**SUBJECT: Request for Deviation 807 KAR 5:001, 7 (1) - Number of Copies
Application for Certificate of Public Convenience & Necessity
Louisville Water Company Interconnect Project Construction**

Dear Director Derouen,

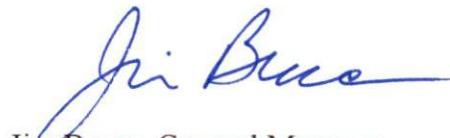

Please let this letter serve as our request for a deviation or waiver from the requirements of 807 KAR 5:001, 7 (1), related to the number of copies required for an application for a Certification of Public Convenience & Necessity - Construction. Our application will be filed with the Commission on February 5, 2016. We plan to submit an original plus 3 copies with that application.

One of the items required is a set of plans and specifications for the proposed project. Our specifications for this project include about 570 pages. To make an additional 7 copies would require printing and binding almost 4,000 pages. Also, the construction plans / drawings have 55 sheets. To have another 7 sets of those plans produced would cost about \$1,500 (as we don't own a blueprint production copier).

We have included the plans and specifications (in addition to originals provided) written to a compact disc with each of the 3 copies. For the total application document, we have also included a complete copy of the application as a portable document format (PDF) with the original application binder.

We appreciate consideration of this waiver request. If you have any questions, please do not hesitate to call me.

Sincerely,

Jim Bruce, General Manager
