## CUSTOMER NOTICE

Notice is hereby given that the Knox County Utility Commission is filing an application with the Kentucky Public Service Commission seeking approval of a proposed adjustment to its sewer rates. This sewer rate adjustment is necessary because the Barbourville Utility Commission has increased the rate it charges KCUC for providing wastewater treatment services.

### MONTHLY SEWER RATES

|                                  | <u>Current</u> | <u>Proposed</u> | <u>Dollar<br/>Change</u> | <u>Percentage<br/>Change</u> |
|----------------------------------|----------------|-----------------|--------------------------|------------------------------|
| Rate per 1,000<br>gals. of water | \$6.25         | \$9.66          | \$3.41                   | 54.6%                        |

If the Public Service Commission approves the proposed rates, then the monthly bill for a residential customer using an average of 4,000 gallons per month will increase from \$25.00 to \$38.64. This is an increase of \$13.64 or 54.6%. If the proposed rate is approved, the monthly bill for a commercial customer using an average of 8,000 gallons per month will increase from \$50.00 to \$77.28. This is an increase of \$27.28 or 54.6%.

The proposed rates are scheduled to go into effect on January 1, 2018.

The rates contained in this notice are the rates proposed by Knox County Utility Commission. However, the Public Service Commission may order rates to be charged that differ from these proposed rates. Such action may result in rates for consumers other than the rates shown in this notice.

Knox County Utility Commission has available for inspection at its office the application which it submitted to the Public Service Commission. A person may examine this application at Knox County Utility Commission's office located at 1905 KY 930, Barbourville, KY 40906. You may contact the office at 606-546-5300.
