**Bent Tree Condominium Association's Responses to Commission  
Staff's First Request for Information Dated June 27, 2019  
Case No. 2019-00133**

Q-1. Refer to Bent Tree's response to the Kentucky-American Water Company's (Kentucky-American) motion to dismiss. In its response, Bent Tree refers multiple times to the fact that the Kirklevington meter has been tested by Kentucky-American, the Commission, or an independent third party. Bent Tree appears to be hinting that Kentucky-American's testing of the meter is not accurate. State the basis for this belief.

A-1. It appears that Kentucky American Water Company tested one or more meters which were installed at the Kirklevington location (see attachments to emails from KAWC on October 24, 2018). Bent Tree was provided copies of three meter tests via email on October 24, 2018, but it is unclear to Bent Tree from the test results provided which of the several meters installed at various times at the Kirklevington location were tested - one meter or more than one meter. Further, Bent Tree was not provided an opportunity to witness the meter(s) removal or testing. In addition, Bent Tree lacks sufficient knowledge to know whether the meter(s) is still available for testing by the Commission or whether it been discarded or reinstalled for service elsewhere. The only independent consultation paid for by Bent Tree was on the Redding Road meter, which was done only after KAWC mistakenly instructed Bent Tree that the suspected leak was off of the Redding Road meter and that Bent Tree should have an independent leak

**Attachments:** KY AMERICAN METER FLOW REPORT 2-27-201803052018.pdf; BENT TREE QUESTIONS TO KAWC ABOUT CONSUMPTION SINCE APRIL 2016 3-5-201803052018.pdf

Jimmy and Susan:

Am contacting you both since this comes in the middle of the legislative session and I don't want to heap more on Jimmy while he is in Frankfort. He has been very helpful in getting KAWC staff to call me back and to respond to our concerns about the accuracy of our two meters at Bent Tree. However, I seem not be to able to get answers from those folks since October to many important questions that will help Bent Tree determine what kind of leak problem we may or may not have.

To help put all the questions in one place, I have attached the billing and usage records for BOTH of the Bent Tree meters—Kirklevington and Redding Road—AND placed the questions we've been asking on those documents so the reader can see exactly why we are asking them. Those documents also include some helpful notes on the status of Bent Tree occupancy, etc.

Also attached is a copy of a meter flow report from 2-27-2018 with a question or two.

Since Bent Tree is getting frantic about more and more time passing and consumption and bills skyrocketing, can someone provide us with answers by Friday, March 8, 2018, so we can determine a) if we have a leak problem on our side of the meter and, if so, 2) how many gallons per hour is flowing from either a 2" pipe or a ¾" pipe? Those figures will help us determine where to look first if it is determined that the problem is most likely on the Bent Tree side.

Thanks much for you attention to this matter and for letting me impose yet again on our professional friendships.

Brack

Dear Bent Tree Condo,

On February 12, 2018, your water meter was tested for low, intermediate and a full flow of water.

The testing indicated that your meter was registering 100.400 percent at the full flow, 99.500 percent at the intermediate flow, and 101.00 percent at the low flow.

According to regulations set by the Kentucky Public Service Commission, a meter is considered operating in a satisfactory manner if it records water use between 98.5 percent and 101.5 percent of actual usage. We recognize the added financial burden that may have been placed on you due to a higher than normal bill or a leak in your home.

If you would like to discuss a possible payment arrangement for your account or have other questions, please contact our customer service center at the phone number listed below. For water saving ideas and leak detection tips, please visit [www.amwater.com](http://www.amwater.com).

Sincerely,

American Water Customer Service

Q: WHY WAS meter changed at this time?

Q: Please look at consumption 12/1/2016 to 3/1/2018 —

(A) Can you explain the dramatic range of consumption? from 1122.00 in Dec 2016 to 4211.24 in Dec 2017 to 1792.16 in Feb-Mar 2017

(B) If Bent Tree had a major LEAK in its lines, would there be so much fluctuation from month to month — both INCREASE and DECREASES? Wouldn't a leak be expected to REMAIN stable or stay on AN INCREASING track?

 Subject: BENT TREE REQUESTS TO KY AMER WATER RE: Requested Starter Email

A-26

Josh:

Thank you for speaking with me by phone Monday with regard to efforts for Bent Tree Condominium Association, 401 Redding Road, to isolate the probable sector of our property where any water leak may be occurring. Previously, based on information from KAWC, American Leak Detection was unable to duplicate KAWC's findings. Thus, we are seeking KAWC's assistance in double checking all the available information/data before bringing American Leak Detection back to Bent Tree. And, as Mr. Jackson is aware, Bent Tree was constructed in the late 1970s to provide NO way to isolate the water supply to any of our 11 buildings or 44 units. The only shut off valves are those INSIDE each separate and privately owned unit. Thus, the difficulty level in locating the presumed leak is high.

Here are the requests we have been making:

In an effort to make doubly sure we are linking the correct meter to the largest monthly bill:

1. Please confirm in writing to Bent Tree the actual street location for meter 210010850559 . . . Kirklevington or Redding?
2. Please confirm in writing to Bent Tree the actual street location for meter 210010850993 . . . Kirklevington or Redding?

In an effort to understand as fully as possible the "habits" of our "intermittent" leak and explore some non-leak possibilities for water use as outlined by American Leak Detection:

3. Please provide a 24-hour data consumption readout hour-to-hour of BOTH meters for the following dates:
  - April 15 (Sunday)
  - May 15 (Tuesday)
  - June 15 (Friday)
  - July 15 ((Sunday)

Please let me know if any of these requests are unintelligible given that I am not sure I'm using the correct water system terminology . let me know what I can clarify.

Thanks much for your assistance.

Brack Marquette  
Chair  
Bent Tree Condo Association

**EXTERNAL EMAIL - "Think before you click!"**

Jimmy and Susan:

Am contacting you both since this comes in the middle of the legislative session and I don't want to heap more on Jimmy while he is in Frankfort. He has been very helpful in getting KAWC staff to call me back and to respond to our concerns about the accuracy of our two meters at Bent Tree. However, I seem not be to able to get answers from those folks since October to many important questions that will help Bent Tree determine what kind of leak problem we may or may not have.

To help put all the questions in one place, I have attached the billing and usage records for BOTH of the Bent Tree meters—Kirklevington and Redding Road—AND placed the questions we've been asking on those documents so the reader can see exactly why we are asking them. Those documents also include some helpful notes on the status of Bent Tree occupancy, etc.

Also attached is a copy of a meter flow report from 2-27-2018 with a question or two.

Since Bent Tree is getting frantic about more and more time passing and consumption and bills skyrocketing, can someone provide us with answers by Friday, March 8, 2018, so we can determine a) if we have a leak problem on our side of the meter and, if so, 2) how many gallons per hour is flowing from either a 2" pipe or a 3/4" pipe? Those figures help us determine where to look first if it is determined that the problem is most likely on the Bent Tree side.

Thanks much for you attention to this matter and for letting me impose yet again on our professional friendships.

Brack

JEROLD:

Since Our last meeting concerning the suspected Bent Tree Condos Water leak, American leak detection has made a survey of all of the units tied to the meter on Redding Road and have not... NOT ... Been able to corroborate Kentucky Americans findings and estimates for a leak Thus, we are still in a bit of a pickle trying to determine what the exact situation is.

BEFORE we call the leak detection professionals back to our property there are several things that we need to check or re-track... And I need your help as soon as possible on these matters:

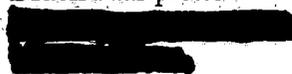

1. Confirmation again that the KAWC flow records you shared with me upon your last visit were indeed for the Redding Road meter
2. Pls provide a new FLOW report for the month of MAY for BOTH meters—Redding Road and Kirklevington ... and EMAIL a copy of those to me so I can have them to share with the leak detection crew.
3. CONTINUE THE “HOLD” on the billing for the account with the large outstanding balance AND please do not disconnect.
4. Please communicate the “HOLD” to LexServe Sewer so their records will be in tandem with those at KAWC.

And, from your perspective and professional experience, what else should Bent Tree be doing to locate the suspected leak?

Thanks,

Brack

Josh:

Thank you for speaking with me by phone Monday with regard to efforts for Bent Tree Condominium Association, 401 Redding Road, to isolate the probable sector of our property where any water leak may be occurring. Previously, based on information from KAWC, American Leak Detection was unable to duplicate KAWC's findings. Thus, we are seeking KAWC's assistance in double checking all the available information/data before bringing American Leak Detection back to Bent Tree. And, as Mr. Jackson is aware, Bent Tree was constructed in the late 1970s to provide NO way to isolate the water supply to any of our 11 buildings or 44 units. The only shut off valves are those INSIDE each separate and privately owned unit. Thus, the difficulty level in locating the presumed leak is high.

Here are the requests we have been making:

In an effort to make doubly sure we are linking the correct meter to the largest monthly bill:

1. Please confirm in writing to Bent Tree the actual street location for meter 210010850559 . . . Kirklevington or Redding?
2. Please confirm in writing to Bent Tree the actual street location for meter 210010850993 . . . Kirklevington or Redding?

In an effort to understand as fully as possible the "habits" of our "intermittent" leak and explore some non-leak possibilities for water use as outlined by American Leak Detection:

3. Please provide a 24-hour data consumption readout hour-to-hour of BOTH meters for the following dates:
  - April 15 (Sunday)
  - May 15 (Tuesday)
  - June 15 (Friday)
  - July 15 ((Sunday)

Please let me know if any of these requests are unintelligible given that I am not sure I'm using the correct water system terminology . . . let me know what I can clarify.

