.1.3 A hybrid Loop is a local Loop, composed of both fiber optic cable, usually in the feeder plant, and copper twisted wire or cable, usually in the distribution plant. BellSouth shall provide DPI-Teleconnect with nondiscriminatory access to the time division multiplexing features, functions and capabilities of such hybrid Loop,

on an unbundled basis to establish a complete transmission path between BellSouth's central office and an End User's premises.

2.1.4 Transition for DS1 and DS3 Loops

2.1.4.1 For purposes of this Section 2.1.4, the Transition Period for the Embedded Base of DS1 and DS3 Loops and for the Excess DS1 and DS3 Loops (defined in 2.1.4.3) is the twelve (12) month period beginning March 11, 2005 and ending March 10, 2006.

2.1.4.2 For purposes of this Section 2.1.4, Embedded Base means DS1 and DS3 Loops that were in service for DPI-Teleconnect as of March 10, 2005 in those wire centers that, as of such date, met the criteria set forth in Sections 2.1.4.5.1 or 2.1.4.5.2 below. Subsequent disconnects or loss of End Users shall be removed from the Embedded Base.

2.1.4.3 Excess DS1 and DS3 Loops are those DPI-Teleconnect DS1 and DS3 Loops in service as of March 10, 2005, in excess of the caps set forth in Sections 2.1.4.5.1 and 2.1.4.5.2 below, respectively. Subsequent disconnects or loss of End Users shall be removed from Excess DS1 and DS3 Loops.

2.1.4.4 For purposes of this Section 2.1.4, a Business Line is defined in 47 C.F.R. § 51.5.

2.1.4.5 Notwithstanding anything to the contrary in this Agreement, and except as set forth in Section 2.1.4.12 below, BellSouth shall make available DS1 and DS3 Loops as described in this Section 2.1.4 only for DPI-Teleconnect's Embedded Base and Excess DS1 and DS3 loops during the Transition Period:

2.1.4.5.1 DS1 Loops at any location within the service area of a wire center containing 60,000 or more Business Lines and four (4) or more fiber-based collocators.

2.1.4.5.2 DS3 Loops at any location within the service area of a wire center containing 38,000 or more Business Lines and four (4) or more fiber-based collocators.

2.1.4.6 A list of wire centers meeting the criteria set forth in Sections 2.1.4.5.1 and 2.1.4.5.2 above as of March 10, 2005, as approved by the Mississippi Public Service Commission in Docket No. 2005-AD-139, is available on BellSouth's Master List of Unimpaired Wire Centers as Approved by State Commissions in its Region (Master List of Unimpaired Wire Centers), which is located on BellSouth's Interconnection Services Web site.

2.1.4.7 Notwithstanding the Effective Date of this Agreement, during the Transition Period, the rates for DPI-Teleconnect's Embedded Base of DS1 and DS3 Loops and DPI-Teleconnect's Excess DS1 and DS3 Loops described in this Section 2.1.4 shall be equal to the higher of:

- 2.1.4.7.1 115% of the rate paid for the element on June 15, 2004; or
- 2.1.4.7.2 115% of a new rate the Commission establishes, if any, between June 16, 2004 and March 11, 2005.
- 2.1.4.7.3 These rates shall be as set forth in Exhibit A to Attachment 2 of the Agreement and this Section 2.1.4.7.
- 2.1.4.8 The Transition Period shall apply only to (1) DPI-Teleconnect's Embedded Base and (2) DPI-Teleconnect's Excess DS1 and DS3 Loops. DPI-Teleconnect shall not add new DS1 or DS3 loops as described in this Section 2.1.4 pursuant to this Agreement, except pursuant to the self-certification process as set forth in Section 1.5 of this Attachment and as set forth in Section 2.1.4.12 below.
- 2.1.4.9 Once a wire center exceeds both of the thresholds set forth in Section 2.1.4.5.1 above, no future DS1 Loop unbundling will be required in that wire center.
- 2.1.4.10 Once a wire center exceeds both of the thresholds set forth in Section 2.1.4.5.2 above, no future DS3 Loop unbundling will be required in that wire center.
- 2.1.4.11 No later than December 9, 2005 DPI-Teleconnect shall submit spreadsheet(s) identifying all of the Embedded Base of circuits and Excess DS1 and DS3 Loops to be either disconnected or converted to other BellSouth services pursuant to Section 1.3 above. The Parties shall negotiate a project schedule for the Conversion of the Embedded Base and Excess DS1 and DS3 Loops.
- 2.1.4.11.1 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 2.1.4.11 above for all of its Embedded Base and Excess DS1 and DS3 Loops prior to December 9, 2005, BellSouth will identify DPI-Teleconnect's remaining Embedded Base and Excess DS1 and DS3 Loops, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth pursuant to this Section 2.1.4.11.1 shall be subject to all applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
- 2.1.4.11.2 For Embedded Base circuits and Excess DS1 and DS3 Loops converted pursuant to Section 2.1.4.11 above or transitioned pursuant to Section 2.1.4.11.1 above, the applicable recurring tariff charge shall apply to each circuit as of the earlier of the date each circuit is converted or transitioned, as applicable, or March 11, 2006.
- 2.1.4.12 Modifications and Updates to the Wire Center List and Subsequent Transition Periods
- 2.1.4.12.1 In the event BellSouth identifies additional wire centers that meet the criteria set forth in Section 2.1.4.5 above, but that were not included in the Initial Wire Center

List, BellSouth shall include such additional wire centers in a carrier notification letter (CNL). Each such list of additional wire centers shall be considered a “Subsequent Wire Center List”.

