Re: Continuing Education approval request

Case No. 2012-00458

Dear Mr. Derouen:

Western Kentucky University's Center for Water Resource Studies will be conducting a Water Auditing and Loss Control Workshop, jointly with the KY/TN Section of American Water Works Association, in Bowling Green, KY on December 4, 2012. The intent of the workshop is to teach best practices in the industry for controlling water loss, including saving operating expenses and increasing revenues.

We respectfully request approval of 6 hours of continuing education credit for board members and commissioners who attend this training. I've attached the agenda for the workshop, as well as speaker biographies and a sampling of the written materials that will be distributed to attendees. As you will note on the agenda, we would be thrilled if a representative of the PSC could attend and speak to the importance of controlling water loss. Applications for 6 hours of CEU credit for licensed operators are also being submitted to KY's Division of Compliance Assistance and TN's Water and Wastewater Operator Certification Board.

Please let me know if you have any questions or need additional information in order to process this request. I can be reached by phone at 270-745-8706 or via email at jana.fattic@wku.edu.

Sincerely,

Jana Fattic  
Interim Director
