**RECEIVED** 

JUL 18 2017

Public Service Commission

The Commission Staff's Second Request For Information To Western Pulaski County Water District

January Vaught

- 1. a. Audit '2016 2015', (provided by Campbell, Myers & Rutledge) (1) original and (5) copies.
  - b. Annual Report '2016' (provided by Jack Pigman CPA)
  - c. Our independent auditor has provided a trial balance sheet which is attached. The trial balance reconciles to the annual report.
- 2. a. The date range was selected due to the Cycle 1 bills went out December 2015. Cycle 1 bills are to be mailed out by the 5<sup>th</sup> of each month, but because we were going from 1 cycle billing to a 2 cycle billing, we mailed the bills a few days early not realizing The issue with the monthly or year end totals.
  - b. The billing analysis was not chosen because it never matches any of the end totals. I have spoken with our software provider, United Systems concerning this issue. They are unsure why the Billing Analysis does not match any report totals and are supposed to be working on it.
  - c. Enclosed with the paperwork, you will find a flash drive with the billing register for the year 2016.

I, Tammy Vaught, Office Manager for the Western Pulaski County Water District have responded to each line item to the best of my knowledge.

#### INDEPENDENT AUDITOR'S REPORT

Board of Directors Western Pulaski County Water District Somerset, Kentucky

#### Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of Western Pulaski County Water District, as of and for the years ended December 31, 2016 and 2015, and the related notes to the financial statements which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud of error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of Western Pulaski County Water District as of December 31, 2016 and 2015 and the respective changes in financial position and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

## Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion on pages 4-6 and the Pension Liability Schedules on pages 23-24 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Statements of Revenues, Expenses and Change in Net Position – Budget and Actual for 2016 and 2015 are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Statements of Revenue, Expenses, and Change in Net Position – Budget and Actual are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Statements of Revenues, Expenses and Change in Net Position – Budget and Actual are fairly stated in all material respects in relation to the basic financial statements as a whole.

## Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 2, 2017 on our consideration of the Western Pulaski County Water District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Western Pulaski County Water District's internal control over financial reporting and compliance.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Western Pulaski County Water District, we offer readers of the District's financial statements this narrative overview of the financial activities of the District for the fiscal years ending December 31, 2016 and 2015. We encourage readers to consider the information presented here in conjunction with the District's financial statements and notes to the basic financial statements to enhance their understanding of the District's financial performance.

### Financial Highlights

For the years ended December 31, 2016 and 2015 total operating and non-operating revenues (including capital contributions) were \$3,217,552 and \$3,410,115, respectively. This decrease is related primarily to a decrease in grant revenue in 2016.

Total operating and non-operating expenses amounted to \$2,920,185 and \$2,789,981, for the years ended December 31, 2016 and 2015.

Total assets and deferred outflows increased by \$215,972, and total liabilities and deferred inflows decreased by \$81,395. These changes resulted in an increase in net position of \$297,367.

During 2016, the District received the remaining balance of grant funds from Rural Development in the amount of \$101,378.

#### Overview of the Financial Statements

This report consists of this Management's Discussion and Analysis report, the Independent Auditor's Report, Financial Statements and Supplementary Information. The financial statements include notes which explain in detail some of the information included in the financial statements.

## **Required Financial Statements**

The financial statements of Western Pulaski County Water District report information of Western Pulaski County Water District using accounting methods similar to those used by private sector companies. These statements offer short and long-term financial information about its activities. The Statement of Net Position includes all of Western Pulaski County Water District's assets and liabilities and provides information about the nature and amounts of investments in resources (assets) and the obligations to Western Pulaski County Water District creditors (liabilities). It also provides the basis for evaluation of the capital structure of Western Pulaski County Water District and assessing the liquidity and financial flexibility of the District.

All of the current year's revenues and expenses are accounted for in the Statement of Revenues, Expenses and Changes in Net Position. This statement measures the success of Western Pulaski County Water District's operations over the past year and can be used to determine whether the District has successfully recovered all its costs through its user fees and other charges, profitability and credit worthiness.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

The final required financial statement is the Statement of Cash Flows. The statement reports cash receipts, cash payments, and net changes in cash resulting from operations, investing and financing activities and provides answers to such questions as where did cash come from, what was cash used for, and what was the change in the cash balance during the reporting period.

