

COMMONWEALTH OF KENTUCKY  
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

ELECTRONIC OMNIBUS ORDER ADDRESSING	)	CASE NO.
CERTAIN PENDING PETITIONS FOR	)	2019-00418
CONFIDENTIAL TREATMENT	)	

ORDER

The Commission initiates this case to address outstanding petitions for confidential treatment that have been filed, pursuant to 807 KAR 5:001, Section 13, with the Commission and upon which the Commission has not ruled. This Order is necessary to remove the uncertainty regarding the outstanding petitions. The Commission will grant all of the 179 outstanding petitions for confidential treatment listed in Appendix B to this Order.

The Commission takes this unorthodox approach due to the passage of time since many of the petitions were filed. The Commission notes that, to its knowledge, no person<sup>1</sup> has sought to review the material for which confidential treatment has been sought in the various petitions, thus, granting the petitions will result in no prejudice. A person may request inspection of the confidential materials pursuant to 807 KAR 5:001, Section 13(10)(d), at which time the movant that requested confidential protection will have to justify continued confidential treatment of the material.

The granting of the petitions for confidential treatment by this Order should not be construed as a finding of the Commission on the merits of each petition. Similarly, the

---

<sup>1</sup> This does not include parties to a case who might have executed a confidentiality agreement with the party filing the petition.

Commission's granting of confidential treatment should not be cited as precedent in support of future petitions for confidential treatment.

Each movant whose petitions are granted by this Order should review each confidentiality petition to determine if the information for which confidential treatment was requested currently warrants confidential treatment. For example, a movant should review the petitions to determine if the time for which confidential protection was requested has elapsed, or if the information had subsequently become publically available. If a movant makes the determination the requested information no longer warrants confidential treatment, the movant should notify the Commission in writing of this determination. The movant's notification will be placed in the case record and the Commission will make the no-longer confidential information available for inspection upon request.

IT IS THEREFORE ORDERED that:

1. This case is opened to address certain outstanding petitions for confidential treatment.
2. The petitions for confidential treatment listed in Appendix B to this Order are granted.
3. The granting of these petitions shall not be cited as precedent in other proceedings before the Commission.
4. All movants shall review the petitions to determine if the material for which confidential treatment was requested still warrants confidential treatment.

5. A movant shall inform the Commission in writing, and filed in the original case file, if it determines that the information contained in a petition that is granted by this Order no longer warrants confidential treatment.

6. The Commission shall make available for inspection, upon request, any materials that a movant determines no longer warrants confidential treatment.

7. This case is closed and removed from the Commission's docket.
