IN THE MATTER OF:

THE APPLICATION OF KNOTT COUNTY WATER AND SEWER DISTRICT FOR AN ALTERNATIVE RATE ADJUSTMENT	)))	CASE NO. 2019-00268

KNOTT COUNTY WATER AND SEWER DISTRICT'S
MOTION FOR CONFIDENTIAL TREATMENT

Comes now Knott County Water and Sewer District ("KCWSD"), by counsel, pursuant to KRS 61.878, 807 KAR 5:001, Section 13, and other applicable law, and respectfully requests the Commission to classify and protect certain information provided by the Company in its Responses to Commission Staff's Request for Information as Confidential Information, respectfully stating as follows:

1. Contemporaneous with this filing, KCWSD is tendering responses to data requests previously propounded by Commission Staff. Certain of the information being produced in response to Request No. 3 is personal and confidential in nature and, public disclosure would improperly divulge information which is personal and proprietary to KCWSD's Commissioners.

2. Request No. 3 asks KCWSD to "provide the annual costs of the employee benefits Knott District provided to current members of its Board of Commissioners for 2018 and 2019."

3. In response to this request, KCWSD is providing detailed information regarding benefits and payroll taxes. It is impossible to be responsive to the request without providing information that is specific to each of KCWSD's Commissioners, who have a reasonable expectation of privacy with regard to their total compensation, benefits, and payroll taxes.

KCWSD therefore respectfully requests that the Commissioners' names be afforded confidential treatment.

4. The information described above is hereby designated as the "Confidential Information." The Kentucky Open Records Act exempts from disclosure information that, due to its confidential and proprietary nature, would permit "an unfair commercial advantage to competitors of the entity that disclosed the records," or that would be of use to anyone threatening or targeting public utility infrastructure, if openly disclosed. *See* KRS 61.878(1)(c)1. The Confidential Information was, and remains, integral to KCWSD's effective execution of business decisions. Indeed, as the Kentucky Supreme Court has found, "information concerning the inner workings of a corporation is 'generally accepted as confidential or proprietary.'" *Hoy v. Kentucky Industrial Revitalization Authority*, 904 S.W.2d 766, 768 (Ky. 1995). The information for which confidential treatment is sought satisfies both the common law and statutory requirements for confidential protection.

5. The information for which KCWSD is seeking confidential treatment was developed internally and is not on file with any public agency and is not publicly available from any commercial or other source. The aforementioned information is distributed within KCWSD only to those employees who must have access for business reasons and is generally recognized as confidential and proprietary in the utility industry.

6. KCWSD does not object to limited disclosure of the Confidential Information described herein, pursuant to an acceptable protective agreement entered into with any intervenors with a legitimate interest in reviewing the same for the sole purpose of participating in this case.

7. In accordance with the provisions of 807 KAR 5:001, Section 13(2)(e), KCWSD is filing one copy of the Confidential Information separately under seal, and one copy with the

Confidential Information redacted.

8. KCWSD respectfully requests that the Confidential Information, except as noted below, be withheld from public disclosure for a period of ten years. This will assure that the Confidential Information – if disclosed after that time – will no longer be commercially sensitive so as to likely impair the interests of KCWSD or its employees if publicly disclosed.

9. To the extent the Confidential Information becomes generally available to the public, whether through filings required by other agencies or otherwise, KCWSD will notify the Commission and have its confidential status removed, pursuant to 807 KAR 5:001 Section 13(10)(a).

10. There is currently pending before the Commission a Motion for Confidential Treatment pertaining to the same type of information.

WHEREFORE, KCWSD respectfully requests that the Commission classify and protect as confidential the specific information described herein.

Done this 5th day of November, 2019.

Respectfully submitted,

Mark David Goss

ATTEST:
BY: Carolyn Gayheart DC.
CLERK OF THE FISCAL COURT OF KNOTT COUNTY

74.020 Appointment of commissioners -- Number -- Terms -- Removal -- Vacancies -- Organization -- Bond -- Compensation.

(1) A water district shall be administered by a board of commissioners which shall control and manage the affairs of the district. The term of each commissioner is four (4) years, except as provided in this section:

(a) If a district lies wholly within a single county, or operates as a single-county district, as provided in paragraph (c) of this subsection, the board of commissioners shall be composed of either three (3) or five (5) members as the county judge/executive shall determine. Members of the board shall be residents of the district, or of any incorporated or unincorporated area served by the district in the county in which the district was originally established, who shall be appointed by the county judge/executive with the approval of the fiscal court. If two (2) or more water districts within a single county merge as described in KRS 74.361, the county judge/executive may appoint up to two (2) additional commissioners with the approval of the fiscal court. Initial appointments shall be for terms of two (2), three (3), and four (4) years, as designated by the court.