- 2.1.4.12.2 Effective ten (10) business days after the date of a BellSouth CNL providing a Subsequent Wire Center List, BellSouth shall not be required to unbundle DS1 and/or DS3 Loops, as applicable, in such additional wire center(s), except pursuant to the self-certification process as set forth in Section 1.5 of this Attachment.
- 2.1.4.12.3 For purposes of Section 2.1.4.12 above, BellSouth shall make available DS1 and DS3 Loops that were in service for DPI-Teleconnect in a wire center on the Subsequent Wire Center List as of the tenth (10th) business day after the date of BellSouth’s CNL identifying the Subsequent Wire Center List (Subsequent Embedded Base) until ninety (90) days after the tenth (10th) business day from the date of BellSouth’s CNL identifying the Subsequent Wire Center List (Subsequent Transition Period).
- 2.1.4.12.4 Subsequent disconnects or loss of End Users shall be removed from the Subsequent Embedded Base.
- 2.1.4.12.5 The rates that shall apply to the Subsequent Embedded Base during the Subsequent Transition Period shall equal the rate paid for that element at the time of BellSouth’s posting of the CNL, plus 15%.
- 2.1.4.12.6 No later than forty (40) days from BellSouth’s CNL identifying the Subsequent Wire Center List, DPI-Teleconnect shall submit a spreadsheet(s) identifying the Subsequent Embedded Base of circuits to be disconnected or converted to other BellSouth services. The Parties shall negotiate a project schedule for the Conversion of the Subsequent Embedded Base.
- 2.1.4.12.6.1 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 2.1.4.12.6 above for all of its Subsequent Embedded Base within forty (40) days after the date of BellSouth’s CNL identifying the Subsequent Wire Center List, BellSouth will identify DPI-Teleconnect’s remaining Subsequent Embedded Base, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth shall be subject to the applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth’s tariffs.
- 2.1.4.12.6.2 For Subsequent Embedded Base circuits converted pursuant to Section 2.1.4.12.6 above or transitioned pursuant to Section 2.1.4.12.6.1 above, the applicable recurring tariff charges shall apply as of the earlier of the date each circuit is converted or transitioned, as applicable, or the first day after the end of the Subsequent Transition Period.

2.2 Unbundled Digital Loops

- 2.2.1 BellSouth will offer UDLs. UDLs are service specific, will be designed, will be provisioned with test points (where appropriate), and will come standard with OC and a DLR. The various UDLs are intended to support a specific digital transmission scheme or service.
- 2.2.2 BellSouth shall make available the following UDLs, subject to restrictions set forth herein:
- 2.2.2.1 2-wire Unbundled ISDN Digital Loop;
- 2.2.2.2 2-wire Unbundled ADSL Compatible Loop;
- 2.2.2.3 2-wire Unbundled HDSL Compatible Loop;
- 2.2.2.4 4-wire Unbundled HDSL Compatible Loop;
- 2.2.2.5 4-wire Unbundled DS1 Digital Loop;
- 2.2.2.6 4-wire Unbundled Digital Loop/DS0 – 64 kbps, 56 kbps and below;
- 2.2.2.7 DS3 Loop; or
- 2.2.2.8 STS-1 Loop.
- 2.2.3 2-wire Unbundled ISDN Digital Loops. These will be provisioned according to industry standards for 2-Wire Basic Rate ISDN services and will come standard with a test point, OC, and a DLR. DPI-Teleconnect will be responsible for providing BellSouth with a Service Profile Identifier (SPID) associated with a particular ISDN-capable Loop and End User. With the SPID, BellSouth will be able to adequately test the circuit and ensure that it properly supports ISDN service.
- 2.2.4 2-wire ADSL-Compatible Loop. This is a designed Loop that is provisioned according to Revised Resistance Design (RRD) criteria and may be up to 18,000 feet long and may have up to 6,000 feet of bridged tap (inclusive of Loop length). The Loop is a 2-wire circuit and will come standard with a test point, OC, and a DLR.
- 2.2.5 2-wire or 4-wire HDSL-Compatible Loop. This is a designed Loop that meets Carrier Serving Area (CSA) specifications, may be up to 12,000 feet long and may have up to 2,500 feet of bridged tap (inclusive of Loop length). It may be a 2-wire or 4-wire circuit and will come standard with a test point, OC, and a DLR.

- 2.2.6 4-wire Unbundled DS1 Digital Loop.
- 2.2.6.1 This is a designed 4-wire Loop that is provisioned according to industry standards for DS1 or Primary Rate ISDN services and will come standard with a test point, OC, and a DLR. A DS1 Loop may be provisioned over a variety of loop transmission technologies including copper, HDSL-based technology or fiber optic transport systems. It will include a 4-wire DS1 Network Interface at the End User's location. For purposes of this Agreement, including the transition of DS1 and DS3 Loops described in Section 2.1.4 above, DS1 Loops include 2-wire and 4-wire copper Loops capable of providing high-bit rate digital subscriber line services, such as 2-wire and 4-wire HDSL Compatible Loops.
- 2.2.6.2 BellSouth shall not provide more than ten (10) unbundled DS1 Loops to DPI-Teleconnect at any single building in which DS1 Loops are available as unbundled Loops.
- 2.2.7 4-wire Unbundled Digital/DS0 Loop. These are designed 4-wire Loops that may be configured as sixty-four (64)kbps, fifty-six (56)kbps, nineteen (19)kbps, and other sub-rate speeds associated with digital data services and will come standard with a test point, OC, and a DLR.
- 2.2.8 DS3 Loop. DS3 Loop is a two-point digital transmission path which provides for simultaneous two-way transmission of serial, bipolar, return-to-zero isochronous digital electrical signals at a transmission rate of forty-four point seven thirty-six (44.736) megabits per second (Mbps) that is dedicated to the use of the ordering CLEC in its provisioning of local exchange and associated exchange access services. It may provide transport for twenty-eight (28) DS1 channels, each of which provides the digital equivalent of twenty-four (24) analog voice grade channels. The interface to unbundled dedicated DS3 transport is a metallic-based electrical interface.
- 2.2.9 STS-1 Loop. STS-1 Loop is a high-capacity digital transmission path with SONET VT1.5 mapping that is dedicated for the use of the ordering customer for the purpose of provisioning local exchange and associated exchange access services. It is a two-point digital transmission path which provides for simultaneous two-way transmission of serial bipolar return-to-zero synchronous digital electrical signals at a transmission rate of fifty-one point eighty-four (51.84) Mbps. It may provide transport for twenty-eight (28) DS1 channels, each of which provides the digital equivalent of twenty-four (24) analog voice grade channels. The interface to unbundled dedicated STS-1 transport is a metallic-based electrical interface.
- 2.2.10 Both DS3 Loop and STS-1 Loop require a SI in order to ascertain availability.

