PUBLIC SERVICE
COMMISSION

July 22, 2019

Dear Commissioner,

I am guilty of not having a ticket.

I just had a new foundation installed. I was trying to save money by doing the excavation myself. The foundation was very expensive, and it used up all our money. The cost was over \$37,000.00.

I had an in-depth conversation with a duke contractor, and we eyeballed a straight line, but there was and !8" loop (plastic) approximately 4-5" deep, I hand dug around the gas line and looked like it was a straight line for about the 2' I dug from the house. I did know I needed a ticket, I also emailed Mr. Lyons about rescheduling the class. I agreed to the class and the fine. I have not heard back.

I ask to please let me stay with this agreement and attend the class.

I haven't worked in over a year due to health issues.

My wife and I are struggling financially so I ask for any type of leniency you can find.
I do apologize for my ignorance.

Sincerely,

Marcus Hensley
