Subject: Case #2012-00428 Public Comment

2/22/15

Dear Kentucky Public Service Commission, David L. Armstrong, James W. Gardner, Commissioner Daniel E. Logsdon Jr. and all agents, officers, employees, contractors and interested parties:

This letter is in reference to the Public Hearing regarding Case File 2012-00428 which was announced on December 5th 2014 and then immediately held on December 16th and 17th.

First let me say that I believe the timing and short notice on this meeting was done deliberately to prevent public comment! I have been writing you and the utility companies since 2011 regarding the subject of smart meters. Not only have I begged to have the smart water meter, (placed illegally on my property) removed, but I have sent 100' s of documents including medical letters, research, and public opinions across the U.S. regarding these "death meters" . (My family has spoken and e-mailed Andrew Melnykovich numerous times and he has been the one responsible for placing the documentation in the Case File mentioned above.)

I also believe that the Public Hearing was just a formality since you have already authorized numerous installations across the state, while still announcing to the public that no decisions have been made, and then 2 years later sliding a public hearing, in the middle of winter, and right before the holidays right under our noses!

Over the last 2 years, I have consistently asked Mr. Melnykovich to notify me of the public meeting, but when it was announced I received no notice and I did not find out about the meeting until after the fact!

I agree 100% with the comments made by Melissa Curtley on December 16th and I am adding the following comments:

Please be aware that I expect each of you to thoroughly read ALL Documentation and Research regarding the illness and death caused by these meters, all the fires and explosions caused by these meters, and all the violations of privacy and human rights caused by these meters. These were sent in through Andrew Melnykovich (over the last 2 years) to case file 2012-00428 for your review.

Please be aware that the link listed in this letter below lists legal violations and I expect all of you to be aware of them and that each of you will be held accountable if you allow the Smart Grid and Smart Meters to move forward. (I have attached a brief overview, but would ask that you read the document so that you can fully understand the legality of it!)

I believe that ALL PERSONS who allow the installation of these smart meters/ radio read meters, should be prosecuted for attempted murder, and once the individual becomes sick and dies,

prosecuted for pre-meditated murder as well as all other violations listed below! (This also includes the abuse and death of all pets and wildlife which are being killed by these meters!)

Please know that I also consider it extortion to claim to offer “opt out” fees! I am not opting into anything and my analog meter works just fine! There are NO BENEFITS to any living human, animal, or plant from Smart Meters!

The smart water meters installed in my neighborhood have already killed several plants and trees in my yard, and make me sick when I try to work in my yard! I want those removed and the madness stopped!

I greatly appreciate your time and ask that you protect yourself, your family, your friends, as well as all of mine.

I apologize if this letter comes on strong and is offensive, but I have already been exposed to these meters and I know what happens!

Perhaps you should consider living in an apartment exposed to numerous smart meters and then see how sick you become?

Please make the right ethical choice and stop this madness!

Sincerely,

Ruby Holloway
