DEFENDANT)	

ORDER

Kentucky-American Water Company (Kentucky-American) is hereby notified that it has been named as a defendant in a formal complaint (Complaint) filed on October 1, 2019, a copy of which is attached as the Appendix to this Order. The Complaint, filed by Needham Betz Thoroughbreds, Inc. (Needham Betz Thoroughbreds), states that Kentucky-American has charged it a service-related charge for water that it did not use.¹ Needham Betz Thoroughbreds asserts that prior to August 2015, the entire farm premises was serviced by Kentucky-American and that all billings prior to September 2015 accurately reflect Needham Betz Thoroughbreds's water usage.² Needham Betz Thoroughbreds built a water well in the spring of 2015 and, by the end of August 2015, all of the water utilized on the farm premises was supplied by the well.³ Needham Betz

¹ Complaint at unnumbered page 3.

² *Id.*

³ *Id.*

Thoroughbreds asserts that water supplied by Kentucky-American to the farm premises was only used for two or three days every three or four months.⁴ Needham Betz Thoroughbreds received a billing statement from Kentucky-American dated May 3, 2019, that included a service-related charge of \$7,563.22.⁵ Needham Betz Thoroughbreds states that, according to an April 18, 2019 correspondence that was not filed in the record, Kentucky-American asserted that the service-related charge was calculated by taking an average of one month's usage "before and after the meter stopped registering" and multiplying this daily usage times the number of days the meter was not registering between January 19, 2016, and March 30, 2019.⁶ Needham Betz Thoroughbreds asserts that, for many months, it did not use any Kentucky-American supplied water; instead, it relied exclusively on the customer's own well.⁷ Needham Betz Thoroughbreds further asserts that Kentucky-American, when determining an average daily usage for January 19, 2016, through March 30, 2019, it should have taken into account its usage from August 2015, when the well was installed, through February 4, 2016, when Kentucky-American asserts the meter stopped.⁸ On October 1, 2019, Needham Betz Thoroughbreds filed water bills from Kentucky-American for December 2014 through August 2019 into the record.

⁴ Complaint at unnumbered page 3.

⁶ *Id.*

⁷ *Id.*

⁸ *Id.*

Pursuant to 807 KAR 5:001, Section 20, it is HEREBY ORDERED that:

1. Kentucky-American is to satisfy the matters complained of or file a written answer to the complaint within ten days from the date of entry of the Order.

2. Within ten days of the date of entry of the Order, Kentucky-American shall file a copy of the April 18, 2019 correspondence referenced in the Complaint.

3. Should documents of any kind be filed with the Commission in the course of this proceeding, the documents shall also be served on all parties of record. A party filing a paper containing personal information shall, in accordance with 807 KAR 5:001, Section 4(10), encrypt or redact the paper so personal information cannot be read.

RE: Needham Betz Thoroughbreds, Inc. vs/. Kentucky American Water
Complaint before the Public Service Commission

Dear Public Service Commission:

Enclosed are an original Complaint form, a narrative concerning the Needham Betz Thoroughbreds, Inc. complaint against Kentucky American Water, and the subject billing statement attached thereto the Complaint. Please accept this letter and the enclosed documents as a new Complaint to be filed before the Public Service Commission. Please notify Michael D. Meuser, Attorney at the address above, once this new complaint has been filed. Your help and assistance is appreciated in advance. Should you have any questions, please feel free to contact me.

Sincerely,

Todd M. Moore
Paralegal to MICHAEL D. MEUSER

*Complaints by corporations or associations, or any other organization having the right to file a complaint, must be signed by its attorney and show his post office address. No oral or unsigned complaints will be entertained or acted upon by the Commission.

The customer Needham Betz Thoroughbreds, Inc. operates a Thoroughbred boarding and breeding farm at the KAW service address of 4001 Mt. Horeb Pike, Lexington, Kentucky 40511. Prior to August of 2015, the entire farm premises at the service address were serviced by KAW supply. The water usage at the service address at that time and now is almost exclusively for water supplied to horses located there. The billings prior to September, 2015, accurately reflect usage when all water utilized at the service address was being supplied by KAW.

In the spring of 2015, at substantial expense to the customer, a water well was drilled at the service address and by the end of August of that year, all of the water utilized at the service address was being supplied by the well. The well was equipped at that time with a separation system so that the system could be switched to KAW supplied service in the event of a marked decrease in water quality from the well. According to the customer, the KAW supply was only utilized for two or three days every three or four months during a period of heavy rains when the well water became cloudy.

