RE: Case No. 2014-00254

Dear Mr. Derouen:

Enclosed for filing please an original and ten (10) copies of the FEWPB's Response to the Commission's Order dated July 23, 2014 in the above referenced matter.

I appreciate your assistance. If you have any questions or require additional information, please contact me at (502) 352-4541 or hprice@fewpb.com.

Sincerely,

Hance Price

COMMISSION

COMMONWEALTH OF KENTUCKY

BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

PROPOSED ADJUSTMENT OF THE WHOLESALE)
WATER SERVICE RATES OF FRANKFORT) CASE NO. 2014-00254
ELECTRIC AND WATER PLANT BOARD)

FEWPB'S RESPONSE TO ORDER OF JULY 23, 2014

1. Provide in written verified form the direct testimony of each witness that Frankfort intends to call at the hearing in this matter.

Witness(es): Herbbie Bannister, Paul Herbert

Response: Attached

2. a. Provide the three most recent independent auditor's reports that are available for Frankfort's water operations.

b. If the independent auditor's report for the fiscal year ending June 30, 2014, is not available, state the anticipated date that it will be available.

Witness(es): David Denton

Response: Attached

3. a. State the 12-month test period upon which Frankfort bases its proposed rate adjustment.

b. Explain why this test period was chosen.

Witness(es): David Denton, Paul Herbert

Response: Attached

4. Provide the general ledgers for Frankfort's water operations for the proposed test period and the most recently concluded fiscal year. These general ledgers shall include all check registers and spreadsheets used to record and track financial transactions.

Witness(es): David Denton

Response: Attached

5. For each outstanding revenue bond issuance related to Frankfort's water operations, provide:

- a. The bond ordinance or resolution authorizing the issuance of revenue bonds.
- b. An amortization schedule.
- c. A detailed explanation of why the debt was incurred.
- d. A calculation of the annual debt service payment, including all required payments to debt service reserve accounts or funds, for each of the next three years.

Witness(es): David Denton, David Billings, Herbbie Bannister

Response: Attached

6. List all persons on Frankfort's payroll during the proposed test period. For each employee, state his or her job duties, total wages paid during the fiscal year, current salary or wage rate, and the percentage of work hours spent performing duties for each department during the fiscal year. If Frankfort's records do not permit the

allocation of an employee's work hours among departments, provide an estimate for each employee and explain how Frankfort derived the estimate.

Witness(es): David Denton

Response: Attached

7. For each employee listed in Item 6, describe how Frankfort allocated his or her payroll and payroll overhead charges to each department for the proposed test period. This response shall include a detailed explanation of all allocation procedures. Payroll overhead charges include payroll taxes, health-insurance premiums, pension costs, and any other employee benefit costs.

Witness(es): David Denton

Response: Attached

8. a. List all joint or shared costs that Frankfort incurred during the proposed test period. For each cost, list the vendor, total expense amount, amounts allocated per division, and the basis for allocation.

b. Describe the procedures to allocate joint and shared costs among Frankfort's divisions for the proposed test period.

c. Provide all internal memorandums, policy statements, correspondence and documents related to the allocation of joint and shared costs.

Witness(es): David Denton

Response: Attached

9. Provide detailed depreciation schedules for Frankfort's water division.

Witness(es): David Denton

Response: Attached

10. Provide an adjusted trial balance and audit adjustments for the proposed test period and the most recently completed fiscal year. The trial balance shall be traced and referenced directly to the general ledgers requested in Item 4.

Witness(es): David Denton

Response: Attached

11. Provide the "Uniform Financial Information Report" that Frankfort submitted to the Kentucky Department of Local Government for the fiscal years ending June 30, 2012, June 30, 2013, and June 30, 2014.

Witness(es): David Denton, Herbbie Bannister

Response: Attached

12. a. Identify all persons or entities to which Frankfort provides wholesale water service.

b. For each customer listed above, provide its monthly water usage and the amount that Frankfort charged it for service for each of the previous 24 months.

Witness(es): David Billings, Herbbie Bannister, David Denton

Response: Attached

13. a. For all water mains in Frankfort's system, complete the table below.

Add larger main sizes, if necessary.

Water Size	Main	Total Miles of Line	Miles of Lines Used by the Plant Board to Serve its Wholesale Customers
48"		0.60	0.60
42"		0.10	0.10
36"		1.05	1.05
30"		0.65	0.64
24"		7.74	7.74
20"		9.09	9.03
16"		10.55	10.54
14"		2.88	2.84
12"		36.85	31.07
10"		1.21	1.18
8"		59.23	39.98
6"		130.68	60.46
4"		25.72	3.88

- b. Identify the persons or entities that paid for the water main(s) that Frankfort uses to deliver water to Frankfort's wholesale customers.

Witness(es): David Billings, Herbbie Bannister

Response: Attached

14. a. State the maximum capacity of Frankfort's water treatment plant.
- b. For each of the customers listed in the response to Item 12(a), state:
- (1) The amount of Frankfort's total water treatment plant capacity that is currently reserved for that customer; and
- (2) The minimum and maximum quantity of water (in gallons) that the customer may purchase in a month under the terms of its present water purchase contract with Frankfort.
- c. Describe the changes, if any, that Frankfort expects within the next

three years in the level of water treatment capacity reserved for each of the customers listed in Item 12(a) and state the reason(s) for Frankfort's expectations.

Witness(es): Herbbie Bannister, David Billings

Response: Attached

15. a. Identify the owner of the master meter(s) through which Frankfort provides water to the customers listed in Item 12(a).

b. State, for each customer listed in Item 12(a), the number of master meters that Frankfort uses to provide water to that customer.

c. Identify the party responsible for maintaining each of these master meters.

Witness(es): Herbbie Bannister, David Billings

Response: Attached

16. Provide a system map showing all of Frankfort's facilities that are used to serve the customers listed in Item 12(a). This map shall, at a minimum, show all master meters, pumping stations, storage tanks, water transmission mains, and water distribution mains used to serve the customers listed in Item 12(a). The size of all mains shall be clearly indicated on this map.

Witness(es): Herbbie Bannister, David Billings

Response: Attached

17. State the portion, if any, of Frankfort's water main(s) serving the customers listed in Item 12(a) that are gravity fed.

Witness(es): Herbbie Bannister, David Billings

Response: Attached

18. a. List Frankfort's water sales (in gallons) for each of the previous 36 months for each of its wholesale customers and for its retail customers.

b. List the total amount billed by Frankfort for water service for each of the previous 36 months to each of its wholesale customers and to its retail customers.

Witness(es): David Denton

Response: Attached

19. Provide Frankfort's current rate schedule for its retail customers and for each of its wholesale customers.

Witness(es): David Denton

Response: Attached

20. Complete the table below:

City of Frankfort	Gallons for Test Pd. (7/1/12- 6/30/13)	Gallons for Fiscal Yr. Ending 6/30/14
Plant Use	30,954,922	29,561,498
Line Loss (Unaccounted for)	415,915,000	370,429,100
Sales to Retail	1,458,206,417	1,458,621,102
Sales to Each Wholesale Customer (List Separately)		
ELKHORN WATER DIST (acct #21429)	66,231,500	66,355,100
FARMDALE WATER DISTRICT (acct# 28221)	15,755,200	20,552,900
FARMDALE WATER DISTRICT (acct# 28222)	108,843,000	4,048,000
FARMDALE WATER DISTRICT (acct# 28378)	77,092,000	38,412,000
FARMDALE WATER DISTRICT (acct# 33036)	1,004,900	1,941,500
FARMDALE WATER DISTRICT (acct# 106675)	0	165,555,000
NORTH SHELBY WATER (acct# 28808)	158,525,000	162,535,000
PEAKSMILL WATER DIST (acct# 28600)	83,538,300	89,352,000
PEAKSMILL WATER DIST (acct# 30329)	7,113,800	1,041,600
SOUTH ANDERSON WATER DIST (acct# 31379)	19,937,000	21,195,600
US 60 WATER DISTRICT (acct# 32489)	146,738,400	156,920,600
US 60 WATER DISTRICT (acct# 32715)	18,614,000	21,276,000
Total Produced and Purchased	3,101,452,439	2,928,289,000
Total Sold	2,377,138,500	2,268,114,200

Witness(es): Herbbie Bannister, David Billings, David Denton

Response: Attached

21. a. State whether Frankfort provides unmetered water service to any entities (e.g., service to municipal buildings, fire departments, fire protection services).

b. If unmetered service is provided, estimate the percentage of the total unmetered amount for each entity or type of service.

Witness(es): Herbbie Bannister, David Billings

Response: Attached

22. Provide the cost-of-service study, if any, upon which the proposed rates are based.

Witness(es): Paul Herbert

Response: Attached

23. a. Identify the person who prepared the cost-of-service study upon which the proposed rate is based.

b. Provide the preparer's *curriculum vitae*.

c. List all cases before the Commission in which the preparer has submitted a cost-of-service study.

d. List all utilities (municipal or public) for which the preparer has prepared a cost-of-service study. For each utility, identify the type of utility service (i.e., water or sewer) for which the report was prepared.

Witness(es): Paul Herbert

Response: Attached

24. If the proposed rate is not based upon a cost-of-service study, describe how Frankfort determined the proposed wholesale rate and state who participated in the determination.

Witness(es): Not Applicable

Response: Attached

25. a. State whether the proposed rate increase includes an adjustment for rate case expenses incurred in this proceeding.

b. If the rate increase does not include an adjustment for rate case expenses, state whether Frankfort will seek an adjustment to recover expenses incurred in litigating this proceeding.

c. If Frankfort will seek an adjustment to recover expenses incurred in litigating this proceeding, provide all actual and estimated rate-case expenses.

Witness(es): Paul Herbert, David Denton, Herbbie Bannister

Response: Attached

26. Identify the section(s) of KRS Chapter 96 under which Frankfort was formed and currently operates.

Witness(es): Herbbie Bannister

Response: Attached

27. Provide the minutes of each meeting of Frankfort since January 1, 2013, in which a proposed rate adjustment to Frankfort's wholesale customers was discussed.

Witness(es): Herbbie Bannister

Response: Attached

28. Provide a copy of all correspondence, electronic mail messages, or other written communications between Frankfort and its wholesale customers since January 1, 2013, regarding revisions to Frankfort's wholesale rate.

Witness(es): Herbbie Bannister

Response: Attached

29. Provide copies of all contracts for water service between Frankfort and its wholesale customers listed in Item 12(a).

Witness(es): Herbbie Bannister, David Billings

Response: Attached

30. a. State the annual effect of the proposed rate adjustment on Frankfort's revenues from wholesale water service to each of its wholesale water service customers.

b. Show all calculations made and state all assumptions used to derive the response to Item 30(a).

Witness(es): David Denton, Paul Herbert

Response: Attached

31. a. Identify and explain pro forma adjustments to water operations.

b. Provide the calculations for all pro forma adjustments to water operations.

Witness(es): David Denton, Paul Herbert

Response: Attached

32. a. Identify and explain pro forma adjustments to shared expenses that include the water operations.

b. Provide the calculations for all pro forma adjustments to shared expenses that include the water operations.

Witness(es): David Denton, Paul Herbert

Response: Attached

CERTIFICATION

I, Hance Price, certify that I am the attorney supervising the preparation of these Responses on behalf of the Frankfort Electric and Water Plant Board and that the Responses and attachments thereto are true and accurate to the best of my knowledge, information and belief formed after reasonable inquiry.

Respectfully Submitted,

Hance Price
Hance Price

COMMONWEALTH OF KENTUCKY

BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

APPLICATION OF THE FRANKFORT)
ELECTRIC AND WATER PLANT BOARD) CASE NO. 2014-00254
FOR AN ADJUSTMENT OF WHOLESALE RATES)

**TESTIMONY OF HERBBIE BANNISTER GENERAL MANAGER
OF FRANKFORT ELECTRIC AND WATER PLANT BOARD**

Q 1 Please state your name.

A. Herbbie Bannister

Q 2 Where are you employed?

A. I am employed as General Manager of the Frankfort Electric and Water Plant Board. My address is 317 W. Second Street, Frankfort, KY 40601. I have been employed as General Manager of the Plant Board since September, 2012 and have been with FEWPB for 21 years. Prior to my becoming General Manager, I was the Water Engineer and then was promoted to Assistant General Manager of Operations.

Q 3 Explain briefly the operation of the FEWPB.

A. The Board is an independent, municipally owned utility. There are three divisions- electric, cable/telecommunications and water. Each division is operated as a separate unit and the rates for each unit are based on its revenues and expenses.

Q 4 As part of your duties were you responsible for the determination that a rate increase for the wholesale water customers was necessary?

34 A. Yes. In an effort to determine whether the rates were generating sufficient
35 revenue and whether the customer classes were paying the appropriate share of
36 the revenue requirements, in January of 2014 the Plant Board authorized Gannett
37 Fleming to conduct a cost-of-service study for the purpose of determining whether
38 a rate adjustment was necessary and whether a modification of the rate design
39 was appropriate. I reviewed the findings and agreed a modification was
40 appropriate. In April of 2014 the cost-of-service study was presented to the Board
41 indicating that a rate increase was necessary.

42 Q 5 What did the cost-of-service study indicate that the rate for the wholesale
43 customers should be?

44 A. The wholesale rate according to the cost-of-service study should be \$2.91 per
45 1,000 gallons. The present rate is \$2.01 per 1,000 gallons.

46 Q 6 How many wholesale water customers does the Plant Board have and who are
47 they?

48 A. The Plant Board has seven (7) wholesale water customers: Elkhorn Water
49 District, Peaks Mill Water District, Farmdale Water District, North Shelby Water
50 District, U.S. 60 Water District, South Anderson Water District, and Northeast
51 Woodford Water District.

52 Q 7 Has notice been given to the water districts affected by this rate increase?

53 A. Yes. In May of 2014 letters were sent to all of the water districts affected by the
54 rate increase notifying them of a public hearing which was to be held on May 20,
55 2014. On May 20, 2014, a public hearing was held. On June 17, 2014, the Board
56 authorized the proposed rate increase. On June 24, 2014, the proposed rates

57 were submitted to the Public Service Commission and notice of the filing of those
58 proposed rates was given to each of the water districts.

59 Q 8 What rate is the Plant Board proposing for the water districts?

60 A. \$2.91 per 1,000 gallons.

61 Q 9 In general terms, why is the additional revenue reflected in the water districts'
62 increased rate needed by the Plant Board?

63 A. Several factors have prompted the need for a rate increase. Notably, the results
64 of the cost of service allocation are consistent with the cost of providing service to
65 each customer class. Using class cost of service as the guideline, the proposed
66 rate design continues the move of each class to its relative cost of service.

67 Q 10 Are the costs discussed directly related to providing service to the wholesale
68 customers?

69 A. Yes. The cost of service allocation distributes costs to the customer classifications
70 in proportion to each classification's use of the facilities, commodities and
71 services.

72 Q 11 Based upon your knowledge of the operations of the Plant Board, are water
73 revenues used to offset expenses for the other divisions of the Plant Board, that is,
74 the electric department and the cable department?

75 A. No.

76 Q 12 Are water rates ever increased to offset losses in the other divisions?

77 A. No. The rates of the water division are based solely upon the revenues and
78 expenses of the water department and have no relationship whatsoever to the
79 revenues and expenses of either the electric or the cable division.

80 Q 13 Based on your familiarity with the financial condition of the water department, is
81 this rate increase necessary?

82 A. Yes. The cost of service allocation demonstrates that the rate increase is
83 necessary.

84 Q 14 What steps did you take to communicate with the water districts?

85 A. I regard FPB's water district customers as our business partners. I instructed my
86 Staff to meet with the Districts and answer as many questions as possible
87 informally. On April 16, 2014, a meeting was scheduled with the districts to discuss
88 their concerns. South Anderson Water District and U.S. 60 Water District attended
89 the meeting. Representatives from South Anderson, as best Staff can recall,
90 included Ken Taylor, Brenda Robinson and Sean Cook. Representatives from U.S.
91 60 included Jerry Ruble and Pete Hedges. Paul Herbert and Connie Heppenstall,
92 the rate analysts who prepared the cost of service study, were also present to
93 answer questions. Staff explained that the cost study in this matter was prepared
94 in accordance with the methodology established in FPB's last two (2) rate cases
95 (Case Nos. 2008-00250 and 2010-00485). That is, the study was prepared the
96 same way and the \$2.91 per 1,000 gallon rate was derived in the same fashion.
97 There are no differences between this cost study and the ones submitted in Case
98 No. 2008-00250 and 2010-00485.

99 As good business partners, I would ask the Intervenors to identify how the
100 calculations, allocations, or methodology differ from that used in the previous
101 cases such that any legitimate objections may be resolved prior to a hearing.

102

103 Q 15 Does this conclude your testimony?

104 A. Yes.

105

106 The Affiant, Herbbie Bannister, after being duly sworn, states that the foregoing answers
107 are true and accurate to the best of his abilities.

