@ Martin. Co. resident.

I am total against a high rate water rate. we have been advised, not to drink this water. I buy water to cook with, drink brush my teeth. I really dont like to bath in this water but what is our concern concerning a raise. I dont see us poor folks paying for our officials mistakes. this water isnt decent enough to bath in if we should have an open wound on our body. Martin co is really struggling at this point. its mostly our officials not doing there job rite. so I and a lot others would deeply appreciate your help.

Im a widow, and 89 yrs old, doing the best I can. So money others are in worse shape than I.

And we dont need a higher water rate.

They raised our taxes this year. some dont have feelings for poor folks - I am blessed to have plenty of food to eat, but does little children and the Elders eat well. we dont need more burdens

Please help if you can

I'm praying for your help and our officials.

God Bless
