Dear Sirs:

The McKinney water district has filed for a water rate increase of this district. Last year they filed for a 8% rate increase. They got the 8% increase, just because the city of Stanford increased their water rate by 6.8 doesn't mean they should get another increase. I am 75 years old, retired 1 1/2 yrs ago, but yesterday I was out looking for part-time work so I can keep my bills paid. Social security increased my check by \$2.00 last year. My insurance (health) went up \$21.00 and it only covers Dr. & hospital not dental or vision, why can't these companies think about the old people. please do not let the McKinney water district have this increase.

Thank you
Bobbie England
