Re: Case #2013-00332

We wish to express our opposition to the announced intention of AmeriGas to discontinue our current gas service and replace it with individual residential tanks. We proudly moved to this development because of underground utilities of electric with gas and no gas tanks visible. Our system is performing well; there have been no complaints regarding it to our knowledge.

The proposed changes will not increase efficiency and will not be esthetically pleasing. We have paid \$800 to receive the current gas supply. It is expected there would be another hookup charge, more expense for the home owners. Our neighborhood should not be penalized with increasing gas prices for the benefit of the parent company. Deed restrictions do not allow burial of gas tanks on our property.

Respectfully,

Linda and James Minter