Thanks much for your assistance.

Brack Marquette

Brack,

Thank you taking the time to compose this request email and allowing me the opportunity to provide you with all the information possible to assist in your investigation. First let me address your #3 request by the two attached Data Log Reports. The two reports only run up to 07/05/2018 which would be the day they were pulled but run all the way back to 03/31/2018 showing hourly usage activity between those dates. I realize this does not include 07/15/2018 as per your request however in order to acquire that data we need time to send another tech into the field so that they can pull the report off of the meter before we could provide it to you. We hope that the additional dates on the attached reports will help to make up for missing the 15<sup>th</sup>.

Now I will address your #1 #2 requests. Service orders worked on 07/18/2018 state that account # [REDACTED] or currently meter # 83113574 is located on Redding rd and that account # [REDACTED] or currently meter # 83113560 is located on Kirklevington Dr. Please be aware the field technicians indicated there are locks preventing entry into the vaults where the meters are located. If you do have a question while attempting to track down unexplained usage simply looking at a recent bill, please find two attached, will provide you with the current meter number attached to each one of your accounts. That meter number will be located on the meter itself and can be identified visually.

Jason. Excellent. Tx MUCH. Will take a look at the reports. No worries about July 15...just was picking random dates and days of week to compare consumption when lots of owners home and lots away at work etc.

Back to you all soon on our plan for next step.

Brack,

When reviewing the data log on those 2 inch meters the number that shows in the consumption column is in 100 gallon increments. This is because that is the smallest billing unit we track. Basically sometime in that hour enough water passed through the meter to change the number that indicates 100 gallons of water. Please feel free to reach out to me with any further questions, please do keep in mind I am away from my desk for the rest of this week but I will respond as early as possible.

**Attachments:** [REDACTED] 83113560.pdf; [REDACTED] 83113574.pdf; 0993.pdf; 0559.pdf

Brack,

Thank you taking the time to compose this request email and allowing me the opportunity to provide you with all the information possible to assist in your investigation. First let me address your #3 request by the two attached Data Log Reports. The two reports only run up to 07/05/2018 which would be the day they were pulled but run all the way back to 03/31/2018 showing hourly usage activity between those dates. I realize this does not include 07/15/2018 as per your request however in order to acquire that data we need time to send another tech into the field so that they can pull the report off of the meter before we could provide it to you. We hope that the additional dates on the attached reports will help to make up for missing the 15<sup>th</sup>.

Now I will address your #1 #2 requests. Service orders worked on 07/18/2018 state that account # [REDACTED] or currently meter # 83113574 is located on Redding rd and that account # [REDACTED] or currently meter # 83113560 is located on Kirklevington Dr. Please be aware the field technicians indicated there are locks preventing entry into the vaults where the meters are located. If you do have a question while attempting to track down un explained usage simply looking at a recent bill, please find two attached, will provide you with the current meter number attached to each one of your accounts. That meter number will be located on the meter itself and can be identified visually.

**Subject:** BENT TREE REQUESTS TO KY AMER WATER RE: Requested Starter Email

INTERNAL EMAIL - "Think before you click!"

Josh:

Thank you for speaking with me by phone Monday with regard to efforts for Bent Tree Condominium Association, 401 Redding Road, to isolate the probable sector of our property where any water leak may be occurring. Previously, based on information from KAWC, American Leak Detection was unable to duplicate KAWC's findings. Thus, we are seeking KAWC's assistance in double checking all the available information/data before bringing American Leak Detection back to Bent Tree. And, as Mr. Jackson is aware, Bent Tree was constructed in the late 1970s to provide NO way to isolate the water supply to any of our 11 buildings or 44 units. The only shut off valves are those INSIDE each separate and privately owned unit. Thus, the difficulty level in locating the presumed leak is high.

Here are the requests we have been making:

In an effort to make doubly sure we are linking the correct meter to the largest monthly bill:

1. Please confirm in writing to Bent Tree the actual street location for meter [REDACTED] Kirklevington or Redding?
2. Please confirm in writing to Bent Tree the actual street location for meter [REDACTED] Kirklevington or Redding?

In an effort to understand as fully as possible the "habits" of our "intermittent" leak and explore some non-leak possibilities for water use as outlined by American Leak Detection:

3. Please provide a 24-hour data consumption readout hour-to-hour of BOTH meters for the following dates:

April 15 (Sunday)  
May 15 (Tuesday)  
June 15 (Friday)  
July 15 ((Sunday)

Please let me know if any of these requests are unintelligible given that I am not sure I'm using the correct water system terminology . . . let me know what I can clarify.

Thanks much for your assistance.

Brack Marquette  
Chair  
Bent Tree Condo Association

**Subject:** Requested Starter Email

Mr. Marqcom,

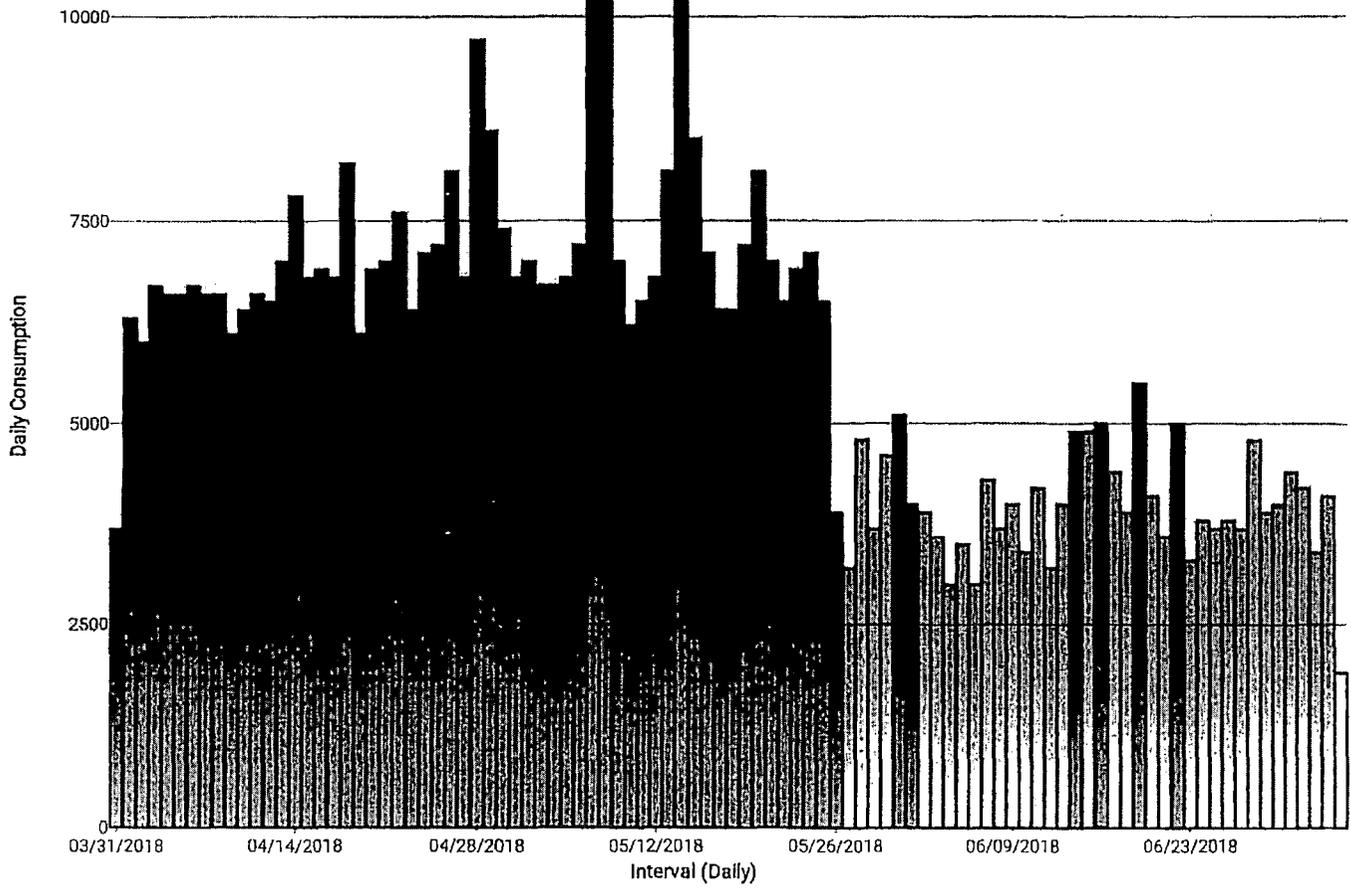

Per our phone conversation here is a starter email. At your convince please send me a list of the requests you have made and been unable to fulfill and I will everything I can to complete the requests for you. Looking forward to working with you on this. please note my direct contact information listed below as well.

### H2O HELP TO OTHERS PROGRAM

Yes, I would like to lend a hand to customers in need by contributing to the H2O HELP TO OTHERS PROGRAM in the amount of \$\_\_\_\_\_ per billing period. I understand this amount will be added to my water bill until further notice.

Sign up for our automatic payment program, and pay your bill on time, every time. No stamps required! To learn more, visit us online at [www.amwater.com/myh2o](http://www.amwater.com/myh2o).

#### WAYS TO PAY YOUR BILL

**Auto Pay Program:** Pay your bill automatically on time, every time by signing up for a free electronic payment transfer from your bank account. Sign up at [amwater.com/myh2o](http://amwater.com/myh2o).

