PUBLIC SERVICE
COMMISSION

Dear Sir or Madam:

I have previously contacted the Kentucky Public Service Commission about public notices published in the Benton, Kentucky Tribune Courier regarding rate adjustment proceedings involving Jackson Purchase Energy Corporation. Another public notice for these proceedings appeared in the Benton, Kentucky Tribune Courier on March 20, 2013.

These notices should according to state statutes be published in The Lake News because its primary office is located in Jackson Purchase Energy Corporation's service area. The Lake News is the newspaper of record for Calvert City, Kentucky and The Lake News is a customer of Jackson Purchase Energy Corporation.

The Benton Tribune Courier is not located in the Jackson Purchase Energy Corporation's service area and instead is located in the Benton Electric service area. In addition to this West Kentucky Rural Electric's service area surrounds the Benton Electric service area so the Tribune Courier is not even located in a service area contiguous to Jackson Purchase Energy Corporation's service area.

I have contacted the Kentucky Public Service Commission about this matter before and the notice was re-published in The Lake News. I hope you will do this again and in all future instances when public notices are required on matters relating to Jackson Purchase Energy Corporation. I can not imagine letting a \$25 or \$30 public notice be a cause for reversal or delay of these important proceedings.

Sincerely yours,

Loyd W. Ford
