Case: 2010-00426

COMMENTS: After having sat thru 2 Hours of
the public hearing on MARCH 21 2011 I feel the
only way the Public Service Commission can be
Fair, Just and Reasonable is to deny HillRidge
Facilities Inc any increase in its rates.
I do not see how HillRidge Facilities Inc
can continue To run the sewer treatment
plant even with the proposed increases.
Hillridge Facilities Inc lack equipment and
Knowledge on how to fix and run the plant.
I feel the Sooner we get connected
to Metropolitan Sewer District Lines the
safer (health-wise) this part of the
community will be. The time to connect
is now.
I also believe we are just one flush
AWAY From disaster.
