PARTIES OF RECORD

RE: Case No. **2016-00323**

The Commission staff has reviewed the application in the above case and finds that it meets the minimum filing requirements and has been accepted for filing.

Enclosed please find a stamped filed copy of the first page of your filing. This case has been docketed and will be processed as expeditiously as possible.

If you need further assistance, please contact my staff at 502-564-3940.

Sincerely,

A handwritten signature in black ink that reads "Talina R. Mathews".

Talina R. Mathews

COMMONWEALTH OF KENTUCKY  
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

**ELECTRONIC APPLICATION OF U.S. 60 WATER DISTRICT )  
OF SHELBY AND FRANKLIN COUNTIES FOR A )  
CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY )  
TO CONSTRUCT AND FINANCE PURSUANT TO KRS 278.020 )  
AND KRS 278.300 )**

**CASE NO:  
2016-00323**

**APPLICATION**

1. The Applicant is a water district created and existing under and by virtue of KRS 74.010 whose full name is U.S. 60 Water District of Shelby and Franklin Counties, Kentucky.
2. The mailing address of the Applicant is:

U.S. 60 Water District  
P.O. Box 97  
Bagdad, Kentucky 40003

The electronic mail address of the Applicant is:

[nswcus60@bellsouth.net](mailto:nswcus60@bellsouth.net)

3. The Applicant, pursuant to KRS 278.020 and KRS 278.300, requests a Certificate of Public Convenience and Necessity permitting the Applicant to construct a waterworks construction project, consisting of extensions, additions, and improvements (the "Project") to the existing waterworks system of the Applicant. The Project proposed by Applicant is the construction of approximately 26,074 linear feet of 12-inch ductile iron pipeline along the northern right-of-way of US Highway 60, parallel to the existing undersized pipeline. The Project will include a variable speed drive booster pump station to feed water from Applicant's new supplier, Shelbyville Municipal Water & Sewer Commission ("Shelbyville"), along the new pipeline to Applicant's existing elevated water storage tank at Peytona. The Project will include seven new fire hydrants. No new customers will be served by this Project. No new easements are required for this Project. The completion of the project will ensure that Applicant has two different wholesale water suppliers to provide service to its customers. Shelbyville is in the process of constructing a connection to the Louisville Water Company ("LWC") which has a virtually unlimited water supply by virtue of LWC's treatment system capacity and Ohio River Raw water supply source. The new supply source from Shelbyville will virtually drought-proof Applicant's wholesale water supply, in contrast with the current system where Applicant's sole supplier, Frankfort Municipal Water & Plant Board ("Frankfort"), draws its water from the Kentucky River, which is a limited
