

“Mr. Michael J. Schmitt, Chairman, Ky Public Service Commission, 211 Sower Boulevard, Frankfort, Kentucky, 40601

RECEIVED  
FEB 12 2018  
PUBLIC SERVICE  
COMMISSION

Dear Sir:

I am trying to write you about the travesty that is known as the Martin County water system. It is managed and run by Despots. I hope that you will not allow another rate increase. The Insane Asylum is run by the Inmates applies here in Martin County.

Joe Hammond has been head man for over 25 years. No one knows how he got a lifetime pension with the Water company. He must be 80 years old or close. He doesn't know how to be Diplomatic when talking to angry customers who have been without water for several weeks. When a local reporter went to interview him about no water for most of Martin

County. After a few

“Bye Gary.!”

As long as wiley old Joe is in charge of the henhouse, the situation will never improve.

The late Nola Maynard Antle was treasurer and a co-hort was Chairman. A check for \$150,000 came to the Water company in 1984 or 85. Suddenly people at Martin County Water had Amnesia at the hearing, in Frankfort

NOVA ANTLE bought a new Lexis and  
a home in Ohio. Her only income  
was fixing hair & couple hours  
a day. She quickly moved to Ohio  
no effort was made to trace  
the \$150,000 checks

The Martins county water  
testified "I don't remember"  
for me Heals all wounds, it was a  
~~miracle~~ "miracle"

The Amnesia began to wear  
off! they remembered how to  
get back to Martins county  
given time recognized their  
children & even their wives  
& husbands!!!

Several years ago state audit  
discovered a \$30,000 plus  
shortage & former employee  
had taught & employees how  
to write bad checks

80,000 was spent FOR a  
line pump. a man who had  
helped get water system up  
sold \$70,000 was kick back

make the compile a list of  
names & amounts owed to amount  
to a \$650,000 deficit!

you begin with a 5 per cent increase  
& see who steals that!!!
