Address: 1922 Magazine, Louisville 40203

Case: 2018 50295

COMMENTS: The constant increasing  
of the electric service charges  
is unfair and inequitable. There  
of us who work in jobs  
where there have been  
no wage increases leave  
us without money to  
pay such amounts. Every  
thing is going up in Jefferson  
county except wages.  
L G & E does not credit  
our accounts in the west  
end when there are power  
outages. Neither do we get  
reimburse when there are  
per. of time when our service  
is off for technical reasons  
and food is lost. What is happen  
ing is a two tier system when Black  
people are disenfranchised while  
Whites receive accomodations. no  
to increasing the rate.
