Subject: KU proposed rate increase
Auto forwarded by a Rule

It seems like KU receives approval to increase rates every 6 months. They just got an increase in May! When will it stop? How much more burden will KU put on us? How are we expected to pay a rate increase 2-3 times a year? I thought the PSC was suppose to look out for consumers, but I see that's not true. I have to make a sacrifice every month to pay this bill.

People that are considered indigent by the Federal government can get agencies to pay their bills but people that are struggling to survive, can't get a free hand-out from the government.

I'm just sick of paying for KU equipment, power units, the many upgrades and the new call center in Morganfield. Since I'm paying for all these things, I should have some stocks in the company.

That's all I have to say. It probably won't mean anything, tell KU my check is NOT in the mail.

Regretfully