- 2.2.11 DS3 services come with a test point and a DLR. Mileage is airline miles, rounded up and a minimum of one (1) mile applies. BellSouth's TR73501 LightGate[®] Service Interface and Performance Specifications, Issue D, June 1995 applies to DS3 services.
- 2.2.12 DPI-Teleconnect may obtain a maximum of a single Unbundled DS3 Loop to any single building in which DS3 Loops are available as Unbundled Loops.
- 2.3 Unbundled Loop Modifications (Line Conditioning)
- 2.3.1 Line Conditioning is defined as routine network modification that BellSouth regularly undertakes to provide xDSL services to its own customers. This may include the removal of any device, from a copper Loop or copper Subloop that may diminish the capability of the Loop or Subloop to deliver high-speed switched wireline telecommunications capability, including xDSL service. Such devices include, load coils, excessive bridged taps, low pass filters, and range extenders. Excessive bridged taps are bridged taps that serves no network design purpose and that are beyond the limits set according to industry standards and/or the BellSouth's TR73600 Unbundled Local Loop Technical Specification.
- 2.3.2 BellSouth will remove load coils only on copper Loops and Subloops that are less than eighteen thousand (18,000) feet in length.
- 2.3.3 For any copper loop being ordered by DPI-Teleconnect which has over six thousand (6,000) feet of combined bridged tap will be modified, upon request from DPI-Teleconnect, so that the loop will have a maximum of six thousand (6,000) feet of bridged tap. This modification will be performed at no additional charge to DPI-Teleconnect. Loop conditioning orders that require the removal of bridged tap that serves no network design purpose on a copper Loop that will result in a combined total of bridged tap between two thousand five hundred (2,500) and six thousand (6,000) feet will be performed at the rates set forth in Exhibit A to Attachment 2 of the Agreement.
- 2.3.4 DPI-Teleconnect may request removal of any unnecessary and non-excessive bridged tap (bridged tap between zero (0) and two thousand five hundred (2,500) feet which serves no network design purpose), at rates pursuant to BellSouth's SC Process as mutually agreed to by the Parties.
- 2.3.5 Rates for ULM are as set forth in Exhibit A to Attachment 2 of the Agreement.
- 2.3.6 BellSouth will not modify a Loop in such a way that it no longer meets the technical parameters of the original Loop type (e.g., voice grade, ADSL, etc.) being ordered.

- 2.3.7 If DPI-Teleconnect requests ULM on a reserved facility for a new Loop order, BellSouth may perform a pair change and provision a different Loop facility in lieu of the reserved facility with ULM if feasible. The Loop provisioned will meet or exceed specifications of the requested Loop facility as modified. DPI-Teleconnect will not be charged for ULM if a different Loop is provisioned. For Loops that require a DLR or its equivalent, BellSouth will provide LMU detail of the Loop provisioned.
- 2.3.8 DPI-Teleconnect shall request Loop make up information pursuant to this Attachment prior to submitting a service inquiry and/or a LSR for the Loop type that DPI-Teleconnect desires BellSouth to condition.
- 2.3.9 When requesting ULM for a Loop that BellSouth has previously provisioned for DPI-Teleconnect, DPI-Teleconnect will submit a SI to BellSouth. If a spare Loop facility that meets the Loop modification specifications requested by DPI-Teleconnect is available at the location for which the ULM was requested, DPI-Teleconnect will have the option to change the Loop facility to the qualifying spare facility rather than to provide ULM. In the event that BellSouth changes the Loop facility in lieu of providing ULM, DPI-Teleconnect will not be charged for ULM but will only be charged the service order charges for submitting an order.
- 2.4 Dark Fiber Loop
- 2.4.1 Dark Fiber Loop is an unused optical transmission facility, without attached signal regeneration, multiplexing, aggregation or other electronics, from the demarcation point at an End User's premises to the End User's serving wire center. Dark Fiber Loops may be strands of optical fiber existing in aerial or underground structure. BellSouth will not provide line terminating elements, regeneration or other electronics necessary for DPI-Teleconnect to utilize Dark Fiber Loops.
- 2.4.2 Transition for Dark Fiber Loop
- 2.4.2.1 For purposes of this Section 2.4.2, the Transition Period for Dark Fiber Loops is the eighteen (18) month period beginning March 11, 2005 and ending September 10, 2006.
- 2.4.2.2 For purposes of this Section 2.4.2, Embedded Base means Dark Fiber Loops that were in service for DPI-Teleconnect as of March 10, 2005. Subsequent disconnects or loss of End Users shall be removed from the Embedded Base.
- 2.4.3 During the Transition Period only, BellSouth shall make available for the Embedded Base Dark Fiber Loops for DPI-Teleconnect at the terms and conditions set forth in this Attachment.

- 2.4.4 Notwithstanding the Effective Date of this Agreement, the rates for DPI-Teleconnect's Embedded Base of Dark Fiber Loops during the Transition Period shall be equal to the higher of:
- 2.4.4.1 115% of the rate paid for the element on June 15, 2004; or
- 2.4.4.2 115% of a new rate the Commission established, if any, between June 16, 2004 and March 11, 2005.
- 2.4.4.3 These rates shall be as set forth in Exhibit A to Attachment 2 of the Agreement and this Section 2.4.4.
- 2.4.5 The Transition Period shall apply only to DPI-Teleconnect's Embedded Base and DPI-Teleconnect shall not add new Dark Fiber Loops pursuant to this Agreement.
- 2.4.6 Effective September 11, 2006, Dark Fiber Loops will no longer be made available pursuant to this Agreement.
- 2.4.7 No later than June 10, 2006 DPI-Teleconnect shall submit spreadsheet(s) identifying all of the Embedded Base of circuits to be either disconnected or converted to other BellSouth services as Conversions pursuant to Section 1.3 above. The Parties shall negotiate a project schedule for the Conversion of the Embedded Base.
- 2.4.7.1 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 2.4.7 above for all of its Embedded Base prior to June 10, 2006, BellSouth will identify DPI-Teleconnect's remaining Embedded Base, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth pursuant to this Section 2.4.7.1 shall be subject to all applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
- 2.4.7.2 For Embedded Base circuits converted pursuant to Section 2.4.7 above or transitioned pursuant to Section 2.4.7.1 above, the applicable recurring tariff charge shall apply to each circuit as of the earlier of the date each circuit is converted or transitioned, as applicable, or September 11, 2006.