47 DIRECT TESTIMONY OF PAUL R. HERBERT

48
49
50
51
52
53
54 **Q. Please state your name and address.**

55 A. My name is Paul R. Herbert. My business address is 207 Senate Avenue,
56 Camp Hill, Pennsylvania.

57 **Q. By whom are you employed?**

58 A. I am employed by Gannett Fleming Valuation and Rate Consultants, LLC.

59 **Q. Please describe your position with Gannett Fleming Valuation and Rate**
60 **Consultants, LLC and briefly state your general duties and**
61 **responsibilities.**

62 A. I am President. My duties and responsibilities include the preparation of
63 accounting and financial data for revenue requirement and cash working
64 capital claims, the allocation of cost of service to customer classifications,
65 and the design of customer rates in support of public utility rate filings.

66 **Q. Have you presented testimony in rate proceedings before a regulatory**
67 **agency?**

68 A. Yes. I have testified before the Pennsylvania Public Utility Commission, the
69 New Jersey Board of Public Utilities, the Public Utilities Commission of Ohio,

70 the Public Service Commission of West Virginia, the Kentucky Public Service
71 Commission, the Iowa State Utilities Board, the Virginia State Corporation
72 Commission, the Tennessee Regulatory Authority, the California Public
73 Utilities Commission, New Mexico Public Regulation, the Illinois Commerce
74 Commission, the Arizona Corporation Commission, the Delaware Public
75 Service Commission, the State of Connecticut Department of Public Utility
76 Control, the Idaho Public Utilities Commission, and the Missouri Public
77 Service Commission concerning revenue requirements, cost of service
78 allocation, rate design and cash working capital claims. A list of the cases in
79 which I have testified is provided at the end of my direct testimony.

80 **Q. What is your educational background?**

81 A. I have a Bachelor of Science Degree in Finance from the Pennsylvania State
82 University, University Park, Pennsylvania.

83 **Q. Would you please describe your professional affiliations?**

84 A. I am a member of the American Water Works Association and served as a
85 member of the Management Committee for the Pennsylvania Section. I am
86 also a member of the Pennsylvania Municipal Authorities Association. In
87 1998, I became a member of the National Association of Water Companies
88 as well as a member of its Rates and Revenue Committee.

89 **Q. Briefly describe your work experience.**

90 A. I joined the Valuation Division of Gannett Fleming Corddry and Carpenter,
91 Inc., predecessor to Gannett Fleming, Inc., in September 1977, as a Junior

Rate Analyst. Since then, I advanced through several positions and was assigned the position of Manager of Rate Studies on July 1, 1990. On June 1, 1994, I was promoted to Vice President of the Valuation and Rate Division and on July 1, 2007, I was promoted to my current position as President.

While attending Penn State, I was employed during the summers of 1972, 1973 and 1974 by the United Telephone System - Eastern Group in its accounting department. Upon graduation from college in 1975, I was employed by Herbert Associates, Inc., Consulting Engineers (now Herbert Rowland and Grubic, Inc.), as a field office manager until September 1977.

Q. Have you previously prepared a cost of service study for a case before the Commission?

A. Yes, I have. I have prepared cost of service studies for Kentucky American Water Company in Case Nos. 2000-120, 2007-00143, 2010-00036, and 2012-00520; Frankfort Electric and Water Plant Board in Case Nos. 2008-00250 and 2010-00485; and Northern Kentucky Water District in Case Nos. 2010-00094 and 2012-00072. I have also included a list of cost of service studies that I have prepared for other utilities, located at the end of my direct testimony.

Q. What is the purpose of your testimony in this proceeding?

A. The purpose of my testimony is to explain Frankfort Electric and Water Plant Board's (FEWPB) cost of service allocation study for the regulated

wholesale water utility operations and proposed regulated wholesale rate design set forth in Exhibit No. PRH-1.

COST OF SERVICE ALLOCATION

Q. Briefly describe the purpose of your cost allocation study.

A. The purpose of the study was to allocate the total water cost of service, which is the total revenue requirement, to the several customer classifications. In the study, the total costs were allocated to the residential, commercial, public authorities, sales for resale non-water producers and sales for resale water producers, private fire protection and public fire protection classifications in accordance with generally accepted principles and procedures. The cost of service allocation results in indications of the relative cost responsibilities of each class of customers. The allocated cost of service is one of several criteria appropriate for consideration in designing customer rates to produce the required revenues. The results of my allocation of the pro forma cost of service as of June 30, 2013, and proposed customer rates to produce the pro forma revenue requirement as of that date are presented in the study.

Q. Please describe the method of cost allocation that was used in your study.

A. The base-extra capacity method, as described in 2012 and prior Water Rates Manuals published by the American Water Works Association

(AWWA), was used to allocate the pro forma costs. Base-extra capacity is a recognized method for allocating the cost of providing water service to customer classifications in proportion to the classifications' use of the commodity, facilities, and services. It is generally accepted as a sound method for allocating the cost of water service and was used by the Company in the Company's previous studies.

Q. Please describe the procedure followed in the cost allocation study.

A. Each identified classification of cost in the pro forma cost of service was allocated to the customer classifications through the use of appropriate factors. These allocations are presented in Schedule B on pages 8 through 11. The items of cost, which include operation and maintenance expenses, taxes, debt service and capital projects, are identified in column 1 of Schedule B. The cost of each item, shown in column 3, is allocated to the several customer classifications based on allocation factors referenced in column 2. The development of the allocation factors is presented in Schedule C. I will use some of the larger cost items to illustrate the principles and considerations used in the cost allocation methodology.

Purchased electric power and treatment chemicals are examples of costs that tend to vary with the amount of water consumed and are thus considered base costs. They are allocated to the several customer classifications in direct proportion to the average daily consumption of those

156 classifications through the use of Factor 1. The development of Factor 1 is
157 shown in Schedule C on page 12.

158 Other source of supply, pumping, water treatment and transmission
159 costs are associated with meeting usage requirements in excess of the
160 average, generally to meet maximum day requirements. Costs of this nature
161 were allocated to customer classifications partially as base costs,
162 proportional to average daily consumption, partially as maximum day extra
163 capacity costs, in proportion to maximum day extra capacity, and, in the
164 case of transmission mains, partially as fire protection costs, through the use
165 of Factors 2 and 3. The development of the allocation factors, referenced as
166 Factors 2 and 3, is shown in Schedule C, on pages 12 through 15.

167 Costs associated with storage facilities and the costs of distribution
168 mains were allocated partly on the basis of average consumption and partly
169 on the basis of maximum hour extra demand, including the demand for fire
170 protection service, because these facilities are designed to meet maximum
171 hour and fire demand requirements. The development of the factors,
172 referenced as Factors 4 and 5, used for these allocations is shown in
173 Schedule C, on pages 16 through 19.

174 Factor 4, used to allocate distribution mains, is based on the same
175 volumes used in Factors 1 through 3. Factor 5, Allocation of Storage
176 Facilities, uses the same basic methodology as Factor 4, although the fire

177 demand weighting is based on the storage capacity for fire service as
178 compared to the total storage capacity.

179 Fire demand costs were allocated to public and private fire protection
180 service in proportion to the relative potential demands on the system by
181 public fire hydrants and private service lines as presented in Schedule D on
182 page 32.

183 Costs associated with the investment in mains and operation and
184 maintenance expenses for mains were allocated on combined bases of
185 maximum day and maximum hour extra capacity because these facilities
186 serve both functions. For these costs, the relative weightings of Factor 3
187 (maximum day and fire) and Factor 4 (maximum hour) were based on the
188 footage of transmission and distribution mains. For cost allocation purposes,
189 mains larger than 10-inch were classified as serving a transmission function
190 and mains 10-inch and smaller were classified as serving a distribution
191 function. The development of this weighted factor, referenced as Factor 6, is
192 presented on page 20.

193 Costs associated with meters were allocated to customer
194 classifications in proportion to the capacity requirements of the sizes and
195 quantities of meters serving each classification. The development of the
196 factor for meters, referenced as Factor 8, is presented on page 21. Factor 9,
197 Allocation of Services, was developed in a similar manner as Factor 8,
198 except that the relative unit cost per foot by service size was used in order to

weight the number of services by classification. Costs associated with public fire hydrants were assigned directly to the public fire protection class (Factor 7), and costs associated with sales for resale non-water producers were assigned directly to the sales for resale non-water producers class (Factor 11).

Costs for customer accounting, billing and collecting were allocated on the basis of the number of customers for each classification, and costs for meter reading were allocated on the basis of metered customers. The development of these factors, referenced as Factor 12 and Factor 13, is presented on page 26.

Administrative and general costs were allocated on the basis of allocated direct costs, excluding those costs such as purchased power and chemicals and waste disposal which require little administrative and general expense. The development of factors for this allocation, referenced as Factor 14, is presented on page 27.

The original cost less depreciation of utility plant in service was allocated on the basis of the function of the facilities for the purpose of developing Factor 17. Factor 17 was used to allocate items such as taxes, debt service and capital projects. The development of Factor 17 is presented on pages 29 through 30.

Factors 10, 14, 15 and 18, are composite allocation factors. These factors are based on the result of allocating other costs and are computed

221 internally in the cost allocation program. Refer to Schedule C for a
222 description of the bases for each composite allocation factor.

223 **Q. What was the source of the total cost of service data set forth in**
224 **column 3 of Schedule B?**

225 A. The pro forma costs of service were furnished by the FEWPB, and are set
226 forth in various FEWPB exhibits.

227 **Q. Refer to Schedule B, pages 13 and 17, and explain the source of the**
228 **system maximum day and maximum hour ratios used in the**
229 **development of factors referenced as Factors 2, 3 and 4.**

230 A. The ratios were based on a review of historic FEWPB data. The maximum
231 day ratio of 1.80 times the average day approximates the ratio of maximum
232 daily send-out experienced by the FEWPB in the last nine years. The
233 maximum hour ratio of 2.5 times the average hour was estimated based on
234 the relationship of system maximum hour ratios compared to system
235 maximum day ratios for other similar systems.

236 **Q. What factors were considered in estimating the maximum day extra**
237 **capacity and maximum hour extra capacity demands used for the**
238 **customer classifications in the development of Factors 2, 3 and 4?**

239 A. The estimated demands were based on judgment which considered field
240 studies of actual customer class demands conducted for other utilities, field
241 studies of similar service areas, and generally-accepted customer class
242 maximum day and maximum hour demand ratios.

243 **Q. Have you summarized the results of your cost allocation study?**

244 A. Yes. The results are summarized in columns 1, 2 and 3 of Schedule A on
245 page 6. Column 2 sets forth the total allocated pro forma cost of service as
246 of June 30, 2013, for each customer classification identified in column 1.
247 Column 3 presents each customer classification's cost responsibility as a
248 percent of the total cost.

249 **Q. Have you compared these cost responsibilities with the proportionate
250 revenue under existing rates for each customer classification?**

251 A. Yes. A comparison of the allocated cost responsibilities and the percentage
252 revenue under existing rates can be made by comparing columns 3 and 5 of
253 Schedule A. A similar comparison of the percentage cost responsibilities
254 (relative cost of service) and the percentage of pro forma revenues (relative
255 revenues) under proposed rates can be made by comparing columns 3 and
256 7 of Schedule A.

257
258 **CUSTOMER RATE DESIGN**

259 **Q. What are the appropriate factors to be considered in the design of the
260 rate structure?**

261 A. In preparing a rate structure, one should consider the allocated costs of
262 service, the impact of radical changes from the present rate structure, the
263 understandability and ease of application of the rate structure, community
264 and social influences, and the value of service. General guidelines should

265 be developed with management to determine the extent to which each of
266 these criteria is to be incorporated in the rate structure to be designed,
267 inasmuch as the pricing of a commodity or service is a function of
268 management.

269 **Q. Did management discuss rate design guidelines with you?**

270 A. Yes, they did. The guidelines were to increase rates for the sales for resale
271 non-water producers to move toward the cost of service for that class. Rate
272 increases to the remaining classifications were effective in 2013, so no
273 increases to those classifications are proposed at this time.

274 **Q. Does the proposed rate design follow these guidelines?**

275 A. Yes, it does. The revenues under proposed rates reflect increases for the
276 sales for resale non-water producers and no increase for the remaining
277 classes.

278 **Q. Have you prepared comparisons of present and proposed rates for
279 each classification?**

280 A. Yes. Schedule E on pages 34 and 35 of the cost allocation study presents
281 comparisons of the present and proposed rates.

282 **Q. What rate does your study indicate should be charged to the sales for
283 resale non-water producers?**

284 A. \$2.91 per 1000 gallons.

285 **Q. Does this rate take into account facilities used to serve the non-water
286 producers class?**

287 A. Yes, it does.

288 Q. Based upon your experience, is the method used in preparing the cost-
289 of-service study for the FEWPB a generally-accepted method in the
290 utility industry?

291 A. Yes.

292 Q. Is it your opinion that the rate produced by this study is reasonable?

293 A. Yes.

294 Q. Does this conclude your direct testimony?

295 A. Yes, it does.

296

297

298 The Affiant, Paul R. Herbert after being duly sworn, states that
299 the foregoing answers are true and accurate to the best of his abilities.

300 FURTHER THE AFFIANT SAITH NOT.

Frankfort, Kentucky

Report on Financial Statements

We have audited the accompanying financial statements of the business-type activities of the Electric and Water Plant Board (the "Board") of the City of Frankfort, Kentucky as of and for the years ended June 30, 2013 and 2012, and the related notes to the financial statements which collectively comprise the Board's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independent Auditor's Report (Continued)

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the Electric and Water Plant Board of the City of Frankfort, Kentucky, as of June 30, 2013 and 2012, and the changes in financial position and cash flows, thereof for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 11 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Board's basic financial statements. The supplementary information, on pages 25 through 33 are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The consolidating schedules, departmental comparative schedule of operating expenses, and budgetary comparison information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Independent Auditor's Report (Continued)

Other Reporting Required by Governmental Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 17, 2013 on our consideration of the Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Board's internal control over financial reporting and compliance.

**Electric & Water Plant Board of the City of Frankfort, Kentucky
Management Discussion and Analysis
Years Ended June 30, 2013 and 2012**

The following discussion and analysis of the Electric & Water Plant Board (the "Board" or "FPB") of the City of Frankfort, Kentucky's financial performance provides an overview of the financial activities for the fiscal years ended June 30, 2013 and 2012. We encourage readers to consider the information presented here in conjunction with the Board's financial statements, which follow this section.

The Board was established under Kentucky Revised Statutes (KRS 96.176) as a combined Electric and Water System to operate, maintain, improve, and expand the respective facilities and began operations in 1943. In 1954 the Board created Community Television and appointed a separate Cable Board to provide Cable TV service to Frankfort and the surrounding area. In 1988, the Board took direct control of the Cable TV operation in order to provide additional services over a fiber optic network, as a public project (the Full Service Network). All three operations are combined together and presented on pages 12 through 14 of the Audit Report. Cable Telecommunications operations are separated from the Electric and Water operations on the audit report under "Supplementary Information" on pages 25 through 33. The Board has completed the upgrade of the cable system to fiber optics and is now able to provide a Full Service Network (FSN) with few exceptions, throughout the Cable Service Area. The Full Service Network includes Digital TV, HDTV, DVR, Broadband Service, Point to Point Fiber Service, Security Service, and Local and Long Distance Telephone Service.

The Full Service Network (FSN) upgrade was financed by six separate bank borrowings structured as lease financings, the first five of which were carried out in accordance with a Master Credit Agreement with a conditional total lending amount of \$29.5 million. Security for these financings is the Cable Plant exclusively and repayment is secured by Cable revenues only. The Board began repaying funds borrowed under the banks financings in Fiscal Year 2005-06. The Electric and Water facilities and finances are specifically excluded as security in the banks financings. In Fiscal Year 2007, the Board refinanced and combined the first five FSN leases to extend their combined maturities in order to reduce principal payments and increase short-term cash flow. This was in response to increasing interest rates and pension expenses. These changes enable the Cable Department to maintain the required minimum reserve as established by the Board while still funding the Capital Additions necessary to maintain and improve the Cable System. In addition to changing the maturities, the amendments on the FSN leases included an interest rate floor of 4.00% and a ceiling of 6.25%. The sixth lease financing is subordinate as to security to the combined financing representing the five previous leases.

Financial Highlights

The assets of the Board exceeded its liabilities at the close of the most recent fiscal year by \$68,427,654. Of this amount \$57,518,666 is invested in Capital Assets, \$1,733,786 is restricted for Debt Retirement, \$454,815 is restricted to Retirement Plans, \$17,500 is restricted for KIA reserves, and \$8,702,887 is unrestricted.

The Board's net assets increased \$3,436,811 during the current fiscal year.

Revenues

Gross income from user fees was \$84,821,912 for fiscal year 2013.

Expenses

Operating expenses were \$81,648,736 for fiscal year 2013.

Electric & Water Plant Board of the City of Frankfort, Kentucky
Management Discussion and Analysis (Continued)
Years Ended June 30, 2013 and 2012

Operating Expenses generally refer to the ordinary and necessary business expenses incurred in the day-to-day operation of the Utility. Broad categories of these expenses are classified as "Operations and Maintenance", "Engineering", "Support Services", "Office", "Administrative", "General", and "Employee Benefits". They include such things as system maintenance, fleet maintenance, office supplies, customer service, fringe benefits, billing and accounting. These are current period expenses which are not otherwise capitalized as part of a construction project having a service life greater than one year. The term Operating Expense does not include interest expense, which relates to financing decisions.

