RE: Case No. 2017-000169

Dear Sir:

In compliance with the agreement reached during the Informal Conference with Staff on July 12, 2017, Atmos Energy is submitting for filing in the record of this proceeding the following supplemental information:

1. The number of curb boxes installed by Atmos Energy over the last three years in connection with its pipe replacement program:

2014 - 364
2015 - 782
2016 - 716
2017 - 168 through July 1, 2017.

2. The projected number of curb boxes to be replaced in the future:

- Atmos Energy currently has 12 pipe replacement projects underway and projects that an additional 550-600 curb boxes will be replaced.
- Atmos Energy projects that 700-800 curb boxes will be installed each year during the balance of the pipe replacement program.

3. Explanation of how Atmos Energy will determine the one-third of curb boxes to be inspected each year:

- The primary criteria will be the geological location of the curb boxes based on GPS coordinates. In other words, the Company will endeavor to inspect those curb boxes located in the same geographic area.
- By way of example, attached are proposed inspection spread sheets for our Campbellsville office location. There are a total of 282 curb boxes installed at this location, with 94 inspections being scheduled for each year starting in 2018.

If further information is needed, please advise.

Very truly yours,

WILSON, HUTCHINSON & LITTLEPAGE

Mark R. Hutchinson
Counsel for Atmos Energy
