RESPONSES TO COMMISSION STAFF'S FIRST INFORMATION REQUEST TO TAYLOR COUNTY RURAL ELECTRIC COOPERATIVE CORPORATION DATED JULY 15, 2010

# TAYLOR COUNTY RURAL ELECTRIC COOPERATIVE CORPORATION PSC CASE NO. 2010-00183 FIRST INFORMATION REQUEST RESPONSE

COMMISSION STAFF'S FIRST INFORMATION REQUEST DATED 07/15/10 REQUEST 1

**RESPONSIBLE PERSON:** 

Ann F. Wood

**COMPANY:** 

**Taylor County Rural Electric Cooperative Corporation** 

Request 1. Provide the workpapers, spreadsheets, etc. which show the calculation of the increase, by individual wholesale rate schedule, in Taylor County's cost of power from East Kentucky Power Cooperative, Inc. that Taylor County is proposing to flow through to its customers. Provide the information in hard copy as well as electronic format with the formulas intact and unprotected. Include a brief narrative description of the data being provided.

Response 1. The work papers showing the calculation of the increase by individual wholesale rate schedule for each Member Cooperative served by EKPC are provided on pages 2 through 20 of this response and also on the enclosed CD. The allocation of the EKPC increase was spread among the member systems using a proportional approach. To achieve this, EKPC analyzed each member system's calendar year 2009 billing units by rate class. This analysis enabled EKPC to determine the ratio of each member system's billing units to the total of those for all members. That ratio was then applied to EKPC's 2011 budgeted billing units, and then multiplied by the wholesale total proposed revenue increase to determine that member system's share of the increase.

# TAYLOR COUNTY RURAL ELECTRIC COOPERATIVE CORPORATION PSC CASE NO. 2010-00183 FIRST INFORMATION REQUEST RESPONSE

## COMMISSION STAFF'S FIRST INFORMATION REQUEST DATED 07/15/10 REQUEST 2

RESPONSIBLE PERSON: Ann F. Wood

**COMPANY:** Taylor County Rural Electric Cooperative Corporation

**Request 2.** Refer to Exhibit 3 of the application.

a. Provide this exhibit in electronic format with the formulas intact and unprotected.

b. The billing analysis show various rate schedules with escalation percentages applied to the billing determinants. Provide workpapers, spreadsheets, etc. for the calculation of the percentages, as well as a narrative explanation of how the percentages were determined.

**Response 2a.** Please see the attached CD for Taylor County Application Exhibit 3 with formulas intact and unprotected.

**Response 2b.** Please see page 2 of this response for information regarding the escalation percentages.

## 23 Taylor County Escalation

	Custo	more			Ene	ergy		Demand

## **Excludes Pumping Station**

The escalation calculations are based upon 2009 actual customers, energy and demand, and 2011 projected customers, energy and demand. The actual customers and energy are based upon RUS Form 7 data. The actual demand is based upon the winter season peak demand. The projected customers, energy and demands are based upon the preliminary 2010 load forecast. At the time of this analysis, the 2010 load forecast process was not complete. Member system visits to discuss the preliminary projections had not taken place.

To calculate the escalations, the same formula is used for customers, energy and demand:

Escalation Percentage = ((Projected - Actual) / Actual) \*100

# TAYLOR COUNTY RURAL ELECTRIC COOPERATIVE CORPORATION PSC CASE NO. 2010-00183 FIRST INFORMATION REQUEST RESPONSE

COMMISSION STAFF'S FIRST INFORMATION REQUEST DATED 07/15/10 REQUEST 3

**RESPONSIBLE PERSON:** 

Ann F. Wood

**COMPANY:** 

**Taylor County Rural Electric Cooperative Corporation** 

Refer to Exhibit 3 of the application, page 5 of 6. This page shows no increase for the special contract with Tennessee Gas; however, the proposed energy rate is shown as an increase from the current energy rate. Explain.

**Response 3.** The energy rate for the proposed energy rate should be the same as the present energy rate. Please see the correction in Response 2a on the attached CD.