Financial Overview

The Board's financial statements are comprised of two components:

- Financial Statements; and
- Notes to the Financial Statements

Included as part of the Financial Statements are three different types (and names) of statements and their respective notes.

The three financial statement types:

1. The Statement of Net Position presents information on the Board's assets and liabilities with the difference between the two reported as Net Position. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial condition of the Board is improving or deteriorating.
2. The Statement of Revenues, Expenses, and Changes in Net Position presents information showing how the Board's net position changed between FY12 and FY13. Results of the Board's operations are reported as the underlying events occur, regardless of the timing of cash flows. This means that the Board's revenues and expenses are reported in the financial statements for some items that will result in cash flows (positive or negative) in some future year. This is the "accrual" basis of accounting and is further explained in Note A.
3. The Statement of Cash Flows presents the cash flow changes occurring during the FY13 and FY12 in highly liquid cash and investments, including certain restricted cash accounts or cash-like assets. "Highly liquid" means it is, or can quickly be, turned into useable cash.

The Notes to Financial Statements provide additional information that is essential for a full and complete understanding of the information provided in the financial statements. The Notes to Financial Statements can be found on pages 15 through 24 of this report.

**Electric & Water Plant Board of the City of Frankfort, Kentucky
Management Discussion and Analysis (Continued)
Years Ended June 30, 2013 and 2012**

Financial Analysis (Continued)

Assets

The Board's Total Assets increased \$1,242,195 from FY12. The Audit Report indicates the most significant changes were in "Cash and Cash Equivalents", "Receivables", "Property, Plant, and Equipment, net of Accumulated Depreciation", and "Insurance Escrow Account". Cash and Receivables increased due to the increased revenues from rate increases and expansion of services. Property, Plant, and Equipment decreased due to depreciation expense outpacing capital investments. The Insurance Escrow Account increased due to timing differences between cash transfers to the self-insurance account and the payment of claims.

Liabilities

The Board's Total Liabilities decreased \$2,194,616 from FY12. The Audit Report indicates the major changes were in "Bonds Payable Due in One Year", and "Long Term Debt". The decrease in Bonds payable due in one year is due to the refinancing of the \$2,000,000 Bond anticipation note. The decrease in Long Term Debt is due to a pay down of \$5,594,008 on our Bonds Payable and additional borrowing of \$3,327,906 through the issuance of the 2012 Water Ban.

Net Position

The Board's assets exceeded its liabilities by \$68,427,654 at the end of FY13. This represents an increase from FY12 of \$3,436,811, and as previously mentioned, increases or decreases in equity may, over time, serve as a useful indicator of the Board's financial position. This disclaimer comes from the fact that being "land rich and cash poor" is not beneficial if the company needs liquidity for cash flow. On the other hand, if you have sufficient cash flow, "investing" in your electric, water, and cable systems (maintaining, expanding, replacing, upgrading, etc.) or land, is a good and prudent business practice.

A portion of the Board's Equity, \$57,518,666, or 84% of Total Net Position, reflect its investment in "Capital Assets", such as transmissions and distribution facilities, less any related debt used to acquire such assets that remained outstanding as of the end of FY13. The Board uses these Capital Assets to provide services to its owners/customers; consequently, these assets are not available for spending. Resources needed to repay the outstanding debt shown on the Balance Sheet must come from other sources, such as sales of water and cable services, since, obviously, the Capital Assets themselves cannot be used to pay such "long-term" liabilities.

The "unrestricted" portion of the Board's Equity is \$8,702,887 or 13% of Total Net Position. This portion may be used to meet the Board's ongoing obligations to creditors and owners/customers.

An additional portion of the Board's Equity, \$2,206,101 or 4% of Total Net Position, represents resources that are subject to external restrictions on how they are used. \$1,733,786 is reserved for debt repayment and \$454,815 is reserved for retirement benefits for those few employees whom opted out of the CERS retirement plan and \$17,500 is to fulfill a loan covenant associated with lending from the Kentucky Infrastructure Authority (KIA).

**Electric & Water Plant Board of the City of Frankfort, Kentucky
Management Discussion and Analysis (Continued)
Years Ended June 30, 2013 and 2012**

Capital Assets

The Board's investments in capital assets as of June 30, 2013 amounted to \$93,750,859 (net of accumulated depreciation). This includes investment in transmission and distribution related to infrastructure, as well as general items such as office equipment, vehicles, etc. Major capital assets events during the current fiscal year included:

- Replace four 15kV distribution breakers
- Replace two 69kV transmission breakers
- Distribution substation improvements
- Multiple overhead reconductor projects
- Governors Place underground reconductor
- Voltage conversion from 8.3kV to 13.2kV on circuit 111, 112
- Overall general distribution system improvements
- Line Pulling System
- Portable Power Analyzer
- Thermal Imager

Water

- WTP SCADA construction
- Military Affairs AASF waterline project
- Holmes Street waterline replacement
- Reservoir interim repairs
- Twilight Trail pump station
- Overall distribution upgrades and improvements
- Touch Leak Correlator

Cable

- Conversion from Headend-in-the-Sky video compression/reception to in-house system
- Completion of local origination studio and remote facilities upgrade to HD
- Established new cable modem leasing revenue stream – ending FY with nearly 1,500 units
- Ongoing purchase and installation of advanced set-top boxes
- Launch of 3 new SD/HD channels and 45 new music channels
- Hardware and software upgrades to broadband distribution systems (CMTS)

General

- Fleet Replacements including 1 skid steer (Electric) and 6 small class vehicles
- Backup Generator (Service Center & Cable Building Facilities)
- Two copiers
- Fuel Control System for Fleet Services

**Electric & Water Plant Board of the City of Frankfort, Kentucky
Management Discussion and Analysis (Continued)
Years Ended June 30, 2013 and 2012**

Long-Term Debt

As of June 30, 2013, the Board had long-term bonded water debt outstanding of \$7,470,000. This is debt backed by the electric and water revenues of the Board (revenue bonds). No changes occurred in this bonded debt other than the regularly scheduled principal payments totaling \$950,000.

As of June 30, 2013, the Board had two long-term lease financings outstanding with Farmers Bank of \$19,151,392. This is debt backed by the cable system. No changes occurred in this debt other than the regularly scheduled principal payments totaling \$2,644,008.

As of June 30, 2013, The Board had outstanding debt of \$6,282,895 on a 20 year, 1%, Kentucky Infrastructure Authority loan. These funds are being used for the Chemical Process Upgrade at the water treatment plant. No changes occurred in the loan other than the regularly scheduled principal payment of \$307,705. The loan is secured on a subordinate basis to the Board's outstanding electric and water revenue bonds.

As of June 30, 2013, the Board refinanced the \$2,000,000 Electric and Water System Revenue Bond Anticipation Note, Series 2010 with the 2012 Electric and Water System Revenue Bond Anticipation Note. The 2012 BAN can be drawn to \$3,500,000, as of June 30, 2013 the Board had drawn \$3,327,906, of which \$2,000,000 was used to refinance the 2010 BAN. These funds are being used for interim financing of the costs of construction and installation of major service additions and improvements to the water system. Interest only is paid semi-annually.

Budget

Every year the Board approves a 5-year budget for all operations of the Board. Revenues and expenses are based on a five-year historical calculation (with some exceptions primarily in Cable) and current inflationary trends. There are major impacts to the Electric and Water operations due mainly to weather conditions which cannot be accurately anticipated. The use of a 5-year historical period tends to result in an "average" year in growth, inflation, and prevailing weather conditions. It is a rare occurrence when "average" and actual coincide. Additionally, expenditures are divided between capital and expense items. When workflow calls for more expenditure on capital items than what was budgeted, expenses will typically be lower and net income will be higher but with no impact on reserves. The opposite is also true.

The Future

Electric

The primary goals of the Electric Division are to continue strengthening the transmission/distribution system and improve power quality and reliability. During FY14, the Electric Division will continue to perform upgrades of transmission/distribution lines and facilities, specifically breaker replacements and evaluations of new meter technologies. The Division will continue to improve and expand the existing distribution substations to include increased SCADA functionality. This will give our system greater flexibility and redundancy. In FY14, voltage conversions from 8.3kV to 13.2kV will continue to improve voltage quality and load capacity. We will continue aggressive tree trimming and spray programs to maintain low incidences of tree related outages. The Electric Division does not forecast the addition of any personnel positions over the next five years.

**Electric & Water Plant Board of the City of Frankfort, Kentucky
Management Discussion and Analysis (Continued)
Years Ended June 30, 2013 and 2012**

The Future (Continued)

Due to the annual formulated rate change from Kentucky Utilities (KU) this year being a 5% increase and in keeping with good utility practice, FPB conducted a cost and cost allocation review by means of a cost-of-service (COS) study. The review insures that FPB's retail rates generate adequate revenue based on consideration of wholesale power cost (KU), operating expenses, as well as, adequate working capital and reserves. The new COS study indicated no additional revenue needed beyond the pass through of the KU rate increase. However, the study did bring to light some revenue and cost imbalances among FPB rate classes. Thus, a 6.4% retail rate increase to the residential class and a 3% increase to all other rate classes were implemented on July 1, 2013. There are no further Board rate increases listed in the five-year plan. However, with the Federal Energy Regulatory Commission (FERC) approved formulated rate, KU will continue to implement annual rate changes that the Board must pass on to its customers. The Board has no way of accurately estimating these changes and, therefore, has not included them in the five-year budget. However, due to the rising costs of materials, pension and healthcare expenditures, general inflation, and maintaining minimum reserves, the Board anticipates the need to implement additional rate adjustments. As such, we will continue to conduct a cost of service study every few years in order to maintain rates necessary for the operations of the department while trying to minimize the need for large increases at any one time.

Water

The primary goals of the Water Division are to meet existing and future demand for safe, high quality water that exceeds regulatory standards at a reasonable rate. The Division will continue to monitor and assess the aging infrastructure of the water system. The primary goals of the division will be to begin construction of an Alternative Power Generation facility at the water treatment plant and to pursue a secondary water connection. Both projects will address emergency water conditions caused by drought or other events. In addition to the projects above, FPB will continue to plan for the replacement of the main water reservoir. These projects will require additional financing to complete in order to maintain acceptable cash flow and reserve levels for the Division. The Board will look to enhance water quality and flow characteristics in the distribution system through systematic elimination of dead ends, replacement of deteriorating mains, and addition of mixing systems in storage tank funded by working capital.

Due to the rising costs of materials, pension and healthcare expenditures, increased debt service, and need to maintaining minimum reserve levels as established by the Board, we anticipate the need to continue regular rate adjustments every two years. To address these issues we plan to conduct a cost of service study every two years in order to maintain rates necessary for the operations of the department while trying to minimize the need for large increases at any one time with the next study to take place in FY 13-14. The Water Division does not anticipate adding any additional personnel positions over the next five years.

Cable Telecommunications

The primary goals of the Cable Telecommunications Division is to meet the existing and anticipated future demands for services while assuring quality, reliable, and economical services. The primary focus of the Division through FY 2016 will be a Headend relocation project and associated infrastructure improvements. Procurement of consultants, planning and development, construction and cutover of the Headend facility and infrastructure will consume the majority of capital funds during this period.

**Electric & Water Plant Board of the City of Frankfort, Kentucky
Management Discussion and Analysis (Continued)
Years Ended June 30, 2013 and 2012**

The Future (Continued)

The Board estimates the basic cable TV customer count will be stable throughout the five-year plan. This budget also estimates growth in VOD/PPV purchases, Preferred and HD Plus tiers through the term. Modest growth is anticipated in broadband, high capacity Ethernet services and Security services. Stable dark fiber revenue is projected over the five-year plan.

The Board expects to continue to purchase set top boxes, but at a slower rate of installation. The reinstitution of deposits coupled with set top box rate increases in FY13 are projected to slow the purchase and installation of the boxes in the FY14. In addition to the set tops, The Board expects to purchase, test and install a new provisioning system that will allow for more secure, expedient, and cost effective addition or change of cable, broadband, and phone services at the customer premise.

Cable TV programming expenses will continue to be the largest expense budgeted within the division. FPB has little control over these expenditures with sports related programming being the largest culprit of increased cost. Staff expects programming costs to continue increasing between 5% to 7% per year while inflation hovers between 2% to 3%.

Staff expects to continue losing residential telephone customers throughout the five-year budget due to the proliferation of mobile devices. We expect small and medium size business to keep their line and look to gain some customers as incumbent telephone providers exit the wireline market in the next three to five years.

Administrative and General

The Board will continue to work to streamline processes and increase efficiency in departments that provide services to all divisions of the company with the goal of decreasing the pace of rate increases driven by electric wholesale power, water division's aging infrastructure, cable programming costs, retirement benefits (Note G), and health insurance costs as new elements of the Affordable Care Act are implemented and general healthcare costs trend upward.

Overall

The Board has a significant amount of capital projects planned in the coming years that are needed to maintain the level of superior, reliable services the City of Frankfort, Kentucky and surrounding areas have come to expect while moving the company forward to utilize cutting edge technologies to improve efficiency and performance. The Board will continue to manage costs in an ever changing regulatory environment in order to provide services at the most reasonable rates possible.

Electric & Water Plant Board of the City of Frankfort, Kentucky
Notes to Financial Statements
June 30, 2013 and 2012

Note A - Summary of Significant Accounting Policies

The Electric and Water Plant Board of the City of Frankfort, Kentucky (the "Board") was formed in April, 1943 through the acquisition by the City of Frankfort of the entire capital stock of the Tri-City Utilities Company. The company was dissolved immediately after the acquisition of the capital stock. The properties and the operation of the combined electric and water system purchased were placed under the control of the Electric and Water Plant Board, which consists of five members appointed by the Mayor and approved by the City Commissioners. Since 1946 the Board operates as an independent entity under the provisions of the Kentucky Revised Statutes 96.172 through 96.188. The Board produces its own water supply and purchases electricity from the Kentucky Utilities Company. On January 1, 1988, the Electric and Water Plant Board acquired the assets and interests of Community Cable Services, Inc. Previously, the cable system was operated as an independent subsidiary of the Board and controlled by a separate Board of Directors. On January 1, 1989, the Electric and Water Plant Board assumed the ownership of the North Woodford Water District facilities in consideration for the assumption of its obligations and liabilities. The Kentucky Public Service Commission approved the acquisition on October 6, 1988. The Board bills and collects sewer charges for the City of Frankfort and school tax for the local city and county school boards.

The financial statements of the Board have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting principles and policies utilized by the Board are described below:

Reporting Entity

The Board is not considered a component unit of the City of Frankfort. The Board operates under the provisions of the Kentucky Revised Statutes mentioned above. Additionally, the City of Frankfort does not exercise financial, budgetary, accounting or administrative controls over the Board. Therefore, the financial statements of the Board are not included in the financial statements of the City of Frankfort.

Basis of Accounting

The Board is accounted for as an enterprise fund which is a type of proprietary fund. Enterprise funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges, or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

The focus of proprietary fund measurement is upon the determination of operating income, changes in net assets, financial position and cash flows. All proprietary funds are accounted for using the accrual basis of accounting.

Electric & Water Plant Board of the City of Frankfort, Kentucky
Notes to Financial Statements (Continued)
June 30, 2013 and 2012

Note A - Summary of Significant Accounting Policies (Continued)

Purpose of Various Internal Funds

Operating Funds

1. Water and Electric Revenue Fund - Chapter 96 of the Kentucky Revised Statutes provides that all revenues of the system shall be placed in this fund as collected. Distributions to other funds are made upon approval of the Electric and Water Plant Board in accordance with the requirements of each fund.
2. Operations and Maintenance Fund - This fund was created for the purpose of paying expenses of operating and maintaining the combined water works, electric power, cable, and full service network systems. The amount necessary to meet these expenses is transferred to this fund as needed from the Revenue Fund accounts. Approval of expenditures from this fund is made by the Board upon presentation of request for reimbursement to this fund.

Restricted Funds

1. Electric and Water Revenue Bonds and Interest Sinking Fund - This fund was established in accordance with Kentucky Revised Statute 96.182. It provides that a reserve is to be accumulated over a ten year period to equal the average annual interest and principal requirements for such then outstanding.

Budgets and Budgetary Accounting

The Board follows these procedures in establishing budgetary data reflected in the financial statements:

1. Formal budgetary integration is employed as a management control device during the year for all funds.
2. The Board of Directors of the Electric and Water Plant Board approves the budget of the Board.
3. Unused appropriations of the annual budget lapse at the end of the year.
4. The budgeted amounts shown in the financial statements are the final authorized amounts as revised during the year.

Revenue Requirements

The Board is regulated by Kentucky Revised Statute 96.182 concerning the application of revenues earned by the Board. The provisions of Kentucky Revised Statute 96.182 are as follows:

Subject to the provisions of outstanding bonds and contracts, the Board shall apply all funds derived from operations (1) to the payment of operating expenses, (2) to the payment of bond interest and retirement, (3) to sinking fund requirements, (4) to the maintenance of a fund to meet depreciation and the improvements and extension of the plant in an amount equal to six percent (6%) of the undepreciated book value of its property, (5) to the maintenance of a cash working fund equal to one (1) month's revenue, and (6) to the payment of other obligations incurred in the operations and maintenance of the plant and the furnishings of service.

