Re: Proposed Adjustment of the Wholesale Water Service Rates of the City of Irvine
Case No. 2010-00148

Dear Mr. Wuetcher,

Oh behalf of Irvine Municipal Utilities, Mr. Williams and I are requesting an extension to the deadline for the response to the information requested in Appendix B of the Order for the following reasons:

- Mr. Williams had previously scheduled a family vacation for the week of 14 through 18 June. His participation is vital for the preparation of exhibits.
- The Irvine Municipal Utilities commission has a regularly scheduled meeting 24 June. Mr. Williams would like to relay the information gained from the 1 June 2010 telephone call from you; and,
- Mr. Williams would like to present your suggestion of a preliminary discussion with the attorney or other representatives of the Estill County Water District commission to his board prior to incurring any additional costs of the rate study.

We propose to extend the deadline to 1 July 2010. We await your response. If you have any questions or concerns, please do not hesitate to call us. Mr. Williams will be out of the office Monday through Friday of the next week; however, he can be reached on his cellular phone at 606-567-5279. My phone number is listed below. Thank you for your consideration.

Sincerely,

Connie L. Allen, PE