According to KAW usage records for this service address, no recorded reading of water usage at the meter was recorded between August 24, 2015 and January 4, 2016, during which time the actual reading at the meter remained constant at 5,855. According to the billing records, the meter reading increased from 5,855 to 5941 between January 4, 2016 and February 4, 2016. Following February, 2016, no additional water usage was recorded until a service related charge was assessed on the billing statement dated May 3, 2019, in the amount of \$7,563.22. According to correspondence from KAW dated April 18, 2019, this charge was calculated by taking an average of one month's usage "before and after the meter stopped registering" and multiplying this daily usage times the number of days the meter was not registering between January 19, 2016 and March 30, 2019.

KAW does not contend that the meter was not registering properly during the period from August 24, 2015 through January 4, 2016, during which time no water usage was recorded. This reported usage was consistent with the customer's belief that for many months each year, the customer used no KAW supplied water, relying instead exclusively on the customer's own well. It is therefore the customer's position in this matter that the entire period from August, 2015, when the well was installed, through February 4, 2016, when KAW contends the meter stopped registering, should have been taken into account in determining an average daily usage for the customer between January 19, 2016 and March 30, 2019.

Including these months in an evaluation of actual estimated water usage more accurately reflects the customer's actual usage of KAW supplied water following installation of the well and substantially reduces the amount KAW is now claiming based upon historical usage of the customer. This is particularly appropriate in this case since KAW was on notice of no recorded usage at this service address for a period of over three years, which as reported on the customer's bills appeared consistent with the customer's belief about its only very occasional KAW usage during that time period.

The customer therefore requests a reevaluation and reduction of the water usage charges assessed on this account.

Important messages from Kentucky American Water

- Water utilities that withdraw water from the Kentucky River are required to collect a "KRA Withdrawal Fee" from their customers. This fee is collected by utilities and provided to the Kentucky River Authority (KRA). The KRA Withdrawal Fee is adjusted annually to reflect usage from the Kentucky River, and may also be adjusted due to fee increases. The latest adjustment to this fee was approved by the Kentucky Public Service Commission in March 2015 and was effective March 29, 2015. This change is reflected on your bill.

Important messages from Kentucky American Water

- **Facts About Lead in Drinking Water:** Kentucky American Water regularly tests for lead in drinking water based on US Environmental Protection Agency requirements. The results from our latest testing at customer homes in 2015 show that all results are well below the action level of 0.015 mg/L in both our Central and Millersburg Divisions. The highest level detected in our Central Division was 0.005 mg/L and the highest level detected in our Millersburg Division was 0.008 mg/L. For more information about our water quality monitoring and the results of our testing, visit our website at www.kentuckyamwater.com.

For more information about our water quality monitoring and the results of our testing, visit our website at www.kentuckyamwater.com.
- Water utilities that withdraw water from the Kentucky River are required to collect a "KRA Withdrawal Fee" from their customers. This fee is collected by utilities and provided to the Kentucky River Authority (KRA). The KRA Withdrawal Fee is adjusted annually to reflect usage from the Kentucky River, and may also be adjusted due to fee increases. The latest adjustment to this fee was approved by the Kentucky Public Service Commission in March and was effective March 30, 2016. This change is reflected on your bill.

Important messages from Kentucky American Water

- 2015 Kentucky American Water annual water quality report is available. This report contains important information about your drinking water. Please go to www.amwater.com/ccr/lexington.pdf, www.amwater.com/ccr/owenton.pdf or www.amwater.com/ccr/fordhampton.pdf to view your 2015 annual water quality report or to request a paper copy call 800-678-6301.
- **Facts About Lead in Drinking Water:** Kentucky American Water regularly tests for lead in drinking water based on US Environmental Protection Agency requirements. The results from our latest testing at customer homes in 2015 show that all results are well below the action level of 0.015 mg/L in both our Central and Millersburg Divisions. The highest level detected in our Central Division was 0.005 mg/L and the highest level detected in our Millersburg Division was 0.008 mg/L. For more information about our water quality monitoring and the results of our testing, visit our website at www.kentuckiamwater.com.

Important messages from Kentucky American Water

- Water utilities that withdraw water from the Kentucky River are required to collect a "KRA Withdrawal Fee" from their customers. This fee is collected by utilities and provided to the Kentucky River Authority (KRA). The KRA Withdrawal Fee is adjusted annually to reflect usage from the Kentucky River, and may also be adjusted due to fee increases. The latest adjustment to this fee was approved by the Kentucky Public Service Commission in March and was effective March 29, 2017. This change is reflected on your bill.