3 Line Splitting

- 3.1 Line splitting shall mean that a provider of data services (a Data LEC) and a provider of voice services (a Voice CLEC) to deliver voice and data service to End Users over the same Loop. The Voice CLEC and Data LEC may be the same or different carriers.

- 3.2 Line Splitting – UNE-L. In the event DPI-Teleconnect provides its own switching or obtains switching from a third party, DPI-Teleconnect may engage in line splitting arrangements with another CLEC using a splitter, provided by DPI-Teleconnect, in a Collocation Space at the central office where the loop terminates into a distribution frame or its equivalent.
- 3.3 Provisioning Line Splitting and Splitter Space – UNE-L
- 3.3.1 The Voice CLEC provides the splitter when providing Line Splitting with UNE-L. When DPI-Teleconnect owns the splitter, Line Splitting requires the following: a loop from NID at the End User’s location to the serving wire center and terminating into a distribution frame or its equivalent.
- 3.4 CLEC Provided Splitter – Line Splitting – UNE-L
- 3.4.1 To order High Frequency Spectrum on a particular Loop, DPI-Teleconnect must have a DSLAM collocated in the central office that serves the End User of such Loop.
- 3.4.2 DPI-Teleconnect may purchase, install and maintain central office POTS splitters in its collocation arrangements. DPI-Teleconnect may use such splitters for access to its customers and to provide digital line subscriber services to its customers using the High Frequency Spectrum. Existing Collocation rules and procedures and the terms and conditions relating to Collocation set forth in Attachment 4-Central Office shall apply.
- 3.4.3 Any splitters installed by DPI-Teleconnect in its collocation arrangement shall comply with ANSI T1.413, Annex E, or any future ANSI splitter Standards. DPI-Teleconnect may install any splitters that BellSouth deploys or permits to be deployed for itself or any BellSouth affiliate.
- 3.5 Maintenance – Line Splitting – UNE-L
- 3.5.1 BellSouth will be responsible for repairing voice troubles and the troubles with the physical loop between the NID at the End User’s premises and the termination point.
- 3.5.2 DPI-Teleconnect shall indemnify, defend and hold harmless BellSouth from and against any claims, losses, actions, causes of action, suits, demands, damages, injury, and costs including reasonable attorney fees, which arise out of actions related to the other service provider, except to the extent caused by BellSouth’s gross negligence or willful misconduct.

4 Unbundled Network Element Combinations

4.1 EELs Audits

4.1.1 BellSouth may, on an annual basis, audit DPI-Teleconnect's records in order to verify compliance with the qualifying service eligibility criteria. The audit shall be conducted by a third party independent auditor, and the audit must be performed in accordance with the standards established by the American Institute for Certified Public Accountants (AICPA). To the extent the independent auditor's report concludes that DPI-Teleconnect failed to comply with the service eligibility criteria, DPI-Teleconnect must true-up any difference in payments, convert all noncompliant circuits to the appropriate service, and make the correct payments on a going-forward basis. In the event the auditor's report concludes that DPI-Teleconnect did not comply in any material respect with the service eligibility criteria, DPI-Teleconnect shall reimburse BellSouth for the cost of the independent auditor. To the extent the auditor's report concludes that DPI-Teleconnect did comply in all material respects with the service eligibility criteria, BellSouth will reimburse DPI-Teleconnect for its reasonable and demonstrable costs associated with the audit. DPI-Teleconnect will maintain appropriate documentation to support its certifications.

4.1.2 In the event DPI-Teleconnect converts special access services to UNEs, DPI-Teleconnect shall be subject to the termination liability provisions in the applicable special access tariffs, if any.

5 Dedicated Transport and Dark Fiber Transport

5.1 Dedicated Transport. Dedicated Transport is defined as BellSouth's transmission facilities between wire centers or switches owned by BellSouth, or between wire centers or switches owned by BellSouth and switches owned by DPI-Teleconnect, including but not limited to DS1, DS3 and OCn level services, as well as dark fiber, dedicated to DPI-Teleconnect. BellSouth shall not be required to provide access to OCn level Dedicated Transport under any circumstances pursuant to this Agreement. In addition, except as set forth in Section 5.2 below, BellSouth shall not be required to provide to DPI-Teleconnect unbundled access to interoffice transmission facilities that do not connect a pair of wire centers or switches owned by BellSouth ("Entrance Facilities").

5.2 Transition for DS1 and DS3 Dedicated Transport Including DS1 and DS3 Entrance Facilities

5.2.1 For purposes of this Section 5.2, the Transition Period for the Embedded Base of DS1 and DS3 Dedicated Transport, Embedded Base Entrance Facilities and for Excess DS1 and DS3 Dedicated Transport, is the twelve (12) month period beginning March 11, 2005 and ending March 10, 2006.

