Frankfort, Kentucky 40602

Dear Sir/Madam:

I am against the Peaks Mill Water District receiving a 26.48% increase for the basic use of 2,000 gallons from \$20.13 to \$25.46 or any increase at this time.

I believe they have received at least two (2) increases in the past three (3) years and another increase at this time is not realistic for the consumer.

Thanking you in advance for your support in this request.

Sincerely,

David Taylor (COO)
David Taylor