**Online:** Pay anytime through our payment partner at [amwater.com/billpay](http://amwater.com/billpay). There is a \$1.95 vendor service fee for per transaction. To avoid this fee, log on to [amwater.com/myh2o](http://amwater.com/myh2o) and pay by e-check.

**Phone:** Pay anytime through our payment partner's automated phone system at 1-855-748-6066. A \$1.95 vendor service fee applies to all transactions.

**Mail:** Return your check or money order, along with the pre-addressed payment stub, in the envelope provided with your bill.

**In Person:** We have agreements with local businesses to accept payments on our behalf. For a list of authorized payment locations, visit [amwater.com](http://amwater.com) or call us at 1-800-678-6301.

- Please send written correspondence to Customer Service at PO

Box 578, Alton, IL 62002-0578. Be sure to include your name, account number, service address, mailing address and phone number including area code. Please do not include payment along with your correspondence.

- With all correspondence, please include your name, account number, service address, mailing address and telephone number with area code.
- The enclosed envelope is for payment only. Including correspondence in this envelope may delay processing of both your payment and your correspondence.
- Paying by check authorizes American Water to send the information from your check electronically to your bank for payment. The transaction will appear on your bank statement. The physical check will not be presented to your financial institution or returned to you..

**Subject:** REQUEST TO MEET WITH KAWC RE: ONE QUESTION. Re: BENT TREE REQUESTS TO KY AMER WATER RE: Requested Starter Email

Joshua:

Myself and another representative from the Bent Tree Board of Directors would like to have a face-to-face meeting with representatives of KAWC to go over the data you provided us on the two meters that serve the Bent Tree Condominiums. We are particularly interested in determining why the "Kirklevington" meter [REDACTED] has gone from reading 2-3 times its normal (early 2017) volumes earlier this year to now reading at near normal volumes again. We need KAWC advice on whether or not it appears we still have an "intermittent leak" even though the leak has now been determined by KAWC to be on the Kirklevington meter and not the Redding Road meter where we were told to look. Before we contact the leak detection contractor again, we would like to have a meeting at KAWC to go over the data and work toward a plan to cure our problem and pay our bill. Can that be arranged before Aug 17? We have a shut off notice for Aug 20. Thanks . Brack

**Subject:** ONE QUESTION. Re: BENT TREE REQUESTS TO KY AMER WATER RE: Requested Starter Email

Joshua. On the "consumption" column ... is that a rounded off number of GALLONS PER HOUR? Or something else?

Brack;

Thank you taking the time to compose this request email and allowing me the opportunity to provide you with all the information possible to assist in your investigation. First let me address your #3 request by the two attached Data Log Reports. The two reports only run up to 07/05/2018 which would be the day they were pulled but run all the

way back to 03/31/2018 showing hourly usage activity between those dates. I realize this does not include 07/15/2018 as per your request however in order to acquire that data we need time to send another tech into the field so that they can pull the report off of the meter before we could provide it to you. We hope that the additional dates on the attached reports will help to make up for missing the 15<sup>th</sup>.

Now I will address your #1 #2 requests. Service orders worked on 07/18/2018 state that account # [REDACTED] or currently meter # 83113574 is located on Redding rd and that account # [REDACTED] or currently meter # 83113560 is located on Kirklevington Dr. Please be aware the field technicians indicated there are locks preventing entry into the vaults where the meters are located. If you do have a question while attempting to track down un explained usage simply looking at a recent bill, please find two attached, will provide you with the current meter number attached to each one of your accounts. That meter number will be located on the meter itself and can be identified visually.

Subject: BENT TREE REQUESTS TO KY AMER WATER RE: Requested Starter Email

EXTERNAL EMAIL - "Think before you click!"

Josh:

Thank you for speaking with me by phone Monday with regard to efforts for Bent Tree Condominium Association, 401 Redding Road, to isolate the probable sector of our property where any water leak may be occurring. Previously, based on information from KAWC, American Leak Detection was unable to duplicate KAWC's findings. Thus, we are seeking KAWC's assistance in double checking all the available information/data before bringing American Leak Detection back to Bent Tree. And, as Mr. Jackson is aware, Bent Tree was constructed in the late 1970s to provide NO way to isolate the water supply to any of our 11 buildings or 44 units. The only shut off valves are those INSIDE each separate and privately owned unit. Thus, the difficulty level in locating the presumed leak is high.

Here are the requests we have been making:

In an effort to make doubly sure we are linking the correct meter to the largest monthly bill:

1. Please confirm in writing to Bent Tree the actual street location for meter [REDACTED] ... Kirklevington or Redding?

2. Please confirm in writing to Bent Tree the actual street location for meter 210010850993 . . . Kirklevington or Redding?

In an effort to understand as fully as possible the "habits" of our "intermittent" leak and explore some non-leak possibilities for water use as outlined by American Leak Detection:

3. Please provide a 24-hour data consumption readout hour-to-hour of BOTH meters for the following dates:

April 15 (Sunday)  
May 15 (Tuesday)  
June 15 (Friday)  
July 15 ((Sunday)

Please let me know if any of these requests are unintelligible given that I am not sure I'm using the correct water system terminology . . . let me know what I can clarify.

Thanks much for your assistance.

**EXTERNAL EMAIL - "Think before you click!"**

(This note copied to Rachel Cole at LFUCG Sewer Collection as well.)

Joshua:

Since my last email earlier this week requesting that representatives from Bent Tree have the opportunity to meet in person with KAWC representatives to discuss how to best and most efficiently move forward with settling the Bent Tree "Kirklevington" meter water bill, Bent Tree received at CUT-OFF NOTICE from KAWC. Today I spoke with the representatives at American Water 877-230-0718 from whom I received a call and voicemail on Aug 15 concerning Bent Tree's outstanding balance and the cut-off notice. After explaining to the representative at 877-230-0718 that we were awaiting word on our request earlier this week for a meeting with KAWC, the representative offered to extend the HOLD on the Bent Tree billing until SEPTEMBER 15,

So, the Bent Tree Board of Directors wants to expedite finalization of our water bill as quickly as possible now that KAWC has determined that the suspected "intermittent leak" is actually on the "Kirklevington" meter and not on the "Redding Road" meter as KAWC originally advised. PLEASE GIVE US A DATE as soon as possible next week so we can meet with KAWC to work out the finalizing arrangements on our billing.

Much thanks, .

Brack Marquette

Thanks. Has the usage declined since the meters were removed? Please provide a two year billing/usage history.

Which test is for which location? Customer wants all meters at 401 Redding Road since June 2017 tested. Was there more than one meter? (That has already been tested?)

Also, the customer had several questions in their inquiry that weren't answered.

1. Please advise how the meters were read. (Were they estimated? Remotely read?)
2. Customer listed a number of addresses. Are any of them in connected to Bent Tree? (Same owner, etc.)
3. Customer requested a list of the contacts they made to KAWC (by date and subject). Please provide that information.

In response to the most recent inquiries we have provided all current meter tests for this property. We have also provided data logs that were provided to the customer. also email chains have been attached as well as a record of phone calls and the notes that go with them. this may not be all the correspondence from the customer due the customer escalating this issue via the Accounts Resolution Team, Customer Advocate Team, External Affairs Department and also our maintenance team some correspondence may have been missed. All readings used for billings show a reading type of 8 which is an actual RF reading or Radio Frequency. As far as comparison of usage at 401 Redding Rd to any other property we are not able to discuss ones customers information with another customer and have explained this to Bent Tree. As far as KAW is aware 401 Redding Rd is the only address Bent Tree is a customer. The year in question for usage is 2017, upon reviewing the meter number and usage for that year we found the customer started having higher than normal bills in September and October of 2016, the amount of billed gallons being 163,064 and 225,896 respectively. This double and tripled the amount of usage from the just before. This usage occurred on a meter that was not installed during the time frame the customer is disputing. On the document showing the usage history you will see a drop in usage prior the increase being disputed. The decline did happen on the meter that was installed during the time the customer is disputing only being billed for 112,200 gallons. The usage did not increase each month from one to the next but did trend upwards over the course of 2017 peaking near the end being billed for 438,328 gallons in October of 2017. At that point the usage began decreasing. The decrease occurred on the meter that was installed for 2017 was not removed until early 2018. Since the meter has been changed the bills have decreased some however the past couple months are showing and increase again. The most recent bill billing for 218,600 gallons. Looking at the usage history 2018's average usage is still approximately double what it was in 2016 and roughly two thirds what it was in 2017. Please let us know if we can provide anything further on this.

Thank you for contacting the Commission regarding Kentucky-American Water. Kentucky-American has temporarily put a hold on the shut-off order while the PSC complaint is open.

Utilities in Kentucky are required to bill for whatever service goes through the meter, in the absence of a malfunctioning meter. The disputed bills were based on actual meter readings that determined the usage went through the meter. Kentucky-American tested the meter and it was found to be functioning correctly. At your request, a second meter was installed for 24 hours and then tested. Kentucky-American found that 5,236 gallons were used during that 24 hours. The test for the second meter showed that meter was functioning properly. If you are not satisfied with these tests, you can request that the Commission test your meter. Since the bills were based on actual meter readings and the meter has tested accurately, **having the Commission test your meter is the only way to dispute your bill at this point.** Your request for the Commission to test your meter must be in writing to P.O. Box 615, Frankfort, KY 40602. To ensure service is not disconnected, you will need to submit the meter test request by November 7, 2018, which is two weeks from today. The PSC will close the complaint if the request is not received by that time.