Electric & Water Plant Board of the City of Frankfort, Kentucky
Notes to Financial Statements (Continued)
June 30, 2013 and 2012

Note A - Summary of Significant Accounting Policies (Continued)

Cash and Cash Equivalents

The Board considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Statutes require that financial institutions pledge approved securities to secure those funds on deposit in an amount equal to the amount of those funds.

Investments

Investments of the Board consist of certificates of deposit which are stated at cost and approximate fair value.

Investments of the Board's retirement plan consist of marketable securities which are reported at fair market value. All investments of the retirement plan are held in trust by a bank. Under the terms of the retirement plan, the trustee has the power to hold, invest, reinvest, purchase insurance on the lives of members, control and disburse funds as set forth in the trust agreement.

Inventory

Materials and supplies inventory are stated at lower of cost or market using average cost to determine unit cost on all items with the exception of chemicals.

Accounts Receivable

Accounts receivable consist of user fees charged to customers for services. Electric and water fees are recorded as accounts receivable and revenue when customers are billed. Telecommunications fees are billed one month in advance and are recorded as unearned revenues when billed.

Allowance for Uncollectible Amounts

The Board records an allowance for doubtful accounts through a charge to earnings and a credit to valuation allowance based on its assessment of the current status of individual accounts. The allowance for doubtful accounts at June 30, 2013 and 2012 was \$524,212 and \$224,160, respectively.

Capital Assets

Capital assets include property, plant and equipment. Expenditures for items having a useful life greater than one year and a cost greater than \$1,000 are capitalized. Capital assets are valued at historical costs or estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at estimated fair value. Depreciation is provided in amounts sufficient to expense the related cost of the depreciable assets to operations over their estimated useful lives on the straight-line basis. The estimated useful lives by type of asset are as follows:

Structure and improvements	30 years
Electric Distribution Systems	30 years
Water Distribution Systems	50 years
Cable Distribution System	15 years
Furniture and Equipment	5-10 years

Electric & Water Plant Board of the City of Frankfort, Kentucky
Notes to Financial Statements (Continued)
June 30, 2013 and 2012

Note A - Summary of Significant Accounting Policies (Continued)

Accumulated Compensated Absences

It is the Board's policy to permit employees to accumulate limited amounts of earned but unused vacation pay which will be paid to employees upon separation from the Board's service. Vacation pay is accrued in the period in which it is earned.

Pension Plans

The Board became a member of the County Employees' Retirement System (CERS) on July 1, 1988. Eligible employees were enrolled in CERS on that date. Both employer and the employee contribute to this plan. The total estimated cost of entering the system as of July 1, 1988 was \$2,989,322. The original plan for entering the system required annual payments for 24 years from funds available in the Electric and Water Plant Board Retirement Plan and the Board made the annual payments and paid off the balance owed in 2007. The retirees currently being paid benefits by the previously funded Electric and Water Plant Board Retirement Plan will continue to receive their monthly benefits from this retirement plan. The board does not make any payments from the operating accounts.

Restrictions of Net Assets

	2013	2012
Revenue Bond Sinking Reserve	\$ 1,733,786	\$ 1,702,988
Retirement Plan Assets	454,815	472,107
KIA loan covenant	17,500	-
Total Restricted Assets	<u>\$ 2,206,101</u>	<u>\$ 2,175,095</u>

Operating Revenues and Expenses

Operating revenues are those that are generated directly from the primary activity of the Board, such as charges for utility services. Operating expenses are necessary costs that have been incurred in order to provide the goods or services that are the primary activity.

New Pronouncements

In June 2012, the GASB issued Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*. GASB Statement No. 63 provides financial reporting guidance relative to deferred outflows of resources, a consumption of net assets by the entity that is applicable to a future reporting period, and deferred inflows of resources, an acquisition of net assets by the entity that is applicable to a future reporting period. GASB Statement No. 63 incorporates deferred outflows and inflows of resources into the definitions of the required components of the residual measure, renaming such measure as net position, rather than net assets. The provisions of GASB Statement No. 63 are effective for fiscal periods beginning after December 15, 2011 (the fiscal year ended June 30, 2013 for the Board). The Board adopted GASB 63 for the year ended June 30, 2013, the adoption of this standard did not have an impact on the Board's financial position, results of operations, and/or cash flows.

Electric & Water Plant Board of the City of Frankfort, Kentucky
Notes to Financial Statements (Continued)
June 30, 2013 and 2012

Note A - Summary of Significant Accounting Policies (Continued)

Future Accounting Pronouncements

In March 2012, the GASB issued Statement No. 65, *Items Previously Reported as Assets and Liabilities*. GASB Statement No. 65 establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. This Statement also provides other financial reporting guidance related to the impact of the financial statement elements deferred outflows of resources and deferred inflows of resources, such as changes in the determination of the major fund calculations and limiting the use of the term deferred in financial statement presentations. The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2012. The Board is currently evaluating this guidance, and expects the adoption will require a restatement of the Board's Net Position when the guidance is implemented.

Note B - Investments

Investments of the Board are in certificates of deposit with maturity dates ranging from December 2013 to August 2015.

Interest Rate Risk - The Board does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk - State law limits the type of investment in which the Board may invest its funds. The Board has no investment policy that would further limit its investment choices.

Concentration of Credit - The Board places no limit on the amount it may invest in any one investment.

Investments of the retirement plan are as follows:

June 30, 2013		Maturities	
Investment Type	Fair Value	Less than 1	1-5
U.S. Government	\$ 51,392	\$ 51,392	\$ -
Corporate bonds	51,086	51,086	-
Mutual Funds	341,231	n/a	n/a
Total	<u>\$ 443,709</u>		

June 30, 2012		Maturities	
Investment Type	Fair Value	Less than 1	1-5
U.S. Government	\$ 104,091	\$ 50,428	\$ 53,663
Corporate bonds	50,440	-	50,440
Mutual Funds	251,804	n/a	n/a
Total	<u>\$ 406,335</u>		

Custodial Credit Risk - Deposits - Custodial credit risk is the risk that in the event of a bank failure, the Board's deposits may not be returned to it. As of June 30, 2013 the Board had \$1,077,928 of \$8,847,309 that was exposed to custodial credit risk. This amount represents one deposit account with one financial institution that did not have securities pledged as collateral against the account for amounts above the FDIC coverage of \$250,000 (see Note I).

2024-2028	1,394,358	97,020	1,491,378
2029-2032	1,636,611	41,187	1,677,798
Total	<u>\$ 6,282,895</u>	<u>\$ 614,726</u>	<u>\$ 6,897,621</u>

Note E – Risk Management

The Board is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters for which the Board carries commercial insurance.

The Board has elected to retain risk related to employees' health insurance. The Board maintains insurance coverage for health insurance claims in excess of \$75,000 per person per year (\$150,000 separate individual specific deductible) up to a maximum of \$2,000,000 per person per lifetime in anticipated claims.

The Board pays Medben a fee to administer this plan. The Board has an insurance escrow account set up as a liability to cover possible future health insurance claims. All claims are paid out of the general funds of the Board through a separate self-insurance checking account.

Electric & Water Plant Board of the City of Frankfort, Kentucky
Notes to Financial Statements (Continued)
June 30, 2013 and 2012

Note E – Risk Management (Continued)

For the year ended June 30, 2013 and 2012, the Board paid approximately \$2,900,000 and \$2,700,000 in health insurance premiums and claims, respectively. At June 30, 2013 and 2012, the Board had approximately \$310,000 and \$414,000 in accrued expenses related to health insurance premiums and claims, respectively.

Note F - Frankfort Plant Board Municipal Projects Corporation

In October of 1999, the Board of Directors of the Electric and Water Plant Board formed the Frankfort Plant Board Municipal Projects Corporation with the purpose of authorizing and approving the initial financing of the costs of the new improvements to and expansions of the Municipal Cable Television of the Plant Board. The initial financing amounted to \$4,130,000 by means of a lease between the Corporation, as lessor, and the Plant Board, as lessee. The Corporation will provide the lease for the cable system, as improved and expended, to the Plant Board and authorize the assignment of the Corporation's rights and interest under the lease to Farmers Bank & Capital Trust Company.

Note G - Retirement Plans

All full-time employees are covered under the County Employee's Retirement System (CERS), a cost sharing, multiple-employer, public employers' retirement system established under the provisions of Kentucky Revised Statute Section 61.645. Funding for the plan is provided through payroll withholdings of 5.00% and a Board contribution of 19.55% of the employee's total compensation subject to contribution. An employee entering the program after September 1, 2008 is required to contribute an additional 1%. Employer contributions are at an actuarially determined rate.

CERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Kentucky Retirement Systems, 1260 Louisville Road, Frankfort, Kentucky 40601, or by telephone at 502-564-4646.

Required contributions to CERS for the years ended June 30, 2013, 2012 and 2011 were \$2,170,656, \$2,054,784, and \$1,880,005, respectively. The Board made all required contributions.

The plan provides for retirement, disability and death benefits. In addition, a portion of each employer and employee's contribution to CERS is set aside for the funding of post-retirement health care. The health care coverage provided by the retirement system is considered an Other Post Employment Benefit (OPEB) as described in Governmental Accounting Standards Board Statement Number 12. KRS provides statutory authority requiring public employers to fund post-retirement health care through their contribution to CERS.

Note H - Deferred Compensation

Eligible employees can participate in deferred compensation plans administered by the Kentucky Public Employees' Deferred Compensation Authority. The Kentucky Public Employees' Deferred Compensation Authority is authorized under KRS 18A.230 to 18A.275 to provide administration of tax-sheltered supplemental retirement plans for all state employees, public school and university employees, and employees of local political subdivisions that have elected to participate.

These deferred compensation plans permit all full-time employees to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. Participation by eligible employees in the deferred compensation plan is voluntary.

Electric & Water Plant Board of the City of Frankfort, Kentucky
Notes to Financial Statements (Continued)
June 30, 2013 and 2012

Note H - Deferred Compensation (Continued)

Historical trend information showing the Kentucky Public Employees' Deferred Compensation Authority's progress in accumulating sufficient assets to pay benefits when due is presented in the Kentucky Public Employees' Deferred Compensation Authority's annual financial report. A copy of this report may be requested by writing Kentucky Public Employees' Deferred Compensation Authority at 101 Sea Hero Road, Suite 100, Frankfort, Kentucky 40601-8862 or by telephone at 502-573-7925.

Note I – Subsequent Event

The Board had one deposit account that was not fully insured as of June 30, 2013. Upon the discovery of the violation of states statutes in regards to fully insured deposits the Board took steps to correct the violation. As of October 15, 2013 collateral was pleaded against the deposit and the Board was in full compliance with state statutes regarding deposited funds (see Note B).

**Independent Auditor's Report on Internal Control Over Financial Reporting
and on Compliance and Other Matters Based on an Audit of Financial
Statements Performed in Accordance with Government Auditing Standards**

Electric and Water Plant Board of the City of Frankfort, Kentucky
Frankfort, Kentucky

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the business-type activities of the Electric and Water Plant Board (the "Board") of the City of Frankfort, Kentucky as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements and have issued our report thereon dated December 17, 2013.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Board's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Board's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control over financial reporting, described in the accompanying Schedule of Findings and Questioned Costs as 2013-1 through 2013-4 that we consider to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Board's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Electric & Water Plant Board of the City of Frankfort, Kentucky
Schedule of Findings and Questioned Costs
Year Ended June 30, 2013**

Summary of Auditor's Results

1. The auditor's report expresses an unmodified opinion on the financial statements of the Board.
2. Significant deficiencies were disclosed during the audit of the financial statements.
3. No instances of noncompliance material to the financial statements of the Board, which would be required to be reported in accordance with *Government Auditing Standards*, were disclosed during the audit.

Federal Awards

Due to the amount of federal awards being below the \$500,000 threshold, no OMB Circular A-133 audit was performed.

Findings - Financial Statement Audit

2013-1

Criteria: The Board should have written accounting policies and procedures to outline employee duties and monthly accounting processes.

Condition: Written policies and procedures would assist in ensuring that all important accounting functions are performed timely and would assist in the event of employee turnover.

Cause: The Board has various accounting policies and procedures written but they do not cover all procedures and are not centralized.

Effect: There is not a set of complete written documentation of important accounting procedures in a centralized location.

Response: The Board added a position to the accounting department during FY 2013. With the additional personnel the department is in the process of developing written policies and procedures, with an anticipated completion date of December 31, 2014.

2013-2

Criteria: Capital assets and depreciation are manually tracked in excel.

Condition: There are a significant number of capital assets which makes it likely that there will be errors in the schedule due to the manual calculations involved.

Cause: The Board does not utilize a software to perform capital asset and depreciation tracking.

Effect: Capital asset updates and depreciation calculations are a manual process.

Response: A Fixed Assets module has been purchased and installed into the Accounting software. There has not been time to get the capital information transferred over into this module nor to start using it with new assets.

**Electric & Water Plant Board of the City of Frankfort, Kentucky
Schedule of Findings and Questioned Costs (Continued)
Year Ended June 30, 2013**

2013-3

Criteria: Capital asset additions should be grouped by project and clearly identified in the depreciation schedules, assets not in use should be identified and removed from depreciation schedules, projects should not be depreciated until they are placed in service and amounts under the Board's capitalization threshold should be expensed.

Condition: Capital assets are not grouped by project so assets that are no longer in use cannot be identified and removed. Individual invoices related to projects are depreciated as soon as they are purchased, rather than being grouped with the project and depreciated only when placed in service. Assets under the Board's capitalization threshold are capitalized and depreciated.

Cause: The Board does not have appropriate procedures in place over the accounting for capital assets. Management considers this to be a common problem in the utility industry due to the complexity in identifying certain asset locations (for example, sections of electric lines or sections of water distribution lines).

Effect: Capital asset schedules may contain assets no longer in use, depreciation is taken on assets prior to being placed into service, immaterial assets that should be expensed are capitalized.

Response:

A Fixed Assets module has been purchased and installed into the Accounting software. There has not been time to get the capital information transferred over into this module nor to start using it with new assets. Even when this does occur, the nature of certain Capital Assets will make it very difficult to ever remove them from the books. This is an industry-wide situation. There is a capitalization policy which identifies the threshold for expense versus capital. This has been thoroughly shared, explained, and reviewed with the Department Heads and other employees that initiate and approve such expenditures. Work order reports are readily available to certain employees and many Work Order reports are distributed to the departments for both review and approval during and/or on completion of the project. It is the responsibility of those individuals to make sure that expenditures are correctly coded. Accounting does review certain expenditures for various reasons but not all expenditures are charged to Work Orders. Assets are not capitalized based on work order entry but rather based on the way the paperwork instructs Purchasing and/or Accounting to enter the purchase. Management will review current practices and work towards use of construction in progress schedules and improvements in recording of capital assets.

2013-4

Criteria: The Board is required by law to ensure all deposits in financial institutions are fully collateralized.

Condition: A deposit account with a financial institution at June 30, 2013, did not have the full account balance collateralized.

Cause: The Board did not appropriately monitor the collateral position on its deposit accounts.

Effect: The Board was in violation of State law in regards to collateralization of deposits.

Response: The Board corrected the issue, once identified. The account was fully collateralized as of October 15, 2013.

Electric & Water Plant Board of the City of Frankfort, Kentucky
Schedule of Prior Year Findings
Year Ended June 30, 2013

2012-1

Condition: The Board does not have written accounting policies and procedures to outline employee duties and monthly accounting processes.

Recommendation: The Board should prepare written documentation of important accounting procedures.

Current Status: This finding has been repeated. See 2013-1.

2012-2

Condition: Capital assets and depreciation are manually tracked in excel which makes it likely that there will be errors in the schedule due to the manual calculations involved.

Recommendation: The Board should implement a capital asset tracking software

Current Status: This finding has been repeated. See 2013-2.

2012-3

Condition: Capital asset additions should be grouped by project and clearly identified in the depreciation schedules, assets not in use should be identified and removed from depreciation schedules, projects should not be depreciated until they are placed in service and amounts under the Board's capitalization threshold should be expensed.

Recommendation: The Board should implement a capital asset tracking software and identify individual assets by projects so that assets no longer in use can be identified and removed. In addition, projects should not be depreciated until placed in service and assets under the Board's capitalization threshold should be expensed.

Current Status: This finding has been repeated. See 2013-3.

Independent Auditor's Report on Financial Statements

Members of the Electric and Water Plant Board
Frankfort, Kentucky

We have audited the accompanying financial statements of the business-type activities of the Electric and Water Plant Board (the "Board") of the City of Frankfort, Kentucky as of and for the years ended June 30, 2012 and 2011, which collectively comprise the Board's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Board's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the Electric and Water Plant Board of the City of Frankfort, Kentucky, as of June 30, 2012 and 2011, and the changes in financial position and cash flows, thereof for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 18, 2012, on our consideration of the Electric and Water Plant Board of the City of Frankfort, Kentucky's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 10 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted principally of inquiries of management about the methods of preparing the information

and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming an opinion on the financial statements. The supplemental information on pages 23 through 31 is presented for purposes of additional analysis and is not a required part of the financial statements. The supplemental information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

**Electric & Water Plant Board of the City of Frankfort, Kentucky
Management Discussion and Analysis
Years Ended June 30, 2012 and 2011**

The following discussion and analysis of the Electric & Water Plant Board (the "Board") of the City of Frankfort, Kentucky's financial performance provides an overview of the financial activities for the fiscal years ended June 30, 2012 and 2011. We encourage readers to consider the information presented here in conjunction with the Board's financial statements, which follow this section.