## Western Pulaski County Water District Summary of Net Position December 31, 2016 and 2015

	<u> 2016</u>	<u>2015</u>
Assets		
Total Current Assets	\$ 2,077,473	\$ 1,814,619
Total Restricted Assets	527,420	452,791
Net Capital Assets	 12,656, <u>560</u>	 12,852,299
Total Assets	 15,261,453	 15,119,709
Deferred Outflows	 120,697	 46,469
Liabilities		
Total Current Liabilities	592,496	599,730
Total Long-term Liabilities	 5,434,230	 5,511,490
Total Liabilities	 6,026,726	 6,111,220
Deferred Inflows	 46,481	 43,382
Net Position		
invested in capital assets, net of related debt	7,551,560	7,564,299
Restricted for equipment replacement	281,450	217,570
Restricted for debt retirement	245,970	235,221
Unrestricted	 1,229,963	994,486
Total Net Position	\$ 9,308,943	\$ 9,011,576

The largest portion (81%) of the District's net position reflects its investment in capital assets, less any related debt used to acquire those assets still outstanding.

Restricted net position (6%) represent resources that are subject to external restrictions on how they may be used.

The balance (13%) of unrestricted net position may be used to meet the District's ongoing obligations to citizens, consumers and creditors.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

### Western Pulaski County Water District Summary of Changes in Net Position For the Year Ended December 31, 2016 and 2015

	<u>2016</u>	<u>2015</u>
Total operating revenues Total operating expenses	\$ 2,985,445 2,762,481	\$ 2,889,724 2,627,612
Operating income (loss) Total non-operating revenue (expense)	 222,964 (89,835)	262,112 (111,950)
Income before capital contributions	 133,129	150,162
Capital contributions Increase (decrease) in net position	 164,238 297,367	 472,147 622,309
Net position, beginning of year  Net position, end of year	\$ 9,011,576 9,308,943	\$ 8,389,267 9,011,576

Net position increased by \$297,367 from the prior year.

#### Capital Asset Changes

At December 31, 2016, the District had invested \$12,656,560 in capital assets net of accumulated depreciation. This amount represents a net decrease of \$195,739 from the previous year.

#### **Budgetary Highlights**

The Western Pulaski County Water District adopts an annual operating budget after careful considerations of prior year and anticipated current year operations. The operating budget includes proposed expenses and the means to finance them. The District's operating budget remains in effect the entire year and is not revised. A budget comparison and analysis is presented on pages 25-26 of this report.

#### **Debt Administration**

At December 31, 2016, the District had \$5,105,000 bonds outstanding, a decrease of \$183,000 from the prior year's balance of \$5,288,000. The District incurred \$157,704 in interest expense associated with long term debt, a decrease of \$2,490.

#### Request for Information

This financial report is designed to provide our customers and creditors with a general overview of Western Pulaski County Water District's finances and to demonstrate Western Pulaski County Water District's accountability for the funds it receives. If you have any questions about this report or need any additional information, please contact the Western Pulaski County Water District at 1059 West Highway 80, Somerset, KY or by phone (606) 679-1569.

#### Note 1 - Description of Entity and Summary of Significant Accounting Policies

#### Organization

The Western Pulaski County Water District was organized under KRS 74.010 to provide water service to the residents of Western Pulaski County. The District's commissioners are appointed by the Pulaski County Judge-Executive.

The District grants credit to customers, substantially all of whom are local residents and commercial businesses in Western Pulaski County.

#### Measurement Focus and Basis of Accounting

The term *measurement focus* is used to denote what is being measured and reported in the District's financial statements. The District is accounted for on the flow of economic resources measurement focus. Under this measurement focus, all assets and all liabilities associated with the operations are included in the Statement of Net Position.

The term *basis of accounting* is used to determine when a transaction or event is recognized on the District's financial statements. The District uses the full accrual basis of accounting. Under this basis, revenues are recorded when earned and expenses are recorded when incurred, even though actual payment or receipt may not occur until after the period ends.

