Dear Sir

I am writing about the rate increase request filed by Ky Frontier Gas for Magoffin Co residents.

For those of us on a fixed income this will force many of us to go back to wood burning stoves to heat our homes. I feel this commission has no feelings for the common folks in Ky and are only concerned about the utility companies making high profits.

Please use common sense in looking at these requests.

I expect that you will look at their 35% increase & will approve 20% & feel good that you didn't accept their request when all the time they knew they would only get 20% -
