**Case No: 2018-00138**

Please file with the above referenced case number.

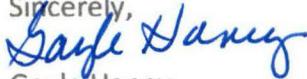

The following information was requested after an informal conference on October 18, 2018.

According to maintenance personnel, there is not a water line on East Church St.

The water line on Main Street is on the other side of the street and would require cutting the blacktop. The best way to get a meter set on the property for Jeff Collins would be to come from the existing main on Montgomery Street.

The water district will be responsible for the necessary easements, and Mr. Collins would need to get a plumbing permit and pay the \$850.00 connection fee.

Sincerely,

Gayle Haney

Sharpsburg Water District