#### Financial Statement Presentation

The District has elected under GASB Statement No. 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Activities That Use Proprietary Fund Accounting, to apply all applicable GASB pronouncements as well as any applicable pronouncements of the Financial Accounting Standards Board, the Accounting Principles Board, or any Accounting Research Bulletins issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements.

The accounts of the District are organized on the basis of a proprietary fund type, specifically an enterprise fund. The activities of this fund are accounted for with a separate set of self-balancing accounts that comprise the District's assets, liabilities, net position, revenues and expenses. Enterprise Funds account for activities; (i) that are financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity, (ii) that are required by laws or regulations that the activity's costs of providing services, including capital costs (such as depreciation or debt service), be recovered with fees and charges, rather than with taxes or similar revenues, or (iii) that the pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs (such as depreciation or debt service).

The District adopted the provisions of Governmental Accounting Standards Board (GASB) No. 34 "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments." GASB 34 established standards for external financial reporting for all state and local governmental entities which includes a statement of net position, a statement of activities and changes in net position and a statement of cash flows. It requires the classification of net position into three components: (i) invested in capital position, net of related debt, (ii) restricted, and (iii) unrestricted.

## Note 1 - Description of Entity and Summary of Significant Accounting Policies, Continued

These classifications are defined as follows:

- Invested in capital assets, net of related debt This component of net position consists of
  capital assets, net of accumulated depreciation and reduced by the outstanding balances
  of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition,
  construction or improvement of those assets.
- <u>Restricted</u> This component of net position consists of constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- <u>Unrestricted net position</u> This component of net position consists of net position that does not meet the definition of "restricted" or "invested in capital assets, net of related debt."

#### Use of Restricted Funds

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

#### Receivables

The District uses the direct write-off method to account for bad debts. No allowance for bad debts has been provided, as no material write-offs are expected for receivables as of December 31, 2016 and 2015. The direct write-off method does not significantly depart from generally accepted accounting principles.

#### Capital Assets

The utility plant in service is stated at cost. The cost of current repairs, maintenance, and minor replacements is charged to expense as incurred. Depreciation has been provided over estimated useful lives of the assets using the straight-line method. Depreciation expense for the year ending December 31, 2016 and 2015 was \$563,573 and \$547,482, respectively.

The estimated useful lives of capital assets are as follows:

Utility plant 40 - 50 years Equipment 5 - 7 years

#### Cash and Investments

The District considers all highly liquid investments with maturities of three months or less when purchased to be cash equivalents. Investments are reported at fair market value. The District has adopted no formal investment policy.

#### Long-Term Obligations

Long-term debt and other obligations are reported as liabilities on the Statement of Net Position.

#### Inventory

Inventory is valued at cost using the first in, first out method. Inventory in the Proprietary Funds consists of expendable supplies held for future consumption or capitalization. The cost is recorded as an expense or capital addition as inventory items are consumed.

#### Reclassification

Certain amounts in the 2015 financial statements were reclassified to conform to the 2016 presentation.

## Note 1 - Description of Entity and Summary of Significant Accounting Policies, Concluded

#### Operating Revenues and Expenses

Operating revenues and expenses consists of those revenues that result from the ongoing principal operations of the District. Operating revenues consist primarily of charges for services. Nonoperating revenues and expenses consist of those revenues and expenses that are related to financing and investing type of activities and result from nonexchange transactions.

#### Capital Contributions

Transmission and distribution system assets contributed to the District by installers are capitalized at the installers' costs and recorded as capital contributions when received. Also included in capital contributions are various grants received for infrastructure and payments received from customers for tap fees.

#### Income Taxes

The District is exempt from federal and state income taxes.

#### Extraordinary and Special Items

Extraordinary items are transactions or other events that are both unusual in nature and infrequent in occurrence. Special items are significant transactions or other events within the control of management that are either unusual in nature or infrequent in occurrence. If such items exist during the reporting period, they are reported separately in the statement of revenues, expenses and changes in net position.

#### Bond and Interest Redemption Fund

The ordinances authorizing the bond issues require monthly deposits of one-twelfth of the annual bond principal requirement and one-sixth of the semi-annual interest requirement. For the years ended December 31, 2016 and 2015, the District had complied with this requirement.