The Board was established under Kentucky Revised Statutes (KRS 96.176) as a combined Electric and Water System to operate, maintain, improve, and expand the respective facilities and began operations in 1943. In 1954 the Board created Community Television and appointed a separate Cable Board to provide Cable TV service to Frankfort and the surrounding area. In 1988, the Board took direct control of the Cable TV operation in order to provide additional services over a fiber optic network, as a public project (the Full Service Network). All three operations are combined together and presented on pages 11 through 13 of the Audit Report. Cable Telecommunications operations are separated from the Electric and Water operations on the audit report under "Supplementary Information" on pages 23 through 31. The Board has completed the upgrade of the cable system to fiber optics and is now able to provide a Full Service Network (FSN) with few exceptions, throughout the Cable Service Area. The Full Service Network includes Digital TV, HDTV, DVR, Broadband Service, Point to Point Fiber Service, Security Service, and Local and Long Distance Telephone Service.

The Full Service Network (FSN) upgrade is being financed by six separate bank borrowings, the first five of which were carried out in accordance with a Master Credit Agreement with a conditional total lending amount of \$29.5 million. Security for these financings is the Cable Plant exclusively and repayment will be from Cable revenues only. The Board began repaying funds borrowed under the banks financings in Fiscal Year 2005-06. The Electric and Water facilities and finances are specifically excluded as security in the banks financings. In Fiscal Year 2007, the Board decided to refinance the first five FSN notes to extend maturities in order to reduce principal payments and increase short-term cash flow. This was in response to increasing interest rates and pension expenses. These changes will enable the Cable Department to maintain the required minimum reserve as established by the Board while still funding the Capital Additions necessary to maintain and improve the Cable System. In addition to changing the maturities, the amendments on the FSN notes included an interest rate floor of 4.00% and a ceiling of 6.25%.

Financial Highlights

The assets of the Board exceeded its liabilities at the close of the most recent fiscal year by \$64,990,843. Of this amount \$55,239,565 is invested in Capital Assets, \$1,702,988 is restricted for Debt Retirement, \$472,107 is restricted to Retirement Plans, and \$7,576,183 is unrestricted.

The Board's net assets increased \$964,435 during the current fiscal year.

Revenues

Gross income from user fees was \$79,013,576 for fiscal year 2012.

Expenses

Operating expenses were \$77,873,796 for fiscal year 2012.

**Electric & Water Plant Board of the City of Frankfort, Kentucky
Management Discussion and Analysis (Continued)
Years Ended June 30, 2012 and 2011**

Operating Expenses generally refer to the ordinary and necessary business expenses incurred in the day-to-day operation of the Utility. Broad categories of these expenses are classified as "Operations and Maintenance", "Engineering", "Support Services", "Office", "Administrative", "General", and "Employee Benefits". They include such things as system maintenance, fleet maintenance, office supplies, customer service, fringe benefits, billing and accounting. These are current period expenses which are not otherwise capitalized as part of a construction project having a service life greater than one year. The term Operating Expense does not include interest expense, which relates to financing decisions.

Financial Overview

The Board's financial statements are comprised of two components:

- Financial Statements; and
- Notes to the Financial Statements

Included as part of the Financial Statements are three different types (and names) of statements and their respective notes.

The three financial statement types:

1. The Statement of Net Assets presents information on the Board's assets and liabilities with the difference between the two reported as Net Assets. Over time, increases and decreases in net assets may serve as a useful indicator of whether the financial condition of the Board is improving or deteriorating.
2. The Statement of Revenues, Expenses, and Changes in Net Assets presents information showing how the Board's net assets changed between FY11 and FY12. Results of the Board's operations are reported as the underlying events occur, regardless of the timing of cash flows. This means that the Board's revenues and expenses are reported in the financial statements for some items that will result in cash flows (positive or negative) in some future year. This is the "accrual" basis of accounting and is further explained in Note A.
3. The Statement of Cash Flows presents the cash flow changes occurring during the FY12 and FY11 in highly liquid cash and investments, including certain restricted cash accounts or cash-like assets. "Highly liquid" means it is, or can quickly be, turned into useable cash.

The Notes to Financial Statements provide additional information that is essential for a full and complete understanding of the information provided in the financial statements. The Notes to Financial Statements can be found on pages 14 through 22 of this report.

**Electric & Water Plant Board of the City of Frankfort, Kentucky
Management Discussion and Analysis (Continued)
Years Ended June 30, 2012 and 2011**

Financial Analysis (Continued)

Assets

The Board's Total Assets decreased \$233,475 from FY11. The Audit Report indicates the most significant changes were in "Cash and Cash Equivalents", "Prepaid Expenses", "Property, Plant, and Equipment, net of Accumulated Depreciation", and "Insurance Escrow Account". Cash decreased due to the reduced revenues and continued debt payments. Prepaid expenses increased due to more insurance premiums being paid in advance of the policy term. Property, Plant, and Equipment increased due to continued investment in our systems. The Insurance Escrow Account decreased due to increased claims through the self-insurance fund.

Liabilities

The Board's Total Liabilities decreased \$1,197,910 from FY11. The Audit Report indicates the major changes were in "Accounts and Other Payables", and "Long Term Debt". The increase in Accounts Payable is a result of the timing of receipt and payment of invoices at year end as compared to the prior year. The decrease in Long Term Debt is due to a pay down of \$3,718,545 on our Bonds Payable and additional borrowing of \$1,224,775 through KIA for the Water Treatment Upgrade.

Net Assets

The Board's assets exceeded its liabilities by \$64,990,843 at the end of FY12. This represents an increase from FY11 of \$964,435, and as previously mentioned, increases or decreases in equity may, over time, serve as a useful indicator of the Board's financial position. This disclaimer comes from the fact that being "land rich and cash poor" is not beneficial if the company needs liquidity for cash flow. On the other hand, if you have sufficient cash flow, "investing" in your electric, water, and cable systems (maintaining, expanding, replacing, upgrading, etc.) or land, is a good and prudent business practice.

A portion of the Board's net Assets, \$55,239,565, or 85%, reflect its investment in "Capital Assets", such as transmissions and distribution facilities, less any related debt used to acquire such assets that remained outstanding as of the end of FY12. The Board uses these Capital Assets to provide services to its owners/customers; consequently, these assets are not available for spending. Resources needed to repay the outstanding debt shown on the Balance Sheet must come from other sources, such as sales of water and cable services, since, obviously, the Capital Assets themselves cannot be used to pay such "long-term" liabilities.

The "unrestricted" portion of the Board's net Assets is \$7,576,183 or 12% of Total Net Assets. This portion may be used to meet the Board's ongoing obligations to creditors and owners/customers.

An additional portion of the Board's Equity, \$2,175,095 or 3%, represents resources that are subject to external restrictions on how they are used. \$1,702,988 is reserved for debt repayment and \$472,107 is reserved for retirement benefits for those few employees whom opted out of the CERS retirement plan.

**Electric & Water Plant Board of the City of Frankfort, Kentucky
Management Discussion and Analysis (Continued)
Years Ended June 30, 2012 and 2011**

Capital Assets

The Board's investments in capital assets as of June 30, 2012 amounted to \$94,045,565 (net of accumulated depreciation). This includes investment in transmission and distribution related to infrastructure, as well as general items such as office equipment, vehicles, etc. Major capital assets events during the current fiscal year included:

Electric

- Replace two 69kV main breakers
- Distribution substation improvements
- Overhead Reconductor projects
- Governors Place underground reconductor
- Voltage conversion from 8.3kV to 13.2kV on circuit 112
- Overall general distribution system improvements

Water

- High Service MCC project
- WTP SCADA Design
- Capital Avenue Bridge replacement project
- Peaks Mill Road water line project
- Northeast Woodford (KY 1685) project
- Overall distribution upgrades and improvements

Cable

- Video-on-Demand (VOD) equipment acquisition, installation, testing and launch of service on 1/9/12
- On-going purchase and installation of advanced set-top converters
- Launch of five new HD and SD channels
- Completion of nine retransmission consent agreements
- Launch of TV Everywhere (TVE) service to cable subscribers
- Overall system and distribution improvements

General

- Purchase of a Pool Vehicle for Company Travel & Training
- Fleet Replacement including 2 bucket trucks (1 for Electric and 1 for Cable), and a derrick truck (Electric)
- Purchase of a tire changer for the Fleet Services division

**Electric & Water Plant Board of the City of Frankfort, Kentucky
Management Discussion and Analysis (Continued)
Years Ended June 30, 2012 and 2011**

Long-Term Debt

As of June 30, 2012, the Board had long-term bonded water debt outstanding of \$8,420,000. This is debt backed by the electric and water revenues of the Board (revenue bonds). No changes occurred in this bonded debt other than the regularly scheduled principal payments totaling \$950,000.

As of June 30, 2012, the Board had long-term notes outstanding with Farmers Bank of \$21,795,400. This is debt backed by the cable system. No changes occurred in this bonded debt other than the regularly scheduled principal payments totaling \$2,643,992.

As of June 30, 2012, The Board had drawn down \$6,590,600 of a \$6,841,000, 20 year, 1%, Kentucky Infrastructure Authority loan. These funds are being used for the Chemical Process Upgrade at the water treatment plant. Principal payments will begin once construction is complete.

As of June 30, 2012, the Board had drawn \$2,000,000 of a \$2,000,000 Revenue Bond Anticipation Note, Series 2010. These funds are being used for interim financing of the costs of construction and installation of major service additions and improvements to the water system. Interest only is paid semi-annually.

Budget

Every year the Board approves a 5-year budget for all operations of the Board. Revenues and expenses are based on a five-year historical calculation (with some exceptions primarily in Cable) and current inflationary trends. There are major impacts to the Electric and Water operations due mainly to weather conditions which cannot be accurately anticipated. The use of a 5-year historical period tends to result in an "average" year in growth, inflation, and prevailing weather conditions. It is a rare occurrence when "average" and actual coincide. Additionally, expenditures are divided between capital and expense items. When workflow calls for more expenditure on capital items than what was budgeted, expenses will typically be lower and net income will be higher but with no impact on reserves. The opposite is also true.

The Future

Electric

Due to the annual formulated rate change from Kentucky Utilities (KU) this year being a 7% increase, the Board implemented a 7% electric rate increase on July 1, 2012. A rate increase from KU was expected, but not budgeted since the amount of the increase was not known beforehand. The Board passed on the rate increase from KU but did not include any increase for company expenditures. There are no further Board rate increases listed in the 5-year plan. However, with the Federal Energy Regulatory Commission (FERC) approved formulated rate, KU will continue to implement annual rate changes that the Board must pass on to its customers. The Board has no way of accurately estimating these changes and, therefore, has not included them in the five-year budget. However, due to the rising costs of materials and pension expenses, general inflation, and maintaining minimum reserves, the Board anticipates the need to implement additional rate adjustments. As such, we plan to conduct a cost of service study every two years in order to maintain rates necessary for the operations of the department while trying to minimize the need for large increases at any one time. The Electric department will undergo a cost of service study in FY2012-2013 following the audit.

**Electric & Water Plant Board of the City of Frankfort, Kentucky
Management Discussion and Analysis (Continued)
Years Ended June 30, 2012 and 2011**

The Future (Continued)

The primary goals of the Electric Department are to continue strengthening the transmission/distribution system and improve power quality and reliability. During FY13, the Electric Department will continue to perform upgrades of transmission/distribution lines and facilities, specifically breaker replacements and evaluations of new meter technologies. The Department will continue to improve and expand the existing distribution substations to include increased SCADA functionality. This will give our system greater flexibility and redundancy. In FY13, voltage conversions from 8.3kV to 13.2kV will continue to improve voltage quality and load capacity. We will continue aggressive tree trimming and spray programs to reduce tree related outages. The Electric Department does not forecast the addition of any employees over the next five years.

Water

Due to the rising costs of materials and pension expenses, general inflation, increased interest, principal, and debt service payments for a new borrowing, and maintaining minimum reserves as established by the Board, the Board anticipates the need to continue regular rate adjustments every two years. As such, we plan to conduct a cost of service study every two years in order to maintain rates necessary for the operations of the department while trying to minimize the need for large increases at any one time. The Water department will undergo a cost of service study in FY12-13 following the audit. Future planned projects, such as the Reservoir Project and the Generator Project at the WTP will require additional borrowing in the future. The Board does not anticipate any problems with implementing rate increases or borrowing.

The Water department will be focusing on construction of the Supervisory Control and Data Acquisition (SCADA) project at the water treatment plant, and pursuing a secondary water connection in order to address emergency and/or drought conditions. The Water Department does not anticipate any personnel changes over the next five years.

Cable Telecommunications

The Cable Telecommunications Department expects to complete several projects over the next fiscal year.

Staff expects to begin the planning and engineering of a new headend facility in FY 13 with the site to be determined. The existing headend building needs to be relocated in order to construct new water tanks on the site of the reservoir.

In July 2012, Staff began offering DOCSIS 3.0 cable modems for customer lease. Currently, fewer than 500 broadband customers lease a modem from FPB, but with over 12,000 broadband customers, modem leasing revenue has tremendous growth potential. Broadband usage by FPB customers is up over 67% over the same time last year. Staff anticipates securing an additional wholesale broadband vendor this fiscal year with the expectation that consumer broadband usage will continue rapid growth.

During this fiscal year, cable programming agreements expire for; NBCU, A&E Networks, Fox Cable Networks and Turner Networks. Fees for all programming continue to escalate at a rate of 6% per year, but these renewals have the potential of being much higher than 6%, especially in the first year of each agreement. Additional rate increases should be considered in order to keep pace with these increased costs.

**Electric & Water Plant Board of the City of Frankfort, Kentucky
Management Discussion and Analysis (Continued)
Years Ended June 30, 2012 and 2011**

The Future (Continued)

A telephone soft-switch upgrade has been budgeted for several years, but has not been purchased. With notification from Genband (previously known as Nortel) that support on the current telephone switch will cease in late 2013, added to the inability to acquire spares for other critical parts, Staff plans to bid, acquire and install a soft-switch in the next 12 months, as budgeted. This will allow FPB to continue to service existing customers and provide FPB added tools to reach the small, medium and large business classes with products that better marry broadband and traditional telephone service.

Administrative and General

Employees of the Board are covered under the County Employee's Retirement System (CERS) as detailed in Note G to these financial statements. The Board continues to experience steady increases in retirement benefit costs as the employer contribution rates set by CERS increase annually. The Board's CERS contribution rate for FY 2012-2013 will be 19.55% of employee's total compensation subject to contribution up from 18.96% the prior year.

Health insurance costs are expected to increase in the coming years as new elements of the Healthcare Reform bill are implemented and general healthcare costs trend upward. The Board's Self-Insurance fund is expecting a 10% increase in costs for fiscal year 2012-2013 from prior year.

Overall

The Board has a significant amount of capital projects planned in coming years that are needed to maintain the level of superior, reliable services the community has come to expect, while moving the company forward to utilize cutting edge technologies to improve efficiency and performance. The Board will continue to manage costs in an ever changing regulatory environment in order to provide services at the most reasonable prices possible.

Electric & Water Plant Board of the City of Frankfort, Kentucky
Notes to Financial Statements
June 30, 2012 and 2011

Note A - Summary of Significant Accounting Policies

The Electric and Water Plant Board of the City of Frankfort, Kentucky (the "Board") was formed in April, 1943 through the acquisition by the City of Frankfort of the entire capital stock of the Tri-City Utilities Company. The company was dissolved immediately after the acquisition of the capital stock. The properties and the operation of the combined electric and water system purchased were placed under the control of the Electric and Water Plant Board, which consists of five members appointed by the Mayor and approved by the City Commissioners. Since 1946 the Board operates as an independent entity under the provisions of the Kentucky Revised Statutes 96.172 through 96.188. The Board produces its own water supply and purchases electricity from the Kentucky Utilities Company. On January 1, 1988, the Electric and Water Plant Board acquired the assets and interests of Community Cable Services, Inc. Previously, the cable system was operated as an independent subsidiary of the Board and controlled by a separate Board of Directors. On January 1, 1989, the Electric and Water Plant Board assumed the ownership of the North Woodford Water District facilities in consideration for the assumption of its obligations and liabilities. The Kentucky Public Service Commission approved the acquisition on October 6, 1988. The Board bills and collects sewer charges for the City of Frankfort and school tax for the local city and county school boards.

The financial statements of the Board have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting principles and policies utilized by the Board are described below:

Reporting Entity

The Board is not considered a component unit of the City of Frankfort. The Board operates under the provisions of the Kentucky Revised Statutes mentioned above. Additionally, the City of Frankfort does not exercise financial, budgetary, accounting or administrative controls over the Board. Therefore, the financial statements of the Board are not included in the financial statements of the City of Frankfort.

