PUBLIC SERVICE
COMMISSION

To whom it may concern

I reside at 8906 Collingwood Rd Louisville Ky. In the Hill Ridge Subdivision. I have been a resident since 1973. This is a privately owned treatment center owned by Don Ridge. This treatment plant has not had a permit to operate since 2007 why should the residence be made to pay 34.7% increase plus a surcharge of \$11.19 for 36 mos. When MSD own evaluation determined that the lines have been neglected for many, many years. We have had stench and backups because of this neglect .Why should I be held accountable to pay such a large increase when the owners have not been held accountable to maintain this facility and sewer line all along. This was supposed to be a temporary facility; I guess that's why repairs have not been made it shouldn't still be there. With the economy so bad how can you

November 14 2010

pass this large increase on the residents many who live on a fixed income, others with large families? Thank you for your time. I would like to be notified if there is a hearing on this matter

Sincerely,

Alice Smith