To answer your question about how the meter was read, Kentucky-American advised all the meter readings were actual Radio Frequency readings. Kentucky-American also advised that they provided data logs to show when the water was used. (See attached.) The data logs verified the bills were correct.

With regard to your request for information about other multi-unit complexes, Kentucky-American cannot provide information about other customer's accounts with you due to privacy issues.

Kentucky-American provided the attached information regarding Bent Tree Condominium's contact with them. Since contacts Bent Tree made with Kentucky-American were with the Accounts Receivable Team, the Customer Advocate Team, the External Affairs Department, and their maintenance team, the list may not include every contact.

**Subject:** COMPLAINT TO KY PSC Bent Tree Condominium Association Complaint on Ky American Water Company

Kentucky Public Service Commission:

This communication initiates the complaint process by Bent Tree Condominium Association, 401 Redding Road, Lexington, KY 40517 regarding service and billing issues encountered with Kentucky American Water Company throughout 2017 and 2018.

**WITH A KAWC SHUT-OFF ORDER LOOMING AGAIN ON BENT TREE for OCTOBER 15, 2018, this matter is urgent.**

In brief, Bent Tree Condominiums has TWO water meters . . . one located on Kirklevington Road supplies 28 condos and the other located on Redding Road supplies 16 condos. In late summer/early fall of 2017 the consumption and billings for one of these meters nearly doubled and continued at these unusual high rates for 6-7 billing cycles and then, mysteriously, returned to normal levels. All attempts by Bent Tree to understand and address the high billings via communication with Kentucky American Water Company have resulted in long delays in gaining responses from KAWC and very little useable information. Their insistence that Bent Tree owes for this mysterious and temporary sharp rise in consumption lacks adequate proof that the problem lies on the Bent Tree side of the meter.

BOTTOM LINE: readings on the Bent Tree "Kirklevington" meter nearly doubled between June 2017 and February 2018 and then resumed their typical levels thereafter. In pursuit of causes for the exceptional billings, Bent Tree encountered extraordinary long delays in KAWC responses, misdirection from KAWC to pursue leak detection investigations on the wrong ("Redding Road") meter, and numerous other instances of delay and lack of forthcoming information in response to Bent Tree requests. These matters, and others not fully enumerated here, thus, comprise Bent Tree's this complaint to the KY PSC and our appeal for assistance dealing with this matter and KAWC. This complaint communicates Bent Tree's inability to get full disclosure from KAWC and Bent Tree's inability to obtain timely, thorough, and accurate information from KAWC to 1) resolve metering issues and 2) make adjustments, if warranted, in the outstanding balance on the "Kirklevington" meter #83113560 on KAWC account # [REDACTED].

To assist Bent Tree in our efforts to work cooperatively with KAWC, Bent Tree request to the KY PSC includes, but is not limited to, the following:

1. Testing by the KY PSC of all water meters installed at 401 Redding Road since June 2017.
2. Determination of what method was used to obtain all meter readings at 401 Redding Road since June 2017, and when/if the method of obtaining meter readings was changed at any time since June 2017
3. Comparison and accuracy of attributions of water billings and meter readings from numerous multi-unit complexes, both rental and owner-occupied, in the immediate vicinity of Bent Tree at 401 Redding Road including but not limited to:
  - 3050 Kirklevington Road, The Creeks at Kirklevington
  - 3051 Kirklevington Road, Tates Creek Village
  - 3099 Kirklevington Road, Park 3099 Apartments
  - 3101 Kirklevington Road, Kirkwood Village Townhomes
  - 3175 Kirklevington Road, Kirkwood Village Townhomes
  - 3102-3150 Kirklevington Road, Winamere Townhomes
  - 310 Redding Road, Lexington Tennis Club
  - 395 Redding Road, The Oaks Condominiums
  - 400 Redding Road, Kirklevington South Townhouses
  - 421 Redding Road, Aintree Condominiums

Documentation and calendar outlining the date, subject and scope of all customer service inquiries, both by phone and other means, made to KAWC by the Bent Tree Condominium Association since June 2017

Thank you for receiving this complaint on behalf of Bent Tree Condominium Association which stands ready at any time to provide billing records and testimony as well as records of telephone conversations, emails, and other interaction with KAWC since January 2017 should that information be helpful to the KY PSC in assisting Bent Tree.

Respectfully submitted today, October 12, 2018, on behalf of the 44 Bent Tree Owners, we are the Bent Tree Condominium Association Board of Directors,

Shawn Behan

Rick Campbell, CPA

Laura Hall, CPA

Brack,

- o The meter installed at your property for 2017 is re installed at a different address and has not largely altered the customer's bill one way or another since its installation.
- o No corresponding meter changes were located for the property next door
- o Upon review of The Oaks property we find that the two properties are not similar
- o Please feel free to contact us to set up installment terms, thank you.

**EXTERNAL EMAIL - "Think before you click!"**

Josh. Just checking back in as the Oct 15 deadline approaches. Have I accidentally missed seeing some other response from KAWC on those matters we discussed at our joint meeting on Sept 19? TX. Brack.

### Important messages from Kentucky American Water

- Facts About Lead in Drinking Water: Kentucky American Water regularly tests for lead in drinking water based on US Environmental Protection Agency requirements. The results from our latest testing at customer homes in 2015 show that all results are well below the action level of 0.015 mg/L in both our Central and Millersburg Divisions. The highest level detected in our Central Division was 0.005 mg/L and the highest level detected in our Millersburg Division was 0.008 mg/L. For more information about our water quality monitoring and the results of our testing, visit our website at [www.kentuckyamwater.com](http://www.kentuckyamwater.com).
- Local Office: 2300 Richmond Road (Lexington) and 102 Main Street (Owenton).

### H2O HELP TO OTHERS PROGRAM

Yes, I would like to lend a hand to customers in need by contributing to the H2O HELP TO OTHERS PROGRAM in the amount of \$\_\_\_\_\_ per billing period. I understand this amount will be added to my water bill until further notice.

Sign up for our automatic payment program, and pay your bill on time, every time. No stamps required! To learn more, visit us online at [www.amwater.com/myh2o](http://www.amwater.com/myh2o).

#### WAYS TO PAY YOUR BILL

**Auto Pay Program:** Pay your bill on time, every time by signing up for a free electronic payment transfer from your bank account. Sign up at [amwater.com/myh2o](http://amwater.com/myh2o).

**Online:** Pay through our payment partner at [amwater.com/billpay](http://amwater.com/billpay). There is a \$1.95 vendor service fee for all transactions. Want to avoid this fee? Enroll or log on to [amwater.com/myh2o](http://amwater.com/myh2o) and pay by check. There's no fee.

**Phone:** Pay through our payment partner's automated phone system at 855-748-6066. A \$1.95 vendor service fee applies to all transactions.

**Mail:** Return your check or money order, along with the pre-addressed payment stub, in the envelope provided with your bill.

**In Person:** We have agreements with local businesses to accept payments on our behalf. To find an authorized payment agent nearest you, visit [amwater.com](http://amwater.com).

**Don't have Internet:** Obtain locations where you can pay your bill in person by calling 1-800-678-6301.

- Please send written correspondence to Customer Service at: PO Box 578, Alton, IL 62002-0578.
- With all correspondence, please include your name, account number, service address, mailing address and telephone number with area code.
- **The enclosed envelope is for payment only. Including correspondence in this envelope may delay processing of both your payment and your correspondence.**
- Paying by check authorizes American Water to send the information from your check electronically to your bank for payment. The transaction will appear on your bank statement, although your physical check will not be presented to your financial institution or returned to you. The original check will be destroyed after it is processed. This transaction will not enroll you in any American Water automatic debit process and will only occur each time a check is received. Any re-submissions due to insufficient funds may also occur electronically. Please be aware that all checking transactions will remain secure in American Water's check conversion programs.

Josh,

Mr. Brack Marquette has asked that we extend the lock on their account. He is conducting a unit by unit leak inspection and may possibly be calling in a contractor if his efforts to find leaks are unsuccessful.

Brack,

Thank you taking the time to compose this request email and allowing me the opportunity to provide you with all the information possible to assist in your investigation. First let me address your #3 request by the two attached Data Log Reports. The two reports only run up to 07/05/2018 which would be the day they were pulled but run all the way back to 03/31/2018 showing hourly usage activity between those dates. I realize this does not include 07/15/2018 as per your request however in order to acquire that data we need time to send another tech into the field so that they can pull the report off of the meter before we could provide it to you. We hope that the additional dates on the attached reports will help to make up for missing the 15<sup>th</sup>.

Now I will address your #1 #2 requests. Service orders worked on 07/18/2018 state that account # [REDACTED] or currently meter # 83113574 is located on Redding rd and that account # [REDACTED] or currently meter # 83113560 is located on Kirklevington Dr. Please be aware the field technicians indicated there are locks preventing entry into the vaults where the meters are located. If you do have a question while attempting to track down un explained usage simply looking at a recent bill, please find two attached, will provide you with the current meter number attached to each one of your accounts. That meter number will be located on the meter itself and can be identified visually.

**Subject:** BENT TREE REQUESTS TO KY AMER WATER RE: Requested Starter Email

INTERNAL EMAIL - "Think before you click!"

Josh:

Thank you for speaking with me by phone Monday with regard to efforts for Bent Tree Condominium Association, 401 Redding Road, to isolate the probable sector of our property where any water leak may be occurring. Previously, based on information from KAWC, American Leak Detection was unable to duplicate KAWC's findings. Thus, we are seeking KAWC's assistance in double checking all the available information/data before bringing American Leak Detection back to Bent Tree. And, as Mr. Jackson is aware, Bent Tree was constructed in the late 1970s to provide NO way to isolate the water supply to any of our 11 buildings or 44 units. The only shut off valves are those INSIDE each separate and privately owned unit. Thus, the difficulty level in locating the presumed leak is high.

