| |) | |
| DEFENDANT |) | |

STATUS REPORT

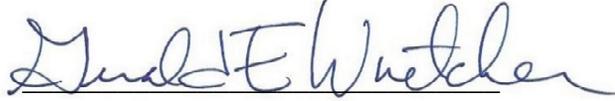

Green River Valley Water District (“Green River District”) submits this report on the status of its efforts to resolve low pressure conditions in the Bunnell Crossing Road area of Munfordville, Kentucky.

1. In its last report, Green River Valley Water District reported that all components had been retained to complete construction of a booster pumping station to serve the Bunnell Crossing Road area. During the assembly installation of these components, Green River Valley Water District discovered several fittings for the pump control connections were not within the requested specifications. As a result, Green River Valley Water District has been required to fabricate new fittings for the pump controls, which has delayed final assembly of the booster pumps.

2. Green River Valley Water District now expects the booster pump station to be fully installed and operational no later than December 1, 2021.

Dated: October 26, 2021

Respectfully submitted,

A handwritten signature in blue ink that reads "Gerald E. Wuetcher". The signature is written in a cursive style with a horizontal line underneath the name.
