Application of Water Service Corporation of Kentucky for an Adjustment of Rates
Case No: 2010-00476

Dear Public Service Commissioners,

I oppose the water rate increase because: *we are all struggling to even make ends meet anymore. And to have this added to our plate is not right - Please reconsider this situation -*

Application of Water Service Corporation of Kentucky for an Adjustment of Rates
Case No. 2010-00476

Dear Public Service Commissioners:

I oppose the water rate increase because:

They had a 31% increase last year--now they want more???. This town has many retired people, widows, single mother families. Many are assisted by our Mission House Food Pantry--which is also near depletion.

There has not been an increase in Soc. Security benefits in two years.
Several retired military have not received a cost of living inc. in two years.

An increase would be very hard on those with fixed incomes.

Most all industry has moved out of this area , with another. A Goodyear tire plant in another town is closing by the end of 2011. It is estimated that 50 to 75 people from this area will be affected.

There are no jobs available , except occasional pick -up work that is probably below minimum wage.

This Company has just received some kind of Grant to up grade their water meters, unsure of the amount but here say or rumor is \$65,000.00. A contractor has been hired to replace the water meters since only 2 employees maintain the water system.

How can this company justify an increase except--for corp. greed to satisfy their stockholders in this very poor national economy.

Gerald B. Radlock

Signed