Here are the requests we have been making:

In an effort to make doubly sure we are linking the correct meter to the largest monthly bill:

1. Please confirm in writing to Bent Tree the actual street location for meter [REDACTED] ... Kirklevington or Redding?
2. Please confirm in writing to Bent Tree the actual street location for meter [REDACTED] ... Kirklevington or Redding?

In an effort to understand as fully as possible the "habits" of our "intermittent" leak and explore some non-leak possibilities for water use as outlined by American Leak Detection:

3. Please provide a 24-hour data consumption readout hour-to-hour of BOTH meters for the following dates:

April 15 (Sunday)  
May 15 (Tuesday)  
June 15 (Friday)  
July 15 ((Sunday)

Please let me know if any of these requests are unintelligible given that I am not sure I'm using the correct water system terminology . . . let me know what I can clarify.

Thanks much for your assistance.

Brack Marquette  
Chair  
Bent Tree Condo Association

### Important messages from Kentucky American Water

- Facts About Lead in Drinking Water:** Kentucky American Water regularly tests for lead in drinking water based on US Environmental Protection Agency requirements. The results from our latest testing at customer homes in 2015 show that all results are well below the action level of 0.015 mg/L in both our Central and Millersburg Divisions. The highest level detected in our Central Division was 0.005 mg/L and the highest level detected in our Millersburg Division was 0.008 mg/L. For more information about our water quality monitoring and the results of our testing, visit our website at [www.kentuckyamwater.com](http://www.kentuckyamwater.com).
- Water Rate Adjustment:** In August 2016 the Kentucky Public Service Commission approved new rates for Kentucky American Water customers, effective Aug. 28, 2016. This change is reflected in your bill.
- Local Office:** 2300 Richmond Road (Lexington) and 102 Main Street (Owenton).
- THE DUE DATE PERTAINS TO CURRENT CHARGES ONLY. ANY PAST DUE BALANCE SHOULD BE PAID IMMEDIATELY.**

Customer Service: **1-800-678-6301**

### H2O HELP TO OTHERS PROGRAM

Yes, I would like to lend a hand to customers in need by contributing to the H2O HELP TO OTHERS PROGRAM in the amount of \$\_\_\_\_\_ per billing period. I understand this amount will be added to my water bill until further notice.

Sign up for our automatic payment program, and pay your bill on time, every time. No stamps required! To learn more, visit us online at [www.amwater.com/myh2o](http://www.amwater.com/myh2o).

#### WAYS TO PAY YOUR BILL

**Auto Pay Program:** Pay your bill on time, every time by signing up for a free electronic payment transfer from your bank account. Sign up at [amwater.com/myh2o](http://amwater.com/myh2o).

**Online:** Pay through our payment partner at [amwater.com/billpay](http://amwater.com/billpay). There is a \$1.95 vendor service fee for all transactions. Want to avoid this fee? Enroll or log on to [amwater.com/myh2o](http://amwater.com/myh2o) and pay by e-check. There's no fee.

**Phone:** Pay through our payment partner's automated phone system at 855-748-6066. A \$1.95 vendor service fee applies to all transactions.

**Mail:** Return your check or money order, along with the pre-addressed payment stub, in the envelope provided with your bill.

**In Person:** We have agreements with local businesses to accept payments on our behalf. To find an authorized payment agent nearest you, visit [amwater.com](http://amwater.com).

**Don't have Internet:** Obtain locations where you can pay your bill in person by calling 1-800-678-6301.

- Please send written correspondence to Customer Service at: PO Box 578, Alton, IL 62002-0578.
- With all correspondence, please include your name, account number, service address, mailing address and telephone number with area code.
- **The enclosed envelope is for payment only. Including correspondence in this envelope may delay processing of both your payment and your correspondence.**
- Paying by check authorizes American Water to send the information from your check electronically to your bank for payment. The transaction will appear on your bank statement, although your physical check will not be presented to your financial institution or returned to you. The original check will be destroyed after it is processed. This transaction will not enroll you in any American Water automatic debit process and will only occur each time a check is received. Any re-submissions due to insufficient funds may also occur electronically. Please be aware that all checking transactions will remain secure in American Water's check conversion programs.

**Subject:** Bent Tree Condominium Association 2018 - 2479

In response to the most recent inquiries we have provided all current meter tests for this property. We have also provided data logs that were provided to the customer. also email chains have been attached as well as a record of phone calls and the notes that go with them. this may not be all the correspondence from the customer due the customer escalating this issue via the Accounts Resolution Team, Customer Advocate Team, External Affairs Department and also our maintenance team some correspondence may have been missed. All readings used for billings show a reading type of 8 which is an actual RF reading or Radio Frequency. As far as comparison of usage at 401 Redding Rd to any other property we are not able to discuss ones customers information with another customer and have explained this to Bent Tree. As far as KAW is aware 401 Redding Rd is the only address Bent Tree is a customer. The year in question for usage is 2017, upon reviewing the meter number and usage for that year we found the customer started having higher than normal bills in September and October of 2016, the amount of billed gallons being 163,064 and 225,896 respectively. This double and tripled the amount of usage from the just before. This usage occurred on a meter that was not installed during the time frame the customer is disputing. On the document showing the usage history you will see a drop in usage prior the increase being disputed. The decline did happen on the meter that was installed during the time the customer is disputing only being billed for 112,200 gallons. The usage did not increase each month from one to the next but did trend upwards over the course of 2017 peaking near the end being billed for 438,328 gallons in October of 2017. At that point the usage began decreasing. The decrease occurred on the meter that was installed for 2017 was not removed until early 2018. Since the meter has been changed the bills have decreased some however the past couple months are showing and increase again. The most recent bill billing for 218,600 gallons. Looking at the usage history 2018's average usage is still approximately double what it was in 2016 and roughly two thirds what it was in 2017. Please let us know if we can provide anything further on this.

**Subject:** RE: QUESTION. Re: Bent Tree Condominium Association 2018 - 2479  
**Attachments:** FW: COMPLAINT TO KY PSC Bent Tree Condominium Association Complaint... (9.64 MB)

What e-mail address did you send the November 1 e-mail? It did not come to our Consumer Web Inquiry e-mail box, which is the e-mail address you were provided for correspondence. To whom was your letter addressed? It should have been addressed to Consumer Services.

Per our October 24, 2018 e-mail to you (attached), you were advised that you will need to write and request that the PSC test your meter to continue to dispute the bill (see bold print). The e-mail further states that you would need to submit the test request by November 7 or the PSC will close the informal complaint. To date, that request has not been received and we closed our informal complaint.

Once the request for the Commission to test the meter is received, the Commission will arrange to test the meter. The results will be submitted to you along with Formal Complaint forms, which you can complete if you are still not satisfied. A Formal Complaint is only opened when Formal Complaint forms are sent by Consumer Services after the proper steps are followed. In this case, a Formal Complaint cannot be opened until after a meter test is performed since this is a billing dispute.

In response to the most recent inquiries we have provided all current meter tests for this property. We have also provided data logs that were provided to the customer. also email chains have been attached as well as a record of phone calls and the notes that go with them. this may not be all the correspondence from the customer due the customer escalating this issue via the Accounts Resolution Team, Customer Advocate Team, External Affairs Department and also our maintenance team some correspondence may have been missed. All readings used for billings show a reading type of 8 which is an actual RF reading or Radio Frequency. As far as comparison of usage at 401 Redding Rd to any other property we are not able to discuss ones customers information with another customer and have explained this to Bent Tree. As far as KAW is aware 401 Redding Rd is the only address Bent Tree is a customer. The year in question for usage is 2017, upon reviewing the meter number and usage for that year we found the customer started having higher than normal bills in September and October of 2016, the amount of billed gallons being 163,064 and 225,896 respectively. This double and tripled the amount of usage from the just before. This usage occurred on a meter that was not installed during the time frame the customer is disputing. On the document showing the usage history you will see a drop in usage prior the increase being disputed. The decline did happen on the meter that was installed during the time the customer is disputing only being billed for 112,200 gallons. The usage did not increase each month from one to the next but did trend upwards over the course of 2017 peaking near the end being billed for 438,328 gallons in October of 2017. At that point the usage began decreasing. The decrease occurred on the meter that was installed for 2017 was not removed until early 2018. Since the meter has been changed the bills have decreased some however the past couple months are showing and increase again. The most recent bill billing for 218,600 gallons. Looking at the usage history 2018's average usage is still approximately double what it was in 2016 and roughly two thirds what it was in 2017. Please let us know if we can provide anything further on this.

**Subject:** BENT TREE CONDO ASSOCIATION FORMAL COMPLAINT STATUS KAWC SHUT-OFF NOTICE FOR JAN 25

Ms. Tutt and General Counsel Pinney:

Bent Tree Condominium Association has received a shut-off notice for its "Kirklevington Meter" for January 25, 2019, from Ky American Water Company..

Bent Tree Condominium Association filed a formal complaint against Ky American Water Company and its billings on the "Kirklevington Meter" on November 8, 2018, which was received by the KY PSC on November 9, 2018.

How should Bent Tree Condominium Association respond to this notice from Ky American Water Company?

Again, as stated in many communications over the last six months to KAWC and the KY PSC, Bent Tree Condominium Association is eager to resolve this matter at the earliest possible time and urges both KAWC and the KY PSC to assist us in making that resolution possible.