- 5.2.2 For purposes of this Section 5.2, Embedded Base means DS1 and DS3 Dedicated Transport that were in service for DPI-Teleconnect as of March 10, 2005 in those wire centers that, as of such date, met the criteria set forth in Sections 5.2.6.1 or 5.2.6.2 below. Subsequent disconnects or loss of End Users shall be removed from the Embedded Base.
- 5.2.3 For purposes of this Section 5.2, Embedded Base Entrance Facilities means Entrance Facilities that were in service for DPI-Teleconnect as of March 10, 2005. Subsequent disconnects or loss of customers shall be removed from the Embedded Base.
- 5.2.4 For purposes of this Section 5.2, Excess DS1 and DS3 Dedicated Transport means those DPI-Teleconnect DS1 and DS3 Dedicated Transport facilities in service as of March 10, 2005, in excess of the caps set forth in Section 5.2.6.1 and 5.2.6.2 below. Subsequent disconnects and loss of End Users shall be removed from Excess DS1 and DS3 Loops.
- 5.2.5 For purposes of this Section 5.2, a Business Line is as defined in 47 C.F.R. § 51.5.
- 5.2.6 Notwithstanding anything to the contrary in this Agreement, BellSouth shall make available Dedicated Transport as described in this Section 5.2 only for DPI-Teleconnect's Embedded Base and Excess Dedicated Transport during the Transition Period:
- 5.2.6.1 DS1 Dedicated Transport where both wire centers at the end points of the route contain 38,000 or more Business Lines or four (4) or more fiber-based collocators.
- 5.2.6.2 DS3 Dedicated Transport where both wire centers at the end points of the route contain 24,000 or more Business Lines or three (3) or more fiber-based collocators.
- 5.2.7 A list of wire centers meeting the criteria set forth in Sections 5.2.6.1 or 5.2.6.2 above as of March 10, 2005, as approved by the Mississippi Public Service Commission in Docket No. 2005-AD-139, is available on BellSouth's Master List of Unimpaired Wire Centers as Approved by State Commissions in its Region (Master List of Unimpaired Wire Centers), which is located on BellSouth's Interconnection Services Web site.
- 5.2.8 Notwithstanding anything to the contrary in this Agreement, BellSouth shall make available Entrance Facilities only for Entrance Facilities and only during the Transition Period.
- 5.2.9 Notwithstanding the Effective Date of this Agreement, during the Transition Period, the rates for DPI-Teleconnect's Embedded Base of DS1 and DS3 Dedicated Transport, DPI-Teleconnect's Embedded Base Entrance Facilities and

for DPI-Teleconnect's Excess DS1 and DS3 Dedicated Transport, as described in this Section 5.2, shall be as set forth in Exhibit the equal to the higher of:

- 5.2.9.1 115% of the rate paid for the element on June 15, 2004; or
- 5.2.9.2 115% of a new rate the Commission establishes, if any, between June 16, 2004 and March 11, 2005.
- 5.2.9.3 These rates shall be as set forth in Exhibit A to Attachment 2 of the Agreement and this Section 5.2.9.
- 5.2.10 The Transition Period shall apply only to (1) DPI-Teleconnect's Embedded Base and Embedded Base Entrance Facilities; and (2) DPI-Teleconnect's Excess DS1 and DS3 Dedicated Transport. DPI-Teleconnect shall not add new Entrance Facilities pursuant to this Agreement. Further, DPI-Teleconnect shall not add new DS1 or DS3 Dedicated Transport as described in this Section 5.2 pursuant to this Agreement, except pursuant to the self-certification process as set forth in Section 1.5 above of and as set forth in Section 5.2.15 below.
- 5.2.11 Once a wire center exceeds either of the thresholds set forth in Section 5.2.6.1 above, no future DS1 Dedicated Transport unbundling will be required in that wire center.
- 5.2.12 Once a wire center exceeds either of the thresholds set forth in Section 5.2.6.2 above, no future DS3 Dedicated Transport will be required in that wire center.
- 5.2.13 No later than December 9, 2005 DPI-Teleconnect shall submit spreadsheet(s) identifying all of the Embedded Base of circuits, Embedded Base Entrance Facilities, and Excess DS1 and DS3 Dedicated Transport to be either disconnected or converted to other BellSouth services pursuant to Section 1.3 above. The Parties shall negotiate a project schedule for the Conversion of the Embedded Base, Embedded Base Entrance Facilities and Excess DS1 and DS3 Dedicated Transport.
- 5.2.13.1 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 5.2.13 above for all of its Embedded Base, Embedded Base Entrance Facilities and Excess DS1 and DS3 Dedicated Transport prior to December 9, 2005, BellSouth will identify DPI-Teleconnect's remaining Embedded Base, Embedded Base Entrance Facilities and Excess DS1 and DS3 Dedicated Transport, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth pursuant to this Section 5.2.13.1 shall be subject to all applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.

- 5.2.14 For Embedded Base circuits, Embedded Base Entrance Facilities and Excess DS1 and DS3 Dedicated Transport converted pursuant to Section 5.2.13 or transitioned pursuant to Section 5.2.13.1 above, the applicable recurring tariff charge shall apply to each circuit as of the earlier of the date each circuit is converted or transitioned, as applicable, or March 11, 2006.
- 5.2.15 Modifications and Updates to the Wire Center List and Subsequent Transition Periods
- 5.2.15.1 In the event BellSouth identifies additional wire centers that meet the criteria set forth in Sections 5.2.6.1 or 5.2.6.2 above, but that were not included in the Initial Wire Center List, BellSouth shall include such additional wire centers in CNL. Each such list of additional wire centers shall be considered a Subsequent Wire Center List.
- 5.2.15.2 Effective ten (10) business days after the date of a BellSouth CNL providing a Subsequent Wire Center List, BellSouth shall not be required to provide DS1 and DS3 Dedicated Transport, as applicable, in such additional wire center(s), except pursuant to the self-certification process as set forth in Section 1.5 above.
- 5.2.15.3 For purposes of Section 5.2.15, BellSouth shall make available DS1 and DS3 Dedicated Transport that was in service for DPI-Teleconnect in a wire center on the Subsequent Wire Center List as of the tenth (10th) business day after the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Embedded Base) until ninety (90) days after the tenth (10th) business day from the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Transition Period).
- 5.2.15.4 Subsequent disconnects or loss of End Users shall be removed from the Subsequent Embedded Base.
- 5.2.15.5 The rates that shall apply to the Subsequent Embedded Base during the Subsequent Transition Period shall equal the rate paid for that element at the time of BellSouth's posting of the CNL, plus 15%.
- 5.2.15.6 No later than forty (40) days from BellSouth's CNL identifying the Subsequent Wire Center List DPI-Teleconnect shall submit a spreadsheet(s) identifying the Subsequent Embedded Base of circuits to be disconnected or converted to other BellSouth services. The Parties shall negotiate a project schedule for the Conversion of the Subsequent Embedded Base.
- 5.2.15.6.1 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 5.2.15.6 above for all of its Subsequent Embedded Base within forty (40) days after the date of BellSouth's CNL identifying the Subsequent Wire Center List, BellSouth will identify DPI-Teleconnect's remaining Subsequent Embedded Base, if any, and

will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth shall be subject to the applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.

