RE: email to me showing times when tampering occurred. I wrote the following letter to Kenergy supervisor "Pam" but didn't send it to her because she told me that I would pay the amount charged for tampering or not get the power turned on. The email that I received stated "Any unauthorized review, copy, use, disclosure, or distribution is prohibited" so I can't send a copy of that until you tell me it is OK I am sending a copy of the Police Report also. If you need further info, I will be glad to answer every question. Kenergy staff found me guilty of tampering on the meter even though I nor anyone in my family did anything at all to the meter. It seems to me that a logical person would not commit a felony and steal electricity 2 days before they planned to turn it on anyway. I have had electricity with Kenergy for almost 50 years and had more than 1 meter much of that time. I have even donated a small portion of land to help Kenergy upgrade their service lines. I believe I could have made them pay me for an extension of the right-of-way but didn't even ask. I have worked with Kenergy on line clearing and have used my equipment to push trees away from the line. I can't believe this case has escalated this far. If I were guilty, I would have paid the tampering fee and let it end.

6-15-2017

Hi Pam,

Thank you for the information. I don't know how to read it but I take it that the boots removed means that it is working illegally. What about events before I bought the property? I say this because no one has lived there since I bought the property except that William Brown did go in and stay there part of the time. I know he was there the night of the 10th. There was no furniture except a chair so nothing to harm if the doors and windows are closed during rain. He was out of Jail from 6-9-17 until 6-14-17. We learned later that he was out there and set fire to his nieces vehicle during that time. On the morning of the 11th, William Brown was inside the trailer and told my Son he stayed the night before because the mosquitoes were bad outside. The airconditioner was running but since the utilities (as far as we knew) were in his name it didn't raise a flag. The utilities were on a week or 2 before the 9th and 3-4 weeks or so before the 9th because I tried the air conditioner thermostat and it came on. I ran it no more than 2 or 3 minutes just to be sure it worked. No one mentioned the utilities were on illegally until Tuesday the 13th. Since we assumed the electricity was on in William Brown's or someone else's name legally, it didn't matter that electricity was being used.

My Son put new locks on the trailer and left about 6:00-6:30 on the 10th and - after cleaning a little - he came straight to my home and stayed there there until 9:30PM and then went to go to sleep in a camper at my home. I know the

time because my wife gets up early and takes my Mom to church in Nashville Sunday morning. I have a security camera and will be glad to furnish it to the Police dept to get exact times.

My Son went to the trailer Sunday about 4:00 PM on the 11th and stayed until 10:00 or so. The airconditioner was on during all that time. The power was on all during the time frame 4:00 PM through 10:00 PM Sunday. William Brown was there part of the time that my Son was there during the 10th and 11th. He was there on the 9th to meet me and Bob Legate. The meter was not tampered with during the 4-10 PM time frame nor any other time that I or my Son was there.

I tried to file a police report on the meter tampering but the deputy (Rick Lawrence) told me I couldn't file a charge for tampering with the meter because kenergy was the only one who could file that charge. The deputy was called to my home at 9282 Ridgewood RD to file the report. I am enclosing a copy of the report.

I will answer or get answers to any questions you may have.  
Thank you,  
Bill Spainhoward

update: 6-30-2017

As of today, I still have not heard from the utility whether they have ever checked on tampering evidence that occurred before 6-9-2017 nor explained to me how electricity was on every time I checked it before that date.

Thank you,  
William C. Spainhoward

## MEMORANDUM

June 30, 2017

TO: William C. Spainhoward  
FROM: Ken Stock, Vice President Operations  
RE: **Unauthorized meter tampering**

On **6/12/2017** the meter was reconnected at Kenergy member **William C. Spainhoward** at **6772 Hatchett Mill Road** residence in **Spottsville KY**, by someone other than an qualified/authorized representative of Kenergy.

This type of incident violates Kenergy policy and NEC and NESC standards. Kentucky law KRS 514.060. Section 3 states that in the prosecution of theft of service where the utility supplying the service has installed a meter, proof that (b) Service has been, after having been disconnected by the utility supplying service, reconnected without authorization of the utility shall be prima facie (at first glance) evidence of the intent to commit theft. Section 4 states that this is a Class A Misdemeanor and punishable by a fine of between \$500 - \$10,000.

Please follow Kenergy policy and Kentucky State Law when working on an electrical service connected or to be connected to the Kenergy system. Any further disregard for Kenergy policy and Kentucky State law will not be tolerated and legal action may be taken.

Sincerely,

*Ken Stock*

*They have sound me guilty. Neither I nor my son tampered with meter*
