Subject: LGE request for increase of electric and gas rates

I am contacting you because Louisville Gas and Electric Company just sent me a notice paper of their request to you to increase their rates by approximately \$12.21 / month for an average residential customer.

LG&E increases our costs frequently but the problem is our income does not increase.

In fact I have done everything they suggest to decrease my usage and improve the efficiency of my usage.

I have new windows and doors.

This year a new AC/furnace. All light bulbs changed to LED.

All appliances have turned over to energy efficient and yet my bill gets higher.

In fact, LGE says 'thanks to customers using more efficient appliances, light bulbs and devices, it's simply longer cost effective to continue offering the recycling program'.

'Over the last decade, the use of energy efficient programs has saved approximately the same amount as the cost of energy that would be provided by a new power plant' See Sept 2018 newsletter

If we have decreased energy use, why didn't the consumer see any decrease in cost?

I am asking you to at last say NO to LGE and their continual increases.

Thank you,
Vicki Lemaster

To whom it may concern, I am against the Louisville Gas & Electric price increases (Case No. 2018-00295. Most of us have a hard time paying our gas & electric bills already. They have a monopoly and all we can do is try to pay them so they do not turn off our utilities. I hope more people took the time to read their mail and are protesting the increase as well. Thank you very much. Denise Monyhan