- 5.2.15.7 For Subsequent Embedded Base circuits converted pursuant to Section 5.2.15.6 above or transitioned pursuant to Section 5.2.15.6.1 above, the applicable recurring tariff charges shall apply as of the earlier of the date each circuit is converted or transitioned, as applicable, or the first day after the end of the Subsequent Transition Period.
- 5.2.16 BellSouth shall offer Dedicated Transport:
- 5.2.16.1 As capacity on a shared facility; and
- 5.2.16.2 As a circuit (i.e., DS0, DS1, DS3, STS-1) dedicated to DPI-Teleconnect.
- 5.2.17 Dedicated Transport may be provided over facilities such as optical fiber, copper twisted pair, and coaxial cable, and shall include transmission equipment such as line terminating equipment, amplifiers, and regenerators.
- 5.2.18 DPI-Teleconnect may obtain a maximum of twelve (12) unbundled DS3 Dedicated Transport circuits on each route where DS3 Dedicated Transport is available as a Network Element, and a maximum of ten (10) unbundled DS1 Dedicated Transport circuits on each Route where there is no 251(c)(3) unbundling obligation for DS3 Dedicated Transport but for which impairment exists for DS1 Dedicated Transport. A route is defined as a transmission path between one of BellSouth's wire centers or switches and another of BellSouth's wire centers or switches. A route between two (2) points may pass through one or more intermediate wire centers or switches. Transmission paths between identical end points are the same "route", irrespective of whether they pass through the same intermediate wire centers or switches, if any.
- 5.3 Dark Fiber Transport. Dark Fiber Transport is defined as Dedicated Transport that consists of unactivated optical interoffice transmission facilities without attached signal regeneration, multiplexing, aggregation or other electronics. Except as set forth in Section 5.3.1 below, BellSouth shall not be required to provide access to Dark Fiber Transport Entrance Facilities pursuant to this Agreement.
- 5.3.1 Transition for Dark Fiber Transport and Dark Fiber Transport Entrance Facilities
- 5.3.1.1 For purposes of this Section 5.3.1, the Transition Period for the Embedded Base of Dark Fiber Transport is the eighteen (18) month period beginning March 11, 2005 and ending September 10, 2006.

- 5.3.1.2 For purposes of this Section 5.3.1, Embedded Base means Dark Fiber Transport that was in service for DPI-Teleconnect as of March 10, 2005 in those wire centers that, as of such date, met the criteria set forth in Section 5.3.1.4.1. Subsequent disconnects or loss of End Users shall be removed from the Embedded Base.
- 5.3.1.3 For purposes of this Section, a Business Line is as defined in 47 C.F.R. § 51.5.
- 5.3.1.4 Notwithstanding anything to the contrary in this Agreement, BellSouth shall make available Dark Fiber Transport as described in this Section 5.3.1 only for DPI-Teleconnect's Embedded Base during the Transition Period:
- 5.3.1.4.1 Dark Fiber Transport where both wire centers at the end points of the route contain twenty-four thousand (24,000) or more Business Lines or three (3) or more fiber-based collocators.
- 5.3.1.5 A list of wire center meeting the criteria set forth in Section 5.3.1.4.1 above as of March 10, 2005, as approved by the Mississippi Public Service Commission in Docket No. 2005-AD-139, is available on BellSouth's Master List of Unimpaired Wire Centers as Approved by State Commissions in its Region (Master List of Unimpaired Wire Centers), which is located on BellSouth's Interconnection Services Web site.
- 5.3.1.6 Notwithstanding the Effective Date of this Agreement, during the Transition Period, the rates for DPI-Teleconnect's Embedded Base of Dark Fiber Transport and Dark Fiber Transport Entrance Facilities as described in Section 5.3.1.2 above shall be equal to the higher of :
- 5.3.1.6.1 115% of the rate paid for the element on June 15, 2004; or
- 5.3.1.6.2 115% of a new rate the Commission establishes, if any between June 16, 2004 and March 11, 2005,
- 5.3.1.6.3 These rates shall be as set forth in Exhibit A to the Agreement and this Section 5.3.1.6.
- 5.3.1.7 The Transition Period shall apply only to DPI-Teleconnect's Embedded Base of Dark Fiber Transport and Dark Fiber Entrance Facilities. DPI-Teleconnect shall not add new Dark Fiber Transport as described in this Section 5.3.1 except pursuant to the self-certification process as set forth in Section 1.5 of this Attachment and as set forth in Section 5.3.1.11 below. Further, DPI-Teleconnect shall not add new Dark Fiber Entrance Facilities pursuant to this Agreement.
- 5.3.1.8 Once a wire center exceeds either of the thresholds set forth in Section 5.3.1.4.1 above, no future Dark Fiber Transport unbundling will be required in that wire center.