#### **Use of Estimates**

Preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### Depreciation Fund

The ordinances authorizing the various bond issues of the District require annual transfers of \$29,700 into a depreciation fund until the maximum requirement of \$305,940 is reached. These funds can be used for capital improvements, expansions and extraordinary repairs. For the years ended December 31, 2016 and 2015, the District had complied with this requirement.

#### Compensated Absences

Full time employees with 1-3 years of service receive 1 week of paid vacation, 4-6 years, 2 weeks of vacation, 7-10 years, 3 weeks of vacation and 11 years or more, 4 weeks. Unused vacation time may be carried over from one calendar year to another with a maximum of 4 weeks accrued. Upon retirement or termination, employees are compensated for any currently accrued vacation pay.

Note 2 - Capital Assets

Capital asset activity for the years ended December 31, 2016 and 2015 was as follows:

2016	Beginning Balance	Additions	Deletions	Ending Balance
Capital Assets not being depreclated				
Land and rights	\$ 481,988	\$ 12,950	\$	\$ 494,938

## Note 2 – Capital Assets, Concluded

## Capitalization of Interest:

Interest costs incurred during construction are capitalized. Interest capitalized for the year ended December 31, 2016 and 2015 was \$0 and \$30,871, respectively.

### Note 3 – Long-Term Debt

Long-term debt consists of the following at December 31, 2016 and 2015:

	<u>2016</u>	<u>2015</u>
Series 2002A Water Revenue Bonds issued through Rural Development of the USDA in the amount of \$900,000; due in annual instalments on January 1, through 2042; interest rate of 4.5% due semi-annually on January 1 and July 1.	\$ 756,000	\$ 771,000
Series 2002B Water Revenue Bonds issued through Rural Development of the USDA in the amount of \$550,000; due in annual installments on January 1, through 2042; interest rate of 4.5% due semi-annually on January 1 and July 1.	460,000	469,000
Series 2010 Water Revenue Bonds issued through Rural Development of the USDA in the amount of \$911,000; due in annual installments on January 1, through 2049; interest rate of 2.25% due semi-annually on January 1 and July 1.	837,500	853,000
Series 2012E Water Revenue Bonds issued through Kentucky Rural Water Finance Corporation in the amount of \$2,080,000; (to refund Series 2001A and 2001B revenue bonds) due in annual installments on July 1, through 2035; interest rate of 2.2 - 3.7% due semi-annually on January 1 and July 1.	1,675,000	1,795,000
Series 2013 Water Revenue Bonds issued through Rural Development of the USDA in the amount of \$1,400,000; due in annual installments on January 1, through 2053; interest rate of 2.25% due semi-annually on January 1 and July 1.	1,376,500	 1,400,000
Total Debt	\$ 5,105,000	\$ 5,288,000

### Note 3 – Long-Term Debt, Concluded

Principal and interest maturities of long-term debt are as follows:

	Principal	 Interest		Total
2017	\$ 186,000	\$ 156,035	\$	342,035
2018	192,500	151,308		343,808
2019	196,500	146,063		342,563
2020	202,500	139,791		342,291
2021	210,500	133,291		343,791
2022-2026	1,033,000	561,088		1,594,088

## <u>Arbitrage</u>

The Tax Reform Act of 1986 instituted certain arbitrage restrictions with respect to the issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of all tax-exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the Internal Revenue Service (IRS) at least every five years. The District performed calculations of excess investment earnings on various bonds and at December 31, 2016 and 2015 does not expect to incur a liability.

#### Note 4 - Cash and Investments

The carrying amount of the District's cash deposits was \$2,199,046 and \$1,815,479 for the years ending December 31, 2016 and 2015, respectively and the bank balances were \$2,225,044 and \$1,849,112. The difference between book and bank balances primarily represents checks that have been issued, but have not cleared the bank. All of the District's deposits were either insured by FDIC or by collateral pledged by Citizens National Bank.