Sincerely,

Brack Marquette  
President of the Board of Directors  
Bent Tree Condominium Association

**Subject:** RE: BENT TREE CONDO ASSOCIATION FORMAL COMPLAINT STATUS KAWC SHUT-OFF NOTICE FOR JAN 25

Mr. Marquette,

Josh from Kentucky-American just called me. I confirmed to him that Bent Tree had filed a formal complaint with the Commission. He stated that he would put a hold on the disconnection.

We are currently processing the formal complaint. You will hear from soon.

**Subject:** RE: Bent Tree v. KAW  
**Attachments:** 2017.zip; 2018.zip; 2019.zip

Dennis:

As we discussed this afternoon, I have attached invoices for 2017, 2018, and 2019. I think you'll see the elevated usage is in the period August 2017 – January 2018. Usage was well below the elevated usage both before and after that period. I just noticed that I said "August 2018 – January 2018" below. Obviously, I meant "August 2017 – January 2018." I apologize for any confusion.

Lindsey

---

**From:** Ingram III, Lindsey  
**Sent:** Wednesday, June 12, 2019 11:13 AM  
**To:** Dennis Howard (dennisghowardii@gmail.com).  
**Subject:** Bent Tree v. KAW

Dennis:

Bent Tree currently owes KAW a total of \$24,728.93 for the Kirklevington meter premise. Please see the attached most recent bill dated June 5, 2018. No payment has been made on that premise since November 27, 2017.

The elevated usage for that premise occurred generally during the period represented by the 6 combined attached bills for 6 months from August 2018 – January 2018. Usage from those months ranged from about 374,000 gallons to about 438,000 gallons with an average of about 404,000 gallons. The total amount owed for that time period is \$15,160.60.

KAW believes less than \$15,160.60 is truly in dispute in the PSC Complaint case. To derive the amount truly in dispute, KAW has reviewed Bent Tree's usage at this premise since the elevated time period beginning with February 2018 through current (17 months). The average monthly usage for that time period is about 190,000 gallons which is about 47% of the usage observed during the elevated period ( $190,000/404,000 = .47$ ). So KAW believes 53% of the amount due in the elevated period is the amount actually in dispute as it is only that amount which is elevated. Doing the math, that would mean \$8,034 is in dispute ( $\$15,160 \times .53 = \$8,034$ ).

If one takes the total amount owed of \$24,728.93 and subtracts what is truly in dispute of \$8,034, the result is \$16,694.93. KAW believes this is the amount that should be paid immediately to avoid a termination of service for non-payment of water bills. Then, in the PSC Complaint case and absent an agreed resolution between Bent Tree and KAW, the PSC would adjudicate whether Bent Tree owes the \$8,034.

Please advise Bent Tree's position as soon as possible.

#### Important messages from Kentucky American Water

- Water utilities that withdraw water from the Kentucky River are required to collect a "KRA Withdrawal Fee" from their customers. This fee is collected by utilities and provided to the Kentucky River Authority (KRA). The KRA Withdrawal Fee is adjusted annually to reflect usage from the Kentucky River, and may also be adjusted due to fee increases. The latest adjustment to this fee was approved by the Kentucky Public Service Commission in March and was effective March 29, 2017. This change is reflected on your bill.
- Local Office: 2300 Richmond Road (Lexington).

### H2O HELP TO OTHERS PROGRAM

Yes, I would like to lend a hand to customers in need by contributing to the H2O HELP TO OTHERS PROGRAM in the amount of \$\_\_\_\_\_ per billing period. I understand this amount will be added to my water bill until further notice.

Sign up for our automatic payment program, and pay your bill on time, every time. No stamps required! To learn more, visit us online at [www.amwater.com/myh2o](http://www.amwater.com/myh2o).

#### WAYS TO PAY YOUR BILL

**Auto Pay Program:** Pay your bill automatically on time, every time by signing up for a free electronic payment transfer from your bank account. Sign up at [amwater.com/myh2o](http://amwater.com/myh2o).

**Online:** Pay anytime through our payment partner at [amwater.com/billpay](http://amwater.com/billpay). There is a \$1.95 vendor service fee for per transaction. To avoid this fee, log on to [amwater.com/myh2o](http://amwater.com/myh2o) and pay by e-check.

**Phone:** Pay anytime through our payment partner's automated phone system at 1-855-748-6066. A \$1.95 vendor service fee applies to all transactions.

**Mail:** Return your check or money order, along with the pre-addressed payment stub, in the envelope provided with your bill.

**In Person:** We have agreements with local businesses to accept payments on our behalf. For a list of authorized payment locations, visit [amwater.com](http://amwater.com) or call us at 1-800-678-6301

- Please send written correspondence to Customer Service at PO

Box 578, Alton, IL 62002-0578. Be sure to include your name, account number, service address, mailing address and phone number including area code. Please do not include payment along with your correspondence.

- With all correspondence, please include your name, account number, service address, mailing address and telephone number with area code.
- The enclosed envelope is for payment only. Including correspondence in this envelope may delay processing of both your payment and your correspondence.
- Paying by check authorizes American Water to send the information from your check electronically to your bank for payment. The transaction will appear on your bank statement. The physical check will not be presented to your financial institution or returned to you..

### H2O HELP TO OTHERS PROGRAM

Yes, I would like to lend a hand to customers in need by contributing to the H2O HELP TO OTHERS PROGRAM in the amount of \$\_\_\_\_\_ per billing period. I understand this amount will be added to my water bill until further notice.

Sign up for our automatic payment program, and pay your bill on time, every time. No stamps required! To learn more, visit us online at [www.amwater.com/myh2o](http://www.amwater.com/myh2o).

#### WAYS TO PAY YOUR BILL

**Auto Pay Program:** Pay your bill automatically on time, every time by signing up for a free electronic payment transfer from your bank account. Sign up at [amwater.com/myh2o](http://amwater.com/myh2o).

**Online:** Pay anytime through our payment partner at [amwater.com/billpay](http://amwater.com/billpay). There is a \$1.95 vendor service fee for per transaction. To avoid this fee, log on to [amwater.com/myh2o](http://amwater.com/myh2o) and pay by e-check.

**Phone:** Pay anytime through our payment partner's automated phone system at 1-855-748-6066. A \$1.95 vendor service fee applies to all transactions.

**Mail:** Return your check or money order, along with the pre-addressed payment stub, in the envelope provided with your bill.

**In Person:** We have agreements with local businesses to accept payments on our behalf. For a list of authorized payment locations, visit [amwater.com](http://amwater.com) or call us at 1-800-678-6301

- Please send written correspondence to Customer Service at PO

Box 578, Alton, IL 62002-0578. Be sure to include your name, account number, service address, mailing address and phone number including area code. Please do not include payment along with your correspondence.

- With all correspondence, please include your name, account number, service address, mailing address and telephone number with area code.
- The enclosed envelope is for payment only. Including correspondence in this envelope may delay processing of both your payment and your correspondence.
- Paying by check authorizes American Water to send the information from your check electronically to your bank for payment. The transaction will appear on your bank statement. The physical check will not be presented to your financial institution or returned to you..

**Important messages from Kentucky American Water**

- If you would like a copy of our tariff please visit [www.kentuckyamwater.com](http://www.kentuckyamwater.com), call 1-800-678-6301, or visit our customer lobby at 2300 Richmond Road in Lexington anytime between 8 a.m. and 4:30 p.m., Monday through Friday.
- Reduction in Rates: Effective Sept, 1, 2018, the Kentucky Public Service Commission has approved new rates for the majority of our water and sanitary sewer customers that reflect the federal corporate income tax reduction that took effect earlier this year. As a result of these tax cuts, your water and sewer rates have been reduced. This change is reflected in your bill, (This change does NOT apply to Millersburg sewer customers and former Eastern Rockcastle Water Association water customers, Your rates remain the same.)
- \*\*\*IMPORTANT WATER QUALITY MESSAGE: 2017 Kentucky American Water annual water quality report is available. This report contains important information about your drinking
- water. ### H2O HELP TO OTHERS PROGRAM

Yes, I would like to lend a hand to customers in need by contributing to the H2O HELP TO OTHERS PROGRAM in the amount of \$\_\_\_\_\_ per billing period. I understand this amount will be added to my water bill until further notice.

Sign up for our automatic payment program, and pay your bill on time, every time. No stamps required! To learn more, visit us online at [www.amwater.com/myh2o](http://www.amwater.com/myh2o).

#### WAYS TO PAY YOUR BILL

**Auto Pay Program:** Pay your bill automatically on time, every time by signing up for a free electronic payment transfer from your bank account. Sign up at [amwater.com/myh2o](http://amwater.com/myh2o).

**Online:** Pay anytime through our payment partner at [amwater.com/billpay](http://amwater.com/billpay). There is a \$1.95 vendor service fee for per transaction. To avoid this fee, log on to [amwater.com/myh2o](http://amwater.com/myh2o) and pay by e-check.

**Phone:** Pay anytime through our payment partner's automated phone system at 1-855-748-6066. A \$1.95 vendor service fee applies to all transactions.

**Mail:** Return your check or money order, along with the pre-addressed payment stub, in the envelope provided with your bill.

**In Person:** We have agreements with local businesses to accept payments on our behalf. For a list of authorized payment locations, visit [amwater.com](http://amwater.com) or call us at 1-800-678-6301.