Basis of Accounting

The Board is accounted for as an enterprise fund which is a type of proprietary fund. Enterprise funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges, or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

The focus of proprietary fund measurement is upon the determination of operating income, changes in net assets, financial position and cash flows. All proprietary funds are accounted for using the accrual basis of accounting.

Electric & Water Plant Board of the City of Frankfort, Kentucky
Notes to Financial Statements (Continued)
June 30, 2012 and 2011

Note A - Summary of Significant Accounting Policies (Continued)

Purpose of Various Internal Funds

Operating Funds

1. Water and Electric Revenue Fund - Chapter 96 of the Kentucky Revised Statutes provides that all revenues of the system shall be placed in this fund as collected. Distributions to other funds are made upon approval of the Electric and Water Plant Board in accordance with the requirements of each fund.
2. Operations and Maintenance Fund - This fund was created for the purpose of paying expenses of operating and maintaining the combined water works, electric power, cable, and full service network systems. The amount necessary to meet these expenses is transferred to this fund as needed from the Revenue Fund accounts. Approval of expenditures from this fund is made by the Board upon presentation of request for reimbursement to this fund.

Restricted Funds

1. Electric and Water Revenue Bonds and Interest Sinking Fund - This fund was established in accordance with Kentucky Revised Statute 96.182. It provides that a reserve is to be accumulated over a ten year period to equal the average annual interest and principal requirements for such then outstanding.

Budgets and Budgetary Accounting

The Board follows these procedures in establishing budgetary data reflected in the financial statements:

1. Formal budgetary integration is employed as a management control device during the year for all funds.
2. The Board of Directors of the Electric and Water Plant Board approves the budget of the Board.
3. Unused appropriations of the annual budget lapse at the end of the year.
4. The budgeted amounts shown in the financial statements are the final authorized amounts as revised during the year.

Revenue Requirements

The Board is regulated by Kentucky Revised Statute 96.182 concerning the application of revenues earned by the Board. The provisions of Kentucky Revised Statute 96.182 are as follows:

Subject to the provisions of outstanding bonds and contracts, the Board shall apply all funds derived from operations (1) to the payment of operating expenses, (2) to the payment of bond interest and retirement, (3) to sinking fund requirements, (4) to the maintenance of a fund to meet depreciation and the improvements and extension of the plant in an amount equal to six percent (6%) of the undepreciated book value of its property, (5) to the maintenance of a cash working fund equal to one (1) month's revenue, and (6) to the payment of other obligations incurred in the operations and maintenance of the plant and the furnishings of service.

Electric & Water Plant Board of the City of Frankfort, Kentucky
Notes to Financial Statements (Continued)
June 30, 2012 and 2011

Note A - Summary of Significant Accounting Policies (Continued)

Cash and Cash Equivalents

The Board considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Statutes require that financial institutions pledge approved securities to secure those funds on deposit in an amount equal to the amount of those funds. All deposits and investments were covered by federal depository insurance or by collateral held in the pledging institution's trust department in the Board's name.

Investments

Investments of the Board consist of certificates of deposit which are stated at cost and approximate fair value.

Investments of the Board's retirement plan consist of marketable securities which are reported at fair market value. All investments of the retirement plan are held in trust by a bank. Under the terms of the retirement plan, the trustee has the power to hold, invest, reinvest, purchase insurance on the lives of members, control and disburse funds as set forth in the trust agreement.

Inventory

Materials and supplies inventory are stated at lower of cost or market using average cost to determine unit cost on all items with the exception of chemicals.

Accounts Receivable

Accounts receivable consist of user fees charged to customers for services. Electric and water fees are recorded as accounts receivable and revenue when customers are billed. Telecommunications fees are billed one month in advance and are recorded as unearned revenues when billed.

Allowance for Uncollectible Amounts

The Board records an allowance for doubtful accounts through a charge to earnings and a credit to valuation allowance based on its assessment of the current status of individual accounts. The allowance for doubtful accounts at June 30, 2012 and 2011 was \$224,160 and \$219,500, respectively.

Capital Assets

Capital assets include property, plant and equipment. Expenditures for items having a useful life greater than one year and a cost greater than \$1,000 are capitalized. Capital assets are valued at historical costs or estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at estimated fair value. Depreciation is provided in amounts sufficient to expense the related cost of the depreciable assets to operations over their estimated useful lives on the straight-line basis. The estimated useful lives by type of asset are as follows:

Structure and improvements	30 years
Electric Distribution Systems	30 years
Water Distribution Systems	50 years
Cable Distribution System	15 years
Furniture and Equipment	5-10 years

Electric & Water Plant Board of the City of Frankfort, Kentucky
Notes to Financial Statements (Continued)
June 30, 2012 and 2011

Note A - Summary of Significant Accounting Policies (Continued)

Accumulated Compensated Absences

It is the Board's policy to permit employees to accumulate limited amounts of earned but unused vacation pay which will be paid to employees upon separation from the Board's service. Vacation pay is accrued in the period in which it is earned.

Pension Plans

The Board became a member of the County Employees' Retirement System (CERS) on July 1, 1988. Eligible employees were enrolled in CERS on that date. Both employer and the employee contribute to this plan. The total estimated cost of entering the system as of July 1, 1988 was \$2,989,322. The original plan for entering the system required annual payments for 24 years from funds available in the Electric and Water Plant Board Retirement Plan and the Board made the annual payments and paid off the balance owed in 2007. The retirees currently being paid benefits by the previously funded Electric and Water Plant Board Retirement Plan will continue to receive their monthly benefits from this retirement plan. The board does not make any payments from the operating accounts.

Restrictions of Net Assets

	<u>2012</u>	<u>2011</u>
Revenue Bond Sinking Reserve	\$ 1,702,988	\$ 1,673,610
Retirement Plan Assets	<u>472,107</u>	<u>440,717</u>
Total Restricted Assets	<u>\$ 2,175,095</u>	<u>\$ 2,114,327</u>

Operating Revenues and Expenses

Operating revenues are those that are generated directly from the primary activity of the Board, such as charges for utility services. Operating costs are necessary costs that have been incurred in order to provide the goods or services that are the primary activity.

Note B - Investments

Investments of the Board are in certificates of deposit with maturity dates ranging from December 2012 to August 2015.

Interest Rate Risk - The Board does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk - State law limits the type of investment in which the Board may invest its funds. The Board has no investment policy that would further limit its investment choices.

Concentration of Credit - The Board places no limit on the amount it may invest in any one investment.

Electric & Water Plant Board of the City of Frankfort, Kentucky
Notes to Financial Statements (Continued)
June 30, 2012 and 2011

Note E – Risk Management

The Board is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters for which the Board carries commercial insurance.

The Board has elected to retain risk related to employees' health insurance. The Board maintains insurance coverage for health insurance claims in excess of \$60,000 per person per year (\$300,000 separate individual specific deductible) up to a maximum of \$1,000,000 per person per lifetime in anticipated claims.

The Board pays Medben a fee to administer this plan. The Board has an insurance escrow account set up as a liability to cover possible future health insurance claims. All claims are paid out of the general funds of the Board.

For the year ended June 30, 2012 and 2011, the Board paid approximately \$2,700,000 and \$2,400,000 in health insurance premiums and claims, respectively. At June 30, 2012 and 2011, the Board had \$414,407 and \$374,312 in accrued expenses related to health insurance premiums and claims, respectively.

Note F - Frankfort Plant Board Municipal Projects Corporation

In October of 1999, the Board of Directors of the Electric and Water Plant Board formed the Frankfort Plant Board Municipal Projects Corporation with the purpose of authorizing and approving the initial financing of the costs of the new improvements to and expansions of the Municipal Cable Television of the Plant Board. The initial financing amounted to \$4,130,000 by means of a lease between the Corporation, as lessor, and the Plant Board, as lessee. The Corporation will provide the lease for the cable system, as improved and expended, to the Plant Board and authorize the assignment of the Corporation's rights and interest under the lease to Farmers Bank & Capital Trust Company.

Note G - Retirement Plans

All full-time employees are covered under the County Employee's Retirement System (CERS), a cost sharing, multiple-employer, public employers' retirement system established under the provisions of Kentucky Revised Statute Section 61.645. Funding for the plan is provided through payroll withholdings of 5.00% and a Board contribution of 18.96% of the employee's total compensation subject to contribution. An employee entering the program after September 1, 2008 is required to contribute an additional 1%. Employer contributions are at an actuarially determined rate.

CERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Kentucky Retirement Systems, 1260 Louisville Road, Frankfort, Kentucky 40601, or by telephone at 502-564-4646.

Required contributions to CERS for the years ended June 30, 2012, 2011 and 2010 were \$2,054,784, \$1,880,005, and \$2,197,862, respectively. The Board made all required contributions.

The plan provides for retirement, disability and death benefits. In addition, a portion of each employer and employee's contribution to CERS is set aside for the funding of post-retirement health care. The health care coverage provided by the retirement system is considered an Other Post Employment Benefit (OPEB) as described in Governmental Accounting Standards Board Statement Number 12. KRS provides statutory authority requiring public employers to fund post-retirement health care through their contribution to CERS.

Notes to Financial Statements (Continued)
June 30, 2012 and 2011

Note H - Deferred Compensation

Eligible employees can participate in deferred compensation plans administered by the Kentucky Public Employees' Deferred Compensation Authority. The Kentucky Public Employees' Deferred Compensation Authority is authorized under KRS 18A.230 to 18A.275 to provide administration of tax-sheltered supplemental retirement plans for all state employees, public school and university employees, and employees of local political subdivisions that have elected to participate.

These deferred compensation plans permit all full-time employees to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. Participation by eligible employees in the deferred compensation plan is voluntary.

Historical trend information showing the Kentucky Public Employees' Deferred Compensation Authority's progress in accumulating sufficient assets to pay benefits when due is presented in the Kentucky Public Employees' Deferred Compensation Authority's annual financial report. A copy of this report may be requested by writing Kentucky Public Employees' Deferred Compensation Authority at 101 Sea Hero Road, Suite 100, Frankfort, Kentucky 40601-8862 or by telephone at 502-573-7925.

**Report on Internal Control Over Financial Reporting and on Compliance
and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with *Government Auditing Standards***

Electric and Water Plant Board of the City of Frankfort, Kentucky
Frankfort, Kentucky

We have audited the accompanying financial statements of the business-type activities of the Electric and Water Plant Board of the City of Frankfort, Kentucky as of and for the year ended June 30, 2012, which collectively comprise the Board's basic financial statements and have issued our report thereon dated December 18, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Board's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Board's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying Schedule of Findings and Questioned Costs as 2012-1 through 2012-3 that we consider to be significant deficiencies in internal control over financial reporting.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Board's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the management of the Electric and Water Plant Board of the City of Frankfort, Kentucky, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

A handwritten signature in black ink, appearing to read "Mountjoy Chilton Medley LLP".

**Electric & Water Plant Board of the City of Frankfort, Kentucky
Schedule of Findings and Questioned Costs (Continued)
Year Ended June 30, 2012**

Summary of Auditor's Results

1. The auditor's report expresses an unqualified opinion on the financial statements of the Board.
2. Significant deficiencies were disclosed during the audit of the financial statements.
3. No instances of noncompliance material to the financial statements of the Board, which would be required to be reported in accordance with *Government Auditing Standards*, were disclosed during the audit.

Federal Awards

Due to the amount of federal awards being below the \$500,000 threshold, no OMB Circular A-133 audit was performed.

Findings - Financial Statement Audit

2012-1

Criteria: The Board should have written accounting policies and procedures to outline employee duties and monthly accounting processes.

Condition: Written policies and procedures would assist in ensuring that all important accounting functions are performed timely and would assist in the event of employee turnover.

Cause: The Board does not have written accounting policies and procedures.

Effect: There is no written documentation of important accounting procedures.

Response: There are numerous Accounting Processes and Procedures documented in the computer system. In addition, there are manuals on hand that support the Payroll system. Checklists are used for the monthly journal entries and balancing procedures are in place that would signal if certain entries had not been made. There has been guidance for the new Finance Director since March 1, 2012.

2012-2

Criteria: Capital assets and depreciation are manually tracked in excel.

Condition: There are a significant number of capital assets which makes it likely that there will be errors in the schedule due to the manual calculations involved.

Cause: The Board does not utilize a software to perform capital asset and depreciation tracking.

Effect: Capital asset updates and depreciation calculations are a manual process.

Response: A Fixed Assets module has been purchased and installed into the Accounting software. There has not been time to get the capital information transferred over into this module nor to start using it with new assets.

Electric & Water Plant Board of the City of Frankfort, Kentucky
Schedule of Findings and Questioned Costs (Continued)
Year Ended June 30, 2012

2012-3

Criteria: Capital asset additions should be grouped by project and clearly identified in the depreciation schedules, assets not in use should be identified and removed from depreciation schedules, projects should not be depreciated until they are placed in service and amounts under the Board's capitalization threshold should be expensed.

Condition: Capital assets are not grouped by project so assets that are no longer in use cannot be identified and removed. Individual invoices related to projects are depreciated as soon as they are purchased, rather than being grouped with the project and depreciated only when placed in service. Assets under the Board's capitalization threshold are capitalized and depreciated.

Cause: The Board does not have appropriate procedures in place over the accounting for capital assets.

Effect: Capital asset schedules may contain assets no longer in use, depreciation is taken on assets prior to being placed into service, immaterial assets that should be expensed are capitalized.

Response:

A Fixed Assets module has been purchased and installed into the Accounting software. There has not been time to get the capital information transferred over into this module nor to start using it with new assets. Even when this does occur, the nature of certain Capital Assets will make it very difficult to ever remove them from the books. This is an industry-wide situation. There is a capitalization policy which identifies the threshold for expense versus capital. This has been thoroughly shared, explained, and reviewed with the Department Heads and other employees that initiate and approve such expenditures. Work order reports are readily available to certain employees and many Work Order reports are distributed to the departments for both review and approval during and/or on completion of the project. It is the responsibility of those individuals to make sure that expenditures are correctly coded. Accounting does review certain expenditures for various reasons but not all expenditures are charged to Work Orders. Assets are not capitalized based on work order entry but rather based on the way the paperwork instructs Purchasing and/or Accounting to enter the purchase. Management will review current practices and work towards use of construction in progress schedules and improvements in recording of capital assets.

**Electric & Water Plant Board of the City of Frankfort, Kentucky
Schedule of Prior Year Findings (Continued)
Year Ended June 30, 2012**

2011-1

Condition: The allowance for doubtful accounts required a significant adjustment to adequately cover potentially uncollectible accounts.

Recommendation: The Board should implement procedures to ensure that the allowance for doubtful accounts is adequate.

Current Status: The recommendation was adopted and no similar findings were noted in the 2012 audit.

2011-2

Condition: Revenue recognition policies for user charges were not consistently applied.

Recommendation: The Board should review revenue recognition policies to ensure that unearned revenues are properly deferred.

Current Status: The recommendation was adopted and no similar findings were noted in the 2012 audit.

2011-3

Condition: The Board does not have written accounting policies and procedures.

Recommendation: The Board should document all significant accounting processes and procedures.

Current Status: This recommendation was not implemented. See 2012-1.

2011-4

Condition: The Board performs all capital asset and depreciation tracking manually.

Recommendation: The Board should implement a capital assets software to perform asset and depreciation tracking.

Current Status: This recommendation was not implemented. See 2012-2.

2011-5

Condition: Capital assets are not grouped by project so assets that are no longer in use cannot be identified and removed. Individual invoices related to projects are depreciated as soon as they are purchased, rather than being grouped with the project and depreciated only when placed in service. Assets under the Board's capitalization threshold are capitalized and depreciated.

Recommendation: Assets pertaining to a particular project should be grouped together, assets should only be depreciated after the project has been placed into service, and assets under the capitalization threshold should be expensed.

Current Status: This recommendation was not implemented. See 2012-3.

Electric & Water Plant Board of the City of Frankfort, Kentucky
Schedule of Prior Year Findings (Continued)
Year Ended June 30, 2012
2011-6

Condition: The Board did not have procedures in place to ensure that self-insurance claims were accrued and that reserve funds were adequate to cover potential losses.

Recommendation: The Board should establish procedures to review claims for accrual and to review reserves for adequacy.

Current Status: The recommendation was adopted and no similar findings were noted in the 2012 audit.

Independent Auditor's Report on Financial Statements

Members of the Electric and Water Plant Board
Frankfort, Kentucky

We have audited the accompanying financial statements of the business-type activities of the Electric and Water Plant Board (the "Board") of the City of Frankfort, Kentucky as of and for the year ended June 30, 2011, which collectively comprise the Board's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Board's management. Our responsibility is to express an opinion on these financial statements based on our audit. The financial statements of the Board as of June 30, 2010 were audited by other auditors whose report dated January 24, 2011 expressed an unqualified opinion. As discussed in Note J, the Board has restated its 2010 financial statements during the current year for the correction of an error in revenue recognition. The other auditors reported on the 2010 financial statements prior to the restatement.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the Electric and Water Plant Board of the City of Frankfort, Kentucky, as of June 30, 2011, and the changes in financial position and cash flows, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

We also audited the adjustment described in Note J that was applied to restate the 2010 financial statements. In our opinion, the adjustment is appropriate and has been properly applied.

