RE: KENTUCKY UTILITIES

PROPOSED RATE INCREASE

I am a Kentucky Utilities customer & am writing to express my **strong objection** to **ANY rate increase** requested by KU. There is absolutely NO justification for this rate increase for KU customers.

The prices of coal (from which this electricity is made) have continued to drop, so KU can't even prove that it is costing them MORE to produce the electricity they are generating. I seriously doubt they are granting their own employees wage increases as well.

Like so many other Americans, I have not received EVEN A COST OF LIVING RAISE in the past 3-4 years. As consumers, we have had to learn to economize and survive on less and it is time utility companies e.g. KU learned to do likewise.

KU's request for a rate increase is untimely and UNMERITED.

Please deny this request for a rate increase!

Very Sincerely Yours

Pam Baker