- 5.3.1.9 No later than June 10, 2006 DPI-Teleconnect shall submit spreadsheet(s) identifying all of the Embedded Base of Dark Fiber Transport and Dark Fiber Entrance Facilities to be either disconnected or converted to other BellSouth services as Conversions pursuant to Section 1.3 above. The Parties shall negotiate a project schedule for the Conversion of the Embedded Base.
- 5.3.1.9.1 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 5.3.1.9 above for all of its Embedded Base prior to June 10, 2006, BellSouth will identify DPI-Teleconnect's remaining Embedded Base, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth pursuant to this Section 5.3.1.9.1 shall be subject to all applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
- 5.3.1.10 For Embedded Base circuits converted pursuant to Section 5.3.1.9 above or transitioned pursuant to Section 5.3.1.9.1 above, the applicable recurring tariff charge shall apply to each circuit as of the earlier of the date each circuit is converted or transitioned, as applicable, or September 11, 2006.
- 5.3.1.11 Modifications and Updates to the Wire Center List and Subsequent Transition Periods
- 5.3.1.11.1 In the event BellSouth identifies additional wire centers that meet the criteria set forth in Section 5.3.1.4.1 above, but that were not included in the Initial Wire Center List, BellSouth shall include such additional wire centers in a CNL. Each such list of additional wire centers shall be considered a "Subsequent Wire Center List".
- 5.3.1.11.2 Effective ten (10) business days after the date of a BellSouth CNL providing a Subsequent Wire Center List, BellSouth shall not be required to provide unbundled access to Dark Fiber Transport, as applicable, in such additional wire center(s), except pursuant to the self-certification process as set forth in Section 1.5 above.
- 5.3.1.11.3 For purposes of Section 5.3.1.11, BellSouth shall make available Dark Fiber Transport that were in service for DPI-Teleconnect in a wire center on the Subsequent Wire Center List as of the tenth (10th) business day after the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Embedded Base) until ninety (90) days after the tenth (10th) business day from the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Transition Period).
- 5.3.1.11.4 Subsequent disconnects or loss of End Users shall be removed from the Subsequent Embedded Base.

- 5.3.1.11.5 The rates that shall apply to the Subsequent Embedded Base during the Subsequent Transition Period shall equal the rate paid for that element at the time of BellSouth's posting of the CNL, plus 15%.
- 5.3.1.11.6 No later than forty (40) days from BellSouth's CNL identifying the Subsequent Wire Center List DPI-Teleconnect shall submit a spreadsheet(s) identifying the Subsequent Embedded Base of circuits to be disconnected or converted to other BellSouth services. The Parties shall negotiate a project schedule for the Conversion of the Subsequent Embedded Base.
- 5.3.1.11.6.1 If DPI-Teleconnect fails to submit the spreadsheet(s) specified in Section 5.3.1.11.6 above for all of its Subsequent Embedded Base within forty (40) days after the date of BellSouth's CNL identifying the Subsequent Wire Center List, BellSouth will identify DPI-Teleconnect's remaining Subsequent Embedded Base, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth shall be subject to the applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
- 5.3.1.11.7 For Subsequent Embedded Base circuits converted pursuant to Section 5.3.1.11.6 above or transitioned pursuant to Section 5.3.1.11.6.1 above, the applicable recurring tariff charges shall apply as of the earlier of the date each circuit is converted or transitioned, as applicable, or the first day after the end of the Subsequent Transition Period.

6 Subloop Elements

- 6.1 Where facilities permit, BellSouth shall offer access to its Unbundled Subloop (USL) elements as specified herein.
- 6.2 Unbundled Subloop Distribution (USLD)
- 6.2.1 The USLD facility is a dedicated transmission facility that BellSouth provides from an End User's point of demarcation to a BellSouth cross-connect device. The BellSouth cross-connect device may be located within a remote terminal (RT) or a stand-alone cross-box in the field or in the equipment room of a building. The USLD media is a copper twisted pair that can be provisioned as a 2-wire or 4-wire facility. BellSouth will make available the following subloop distribution offerings where facilities exist:

USLD – Voice Grade (USLD-VG)
Unbundled Copper Subloop (UCSL)
USLD – Intrabuilding Network Cable (USLD-INC (aka riser cable))

- 6.2.2 USLD-VG is a copper subloop facility from the cross-box in the field up to and including the point of demarcation at the End User's premises and may have load coils.
- 6.2.3 UCSL is a copper facility eighteen thousand (18,000) feet or less in length provided from the cross-box in the field up to and including the End User's point of demarcation. If available, this facility will not have any intervening equipment such as load coils between the End User and the cross-box.
- 6.2.4 If DPI-Teleconnect requests a UCSL and it is not available, DPI-Teleconnect may request the copper Subloop facility be modified pursuant to the ULM process to remove load coils and/or excessive bridged taps. If load coils and/or excessive bridged taps are removed, the facility will be classified as a UCSL.
- 6.2.5 USLD-INC is the distribution facility owned or controlled by BellSouth inside a building or between buildings on the same property that is not separated by a public street or road. USLD-INC includes the facility from the cross-connect device in the building equipment room up to and including the point of demarcation at the End User's premises.
- 6.2.6 Upon request for USLD-INC from DPI-Teleconnect, BellSouth will install a cross-connect panel in the building equipment room for the purpose of accessing USLD-INC pairs from a building equipment room. The cross-connect panel will function as a single point of interconnection (SPOI) for USLD-INC and will be accessible by multiple carriers as space permits. BellSouth will place cross-connect blocks in twenty five (25) pair increments for DPI-Teleconnect's use on this cross-connect panel. DPI-Teleconnect will be responsible for connecting its facilities to the twenty five (25) pair cross-connect block(s).
- 6.2.7 For access to Voice Grade USLD and UCSL, DPI-Teleconnect shall install a cable to the BellSouth cross-box pursuant to the terms and conditions for physical collocation for remote sites set forth in Attachment 4. This cable would be connected by a BellSouth technician within the BellSouth cross-box during the set-up process. DPI-Teleconnect's cable pairs can then be connected to BellSouth's USL within the BellSouth cross-box by the BellSouth technician.
- 6.2.8 Through the SI process, BellSouth will determine whether access to USLs at the location requested by DPI-Teleconnect is technically feasible and whether sufficient capacity exists in the cross-box. If existing capacity is sufficient to meet DPI-Teleconnect's request, then BellSouth will perform the site set-up as described in the CLEC Information Package, located at BellSouth's Interconnection Web site:
www.interconnection.bellsouth.com/products/html/unes.html.

