1. Refer to Big Rivers' response to PSC DR 1-10, wherein Big Rivers states, "[t]he Commission has previously exercised its jurisdiction over the contracts at issue by approving the contracts and amendments thereto." Provide citations to all cases where the Kentucky Public Service Commission ("Commission") approved the contracts at hand, or the amendments thereto.

2. Refer to the attachment to Big Rivers' response to AG DR 1-5.
   a. Did Big Rivers request Commission approval, certificates of public convenience and necessity, or declaratory orders that the same were not necessary for any of the assets listed in the attachment? If so, provide the case number where each were requested and approved.
   b. If the assets listed under plant GL acct. nos. 10103125, 1010312F, or 1010312K were not approved by the Commission, explain why not. If the assets did not receive Commission approval, explain why it is proper for the Commission to create a regulatory asset to later recover these amounts.
   c. Explain why the accumulated depreciation for the asset under plant GL acct. no. 10103125 is positive.
   d. Provide the in-service date, estimated total life and estimated remaining life of the assets listed in the “SII Only Assets” category. For this response, assume the contracts at issue are not terminated.
   e. Confirm that for Big Rivers' $89.5M remaining net book value related to SII, Big Rivers is currently only recovering through rates $3,439,211, as noted in Big Rivers' response to PSC DR 1-4.
      i. If confirmed, further confirm this depreciation rate assumes an average remaining depreciable life of Big Rivers’ portion of SII assets of approximately 26 years.
      ii. If confirmed, further confirm that the only amortization period for the requested regulatory asset that Big Rivers mentions in its application and associated documents is 15 years.