(b) Except as provided in paragraph (c) of this subsection, if a district formed in a single county extends its area to include territory in an adjacent county, as provided by KRS 74.115, the board of commissioners shall be appointed by the county judges/executive with the approval of the fiscal courts of the concerned counties as follows: in two (2) county districts, three (3) members from the original district and two (2) members from the extended portion of the district; for extensions into three (3) or more counties, the respective county judges/executive, with the approval of the fiscal courts, shall appoint, in addition to the existing membership of the commission, two (2) members from the original one-county district and two (2) members from the newly extended portion of the district. Orders establishing the extension shall provide for the staggering of initial terms in an equitable manner.

(c) If a single-county district administered as provided in paragraph (a) of this subsection shall acquire an existing water or gas distribution system serving an area which extends beyond the boundaries of the district into another county, or if a district formed in a single county extends its area to include territory in an adjacent county as provided by KRS 74.115, it may operate the distribution system so acquired, or extended, if the area served outside the county shall be deemed to be a minor portion of the total area served by the district, and if the fiscal court of the county containing the minor portion of the total area shall have agreed to the acquisition or to the extension of the distribution system. If less than twenty-five percent (25%) of the total assets of the distribution system are located within the county outside of the boundaries of the district, it shall be conclusively presumed that the district comes within the terms of this subsection.

(2) A commissioner may be removed from office as provided by KRS 65.007.

(3) A commissioner who participates in any official action by the water district board of commissioners which results in a direct financial benefit to him may be removed from office as provided by KRS 65.007.

(4) Vacancies shall be filled by the same appointing authority which is empowered to make the original appointment. Vacancies resulting from cause other than expiration of the term shall be filled for the unexpired term only. Notwithstanding the provisions of KRS 67.710, a vacancy resulting from the expiration of a term shall be filled by the Public Service Commission if, within ninety (90) days following the expiration of the term, the vacancy has not been filled by the appropriate county judge/executive with approval of the fiscal court.

(5) The commission shall elect a chairman, secretary, and treasurer. Each commissioner shall execute a bond, approved by the county judge/executive, conditioned on the faithful performance of the duties of his position.

(6) Each commissioner shall receive an annual salary of not more than thirty-six hundred dollars ($3,600), which shall be paid out of the water district fund, except that beginning January 1, 1999, each commissioner who completes during an educational year a minimum of six (6) instructional hours of water district management training approved by the Public Service Commission may receive an annual salary of not more than six thousand dollars ($6,000) to be paid out of the water district fund. An educational year shall begin on January 1 and end on the following December 31. In the case of single-county districts, which shall be deemed to include districts described in paragraph (c) of subsection (1) of this section, the salary shall be fixed by the county judges/executive with the approval of the fiscal court; in multicounty districts, it shall be fixed by the agreement between the county judges/executive with the approval of their fiscal courts. In fixing and approving the salary of the commissioners, the county judge/executive and the fiscal court shall take into consideration the financial condition of the district and its ability to meet its obligations as they mature.

(7) (a) In order to receive an increase in salary as specified in subsection (6) of this section, commissioners shall successfully complete six (6) instructional hours of water district management training annually. The training shall be approved and paid for by the water district of the county the commissioner represents. Those commissioners not required to complete the six (6) instructional hours shall be reimbursed for the cost of instruction if they choose to complete the water district training.

(b) The Public Service Commission shall be responsible for the regulation of all water district management training programs for commissioners of water districts, combined water, gas, or sewer districts, or water commissions.

(c) The Public Service Commission shall encourage and promote the offering of high quality water district management training programs that enhance a water district commissioner's understanding of his or her responsibilities and duties. The commission shall, no later than January 1, 1999, establish standards and procedures to evaluate, accredit, and approve water district management training programs.

(d) The Public Service Commission may promulgate administrative regulations in accordance with the provisions of KRS Chapter 13A to implement this section.

Knott County Water and Sewer District
Case No. 2019-00268
Attorney General of Kentucky's First Request for Information
issued September 6, 2019

4. Refer to Knott District's Response to Letcher County Water and Sewer District and City of Hindman's First Request for Information, Item 17, page 1 of 7. KRS 74.020(6) states that a water district commissioner's "salary shall be fixed by the county judge/executive with the approval of the fiscal court." Provide an explanation for Knott District's statement in Item 17 that "[t]he Knott District Board has chosen to implement KRS 74.020(6) in setting Commissioners' salaries."

Response:

The Response to Item 17 was incomplete and left the impression that the Board set its own salary which is incorrect. The full response should have been as follows:

"[t]he Knott District Board has chosen to implement KRS 74.020(6) in setting Commissioners' salaries as per Knott Fiscal Court Resolution dated May 20, 2019."

The May 20, 2019 Resolution is attached as page 2 of 6 in response to Item 1.
