Re: Net Metering

I am writing to express support for the retention of net metering rights for roof top solar panels as they existed prior to the decision passed in SB100 by the 2019 legislature.

On an October day when the temperature is predicted to reach 97 degrees, it seems obvious that we are facing a climate crisis.

We must turn this crisis around and net metering rights is one step in the right direction.

Thank you for your consideration,

Martha Neal Cooke