#### Note 5 - Pension Plan

Effective July 1, 2014, the District was required to adopt Governmental Accounting Standards Board (GASB) Statement no. 68, "Accounting and Financial Reporting for Pensions" (GASB 68). GASB 68 replaced the requirements of GASB 27, "Accounting for Pensions by State and Local Governmental Employers" and GASB 50, "Pension Disclosures", as they relate to governments that provide pensions through pension plans administered as trusts or similar arrangements that meet certain criteria. GASB 68 requires governments providing defined benefit pensions to recognize their long-term obligation for pension benefits as a liability to more comprehensively and comparably measure the annual costs of pension benefits. Cost-sharing governmental employers, such as the District, are required to report a net pension liability, pension expense and pension-related assets and liabilities based on their proportionate share of the collective amounts for all governments in the plan.

The District participates in the County Employee Retirement System (CERS), a cost-sharing multiple-employer retirement system administered by the Board of Trustees of the Kentucky Retirement Systems (KRS). CERS is a defined benefit plan created by the Kentucky General Assembly. The Plan covers substantially all full-time employees. The Plan provides for retirement, disability, and death benefits to plan members. Retirement benefits may be extended to beneficiaries of plan members under certain circumstances. Cost of living adjustments are provided at the discretion of the State legislature. Benefits fully vest upon reaching five years of service and are established by the state statute. Benefits of CERS members are calculated on the basis of age, final average salary, and service credit.

#### Note 5 - Pension Plan, Continued

For retirement purposes, employees are grouped into three tiers, based on hire date:

Tier 1	Participation date Unreduced retirement Reduced retirement	Before September 1, 2008 27 years service or 65 years old At least 5 years service and 55 years old At least 25 years service and any age
Tier 2	Participation date Unreduced retirement	September 1, 2008 - December 31, 2013 At least 5 years service and 65 years old Or age 57+ and sum of service years plus age equal 87
	Reduced retirement	At least 10 years service and 60 years old
Tier 3	Participation date Unreduced retirement	After December 31, 2013 At least 5 years service and 65 years old Or age 57+ and sum of service years plus age equal 87
	Reduced retirement	Not available

Cost of living adjustments are provided at the discretion of the General Assembly. Retirement is based on a factor of the number of years' service and hire date multiplied by the average of the highest five years' earnings. Reduced benefits are based on factors of both of these components.

CERS issues a stand-alone financial report, which may be obtained from Kentucky Retirement System, 1260 Louisville Road, Frankfort, Kentucky, 40601 or on-line at <a href="https://www.kyret.com">www.kyret.com</a>

Participating employees become eligible to receive the health insurance benefit after at least 180 months of service. Death benefits are provided for both death after retirement and death prior to retirement. Death benefits after retirement are \$5,000 in lump sum. Five years' service is required for death benefits prior to retirement and the employee must have suffered a duty-related death. The decedent's beneficiary will receive the higher of the normal death benefit and \$10,000 plus 25% of the decedent's monthly final rate of pay and any dependent child will receive 10% of the decedent's monthly final rate of pay up to 40% for all dependent children. Five years' service is required for nonservice-related disability benefits.

Required contributions by the employee are based on the tier:

	Required Contribution
Tier 1	5%
Tier 2	5% + 1% for insurance
Tier 3	5% + 1% for insurance

## Note 5 - Pension Plan, Continued

At December 31, 2016, the District reported a liability for its proportionate share of the net pension liability for CERS.

District's proportionate share of the CERS net pension liability \$ 495,402

The net pension liability for each plan was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

The District's proportion of the net pension liability for CERS was based on the actual liability of the employees and former employees relative to the total liability of the System as determined by the actuary. At June 30, 2015, the District's proportion was .01152%.

For the year ended December 31, 2016, the District recognized pension expense of \$97,817. At December 31, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience in the measurement of the total pension liability	\$ 4,117	\$ -
Net difference between projected and actual earnings on pension plan investments	4,441	34,705
Changes in assumptions	49,956	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	-	11,776
District contributions subsequent to the measurement date	62,183 \$ 120,697	<u>-</u> \$ 46,481

#### Note 5 – Pension Plan, Continued

The fiscal year 2016 CERS employer contributions are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ended December 31, 2016. Other amounts reported as deferred outflows and inflows related to pensions will be amortized and recognized in pension expense as follows:

Year Ended	Defer	red Outflows	Deferred Inflows
12/31/2017	\$	16,293	\$ 11,032
12/31/2018		16,293	11,031
12/31/2019		16,293	11,031
12/31/2020		8,747	11,031
12/31/2021		888	2,356
	\$	58,514	\$ 46,481

Actuarial assumptions—The total pension liability in the June 30, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25%
Projected salary increases	4.00%
invesment rate of return, net of investment	
expense and inflation	7.50%

Mortality rates for the period after service retirement are according to the 1983 Group Annuity Mortality Table for all retired employees and beneficiaries as of June 30, 2006 and the 1994 Group Annuity Mortality Table for all other employees. The Group Annuity Mortality Table set forward five years is used for the period after disability retirement.

The long-term expected return on plan assets is reviewed as part of the regular experience studies prepared every five years. The most recent analysis, performed for the period covering fiscal years 2008 through 2013, is outlined in a report dated April 30, 2014. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

#### Note 5 - Pension Plan, Concluded

The following table presents the allocation and long-term expected return on plan assets:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Combined Equity	44.0%	5.4%
Combined Fixed Incom	19.0%	1.5%
Real Return	10.0%	3.5%
Real Estate	5.0%	4.5%
Absolute Return	10.0%	4.3%
Private Equity	10.0%	8.5%
Cash Equivalent	2.0%	-0.25%
Total	100.0%	

Discount rate—The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that contributions from plan employees and employers will be made at statutory contribution rates. Projected inflows from investment earnings were calculated using the long-term assumed investment return of 7.5%. The long-term investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

The following table presents the net pension liability of the District, calculated using the discount rates selected by CERS, as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower and 1-percentage point higher than the current rate.

	1% Decrease	Current Discount Rate	1% Increase
CERS	6.50%	7.50%	8.50%
District's proportionate share of net pension liability	\$632,319	\$495,402	\$377,965

Pension plan fiduciary net position—Detailed information about the pension plan's fiduciary net position is available in the separately issued financial report of CERS.

Non-hazardous plan members are required to contribute 5% of their annual creditable compensation. The Western Pulaski County Water District is required to contribute at actuarially determined rates. The rates for the years ended June 30, 2016 and 2015 were 17.06% and 17.67%, respectively, for non-hazardous employees' annual creditable compensation. The compensation requirements of the plan members of the Western Pulaski County Water District, are established and may be amended by the Board of Trustees of KRS.

For the year ended December 31, 2016, the District's total covered payroll was approximately \$340,000. The District contributed approximately \$62,000 and employees contributed approximately \$17,000.

#### Note 6 - Subsequent Events

Management has evaluated subsequent events through May 2, 2017, the date which the financial statements were available to be issued. In March 2017, the District submitted a filing application with the Public Service Commission (PSC) to request a rate increase of \$2.00 on all minimum water bills.

