Dear Sir/Madam,

I received my notification letter from Louisville Gas and Electric that there will be a 6.9% to 7% increase in fees. I am wondering if they have an oversight committee to view their administrative costs including all the flyers that we receive as customers? It feels as if they are the \$200 golden hammer of the old government defense contracts. In realization that yes things go up, but when gas is in overabundance at this time and economic times are extremely difficult for the paying public. It would deem a good public service to question Louisville Gas & Electric in affairs that affect the public common good. I know that you feel you have assuredly asked all the proper questions, but has this done any good and to what avail? It hasn't appeared to help the public. I am not trying to put anyone on the defensive as I am sure this will, just trying to be an informed citizen.

Thank you,
Allison Rosenberg
