Re: Case No. 2010-00128

Dear Mr. Derouen,

Upon reviewing the application filed by Sharpsburg Water District in Case No. 2010-00128, we have discovered an error that should be corrected. At the first page, first paragraph, second sentence, the application reads "In conjunction with the rate **phase in plan Knox** requests to eliminate the \$5 monthly surcharge assessed to each of the approximately 150 customers receiving service through the 1996 and 2004 construction projects funded by Rural Development." This sentence should be amended as follows: In conjunction with the rate **increase Sharpsburg** requests to eliminate the \$5 monthly surcharge assessed to each of the approximately 150 customers receiving service through the 1996 and 2004 construction projects funded by Rural Development.

Sincerely,

Becky M. Ritchie

Becky M. Ritchie
Chairman
Sharpsburg Water District