• Please send written correspondence to Customer Service at PO

EXPLANATION OF OTHER TERMS

- Payment by Check:** Paying by check authorizes American Water to send the information from your check electronically to your bank for payment. The transaction will appear on your bank statement. The physical check will not be presented to your financial institution or returned to you.
- Estimated Bill:** This occurs when we are unable to read the water meter. Your usage from the same billing period the prior year is used to calculate the estimated bill. The next actual meter reading corrects any over or under estimates.
- Disputes:** If you have questions or complaints about your bill, please call us at 1-800-678-6301 before the due date. If your bill is unusually high, it may indicate that there is a leak in your plumbing. For tips on how to detect leaks and use water wisely, visit us online. You'll find helpful tools under the Water Information menu. Every drop counts!
- Rates:** A detailed listing of charges that make up your bill is available upon request by contacting Customer Service or visiting us online at [kentuckyamwater.com](http://kentuckyamwater.com). Under Customer Service & Billing, select Your Water Rates.
- Correspondence:** Please send written correspondence to PO Box 578, Alton, IL 62002-0578. Be sure to include your name, account number, service address, mailing address and phone number including area code. Please do not send correspondence with your payment, as it may delay processing your payment and correspondence.

SERVICES

- Go Paperless:** Save time. Save money. Sign up for Paperless Billing and Auto Pay on My Account at [amwater.com/myaccount](http://amwater.com/myaccount). Not registered? Log in and be sure to have your account number handy.
- Water Quality:** We take water quality seriously. When it comes to complying with federal drinking water standards, we consistently score better than the industry average. For a copy of the annual water quality report for your area, visit [kentuckyamwater.com](http://kentuckyamwater.com). Under Water Quality, select Water Quality Reports.
- H2O Help To Others:** This program helps low-income customers who qualify with their water bills. For more information, visit [kentuckyamwater.com](http://kentuckyamwater.com). Under Customer Service & Billing, select Low Income Program.

**H2O HELP TO OTHERS PROGRAM - lend a hand to customers in need**

I'm adding a one time contribution of \$\_\_\_\_\_ with my payment.

I'd like to add a recurring contribution to each bill of \$\_\_\_\_\_. I understand this amount will be added to each bill.

#### Understanding Your Bill

The information below defines some of the new terms you may find on your bill:

- **Service Related Charges:** This section includes charges for services related to water, wastewater and fire protection. If applicable, credits and debits for correction to previously billed charges are itemized in this section.
- **Fees and Adjustments:** This section provides details related to additional charges or adjustments for the service period referenced. Fees, when applicable, would include items such as service activation and late payment charges.
- **Pass Through Charges:** Charges in this section, when applicable, are separated from other service related charges to provide visibility into what portion of your bill is being remitted to other entities. Payment received for these charges does not remain with American Water. While we may bill and collect for them, the payments received are passed along to other companies and agencies.
- **Billing Units:** One billing unit equals 100 gallons of water used. If the meter serving your property measures your water use in cubic feet or a different unit of measure, we convert the usage to gallons to make it easier to understand.
- **Average Daily Use:** The gallons shown in the water droplet above represent your average daily water use for the current billing period. Tracking the amount of water you use can help you manage your overall water use from month to month.
- **Still have questions?** We are here to help. Our customer service representatives are available M-F, 7 a.m. to 7 p.m. More information on understanding your bill and charges can also be found on our website. See the link below.

For more information about your charges and rates, please visit:  
<https://amwater.com/kyaw/rates>

Messages from Kentucky American Water

If you would like a copy of our tariff please visit [www.kentuckyamwater.com](http://www.kentuckyamwater.com), call 1-800-678-6301, or visit our customer lobby at 2300 Richmond Road in Lexington anytime between 8 a.m. and 4:30 p.m., Monday through Friday.

**CUSTOMER SERVICE**  
**1-800-678-6301**  
 HOURS: M-F, 7am-7pm ▪ Emergencies: 24/7  
**TTY/TDD FOR THE HEARING IMPAIRED:**  
 711 (and then reference Customer Service number listed above)

**SERVICES**

- Go Paperless:** Save time. Save money. Sign up for Paperless Billing and Auto Pay on My Account at [amwater.com/myaccount](http://amwater.com/myaccount). Not registered? Log in and be sure to have your account number handy.
- Water Quality:** We take water quality seriously. When it comes to complying with federal drinking water standards, we consistently score better than the industry average. For a copy of the annual water quality report for your area, visit [kentuckyamwater.com](http://kentuckyamwater.com). Under Water Quality, select Water Quality Reports.
- H2O Help To Others:** This program helps low-income customers who qualify with their water bills. For more information, visit [kentuckyamwater.com](http://kentuckyamwater.com). Under Customer Service & Billing, select Low Income Program.

**EXPLANATION OF OTHER TERMS**

- Payment by Check:** Paying by check authorizes American Water to send the information from your check electronically to your bank for payment. The transaction will appear on your bank statement. The physical check will not be presented to your financial institution or returned to you.
- Estimated Bill:** This occurs when we are unable to read the water meter. Your usage from the same billing period the prior year is used to calculate the estimated bill. The next actual meter reading corrects any over or under estimates.
- Disputes:** If you have questions or complaints about your bill, please call us at 1-800-678-6301 before the due date. If your bill is unusually high, it may indicate that there is a leak in your plumbing. For tips on how to detect leaks and use water wisely, visit us online. You'll find helpful tools under the Water Information menu. Every drop counts!
- Rates:** A detailed listing of charges that make up your bill is available upon request by contacting Customer Service or visiting us online at [kentuckyamwater.com](http://kentuckyamwater.com). Under Customer Service & Billing, select Your Water Rates.
- Correspondence:** Please send written correspondence to PO Box 578, Alton, IL 62002-0578. Be sure to include your name, account number, service address, mailing address and phone number including area code. Please do not send correspondence with your payment, as it may delay processing your payment and correspondence.

**H2O HELP TO OTHERS PROGRAM - lend a hand to customers in need**

I'm adding a one time contribution of \$\_\_\_\_\_ with my payment.

I'd like to add a recurring contribution to each bill of \$\_\_\_\_\_. I understand this amount will be added to each bill.

**Understanding Your Bill**

The information below defines some of the new terms you may find on your bill:

- Service Related Charges:** This section includes charges for services related to water, wastewater and fire protection. If applicable, credits and debits for correction to previously billed charges are itemized in this section.
- Fees and Adjustments:** This section provides details related to additional charges or adjustments for the service period referenced. Fees, when applicable, would include items such as service activation and late payment charges.
- Pass Through Charges:** Charges in this section, when applicable, are separated from other service related charges to provide visibility into what portion of your bill is being remitted to other entities. Payment received for these charges does not remain with American Water. While we may bill and collect for them, the payments received are passed along to other companies and agencies.
- Billing Units:** One billing unit equals 100 gallons of water used. If the meter serving your property measures your water use in cubic feet or a different unit of measure, we convert the usage to gallons to make it easier to understand.
- Average Daily Use:** The gallons shown in the water droplet above represent your average daily water use for the current billing period. Tracking the amount of water you use can help you manage your overall water use from month to month.
- Still have questions?** We are here to help. Our customer service representatives are available M-F, 7 a.m. to 7 p.m. More information on understanding your bill and charges can also be found on our website. See the link below.

For more information about your charges and rates, please visit:  
<https://amwater.com/kyaw/rates>

# MAKING IT EASY TO UNDERSTAND YOUR NEW BILL

## SIMPLE BILLING. ONE MORE WAY WE KEEP LIFE FLOWING.

How do we know what our customers care about most? We asked. We surveyed 1,000 American Water customers to learn what they liked, didn't like and felt was most important. Your feedback helped us streamline your water bill, so it's simpler and easier to understand. Here's what you'll find:

- Water Quality:** We take water quality seriously. When it comes to complying with federal drinking water standards, we consistently score better than the industry average. For a copy of the annual water quality report for your area, visit [kentuckyamwater.com](http://kentuckyamwater.com). Under Water Quality, select Water Quality Reports.
- H2O Help To Others:** This program helps low-income customers who qualify with their water bills. For more information, visit [kentuckyamwater.com](http://kentuckyamwater.com). Under Customer Service & Billing, select Low Income Program.

**EXPLANATION OF OTHER TERMS**

- Payment by Check:** Paying by check authorizes American Water to send the information from your check electronically to your bank for payment. The transaction will appear on your bank statement. The physical check will not be presented to your financial institution or returned to you.
- Estimated Bill:** This occurs when we are unable to read the water meter. Your usage from the same billing period the prior year is used to calculate the estimated bill. The next actual meter reading corrects any over or under estimates.
- Disputes:** If you have questions or complaints about your bill, please call us at 1-800-678-6301 before the due date. If your bill is unusually high, it may indicate that there is a leak in your plumbing. For tips on how to detect leaks and use water wisely, visit us online. You'll find helpful tools under the Water Information menu. Every drop counts!
- Rates:** A detailed listing of charges that make up your bill is available upon request by contacting Customer Service or visiting us online at [kentuckyamwater.com](http://kentuckyamwater.com). Under Customer Service & Billing, select Your Water Rates.
- Correspondence:** Please send written correspondence to PO Box 578, Alton, IL 62002-0578. Be sure to include your name, account number, service address, mailing address and phone number including area code. Please do not send correspondence with your payment, as it may delay processing your payment and correspondence.

**H2O HELP TO OTHERS PROGRAM - lend a hand to customers in need**

I'm adding a one time contribution of \$\_\_\_\_\_ with my payment.

I'd like to add a recurring contribution to each bill of \$\_\_\_\_\_. I understand this amount will be added to each bill.