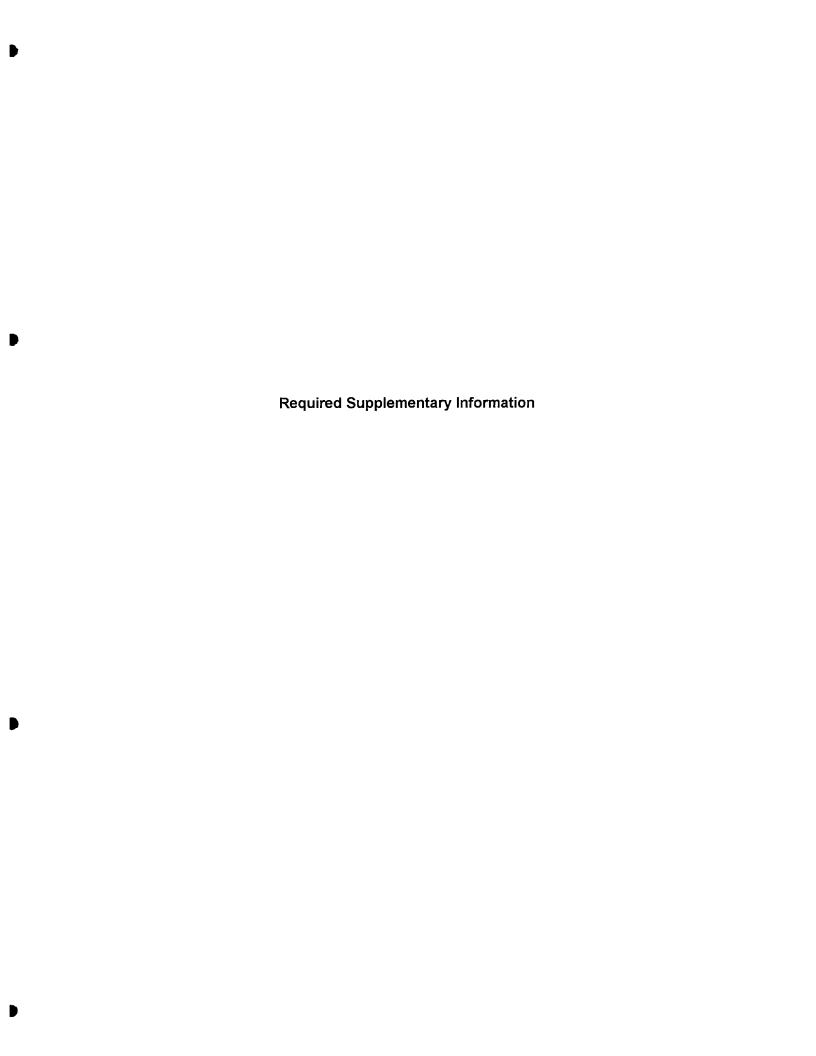

#### Note 7 - Deferred Inflows/Deferred Outflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future periods and thus, will not be recognized as an outflow of resources (expense/expenditure) until then. At December 31, 2016 and 2015 the District reported deferred outflows related to the pension liability in the amount of \$120,697 and \$46,469 respectively.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. At December 31, 2016 and 2015 the District reported deferred inflows related to the pension liability in the amount of \$46,481 and \$43,382, respectively.

#### Note 8 – Commitments

The District has plans to begin a Water System Improvements and Replacements Project in 2017 that includes the construction of the Big Clifty Creek Area Water Main Transmission as well as Hickory Nut Tank. The Kentucky Infrastructure Authority granted preliminary approval of loan funds not to exceed \$3,304,000. The USDA Rural Development approved loan funds in the amount of \$2,255,000 and grant funds in the amount of \$854,000. Bids for the Hickory Nut Tank were advertised in December 2016.

# WESTERN PULASKI COUNTY WATER DISTRICT Schedule of the District's Proportionate Share of the Net Pension Liability County Employees Retirement System December 31, 2016 and 2015

## WESTERN PULASKI COUNTY WATER DISTRICT Schedule of Findings and Responses For the Year Ended December 31, 2016

#### 2016-1

<u>Criteria</u>: Management should communicate regularly with the bookkeeper, review financial statements periodically and ensure that accounts are properly reconciled.

<u>Condition</u>: During the year ended December 31, 2016, it was noted that adjusting journal entries from prior year had not been made and certain receipts and disbursements were misclassified.

<u>Cause</u>: The District had not thoroughly reviewed the financial statements from the bookkeeper nor communicated proper classification of receipts and disbursements in a timely manner.

<u>Effect:</u> Management had to reclassify and reconcile accounts at year end to ensure balances were properly stated.

<u>Recommendation</u>: We recommend that the District review and reconcile financial statements with the bookkeeper on a monthly basis to ensure accounts are properly recorded.

<u>Response</u>: Management understands the importance and will communicate more thoroughly with the bookkeeper, ensuring that all adjusting journal entries are posted.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors Western Pulaski County Water District Somerset, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of Western Pulaski County Water District, as of and for the years ended December 31, 2016 and 2015, and the related notes to the financial statements and have issued our report thereon dated May 2, 2017.

#### Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Western Pulaski County Water District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Western Pulaski County Water District's internal control. Accordingly, we do not express an opinion on the effectiveness of Western Pulaski County Water District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify a certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be a material weakness. 2016-1.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Western Pulaski County Water District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Western Pulaski County Water District's Response to Findings

Western Pulaski County Water District's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Western Pulaski County Water District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
