PUBLIC SERVICE
COMMISSION

Public Service Commission:

I am writing about the proposed E.D.R. tariff. Notice by Kentucky Power in the Mountain Eagle Newspaper Sept. 24, 2014. It look like this is a good way for Kentucky power to sell 250 MW of electricity and let home owners pay for it. Why don't ky power give the New business some discounts. AEP is making huge profits, check the stock market.

Over the past years I seen a lot of Kentucky power notices in the Newspaper. asking for a rate hike of 17% 2 years ago which they got. West Va. gave only a 7% rate hike the same year. Then a year or so later I seen in the Mountain Eagle where Ky power co. and aep wanted Kentucky home owners to buy them half of a power plant in West Va. So they could shut the Lousia power plant down in 2015. public service Commission also agreed with this, and gave AEP permission to do this.

Do you realize how many Coal jobs will be lost by doing this. Aep don't care about people about is profit.

why would a company propose a tariff.
I thought only government proposed tariffs.
this tariff would only benefit Ky power Co.
who is costing us Ky. Coal jobs by closing
the Louisiana power plant.

Home owners have a hard time paying
these large power bills. Around 20% of our
power bills are add on's (taxes & fuel adj & so on)
In East Ky where I live almost all the
Coal mines is shut down. People are out
of work.

I am against this Tariff E.D.R. because
it will only benefit Ky. power Co. Its time for
the public service Commission to do their
Jobs & protect the people of Ky. You
don't have to give Ky. power, Co & AEP
everything they want. AEP is in a win-win
situation. they can't lose. Just think of
how much electricity one coal would have
used that is shut down now. AEP needs
to sell power.

Kentucky power Co. needs to write their
Notices to their customers in laymans
terms where their customers can understand
them, that they put in newspapers. I
cannot understand what they are saying.