**Understanding Your Bill**

The information below defines some of the new terms you may find on your bill:

- **Service Related Charges:** This section includes charges for services related to water, wastewater and fire protection. If applicable, credits and debits for correction to previously billed charges are itemized in this section.
- **Fees and Adjustments:** This section provides details related to additional charges or adjustments for the service period referenced. Fees, when applicable, would include items such as service activation and late payment charges.
- **Pass Through Charges:** Charges in this section, when applicable, are separated from other service related charges to provide visibility into what portion of your bill is being remitted to other entities. Payment received for these charges does not remain with American Water. While we may bill and collect for them, the payments received are passed along to other companies and agencies.
- **Billing Units:** One billing unit equals 100 gallons of water used. If the meter serving your property measures your water use in cubic feet or a different unit of measure, we convert the usage to gallons to make it easier to understand.
- **Average Daily Use:** The gallons shown in the water droplet above represent your average daily water use for the current billing period. Tracking the amount of water you use can help you manage your overall water use from month to month.
- **Still have questions?** We are here to help. Our customer service representatives are available M-F, 7 a.m. to 7 p.m. More information on understanding your bill and charges can also be found on our website. See the link below.

Messages from Kentucky American Water

2019 KRA Fee Adjustment : Water utilities that withdraw water from the Kentucky River are required to collect a "KRA Withdrawal Fee" from their customers. This fee is collected by utilities and provided to the Kentucky River Authority (KRA). This fee is adjusted annually to reflect usage from the Kentucky River, and may also be adjusted due to fee increases. The latest adjustment to this fee was approved by the Kentucky Public Service Commission in March and was effective March 31, 2019. This change is reflected on your bill.

**WE INVEST MORE THAN \$20 MILLION ANNUALLY TO KEEP OUR SYSTEMS STRONG.**

KENTUCKY AMERICAN WATER  
WE KEEP LIFE FLOWING

**CUSTOMER SERVICE**  
1-800-678-6301

TTY/TDD FOR THE HEARING IMPAIRED: 711 (and then reference Customer Service number listed above)

SERVICES

- Go Paperless:** Save time. Save money. Sign up for Paperless Billing and Auto Pay on My Account at [amwater.com/myaccount](http://amwater.com/myaccount). Not registered? Log in and be sure to have your account number handy.
- Water Quality:** We take water quality seriously. When it comes to complying with federal drinking water standards, we consistently score better than the industry average. For a copy of the annual water quality report for your area, visit [kentuckyamwater.com](http://kentuckyamwater.com). Under Water Quality, select Water Quality Reports.
- H2O Help To Others:** This program helps low-income customers who qualify with their water bills. For more information, visit [kentuckyamwater.com](http://kentuckyamwater.com). Under Customer Service & Billing, select Low Income Program.

EXPLANATION OF OTHER TERMS

- Payment by Check:** Paying by check authorizes American Water to send the information from your check electronically to your bank for payment. The transaction will appear on your bank statement. The physical check will not be presented to your financial institution or returned to you.
- Estimated Bill:** This occurs when we are unable to read the water meter. Your usage from the same billing period the prior year is used to calculate the estimated bill. The next actual meter reading corrects any over or under estimates.
- Disputes:** If you have questions or complaints about your bill, please call us at 1-800-678-6301 before the due date. If your bill is unusually high, it may indicate that there is a leak in your plumbing. For tips on how to detect leaks and use water wisely, visit us online. You'll find helpful tools under the Water Information menu. Every drop counts!
- Rates:** A detailed listing of charges that make up your bill is available upon request by contacting Customer Service or visiting us online at [kentuckyamwater.com](http://kentuckyamwater.com). Under Customer Service & Billing, select Your Water Rates.
- Correspondence:** Please send written correspondence to PO Box 578, Alton, IL 62002-0578. Be sure to include your name, account number, service address, mailing address and phone number including area code. Please do not send correspondence with your payment, as it may delay processing your payment and correspondence.

**H2O HELP TO OTHERS PROGRAM - lend a hand to customers in need**

I'm adding a one time contribution of \$\_\_\_\_\_ with my payment.

I'd like to add a recurring contribution to each bill of \$\_\_\_\_\_. I understand this amount will be added to each bill.

**Understanding Your Bill**

The information below defines some of the new terms you may find on your bill:

- Service Related Charges:** This section includes charges for services related to water, wastewater and fire protection. If applicable, credits and debits for correction to previously billed charges are itemized in this section.
- Fees and Adjustments:** This section provides details related to additional charges or adjustments for the service period referenced. Fees, when applicable, would include items such as service activation and late payment charges.
- Pass Through Charges:** Charges in this section, when applicable, are separated from other service related charges to provide visibility into what portion of your bill is being remitted to other entities. Payment received for these charges does not remain with American Water. While we may bill and collect for them, the payments received are passed along to other companies and agencies.
- Billing Units:** One billing unit equals 100 gallons of water used. If the meter serving your property measures your water use in cubic feet or a different unit of measure, we convert the usage to gallons to make it easier to understand.
- Average Daily Use:** The gallons shown in the water droplet above represent your average daily water use for the current billing period. Tracking the amount of water you use can help you manage your overall water use from month to month.
- Still have questions?** We are here to help. Our customer service representatives are available M-F, 7 a.m. to 7 p.m. More information on understanding your bill and charges can also be found on our website. See the link below.

**Messages from Kentucky American Water**

**\*\*\*IMPORTANT WATER QUALITY MESSAGE:** Your annual Water Quality Report can be viewed electronically at [www.amwater.com/ccr/Lexington.pdf](http://www.amwater.com/ccr/Lexington.pdf). If you prefer a paper copy to be sent to you, please contact our Customer Service Center at 866-430-0820.

Even the smallest leak in your water system can cause the loss of thousands of gallons of water each month. That loss means not only is water being wasted, but also that you will probably receive an unnecessarily higher water bill.

The faster you can identify the source of a leak, the faster it can be fixed. If you suspect you might have a leak, our helpful and easy-to-follow leak detection kit can help you find it. We are all responsible for helping to save and conserve water, and we want to help you save water and money.

- Fees and Adjustments:** This section provides details related to additional charges or adjustments for the service period referenced. Fees, when applicable, would include items such as service activation and late payment charges.
- Pass Through Charges:** Charges in this section, when applicable, are separated from other service related charges to provide visibility into what portion of your bill is being remitted to other entities. Payment received for these charges does not remain with American Water. While we may bill and collect for them, the payments received are passed along to other companies and agencies.
- Billing Units:** One billing unit equals 100 gallons of water used. If the meter serving your property measures your water use in cubic feet or a different unit of measure, we convert the usage to gallons to make it easier to understand.
- Average Daily Use:** The gallons shown in the water droplet above represent your average daily water use for the current billing period. Tracking the amount of water you use can help you manage your overall water use from month to month.
- Still have questions?** We are here to help. Our customer service representatives are available M-F, 7 a.m. to 7 p.m. More information on understanding your bill and charges can also be found on our website. See the link below.

Lyndsey

Thank you for the information. I will pass the information along to Bent Tree.

Have a good weekend.

Dennis:

Per our discussion this morning, the check for \$16,694.93 may be dropped off at KAW in their lobby at 2300 Richmond Road. It should go to the attention of Josh Riley who I have copied on this e-mail. He will be there all day today.

Thanks very much.

-Lindsey

Subject: RE: Bent Tree v. KAW

Dennis:

As we discussed this afternoon, I have attached invoices for 2017, 2018, and 2019. I think you'll see the elevated usage is in the period August 2017 – January 2018. Usage was well below the elevated usage both before and after that period. I just noticed that I said "August 2018 – January 2018" below. Obviously, I meant "August 2017 – January 2018." I apologize for any confusion.

Lindsey

Subject: Bent Tree v. KAW

Dennis:

Bent Tree currently owes KAW a total of \$24,728.93 for the Kirklevington meter premise. Please see the attached most recent bill dated June 5, 2018. No payment has been made on that premise since November 27, 2017.

The elevated usage for that premise occurred generally during the period represented by the 6 combined attached bills for 6 months from August 2018 -- January 2018. Usage from those months ranged from about 374,000 gallons to about 438,000 gallons with an average of about 404,000 gallons. The total amount owed for that time period is \$15,160.60.

KAW believes less than \$15,160.60 is truly in dispute in the PSC Complaint case. To derive the amount truly in dispute, KAW has reviewed Bent Tree's usage at this premise since the elevated time period beginning with February 2018 through current (17 months). The average monthly usage for that time period is about 190,000 gallons which is about 47% of the usage observed during the elevated period ( $190,000/404,000 = .47$ ). So KAW believes 53% of the amount due in the elevated period is the amount actually in dispute as it is only that amount which is elevated. Doing the math, that would mean \$8,034 is in dispute ( $\$15,160 \times .53 = \$8,034$ ).

If one takes the total amount owed of \$24,728.93 and subtracts what is truly in dispute of \$8,034, the result is \$16,694.93. KAW believes this is the amount that should be paid immediately to avoid a termination of service for non-payment of water bills. Then, in the PSC Complaint case and absent an agreed resolution between Bent Tree and KAW, the PSC would adjudicate whether Bent Tree owes the \$8,034.

Please advise Bent Tree's position as soon as possible.

Lyndsey

In order to avoid a disruption in water, Bent Tree has agreed to tender the payment of \$16,694.93 as requested. I conveyed this development to you telephonically and it is my understanding you will contact me with the person's name and location who should be willing to accept a check from Bent Tree, ideally today.

Please be advised Bent Tree does not forfeit its right to challenge the reasonableness of this payment in the litigation.
