RE: Case No. 2018-00178

Application of Kentucky RSA #4 Cellular General Partnership d/b/a Bluegrass Cellular For Issuance of a Certificate of Public Convenience and Necessity to Construct a Cell Site in the Commonwealth of Kentucky in the County of Marion

Dear Mrs. Hollon:

This is in response to your letter received on June 13, 2018. The letter has been placed in the official case file of this proceeding and the Commission will carefully analyze this application before rendering its final decision.

By this letter, the attached public comment has been forwarded to the Applicant for a response. Commission Staff requests the Applicant to submit a written response to the public comment, with a copy to the Commission, within 15 days of the date of this letter.

If a person wishes to become a party in this matter he should submit to the Commission a request for intervention, if intervention is desired. If no request for intervention is received within 30 days of the date of this letter, the Commission Staff will presume that the Applicant's reply has satisfied the concerns raised in the attached request for information.

It may be helpful for you to know the state authority, specifically that of the Public Service Commission, in this matter has been limited by federal law. For example, Section 704 of the federal Telecommunications Act of 1996 prohibits this Commission from regulating the placement of wireless facilities on the basis of environmental effects of the radio frequency emissions to the extent that facilities comply with Federal Communications Commission regulations. Section 704 also

prohibits a state or local government from prohibiting telecommunications facilities construction if such denial will have the effect of prohibiting service. In addition, this Commission is required by statute to ensure that utility service, including telecommunications service, is adequate and reliable. The Commission does, however, consider appropriate placement of necessary facilities within applicable engineering boundaries. It also pursues a policy of collocation of facilities whenever possible.

You may view Orders and data requests issued by the Commission or other formal case documents on our website <http://psc.ky.gov>.

Thank you for your letter of interest and concern in this matter.

Sincerely,

A handwritten signature in black ink that reads "Gwen R. Pinson". The signature is written in a cursive style with a large initial 'G'.

Gwen R. Pinson

RECEIVED

JUN 13 2018

PUBLIC SERVICE
COMMISSION

Case Number 2018-00178

We received letter and map concerning tower placement at 149 Preston Loop, Gravel Switch, Marion Co. Ky. 40328. The land within the 500' radius belongs to our son Norris W. Hollon, Jr., 3598 Lancaster Rd. Danville, Ky. 40422. He owns 10 acres next to Preston Loop. A 240 foot tower and equipment shelter may affect value of property.

Our property is adjacent to the 10 acres. He has owned the 10 acres for over 10 years and pays taxes on it. He should be contacted because his property is closer to tower than anyone's.

Sincerely,

Judy Hollon