In accordance with *Government Auditing Standards*, we have also issued our report dated May 8, 2012, on our consideration of the Electric and Water Plant Board of the City of Frankfort, Kentucky's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 10 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted principally of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming an opinion on the financial statements. The supplemental information on pages 23 through 31 is presented for purposes of additional analysis and is not a required part of the financial statements. The supplemental information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

**Frankfort Electric & Water Plant Board
Management Discussion and Analysis
Years Ended June 30, 2011 and 2010**

The following discussion and analysis of the Frankfort Electric and Water Plant Board's (Board) financial performance provides an overview of the financial activities for the fiscal years ended June 30, 2011 and 2010. We encourage readers to consider the information presented here in conjunction with the Board's financial statements, which follow this section.

The Board was established under Kentucky Revised Statutes (KRS 96-176) as a combined Electric and Water System to operate, maintain, improve, and expand the respective facilities and began operations in 1943. In 1954 the Board created Community Television and appointed a separate Cable Board to provide Cable TV service to Frankfort and the surrounding area. In 1988, the Board took direct control of the Cable TV operation in order to provide additional services over a fiber optic network, as a public project (the Full Service Network). All three operations are combined together and presented on pages 11 through 13 of the Audit Report. Cable Telecommunications operations are separated from the Electric and Water operations on the audit report under "Supplementary Information" on pages 23 through 31. The Board has completed the upgrade of the cable system to fiber optics and is now able to provide a Full Service Network (FSN) with few exceptions, throughout the Cable Service Area. The Full Service Network includes Digital TV, HDTV, DVR, Broadband Service, Point to Point Fiber Service, Security Service, and Local and Long Distance Telephone Service.

The Full Service Network upgrade is being financed by six separate bank borrowings, the first five of which were carried out in accordance with a Master Credit Agreement with a conditional total lending amount of \$29.5 million. Security for these financings is the Cable Plant exclusively and repayment will be from Cable revenues only. The Board began repaying funds borrowed under the banks financings in Fiscal Year 2005-06. The Electric and Water facilities and finances are specifically excluded as security in the banks financings. In Fiscal Year 2007, the Board decided to refinance the first five FSN notes to extend maturities in order to reduce principal payments and increase short-term cash flow. This was in response to increasing interest rates and pension expenses. These changes will enable the Cable Department to maintain the required minimum reserve as established by the Board while still funding the Capital Additions necessary to maintain and improve the Cable System. In addition to changing the maturities, the amendments on the FSN notes included an interest rate floor of 4.00% and a ceiling of 6.25%.

Financial Highlights

The assets of the Board exceeded its liabilities at the close of the most recent fiscal year by \$64,026,408. Of this amount \$52,611,631 is invested in Capital Assets, \$1,673,610 is restricted for Debt Retirement, \$440,717 is restricted to Retirement Plans, and \$9,300,450 is unrestricted.

The Board's net assets increased \$4,224,331 during the current fiscal year.

Revenues

Gross income from user fees was \$81,763,999 for fiscal year 2011.

Expenses

Operating expenses were \$77,447,452 for fiscal year 2011.

**Frankfort Electric & Water Plant Board
Management Discussion and Analysis (Continued)
Years Ended June 30, 2011 and 2010**

Operating Expenses generally refer to the ordinary and necessary business expenses incurred in the day-to-day operation of the Utility. Broad categories of these expenses are classified as "Operations and Maintenance", "Engineering", "Support Services", "Office", "Administrative", "General", and "Employee Benefits". They include such things as system maintenance, fleet maintenance, office supplies, customer service, fringe benefits, billing and accounting. These are current period expenses which are not otherwise capitalized as part of a construction project having a service life greater than one year. The term Operating Expense does not include interest expense, which relates to financing decisions.

Financial Overview

The Board's financial statements are comprised of two components:

- Financial Statements; and
- Notes to the Financial Statements

Included as part of the Financial Statements are three different types (and names) of statements and their respective notes.

The three financial statement types:

1. The Statement of Net Assets presents information on the Board's assets and liabilities with the difference between the two reported as Net Assets. Over time, increases and decreases in net assets may serve as a useful indicator of whether the financial condition of the Board is improving or deteriorating.
2. The Statement of Revenues, Expenses, and Changes in Net Assets presents information showing how the Board's net assets changed between FY10 and FY11. Results of the Board's operations are reported as the underlying events occur, regardless of the timing of cash flows. This means that the Board's revenues and expenses are reported in the financial statements for some items that will result in cash flows (positive or negative) in some future year. This is the "accrual" basis of accounting and is further explained in Note A.
3. The Statement of Cash Flows presents the cash flow changes occurring during the FY11 and FY10 in highly liquid cash and investments, including certain restricted cash accounts or cash-like assets. "Highly liquid" means it is, or can quickly be, turned into useable cash.

The Notes to Financial Statements provide additional information that is essential for a full and complete understanding of the information provided in the financial statements. The Notes to Financial Statements can be found on pages 15 through 23 of this report.

Years Ended June 30, 2011 and 2010**

Financial Analysis (Continued)

Assets

FPB's Total Assets increased \$2,144,656 from FY10. The Audit Report indicates the major changes were in "Investments", "Inventory", and "Property, Plant, and Equipment, net of Accumulated Depreciation". Investments increased due to the purchase of CDs in order to reestablish a Revenue Bond Sinking Fund for the 2009 Water Bond refinance. Inventory decreased due to less on hand at fiscal year-end. Property, Plant, and Equipment increased due to continued investment in our systems.

Liabilities

FPB's Total Liabilities decreased \$2,079,675 from FY10. The Audit Report indicates the major changes were in "Accounts and Other Payables", and "Long Term Debt". The decrease in Accounts Payable is a result of less unpaid invoices at year end. The decrease in Long Term Debt is due to a pay down of \$3,529,338 on our Bonds Payable and additional borrowing of \$1,381,720 thru the KIA for the Water Treatment Upgrade.

Net Assets

FPB's assets exceeded its liabilities by \$64,026,408 at the end of FY11. This represents an increase from FY10 of \$4,224,331, and as previously mentioned, increases or decreases in equity may, over time, serve as a useful indicator of FPB's financial position. This disclaimer comes from the fact that being "land rich and cash poor" is not beneficial if the company needs liquidity for cash flow. On the other hand, if you have sufficient cash flow, "investing" in your electric, water, and cable systems (maintaining, expanding, replacing, upgrading, etc.) or land, is a good and prudent business practice.

A portion of FPB's net Assets, \$52,611,631, or 82%, reflect its investment in "Capital Assets", such as transmissions and distribution facilities, less any related debt used to acquire such assets that remained outstanding as of the end of FY11. FPB uses these Capital Assets to provide services to its owners/customers; consequently, these assets are not available for spending. Resources needed to repay the outstanding debt shown on the Balance Sheet must come from other sources, such as sales of water and cable services, since, obviously, the Capital Assets themselves cannot be used to pay such "long-term" liabilities.

The "unrestricted" portion of FPB's net Assets is \$9,300,450 or 15% of Total Net Assets. This portion may be used to meet FPB's ongoing obligations to creditors and owners/customers.

An additional portion of FPB's Equity, \$2,114,327 or 3%, represents resources that are subject to external restrictions on how they are used. \$1,673,610 is reserved for debt repayment and \$440,717 is reserved for retirement benefits for those few employees whom opted out of the CERS retirement plan.

**Frankfort Electric & Water Plant Board
Management Discussion and Analysis (Continued)
Years Ended June 30, 2011 and 2010**

Capital Assets

The Board's investments in capital assets as of June 30, 2011 amounted to \$93,690,707 (net of accumulated depreciation). This includes investment in transmission and distribution related to infrastructure, as well as general items such as office equipment, vehicles, etc. Major capital assets events during the current fiscal year included:

Electric

- Transmission system upgrades – move part of circuit #4 and replace two main breakers
- Distribution substation improvements
- Voltage conversion from 8.3kV to 13.2kV on circuit 122
- Overall general distribution system improvements

Water

- Chemical Feed/Onsite Generation project
- Low Service MCC project
- Steele Road water line project on Steele Road, Clifton Road, and Myrtle Avenue
- Gensco pump replacement project
- Overall distribution upgrades and improvements

Cable

- "All-digital" cable television conversion and elimination of analog cable TV
- Launch of the upgrade to the cable modem termination system to offer faster broadband speeds and eliminate network congestion
- On-going Node splits

General

- Purchase of a mini excavator for the Electric Department
- Purchase of 10 handheld computers for the Electric and Water Departments
- Fleet replacement including 5 bucket trucks (3 for Electric and 2 for Cable)

**Frankfort Electric & Water Plant Board
Management Discussion and Analysis (Continued)
Years Ended June 30, 2011 and 2010**

Long-Term Debt

As of June 30, 2011, the Board had long-term bonded water debt outstanding of \$9,355,000. This is debt backed by the electric and water revenues of the Board (revenue bonds). No changes occurred in this bonded debt other than the regularly scheduled principal payments totaling \$910,000.

As of June 30, 2011, the Board had a long-term bond outstanding for the consolidated acquisition of \$139,553, with final payment in December 2011. This is debt backed by the cable system. No changes occurred in this bonded debt other than the regularly scheduled principal payments totaling \$266,892.

As of June 30, 2011, the Board had long-term notes outstanding with Farmers Bank of \$24,437,392. This is debt backed by the cable system. The Board refinanced five of these notes into one consolidated note during the year and borrowed an additional \$189,202 on Note 6. The Board made also regularly scheduled principal payments totaling \$2,374,983.

As of June 30, 2011, The Board had drawn down \$6,369,886 of a \$6,841,000, 20 year, 1%, Kentucky Infrastructure Authority loan. These funds are being used for the Chemical Process Upgrade at the water treatment plant. Principal payments will begin once construction is complete.

As of June 30, 2011, the Board had drawn \$775,245 of a \$2,000,000 Revenue Bond Anticipation Note, Series 2010. These funds are being used for interim financing of the costs of construction and installation of major service additions and improvements to the water system. Interest only is paid semi-annually.

Budget

Every year the Board approves a 5-year budget for all operations of the Board. Revenues and expenses are based on a five-year historical calculation (with some exceptions primarily in Cable) and current inflationary trends. There are major impacts to the Electric and Water operations due mainly to weather conditions which cannot be accurately anticipated. The use of a 5-year historical period tends to result in an "average" year in growth, inflation, and prevailing weather conditions. It is a rare occurrence when "average" and actual coincide. Additionally, expenditures are divided between capital and expense items. When workflow calls for more expenditure on capital items than what was budgeted, expenses will typically be lower and net income will be higher but with no impact on reserves. The opposite is also true.

The Future

Electric

Due to an approximately 11.8% rate increase from Kentucky Utilities (KU), the Board implemented a 9.8% electric rate increase on July 1, 2010. A rate increase from KU was expected but not budgeted since the amount of the increase was not known beforehand. The Board passed on the rate increase from KU but did not include any increase for company expenditures. There are no further Board rate increases listed in the 5-year plan. However, with the Federal Energy Regulatory Commission (FERC) approved formulated rate, KU will continue to implement

**Frankfort Electric & Water Plant Board
Management Discussion and Analysis (Continued)
Years Ended June 30, 2011 and 2010**

The Future (Continued)

annual rate changes that the Board will pass on to customers. The Board has no way of accurately estimating these changes and, therefore, has not included them in the five-year budget.

The primary goals of the Electric Department for FY12 are to continue strengthening the transmission/distribution system for load-growth capacity, improved power quality and reliability. During FY12, the Electric Department will continue to perform upgrades of transmission/distribution lines and facilities, specifically breaker replacements and evaluations of new meter technologies. The Department will continue to improve and expand the existing distribution substations to include increased SCADA functionality. This will give our system greater flexibility and redundancy. In FY12, voltage conversions from 8.3kV to 13.2kV will continue to improve voltage quality and load capacity. We will continue aggressive tree trimming and spray programs to reduce tree related outages. The Electric Department does not forecast the addition of any employees over the next five years.

Water

Due to the rising costs of materials and pension expenses, general inflation, increased interest, principal, and debt service payments for a new borrowing, and maintaining minimum reserves as established by the Board, the Board anticipates the need to continue regular rate adjustments every two years. As such, we plan to conduct a cost of service study every two years in order to maintain rates necessary for the operations of the department while trying to minimize the need for large increases at any one time. The Water department will undergo a cost of service study in FY12-13. We will finish up drawing on our 1.0% loan from the KIA and be required to start repaying the KIA loan beginning June 2012. Future planned projects, such as the Reservoir Project, the SCADA Project at the WTP, and the Generator Project at the WTP, will all require additional borrowing in the future. The Board does not anticipate any problems with implementing rate increases or borrowing.

The Water department will be focusing on construction of High Service Pump Station motor control center, completing design of a Supervisory Control and Data Acquisition (SCADA) project, and pursuing a secondary water connection in order to address emergency and/or drought conditions. The Water Department does not anticipate any personnel changes over the next five years.

Cable Telecommunications

The Cable Telecommunications Department expects to complete several projects over the next fiscal year. Those projects include the completion of the cable modem termination system upgrade. This upgrade will allow FPB to offer faster broadband speeds, up to 20 mbps, to all customers. The upgrade will eliminate network congestion and improve customer satisfaction of the broadband service.

Staff expects to complete the negotiations to acquire property so a new headend facility could be constructed and equipped. A new Headend facility would be located on the east side of the Kentucky River. The existing headend building needs to be relocated in order to construct new water tanks on the site of the reservoir.

The video-on-demand project is expected to be completed by the end of 2011. This new service will allow customers with advanced set top converters, access to over 6,000 hours of programming. Most of the programming

**Frankfort Electric & Water Plant Board
Management Discussion and Analysis (Continued)
Years Ended June 30, 2011 and 2010**

The Future (Continued)

will be free to the subscriber while there will also be about one-third of the programming available at a charge to the subscriber.

Retransmission consent agreements for all Lexington and Louisville broadcast stations expire on December 31, 2012. Staff anticipates significant increases in these fees which may translate into higher than normal increases in rates to FPB customers. Fees for all programming continue to escalate at a rate of 6% per year. Additional rate increases should be considered in order to keep pace with these increased costs.

Administrative and General

The Board continued to see increased health care expenses in FY11. Due to the uncertainty surrounding increased costs as a result of Healthcare Reform, the Board felt that we should budget conservatively once again. After some time under the new regulations, enough real data will exist and the budget will be adjusted accordingly. In order to provide somewhat of a "cushion" for fluctuating claims, the Board decided in FY11 to fund the Self-Insurance fund at the full budget amount each fiscal year, even if actual claims come in lower than anticipated. This is an attempt to keep unexpected high claims from taking a devastating toll on the Board's reserves.

The Board has experienced large increases in the employer contribution rate to CERS for employee pension. The rate went from 13.19% in FY07 to 18.96% in FY12, a 44% increase in pension expense. These rates are still expected to climb with Congress unable to find other solutions to the problem.

Overall

The Board continues to support initiatives to become a greener company through both financial investments and offering support to the community. The Board is strengthening relations with the City of Frankfort and Franklin County through various partnerships and joint efforts. The Board also expects to have a strategic plan in place in the next few years. The Board will incorporate all of these directives into our constant mission of providing superior, reliable services to the community at the most reasonable prices possible.

Electric & Water Plant Board of the City of Frankfort, Kentucky
Notes to Financial Statements
June 30, 2011

Note A - Summary of Significant Accounting Policies

The Frankfort Electric and Water Plant Board (the "Board") was formed in April, 1943 through the acquisition by the City of Frankfort of the entire capital stock of the Tri-City Utilities Company. The company was dissolved immediately after the acquisition of the capital stock. The properties and the operation of the combined electric and water system purchased were placed under the control of the Electric and Water Plant Board, which consists of five members appointed by the Mayor and approved by the City Commissioners. Since 1946 the Board operates as an independent entity under the provisions of the Kentucky Revised Statutes 96.172 through 96.188. The Board produces its own water supply and purchases electricity from the Kentucky Utilities Company. On January 1, 1988, the Electric and Water Plant Board acquired the assets and interests of Community Cable Services, Inc. Previously, the cable system was operated as an independent subsidiary of the Board and controlled by a separate Board of Directors. On January 1, 1989, the Electric and Water Plant Board assumed the ownership of the North Woodford Water District facilities in consideration for the assumption of its obligations and liabilities. The Kentucky Public Service Commission approved the acquisition on October 6, 1988. The Board bills and collects sewer charges for the City of Frankfort and school tax for the local city and county school boards.

The financial statements of the Board have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting principles and policies utilized by the Board are described below:

Reporting Entity

The Board is not considered a component unit of the City of Frankfort. The Board operates under the provisions of the Kentucky Revised Statutes mentioned above. Additionally, the City of Frankfort does not exercise financial, budgetary, accounting or administrative controls over the Board. Therefore, the financial statements of the Board are not included in the financial statements of the City of Frankfort.

Basis of Accounting

The Board is accounted for as an enterprise fund which is a type of proprietary fund. Enterprise funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges, or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

The focus of proprietary fund measurement is upon the determination of operating income, changes in net assets, financial position and cash flows. All proprietary funds are accounted for using the accrual basis of accounting.

