Regardless of receiving any new features or differences in service, there is a proposal to increase the service fee. How is this acceptable for the consumer? I find it completely unacceptable that many of my family and friends will be impacted negatively by this. That's \$20 for both bills that could be saved for a family vacation, groceries, or general savings. Consumers of utilities should not be expected to make LGE richer for no added value to the service.

Please do not increase the base rates of electricity, LGE. That decreases incentives to save electricity for everyone, and hurts the poor more than anyone. It helps those who use a lot of electricity.

I would like to get solar but it makes less sense with the proposed re structure. Solar users would help lge by reducing demand at peak times so that LGE doesn't have to pay for outside sources at increased cost to produce electricity.

Please encourage the use of solar and wind energy.

Thank you.