- 6.2.9 The site set-up must be completed before DPI-Teleconnect can order Subloop pairs. For the site set-up in a BellSouth cross-connect box in the field, BellSouth will perform the necessary work to splice DPI-Teleconnect's cable into the cross-connect box. For the site set-up inside a building equipment room, BellSouth will perform the necessary work to install the cross-connect panel and the connecting block(s) that will be used to provide access to the requested USLs.
- 6.2.10 Once the site set-up is complete, DPI-Teleconnect will request Subloop pairs through submission of a LSR form to the LCSC. OC is required with USL pair provisioning when DPI-Teleconnect requests reuse of an existing facility, and the OC charge shall be billed in addition to the USL pair rate. For expedite requests by DPI-Teleconnect for Subloop pairs, expedite charges will apply for intervals less than five (5) days.
- 6.2.11 SLs will be provided in accordance with BellSouth's TR73600 Unbundled Local Loop Technical Specifications.
- 6.3 Unbundled Network Terminating Wire (UNTW)
- 6.3.1 UNTW is unshielded twisted copper wiring that is used to extend circuits from an intra-building network cable terminal or from a building entrance terminal to an individual End User's point of demarcation. It is the final portion of the Loop that in multi-subscriber configurations represents the point at which the network branches out to serve individual subscribers.
- 6.3.2 This element will be provided in MDUs and/or Multi-Tenants Units (MTUs) where either Party owns wiring all the way to the End User's premises. Neither Party will provide this element in locations where the property owner provides its own wiring to the End User's premises, where a third party owns the wiring to the End User's premises.
- 6.3.3 Requirements
- 6.3.3.1 On a multi-unit premises, upon request of the other Party (Requesting Party), the Party owning the network terminating wire (Provisioning Party) will provide access to UNTW pairs on an Access Terminal that is suitable for use by multiple carriers at each Garden Terminal or Wiring Closet.
- 6.3.3.2 The Provisioning Party shall not be required to install new or additional NTW beyond existing NTW to provision the services of the Requesting Party.
- 6.3.3.3 In existing MDUs and/or MTUs in which BellSouth does not own or control wiring (INC/NTW) to the End Users premises, and DPI-Teleconnect does own or control such wiring, DPI-Teleconnect will install UNTW Access Terminals for BellSouth under the same terms and conditions as BellSouth provides UNTW Access Terminals to DPI-Teleconnect.

- 6.3.3.4 In situations in which BellSouth activates a UNTW pair, BellSouth will compensate DPI-Teleconnect for each pair activated commensurate to the price specified in DPI-Teleconnect's Agreement.
- 6.3.3.5 Upon receipt of the UNTW SI requesting access to the Provisioning Party's UNTW pairs at a multi-unit premises, representatives of both Parties will participate in a meeting at the site of the requested access. The purpose of the site visit will include discussion of the procedures for installation and location of the Access Terminals. By request of the Requesting Party, an Access Terminal will be installed either adjacent to each of the Provisioning Party's Garden Terminal or inside each Wiring Closet. The Requesting Party will deliver and connect its central office facilities to the UNTW pairs within the Access Terminal. The Requesting Party may access any available pair on an Access Terminal. A pair is available when a pair is not being utilized to provide service or where the End User has requested a change in its local service provider to the Requesting Party. Prior to connecting the Requesting Party's service on a pair previously used by the Provisioning Party, the Requesting Party is responsible for ensuring the End User is no longer using the Provisioning Party's service or another CLEC's service before accessing UNTW pairs.
- 6.3.3.6 Access Terminal installation intervals will be established on an individual case basis.
- 6.3.3.7 The Requesting Party is responsible for obtaining the property owner's permission for the Provisioning Party to install an Access Terminal(s) on behalf of the Requesting Party. The submission of the SI by the Requesting Party will serve as certification by the Requesting Party that such permission has been obtained. If the property owner objects to Access Terminal installations that are in progress or within thirty (30) days after completion and demands removal of Access Terminals, the Requesting Party will be responsible for costs associated with removing Access Terminals and restoring the property to its original state prior to Access Terminals being installed.
- 6.3.3.8 The Requesting Party shall indemnify and hold harmless the Provisioning Party against any claims of any kind that may arise out of the Requesting Party's failure to obtain the property owner's permission. The Requesting Party will be billed for nonrecurring and recurring charges for accessing UNTW pairs at the time the Requesting Party activates the pair(s). The Requesting Party will notify the Provisioning Party within five (5) business days of activating UNTW pairs using the LSR form.
- 6.3.3.9 If a trouble exists on a UNTW pair, the Requesting Party may use an alternate spare pair that serves that End User if a spare pair is available. In such cases, the Requesting Party will re-terminate its existing jumper from the defective pair to the spare pair. Alternatively, the Requesting Party will isolate and report troubles in

the manner specified by the Provisioning Party. The Requesting Party must tag the UNTW pair that requires repair. If the Provisioning Party dispatches a technician on a reported trouble call and no UNTW trouble is found, the Provisioning Party will charge Requesting Party for time spent on the dispatch and testing the UNTW pair(s).

- 6.3.3.10 If the Requesting Party initiates the Access Terminal installation and the Requesting Party has not activated at least ten percent (10%) of the capacity of the Access Terminal installed pursuant to the Requesting Party's request for an Access Terminal within six (6) months of installation of the Access Terminal, the Provisioning Party will bill the Requesting Party a nonrecurring charge equal to the actual cost of provisioning the Access Terminal.
- 6.3.3.11 If the Provisioning Party determines that the Requesting Party is using the UNTW pairs without reporting the activation of the pairs, the Requesting Party will be billed for the use of that pair back to the date the End User began receiving service from the Requesting Party at that location. Upon request, the Requesting Party will provide copies of its billing record to substantiate such date. If the Requesting Party fails to provide such records, then the Provisioning Party will bill the Requesting Party back to the date of the Access Terminal installation.