Electric & Water Plant Board of the City of Frankfort, Kentucky
Notes to Financial Statements (Continued)
June 30, 2011

Note A - Summary of Significant Accounting Policies (Continued)

Purpose of Various Internal Funds

Operating Funds

1. **Water and Electric Revenue Fund** - Chapter 96 of the Kentucky Revised Statutes provides that all revenues of the system shall be placed in this fund as collected. Distributions to other funds are made upon approval of the Electric and Water Plant Board in accordance with the requirements of each fund.
2. **Operations and Maintenance Fund** - This fund was created for the purpose of paying expenses of operating and maintaining the combined water works, electric power, cable, and full service network systems. The amount necessary to meet these expenses is transferred to this fund as needed from the Revenue Fund accounts. Approval of expenditures from this fund is made by the Board upon presentation of request for reimbursement to this fund.

Restricted Funds

1. **Electric and Water Revenue Bonds and Interest Sinking Fund** - This fund was established in accordance with Kentucky Revised Statute 96.182. It provides that a reserve is to be accumulated over a ten year period to equal the average annual interest and principal requirements for such then outstanding.

Budgets and Budgetary Accounting

The Board follows these procedures in establishing budgetary data reflected in the financial statements:

1. Formal budgetary integration is employed as a management control device during the year for all funds.
2. The Board of Directors of the Electric and Water Plant Board approves the budget of the Board.
3. Unused appropriations of the annual budget lapse at the end of the year.
4. The budgeted amounts shown in the financial statements are the final authorized amounts as revised during the year.

Revenue Requirements

The Board is regulated by Kentucky Revised Statute 96.182 concerning the application of revenues earned by the Board. The provisions of Kentucky Revised Statute 96.182 are as follows:

Subject to the provisions of outstanding bonds and contracts, the Board shall apply all funds derived from operations (1) to the payment of operating expenses, (2) to the payment of bond interest and retirement, (3) to sinking fund requirements, (4) to the maintenance of a fund to meet depreciation and the improvements and extension of the plant in an amount equal to six percent (6%) of the undepreciated book value of its property, (5) to the maintenance of a cash working fund equal to one (1) month's revenue, and (6) to the payment of other obligations incurred in the operations and maintenance of the plant and the furnishings of service.

Electric & Water Plant Board of the City of Frankfort, Kentucky
Notes to Financial Statements (Continued)
June 30, 2011

Note A - Summary of Significant Accounting Policies (Continued)

Cash and Cash Equivalents

The Board considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Statutes require that financial institutions pledge approved securities to secure those funds on deposit in an amount equal to the amount of those funds. All deposits and investments were covered by federal depository insurance or by collateral held in the pledging institution's trust department in the Board's name.

Investments

Investments of the Board consist of certificates of deposit which are stated at cost and approximate fair value.

Investments of the Board's retirement plan consist of marketable securities which are reported at fair market value. All investments of the retirement plan are held in trust by a bank. Under the terms of the retirement plan, the trustee has the power to hold, invest, reinvest, purchase insurance on the lives of members, control and disburse funds as set forth in the trust agreement.

Inventory

Materials and supplies inventory are stated at lower of cost or market using average cost to determine unit cost on all items with the exception of chemicals.

Accounts Receivable

Accounts receivable consist of user fees charged to customers for services. Electric and water fees are recorded as accounts receivable and revenue when customers are billed. Telecommunications fees are billed one month in advance and are recorded as unearned revenues when billed.

Allowance for Uncollectible Amounts

The Board records an allowance for doubtful accounts through a charge to earnings and a credit to valuation allowance based on its assessment of the current status of individual accounts. The allowance for doubtful accounts at June 30, 2011 and 2010 was \$219,500 and \$29,000, respectively.

Capital Assets

Capital assets include property, plant and equipment. Expenditures for items having a useful life greater than one year and a cost greater than \$1,000 are capitalized. Capital assets are valued at historical costs or estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at estimated fair value. Depreciation is provided in amounts sufficient to expense the related cost of the depreciable assets to operations over their estimated useful lives on the straight-line basis. The estimated useful lives by type of asset are as follows:

Structure and improvements	30 years
Electric Distribution Systems	30 years
Water Distribution Systems	50 years
Cable Distribution System	10 years
Furniture and Equipment	4-10 years

Electric & Water Plant Board of the City of Frankfort, Kentucky
Notes to Financial Statements (Continued)
June 30, 2011

Note A - Summary of Significant Accounting Policies (Continued)

Accumulated Compensated Absences

It is the Board's policy to permit employees to accumulate limited amounts of earned but unused vacation pay which will be paid to employees upon separation from the Board's service. Vacation pay is accrued in the period in which it is earned.

Pension Plans

The Board became a member of the County Employees' Retirement System (CERS) on July 1, 1988. Eligible employees were enrolled in CERS on that date. Both employer and the employee contribute to this plan. The total estimated cost of entering the system as of July 1, 1988 was \$2,989,322. The original plan for entering the system required annual payments for 24 years from funds available in the Electric and Water Plant Board Retirement Plan and the Board made the annual payments and paid off the balance owed in 2007. The retirees currently being paid benefits by the previously funded Electric and Water Plant Board Retirement Plan will continue to receive their monthly benefits from this retirement plan. The board does not make any payments from the operating accounts.

Restrictions of Net Assets

Operating Revenues and Expenses

Operating revenues are those that are generated directly from the primary activity of the Board, such as charges for utility services. Operating costs are necessary costs that have been incurred in order to provide the goods or services that are the primary activity.

Note B - Investments

Investments of the Board are in certificates of deposit with maturity dates ranging from November 2011 to August 2015.

Interest Rate Risk - The Board does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk - State law limits the type of investment in which the Board may invest its funds. The Board has no investment policy that would further limit its investment choices.

Concentration of Credit - The Board places no limit on the amount it may invest in any one investment.

Electric & Water Plant Board of the City of Frankfort, Kentucky
Notes to Financial Statements (Continued)
June 30, 2011

Note E – Risk Management

The Board is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters for which the Board carries commercial insurance.

The Board has elected to retain risk related to employees' health insurance. The Board maintains insurance coverage for health insurance claims in excess of \$60,000 per person per year (\$300,000 separate individual specific deductible) up to a maximum of \$1,000,000 per person per lifetime in anticipated claims.

The Board pays Wells Fargo a fee to administer this plan. The Board has an insurance escrow account set up as a liability to cover possible future health insurance claims. All claims are paid out of the general funds of the Board.

For the year ended June 30, 2011 and 2010, the Board paid approximately \$2,400,000 and \$1,900,000 in health insurance premiums and claims, respectively. At June 30, 2011 and 2010, the Board had \$374,312 and \$48,855 in accrued expenses related to health insurance premiums and claims, respectively.

Note F - Frankfort Plant Board Municipal Projects Corporation

In October of 1999, the Board of Directors of the Electric and Water Plant Board formed the Frankfort Plant Board Municipal Projects Corporation with the purpose of authorizing and approving the initial financing of the costs of the new improvements to and expansions of the Municipal Cable Television of the Plant Board. The initial financing amounted to \$4,130,000 by means of a lease between the Corporation, as lessor, and the Plant Board, as lessee. The Corporation will provide the lease for the cable system, as improved and expended, to the Plant Board and authorize the assignment of the Corporation's rights and interest under the lease to Farmers Bank & Capital Trust Company.

Note G - Retirement Plans

All employees are covered under the County Employee's Retirement System (CERS), a cost sharing, multiple-employer, public employers' retirement system established under the provisions of Kentucky Revised Statute Section 61.645. Funding for the plan is provided through payroll withholdings of 5.00% and a Board contribution of 16.93% of the employee's total compensation subject to contribution. An employee entering the program after September 1, 2008 is required to contribute an additional 1%. Employer contributions are at an actuarially determined rate.

CERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Kentucky Retirement Systems, 1260 Louisville Road, Frankfort, Kentucky 40601, or by telephone at 502-564-4646.

Required contributions to CERS for the years ended June 30, 2011, 2010 and 2009 were \$1,880,005, \$2,197,862, and \$1,948,288, respectively. The Board made all required contributions.

The plan provides for retirement, disability and death benefits. In addition, a portion of each employer and employee's contribution to CERS is set aside for the funding of post-retirement health care. The health care coverage provided by the retirement system is considered an Other Post Employment Benefit (OPEB) as described in Governmental Accounting Standards Board Statement Number 12. KRS provides statutory authority requiring public employers to fund post-retirement health care through their contribution to CERS.

Electric & Water Plant Board of the City of Frankfort, Kentucky
Notes to Financial Statements (Continued)
June 30, 2011

Note H - Deferred Compensation

Eligible employees can participate in deferred compensation plans administered by the Kentucky Public Employees' Deferred Compensation Authority. The Kentucky Public Employees' Deferred Compensation Authority is authorized under KRS 18A.230 to 18A.275 to provide administration of tax-sheltered supplemental retirement plans for all state employees, public school and university employees, and employees of local political subdivisions that have elected to participate.

These deferred compensation plans permit all full-time employees to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. Participation by eligible employees in the deferred compensation plan is voluntary.

Historical trend information showing the Kentucky Public Employees' Deferred Compensation Authority's progress in accumulating sufficient assets to pay benefits when due is presented in the Kentucky Public Employees' Deferred Compensation Authority's annual financial report. A copy of this report may be requested by writing Kentucky Public Employees' Deferred Compensation Authority at 101 Sea Hero Road, Suite 100, Frankfort, Kentucky 40601-8862 or by telephone at 502-573-7925.

Note I - Contingencies

On March 31, 2010, the IRS selected FSN Note #3 for an examination to evaluate compliance with Federal income tax requirements. The initial IRS Information Document Request indicated it was a random examination. The IRS orally indicated in the fall of 2010 it was expanding the scope of the examination to include FSN Notes #1 through #5. The IRS has not challenged the tax exempt status of FSN Notes #1 through #5. However, the IRS agent has orally indicated that, in its view, an amendment to the Master Credit Agreement in 2006 constituted a reissuance of FSN Notes #1 through #5, resulting in a single issuance for federal tax purposes in an amount greater than the limit for Qualified Tax Exempt Obligations under Section 265(b)(3) of the Code for the years 2007 through 2010. This issue was settled with the IRS in June 2011 and resulted in a settlement payment of \$8,445.

Note J - Prior Period Adjustment and Restatement

During the year ended June 30, 2011, the Board determined that certain user charges which are billed prior to the performance of services were improperly recognized as revenue in the month billed in prior years. The Board restated the June 30, 2010 financial statements to increase deferred revenue by \$525,663, to decrease cable user fees by \$52,408 and to decrease beginning net assets by \$473,255.

**Report on Internal Control Over Financial Reporting and on Compliance
and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with *Government Auditing Standards***

Electric and Water Plan Board of the City of Frankfort, Kentucky
Frankfort, Kentucky

We have audited the accompanying financial statements of the business-type activities of the Electric and Water Plant Board of Frankfort, Kentucky as of and for the year ended June 30, 2011, which collectively comprise the Board's basic financial statements and have issued our report thereon dated May 8, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Board's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Board's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We consider the deficiencies described in the accompanying Schedule of Findings and Questioned Costs as 2011-1 and 2011-2 to be material weaknesses and 2011-3 through 2011-6 to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Board's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Electric & Water Plant Board of the City of Frankfort, Kentucky
Schedule of Findings and Questioned Costs
Year Ended June 30, 2011**

Summary of Auditor's Results

1. The auditor's report expresses an unqualified opinion on the financial statements of the Board.
2. Significant deficiencies and two material weaknesses were disclosed during the audit of the financial statements.
3. No instances of noncompliance material to the financial statements of the Board, which would be required to be reported in accordance with *Government Auditing Standards*, were disclosed during the audit.

Federal Awards

Due to the amount of federal awards being below the \$500,000 threshold, no OMB Circular A-133 audit was performed.

Findings - Financial Statement Audit

2011-1

Criteria: The Plant Board does not have procedures in place to produce a detailed accounts receivable report by customer which provides aging information on receivable balances. A significant adjusting entry was required during the audit to adjust the balance in the allowance for doubtful accounts to cover potentially uncollectible accounts. Monthly accounts receivable activity should be recorded electronically, if possible, to reduce manual processes.

Condition: The allowance for doubtful accounts required a significant adjustment to adequately cover potentially uncollectible accounts.

Cause: The Board does not have adequate procedures in place to ensure that the allowance for doubtful accounts is adequate.

Effect: The Board is not ensuring the adequacy of the allowance for doubtful accounts. A significant audit adjustment was required in relation to the allowance for doubtful accounts.

Response:

The CIBS report titled "Account Balance Report" gives a detailed listing of the Accounts Receivable per the billing system, which ties to the general ledger as of June 30, 2011. During the fiscal year, write offs were discontinued. The write off process was not reinstated until after fiscal year-end. Under the write off process there should be no accounts more than 90 days old. Based on our work flow of billing-late charges-cut off-and write off, an aging report has less significance than in other lines of business. The billing system can integrate with the general ledger; however, in prior years the Finance Director determined that the detailed review performed on the data from CIBS as it was being entered into the general ledger served a greater benefit overall than having the numbers directly input into the general ledger. There are numerous checks and balances in place to ensure that the figures are transferred completely and accurately. Going forward, management will consider integrating our systems and automating some of our processes.

**Electric & Water Plant Board of the City of Frankfort, Kentucky
Schedule of Findings and Questioned Costs
Year Ended June 30, 2011**

2011-2

Criteria: The 2010 financial statements were required to be restated to record deferred revenue for user charges billed prior to the performance of services.

Condition: Revenue recognition policies for user charges were not consistently applied.

Cause: The Board does not have adequate procedures in place to review revenue recognition policies and ensure that unearned revenues are properly deferred.

Effect: The Board was required to restate the 2010 financial statements.

Response: Management will review end of year billings for all services and defer unearned revenue as appropriate.

2011-3

Criteria: The Board should have written accounting policies and procedures to outline employee duties and monthly accounting processes.

Condition: Written policies and procedures would assist in ensuring that all important accounting functions are performed timely and would assist in the event of employee turnover.

Cause: The Board does not have written accounting policies and procedures.

Effect: There is no written documentation of important accounting procedures.

Response: There are numerous Accounting Processes and Procedures documented in the computer system. In addition, there are manuals on hand that support the Payroll system. Checklists are used for the monthly journal entries and balancing procedures are in place that would signal if certain entries had not been made. There has been guidance for the new Finance Director since March 1, 2012.

2011-4

Criteria: Capital assets and depreciation are manually tracked in excel.

Condition: There are a significant number of capital assets which makes it likely that there will be errors in the schedule due to the manual calculations involved.

Cause: The Board does not utilize a software to perform capital asset and depreciation tracking.

Effect: Capital asset updates and depreciation calculations are a manual process.

Response: A Fixed Assets module has been purchased and installed into the Accounting software. There has not been time to get the capital information transferred over into this module nor to start using it with new assets.

**Electric & Water Plant Board of the City of Frankfort, Kentucky
Schedule of Findings and Questioned Costs
Year Ended June 30, 2011**

2011-5

Criteria: Capital asset additions should be grouped by project and clearly identified in the depreciation schedules, assets not in use should be identified and removed from depreciation schedules, projects should not be depreciated until they are placed in service and amounts under the Board's capitalization threshold should be expensed.

Condition: Capital assets are not grouped by project so assets that are no longer in use cannot be identified and removed. Individual invoices related to projects are depreciated as soon as they are purchased, rather than being grouped with the project and depreciated only when placed in service. Assets under the Board's capitalization threshold are capitalized and depreciated.

Cause: The Board does not have appropriate procedures in place over the accounting for capital assets.

Effect: Capital asset schedules may contain assets no longer in use, depreciation is taken on assets prior to being placed into service, immaterial assets that should be expensed are capitalized.

Response:

A Fixed Assets module has been purchased and installed into the Accounting software. There has not been time to get the capital information transferred over into this module nor to start using it with new assets. Even when this does occur, the nature of certain Capital Assets will make it very difficult to ever remove them from the books. This is an industry-wide situation. There is a capitalization policy which identifies the threshold for expense versus capital. This has been thoroughly shared, explained, and reviewed with the Department Heads and other employees that initiate and approve such expenditures. Work order reports are readily available to certain employees and many Work Order reports are distributed to the departments for both review and approval during and/or on completion of the project. It is the responsibility of those individuals to make sure that expenditures are correctly coded. Accounting does review certain expenditures for various reasons but not all expenditures are charged to Work Orders. Assets are not capitalized based on work order entry but rather based on the way the paperwork instructs Purchasing and/or Accounting to enter the purchase. Management will review current practices and work towards use of construction in progress schedules and improvements in recording of capital assets.

2011-6

Criteria: Self-insurance claims should be reviewed to determine if they need to be accrued. Funds appropriated for self-insurance should be reviewed to ensure they are adequate to cover potential future claims.

Condition: Detail of claims outstanding as of year-end are not obtained and accrued as needed. No assessment of the activity in the self-insurance accounts is performed to determine if reserves are adequate.

Cause: The Board does not have appropriate procedures in place over self-insurance liabilities and reserves.

Effect: Liabilities related to self-insurance claims may be understated and reserves set aside for claims may be underfunded.

Response: FPB will request outstanding claims reporting from third party administrators and make the appropriate accrual entries for proper reporting. Other recommendations will be reviewed and taken under advisement.
